SD card installation

This camera has no internal memory and requires a Micro SD card (not included) to take and save pictures or record videos. The camera can support Micro SD cards up to **32GB**. To install the Micro SD card into the camera, follow the steps below:

1. Turn off the camera.
2. Insert the Micro SD card into the card slot (as shown right) with the metal contacts facing the front of the camera until it clicks and locks into place.
3. To remove the card, gently push it in until it pops out.
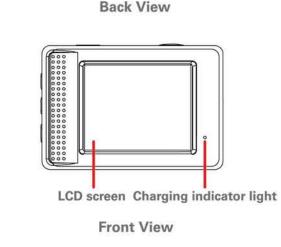

ℹ️ • A card can only be inserted one way: do not use force when inserting the card.
• Inserting or removing a card while the camera is on may damage the card, files stored on the card.

Using your camera

Turning the camera on/off

1. To turn the camera on, press and HOLD the [POWER/MODE] button until the display turns on.
2. To turn the camera off, press and HOLD the [POWER/MODE] button until the display turns off.

[POWER/MODE] button

ℹ️ This camera has an auto-shutoff feature which can be set for specific times (refer to System Settings > Power Save).

Switching Camera Modes

This camera has three different modes depending on what you are doing with the camera. For example:

A) To record videos, turn the camera ON. The [🎥] will appear in the upper left side of the LCD screen.

B) To take pictures, turn the camera ON and quickpress the [⏻] button once. The [📷] will appear in the upper left side of the LCD screen.
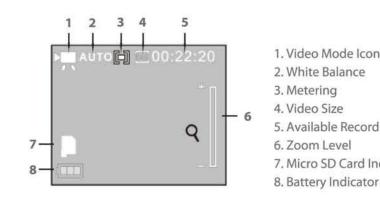

C) To view pictures/videos, turn the camera ON and quickpress the [⏻] button two times. The [▶] will appear in the upper left side of the LCD screen.

## Video Mode

1. Make sure that a Micro SD card is inserted into the camera.
2. Turn the camera ON. The [🎥] will appear in the upper left side of the LCD screen, meaning you are in Video mode.
3. Press the [SHUTTER / CONFIRM] button, the camera starts recording video.
4. To stop recording press the [SHUTTER / CONFIRM] button again.

NOTE: If the Micro SD memory card is full or the battery is low on power during recording, the camera will automatically stop recording.

Connecting the camera

Connect your camera to a computer

To edit or upload and share your videos and pictures, you must first transfer them to your computer. Follow the steps below to connect the camera to your computer.

1. Make sure the camera is turned off, and that a Micro SD card is inserted in the camera before connecting it to your computer.
2. Insert the smaller end of the Micro USB cable into the camera's Micro USB port.
3. Connect the larger end of the Micro USB cable into your computer's USB port.
4. Turn ON the camera.
5. Autoplay will prompt your device is connected. You will see the MSDC logo on the LCD screen. When the LCD screen turns off, it means the camera is connected to the computer.
6. On your PC select "open folder" to view files.
7. Select "DCIM" then select "100MEDIA".
8. Pictures and videos will be displayed in this folder.
9. Before disconnecting the camera, click on the **"Safely Remove Hardware"** icon usually located on the lower right corner of your desktop.

   OR

   Click on **"My Computer"**, RIGHT click on **"Removable Disk"** then click on **"Eject"** from the drop down menu.

ℹ️ Please do not disconnect the Micro USB cable during loading, as it may cause damage to the camera and the files on the SD card.

System Settings

To make changes to the camera's settings , follow the instructions below:

Waterproof Case

Assembling camera into case

Your camera comes with a Waterproof Case for underwater action and added durability. To assemble your camera to the case, follow the instructions below:

1. Open the latch on the Waterproof Case.
2. Insert the camera lens forward into the case.
3. Close the door and secure the latch for a maximum of two hours.

ℹ️ NOTE: Please make sure latch is secure and that all seals are in place to ensure no water can seep in.

Securing Latch

ℹ️ NOTE: This camera with the case properly sealed is rated to 3 meters (10 feet) under water for a maximum of 2 hours.

Bike Mount Assembly

Assembling camera to bike mount

Bolt hole
Bolt
bottom lever
locking lever
locking lever

1. Attach your camera to the Bike Mount by screwing it to the top of the Bike Mount. Unscrew the both locking levers and place the two pieces of the Bike Mount between the middle of your bike's handlebars with the camera facing out in front.
2. Re-connect the Bike Mount by re-attaching the two pieces of the Bike Mount by screwing the bottom lever back in.
3. Panning adjustments can be made by loosening the bottom lever underneath the camera. Adjust the pan angle, then tighten the bottom lever.

Helmet Assembly

Assembling camera to helmet mount

Bolt hole
Bolt
helmet vent

Bike mount two levers mount Strap Helmet mount

1. Attach your camera to the Helmet Mount by screwing it to the top of the Helmet Mount.
2. Remove the top half of the Helmet Mount from the bottom half by pushing the two mount levers in and pushing the top half out.
3. Insert the free end of the Strap through one of the slots in the base of the Helmet Mount.
4. Thread the same end into the helmet vent and then back up to the Helmet Mount through another vent. Then insert the Strap through the other side of the Helmet Mount. Then insert the Strap back through the helmet vent.
5. You should have now both ends of the Strap inside the helmet. Take both ends of the Strap and pull to tighten and then attach together with the Velcro strap.
6. Slide the top half of the Bike Mount on the Helmet Mount.
7. Please note this Helmet Mount will only work with vented helmets.

Limited Warranty

In the unlikely event that this product is defective, or does not perform properly, you may within ninety (90) days from your original date of purchase return it to the authorized service center for repair or exchange.

TO OBTAIN WARRANTY SERVICE:

● Provide proof of the date of purchase within the package (Dated bill of sale).
● Prepay all shipping costs to the authorized service center, and remember to insure your return.
● Include a return shipping address (no P.O. Boxes), a telephone contact number, and the defective unit within the package.
● Describe the defect or reason you are returning the product.

Your product will be repaired or replaced, at our option, for the same or similar model of equal value if examination by the service center determines this product is defective. Products received damaged as a result of shipping will require you to file a claim with the carrier.

The shipping address of the authorized service center is:

Southern Telecom, Inc.
Attention: Customer Service (2nd Floor)
14-C 53rd Street
Brooklyn, NY 11232
