Panel Touch and Text Input Tips

- When performing a display screen touch operation, be sure to support the back of the display with your hand.
- Strong pressure is not required when performing display screen touch operations.
- Avoid applying excessive pressure during touch operations and input. Strong pressure can cause cracking or breaking of the LCD panel.
- For character input, be sure to use only the stylus that comes with your electronic dictionary.

Keyboard Input

- Alphabetic and Russian characters are input using lower case.
- Except for certain models, Chinese pinyin characters are not printed on the keys.
- Hangul and Russian characters are not printed on the keys.

Inputting Japanese Characters

- Use Romanized kana to input Japanese.

To input this:	Type this:
いんかん	I N N K A N N
さんぽ	S A N P O
きょう	K Y O U
らっこ	R A K K O
えーる	E - R U

Inputting Alphabetic Characters

To input this:	Type this:
internet	I N T E R N E T
?	シフト K
*	シフト L

- When searching for an expression or a compound term, do not include hyphens (-) or spaces. Also, use the word "and" in place of an ampersand (&). Note that spaces can be used when inputting text for Phrase Search or Example Sentence Search. Example: heaven-sent → heavensent, M&A → manda
- Input of a question mark (?) or asterisk (*) is not supported for a Home Screen Search.

Accented Characters

- For other characters that normally include a diacritic, input the character without the diacritic. Example: "à" → "a", "ê" → "e", etc.
- For the German "ß", input "ss".
- For the French "ç" input "c", and for "œ", input "oe".
- When entering a noun that is normally accompanied by an article, enter the noun only without the article. To look up "die Elbe" for example, input "elbe".

Inputting Chinese Characters (Pinyin)

Q	W	E	R	T	Y	U	I	O	P

Ш	Щ	Х	З	Б							
シフト Я	Ч	С	М	И	Б	Т	Ю	Ь	Э	記号	削除

To input this:	Type this:
х о б б и	シフト X O B B I

- To input a character marked in the upper right corner of a key, press and release , and then press the key.

Inputting with a Soft Keyboard

- The soft keyboard that appears depends on the dictionary and search method being used.

Example: 明鏡国語辞典 (Japanese Dictionary)

- To delete a character, touch the left and/or right arrow button to move the cursor to the left of the character you want to delete. Next, touch [削除] (Delete).
- To input a small character while the Japanese soft keyboard is displayed, input the desired character and then touch [小文字] (Small).
- To close the soft keyboard, touch .

Handwriting Input

You can use the stylus that comes with the product to handwrite characters on the screen to input them.

- To display boxes for character input, touch [手書き] (Handwriting) to the right of the search term input box.
- Write the desired characters in the squares then touch [認識] (Recognize).

- The number of cells that appear on the display depends on the type of characters you can input.

Correcting Character Input

- The example below starts from the screen with boxes displayed after you touch [手書き] (Handwriting).

Example: When the 哀 of 喜怒哀楽 is recognized as 哀

- In the search term input box, touch 哀.**

- If you can see the replacement character you want within the candidates, touch it.**

- If the replacement character you want is not included among the candidates, touch [削除] (Delete), handwrite the desired character again, and then touch [認識] (Recognize).

- Touching [削除] (Delete) while the displayed boxes are blank (no input) will delete the text in the search term input box.

Screen Touch Operations

To select contents

- 1 On the Quick Palette, touch **[ホーム]** (Home) to display the Home screen.
- 2 Touch **コンテンツ一覧** (Contents Menu).
- 3 Touch a category.
 - This displays a list of contents.

4 Touch the content you want.

- If a content icon has a folder mark on it, touching the icon will display the folder contents.
- If all of the dictionaries cannot appear on a single screen page, a dark blue down arrow [▼] will appear on the right of the display. To scroll to the next or previous page, touch the dark blue down arrow [▼] or up arrow [▲].

To select a headword or screen item

- 1 Enter characters. On the list that appears, touch the term or screen item you want.

Scrolling the Screen

If there are pages following the currently displayed page, you can scroll to them by swiping the screen.

Assigning Often-used Contents to the Home Screen

You can assign often-used dictionaries and other contents or categories to the Home screen for quick and easy recall whenever you need them.

To display content on the Home screen

- 1 On the Home screen, touch **コンテンツ一覧** (Contents Menu).
- 2 Touch and hold the contents you want to assign to the Home screen for about one second.

To rearrange contents on the Home screen

- 1 Touch and hold the content you want to reposition for about one second. Continue holding as you drag the content to the desired location, and then release it.
 - “OK” will appear at the top of the display if the movement is allowed, while “NG” will appear if it is not.
 - To swap two icons with each other, drag one of the icons and drop it on top of the other icon.
 - The relocate operation will not be allowed if the icon of the content you are moving is larger than the space available at the destination.

Removing Content From the Home Screen

- 1 Touch and hold for about one second the content you want to remove, drag it to **登録解除** (Remove), and then release it.

Launching a Search from the Home Screen

You can input hiragana, kanji or alpha characters to perform a Multi-Dictionary Search from the Home Screen.

- 1 On the Quick Palette, touch **[ホーム]** (Home).

- 2 Touch an on-screen button to select one of the following search methods: **あいう** (Japanese), **ABC** (Alpha Character), **例文** (Example Sentence), **成句** (Phrase).

- To display the handwriting input boxes, touch **[手書き]** (Handwriting). For information about inputting handwritten text, see “Handwriting Input”.
- To display a soft keyboard, touch **[50音]** or **[aBc]**. For information about inputting with a soft keyboard, see “Inputting with a Soft Keyboard”.
- Depending on your model, you may be able to look up other language terms besides English.

- 3 Enter the term you want.

- Terms starting with the characters you have entered appear in a list on the display. In the case of **例文** (Example Sentence) and **成句** (Phrase), enter the characters you want and then touch **[検索]** (Search).
- In the case of **あいう** (Japanese) and **ABC** (Alpha Character), a list will appear showing symbols that indicate the dictionaries that contain the term. In the case of **例文** (Example Sentence) and **成句** (Phrase), abbreviations of the dictionary names will appear at the top of the display.

- 4 Touch the term whose explanation you want to view.

Launching a Search From a Dictionary

Searching for a Term in a Dictionary

You can use any of the three methods below to search for a term in a dictionary.

Using Incremental Search

Terms starting with the characters you have entered appear in a list on the display.

- 1 Input the term you want to find into the search term input box.

- 2 Touch the candidate you want to view.

- With this search method, you can select the term you want without necessarily inputting all of its characters.

Using Search After Input

With this search method, you input a term, touch **[検索]** (Search), and then select the one you want from the list of candidates that appears. This search method can be used with Example Sentence Search, Phrase Search, etc.

Example: To look up example sentences that contain “dictionary” in **ジーニアス英和辞典** (English-Japanese Dictionary)

- 1 Input the term you want to find into the search term input box and then touch **[検索]** (Search).

- 2 Touch the candidate you want to view.

Using Navigation Search

With this search method, you sequentially select categorized items (headwords, images) to navigate to the information you want.

Example: To look up with the **ブリタニカ国際大百科事典** (Britannica International Encyclopedia)

Select headwords

- ブリタニカ国際大百科事典
- 世界の国
- 日本の都道府県
- 世界遺産
- 世界の人名
- 世界の動物
- 雲
- 世界の国旗
- 有名絵画

Looking Up Another Term From a Definition Screen

Inputting Another Term in the Same Dictionary

After specifying a dictionary and looking up a term, you can look up another term in the same dictionary by simply inputting it while the current term's definition screen is displayed.

Looking Up a Term Indicated by

When there is green text following on a definition screen, it means that there is another term that includes the current term, related items, or other information within the current dictionary. With some dictionaries, only green text is displayed without.

Example: On the **かいりょう** (改良) definition screen, looking up the meaning of **かいぜん** (改善) in **明鏡国語辞典** (Japanese Dictionary)

- Touching **改善** jumps to the **改善** definition screen.
- **表現** means that **改善** is a related item.
- If pronunciation or other audio is playing back, pause playback before performing this operation.

Looking Up a Displayed Term

Example: On the “custom” definition screen in **ジーニアス英和辞典** (English-Japanese Dictionary), looking up the Japanese meaning of **慣行**

- 1 On the “custom” definition screen, drag across **慣行** from left to right.

- The mini dictionary will also appear to the left of the touch menu, which you can use to view the meaning of the selected term.

- 2 On the touch menu, touch **[見出し語ジャンプ]** (Headword Jump).

- Touching **[辞書別表示]** (Show Dictionary-specific Lists) in the upper right corner of the list screen switches to lists for each individual dictionary. To return to the list screen, touch **[一覧表示]** (Show List).

- 3 Touch the term whose explanation you want to view.

Displaying Detailed Information

Use the operations described here to view detailed explanations and other information about looked up words and terms.

Viewing Phrases, Compound Expressions, and Compound Terms

If there is a **成句** (Phrase/Compound Expression), **成句** (Phrase), and/or **熟語** (Compound Term) icon on the screen, it means that there is such information available for the term you are viewing.

- 1 Touch an icon on the display.

- 2 Touch the candidate you want to view.

Viewing Example Sentences

If there is a **用例** (Example Sentences), **解説** (Explanation), and/or **図表** (Show Figure) icon on the display, it means example sentence, figure, explanation, and/or other information is available for the term you are viewing.

- 1 Touch an icon on the display.

Pronunciation

You can use earphones or the product's built-in speaker to hear readings of terms, examples, etc.

Hearing Native Speaker Pronunciation

- 1 While a detailed explanation screen is displayed, touch **[音声]** (Audio) on the Quick Palette.

- This causes the touch menu to enter the Audio Mode and plays the pronunciation.

- To change the volume level, touch **[音量]** or **[音量]** on the touch menu.
- To change the playback speed, touch **[再生]** or **[再生]** on the touch menu.
- To change the number of repeats to three or five, touch **[1回再生]** (Play Once) on the touch menu.

- 2 To exit the Audio Mode, touch **[X]** in the upper right corner of the touch menu.

- Note the following precautions concerning English terms.
 - Proper pronunciation will not be produced for a language other than English.
 - The pronunciation produced by the electronic dictionary may not be correct if there is more than one pronunciation for a term.

Recording Your Reading to Compare with Native Speaker Reading

While **[録音]** is displayed, you can compare your reading with a native speaker reading.

- 1 On the Quick Palette, touch **[音声]** (Audio).
 - This displays the Audio Mode touch menu and plays back the pronunciation.

- 2 On the touch menu, touch **[録音する]** (Record).

- 3 After playback is complete and the **録音中** (Recording) screen appears, pronounce the same term into the recording microphone.

- After you finish recording, touch **[録音]**.

- 4 On the touch menu, touch **[聞き比べ]** (Compare).

- The native speaker reading and the recorded reading will play back in succession.
- If you want to compare the readings more, keep touching **[聞き比べ]** (Compare).
- To re-record your reading, repeat the above procedure from step 2.

- 5 To exit the compare operation, touch **[X]**.
 - Exiting a comparison operation will automatically delete the reading you recorded.
