## Loading Originals

Follow the instructions here to load your originals into the scanner.

[Loading Originals in the Input Tray](#)

[Loading Plastic and Laminated Cards in the Input Tray](#)

[Loading Special Originals](#)

### Loading Originals in the Input Tray

You can load originals that meet the document specifications in the input tray.

**Caution:** Do not load photos, or valuable original documents or artwork, directly into the input tray. This may wrinkle or damage the original. Load these originals using an optional carrier sheet.

The steps below describe loading originals of the same size. To load originals of multiple sizes at once, see the link at the end of these steps.

1. Open the input tray and pull up its extension.
2. Pull out the output tray and its extension, and open the stopper.

**Note:** If you are loading an original that is 15.5 inches (393.8 mm) or longer, do not pull out the input or output tray extensions and do not open the stopper.

3. Slide the input tray edge guides all the way out.

4. If you are loading a multi-page original, fan your stack of originals.

**Note:** If you are loading an original that is 15.5 inches (393.8 mm) or longer, load only one sheet at a time.

5. Stack the originals with the printed side facing down and slide the stack so the leading edge is at an angle as shown.

6. Load standard originals into the input tray printed side down and top edge first, and guide them in until they meet resistance.

- If you are loading paper business cards, load up to 30 cards printed side down and top edge first into the input tray horizontally, and slide them in until they meet resistance.

- If you are loading hole-punched originals, load them with the holes facing down or to the side as shown. The holes must be within 1.2 inches (30 mm) of the edge of the originals.

7. Slide the edge guides against the edges of the original.

**Note:** If you are scanning originals that are 15.5 inches (393.8 mm) or longer, support the original as it enters into and ejects from the scanner as shown.

8. If necessary during scanning, adjust the position of the stopper on the output tray extension to fit the ejected originals.

**Note:** If thicker paper does not eject properly or falls from the output tray, push in the output tray and allow the originals to eject freely onto the surface below the scanner. If the scanned images are affected by the originals ejecting below the scanner, try placing the scanner on the edge of a table where the ejected originals can drop freely.

If scanning thin or wrinkled paper causes paper jams, slow down the feeding speed by selecting **Settings > External Scan Settings > Slow > On** on the LCD screen.

## Loading Multiple Sizes of Originals in the Input Tray

You can load originals of different sizes, paper types, and thicknesses at one time in the input tray. Just make sure they meet the original document specifications.

**Caution:** Do not load photos, or valuable original documents or artwork, directly into the input tray. This may wrinkle or damage the original. Load these originals using an optional carrier sheet.

1. Open the input tray and pull up its extension.
2. Pull out the output tray and its extension, and open the stopper.

**Note:** If you are loading originals that are 15.5 inches (393.8 mm) or longer, do not pull out the input or output tray extensions and do not open the stopper.

3. Slide the input tray edge guides all the way out.

4. Load the originals in the input tray in descending order of paper size with the widest at the back and the narrowest at the front. Slide them in until they meet resistance. Make sure the printed sides are facedown and the top edges are slightly angled in the input tray.

5. Slide the edge guides against the edges of the widest original.
6. If necessary during scanning, adjust the position of the stopper on the output tray extension to fit the ejected originals.

**Note:** If thicker paper does not eject properly or falls from the output tray, push in the output tray and allow the originals to eject freely onto the surface below the scanner. If the scanned images are affected by the originals ejecting below the scanner, try placing the scanner on the edge of a table where the ejected originals can drop freely.

If scanning thin or wrinkled paper causes paper jams, slow down the feeding speed by selecting **Settings > External Scan Settings > Slow > On** on the LCD screen.

## Loading Special Originals

You can load a photo or large, thick, or folded original in the input tray using one or more carrier sheets. You can also load envelopes. Make sure the originals meet the specifications for special originals before loading them.

1. Open the input tray and pull up its extension.

2. Pull out the output tray and its extension, and open the stopper.

**Note:** If you are loading originals that are 15.5 inches (393.8 mm) or longer, do not pull out the input or output tray extensions and do not open the stopper.

3. Slide the input tray edge guides all the way out.

4. Load envelopes vertically in the input tray with the printable side down and the flap facing as shown. Slide in the envelopes until they meet resistance.

5. Do one of the following to load a photo, or folded or irregularly shaped originals:

- For an A4-size or larger original, fold it as shown and place it in the center of an optional carrier sheet. Make sure the illustration on the front edge of the carrier sheet is facing up.

- For a photo or an irregularly shaped original, load it in the center of an optional carrier sheet with the printed side face down. Make sure the illustration on the front edge of the carrier sheet is facing up.

6. Load the carrier sheet in the input tray as shown until it meets resistance.

**Folded original**

**Photo or irregularly shaped original**

7. Slide the edge guides against the edges of the original or carrier sheet.

8. Turn off the **Detect Double Feed** setting on the Main Settings tab in Epson Scan 2 when scanning special originals.
9. If necessary during scanning, adjust the position of the stopper on the output tray extension to fit the ejected originals.

**Note:** If thicker paper does not eject properly or falls from the output tray, push in the output tray and allow the originals to eject freely onto the surface below the scanner. If the scanned images are affected by the originals ejecting below the scanner, try placing the scanner on the edge of a table where the ejected originals can drop freely.

# Wired Networking

See these sections to use your product on a wired network.

[Network Security Recommendations](#)

[Wired Network Setup](#)

[Connecting to the Network from the Control Panel](#)

[Accessing the Web Config Utility](#)

## Network Security Recommendations

To deter unauthorized access to your product over a network, you should protect your network environment using appropriate security measures.

Security measures such as these can deter threats such as loss of user data, use of telephone and fax lines, and other intrusions:

- **Change the default administrator password on your product**

Change your product's default administrator password to deter access by unauthorized users to personal data stored on your product, such as IDs, passwords, and contact lists.

- **Connect your product only to a network protected by a firewall**

Connecting your product directly to the internet may leave it vulnerable to security threats. Instead, connect it to a router or other network connection protected by a firewall. Your router may already have a firewall set up by your internet service provider; check with your ISP for confirmation. For best results, set up and use a private IP address for your network connection.

Parent topic: [Wired Networking](#)

## Wired Network Setup

You can set up your scanner to communicate with your computer over a wired network by connecting it to the router or hub using an Ethernet cable.

- 1 Epson scanner
- 2 Ethernet cable
- 3 Ethernet hub/switch
- 4 Computers with a wired network interfaces
- 5 Router
- 6 Internet

Parent topic: [Wired Networking](#)

## Connecting to the Network from the Control Panel

You can select or change network settings using your product's control panel.

To install your product on a network, follow the instructions on the *Start Here* sheet and install the necessary software by downloading it from the Epson website. The installer program guides you through network setup.

1. Make sure your scanner is not connected to your Ethernet hub.
2. Press the  home button, if necessary.
3. Select **Settings**.
4. Select **Network Settings**.
5. Select **Change Settings**.

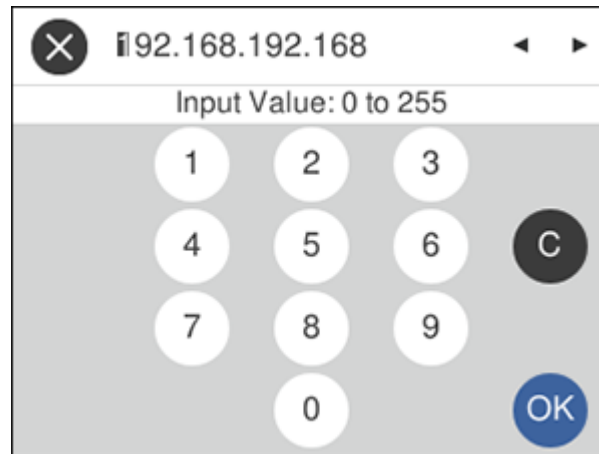

You see a screen like this:

6. Select **TCP/IP**.
7. Select **Manual** as the **Obtain IP Address** setting.

**Note:** Select **Auto** if you are setting the IP address automatically using the DHCP function of the router.

8. Select the **IP Address** field, enter the IP address using the displayed keypad and select **OK**.

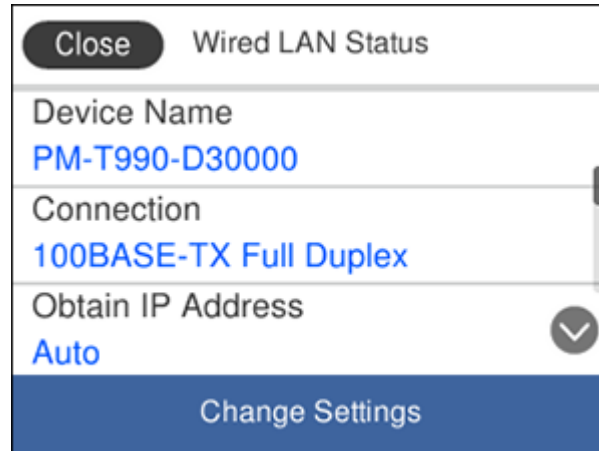

9. Set the **Subnet Mask** and the **Default Gateway** settings to the options you want to use.
10. Select the **Primary DNS** field, enter the IP address for the primary DNS server using the displayed keyboard, and select **OK**.
11. Select the **Secondary DNS** field, enter the IP address for the secondary DNS server using the displayed keyboard, and select **OK**.
12. Confirm the displayed network settings and select **Start Setup** to save them.

**Note:** If you entered the wrong IP Address, Subnet Mask, or Default Gateway, you will not be able to proceed. Repeat these steps to try again.

13. Select **Close** on the confirmation screen.
14. Connect the scanner to your Ethernet hub with an Ethernet cable.

The  icon appears on the LCD screen.

15. Select the  icon, and confirm the connection status and IP address on the displayed screen.

16. Select **Close**.

## Scanning in Epson Scan 2

Epson Scan 2 automatically scans your document and saves the scanned file in JPEG format in your operating system's Documents or My Documents folder, or opens it in your scanning program. You can select settings, preview, and change the scanned file settings as necessary.

1. Start Epson Scan 2.

You see this window:

**Note:** The **Document Source** setting is automatically set to **ADF** for your product.

2. If you want to scan different size originals by loading them into the ADF one by one, check the **Automatic Feeding Mode** checkbox. Scanning begins as soon as you load each original.
3. Select the **Scanning Side** setting that matches the sides of the original that you want to scan.
4. Select the **Document Size** setting that matches the size of your original, or select **Auto Detect** to have Epson Scan 2 automatically detect the size. You can select **Customize** to enter a custom size, if necessary.
5. Select your original image type and how you want it scanned as the **Image Type** setting.
6. Select the **Resolution** setting you want to use for your scan.
7. Select any of the additional settings that you want to use on the Main Settings tab.
8. Click the **Advanced Settings** tab and select any settings that you want to use.
9. To see a preview of your scan with the settings you selected, click the **Preview** button.

Epson Scan 2 previews your original and displays the results in the Epson Scan 2 window.

10. Reinsert your original into the ADF.
11. If scanning an original in a carrier sheet or other special original, see the link below for other setting requirements for special documents.
12. Select the format in which you want to save your scanned file as the **Image Format** setting. If necessary, select **Options** and select any desired format options.
13. Enter the file name for your scanned file in the **File Name** field. Select **Settings** to modify the file name settings.

14. Select the location in which you want to save your scanned file as the **Folder** setting. If necessary, select **Select** to create a new folder.
15. Click **Scan**.  
The product scans your original and saves the scanned file in the location you specified.
16. If you selected the **Automatic Feeding Mode** setting, place your next original in the ADF for scanning. When you finish scanning originals, click **Finish**.

### Add or edit pages after scanning

Lets you add, remove, or edit the pages in a job, including rotating pages and changing the page order.

**Note:** To save multiple pages in a single file, you must select a file format that supports multiple pages such as **PDF** or **Multi-TIFF**. If you select another file format, each scanned image or page is saved as a separate file.

**Skip Blank Pages**

If the scanner detects marks from the other side of a blank page and adds the marks to the scanned image, adjust this setting to prevent this.

**Detect Double Feed**

Detects a double-feed paper error in the ADF. If you are scanning an original envelope or plastic card, select **Off**.

## Additional Scanning Settings - Advanced Settings Tab

You can select these additional scanning settings on the Epson Scan 2 Advanced Settings tab. Not all adjustment settings may be available, depending on other settings you have chosen.

**Unsharp Mask**

Makes the edges of certain image areas clearer. Turn off this option to leave softer edges.

**Descreening**

Removes the ripple pattern that might appear in subtly shaded image areas, such as skin tones. This option improves results when scanning magazines or newspapers. (The results of descreening do not appear in the preview image, only in your scanned image.)

**Remove Background**

Removes the background of the originals.

**Text Enhancement**

Sharpens the appearance of letters in text documents.

**Auto Area Segmentation**

Makes black and white images clearer and text recognition more accurate by separating the text from the graphics.

**Dropout**

The scan will not pick up the color you select. This setting is available only if you select **Grayscale** or **Black & White** as the Image Type setting.

**Color Enhance**

Enhances the shades of the color you select in the scanned image. This setting is available only if you select **Grayscale** or **Black & White** as the Image Type setting.

**Brightness**

Adjusts the overall lightness and darkness of the scanned image.

**Contrast**

Adjusts the difference between the light and dark areas of the overall scanned image.

**Gamma**

Adjusts the midtone density of the scanned image.

**Threshold**

Adjusts the level at which black areas in text and line art are delineated, improving text recognition in OCR (Optical Character Recognition) programs.

**Edge Fill**

Corrects shadowing around the edges of the image by filling the shadows with black or white.

**Remove Punch Holes**

Removes the shadows caused by holes on the edges of the original.

**Dual Image Output**

Scans the original image twice using different output settings (Windows only).

## Scanning Settings for Special Documents

You need to select specific options on the Main Settings tab in Epson Scan 2 when scanning special originals.

| Type of original | Required settings   |
|------------------|---|
| Envelope         | Select <b>Off</b> as the <b>Detect Double Feed</b> setting.   |
| Plastic cards    | Select <b>Plastic Card (Landscape)</b> as the <b>Document Size</b> setting and <b>Off</b> as the <b>Detect Double Feed</b> setting.   |
| Carrier sheet    | <p>If you select <b>Auto Detect</b> as the <b>Document Size</b> setting, paper skew is automatically corrected even if the <b>Correct Document Skew</b> setting is set to <b>Off</b>.</p> <p>If you select a setting other than <b>Auto Detect</b> as the <b>Document Size</b> setting, you can only use <b>Contents Skew</b> as the <b>Correct Document Skew</b> setting. As paper skew is not applied in this case, only contents skew is corrected when you select the <b>Paper and Contents Skew</b> setting.</p> |
| Large originals  | If the <b>Document Size</b> list does not contain the document size you want to scan, select <b>Customize</b> to create a custom size.  |

| Type of original | Required settings   |
|------------------|---|
| Long paper       | If the <b>Document Size</b> list does not contain the document size you want to scan, select <b>Auto Detect (Long Paper)</b> or select <b>Customize</b> to create a custom document size.                 |
| Laminated cards  | To scan any transparent areas around the edges of the card, select <b>Settings</b> as the <b>Document Size</b> setting and either select the <b>Scan laminated card</b> checkbox or create a custom size. |

## Image Format Options

You can select different image formats and related options. For details on available options, click the ? icon on the Epson Scan 2 Image Format Options window. Not all image formats have options.

### Bitmap (\*.bmp)

A standard image file format for most Windows programs.

### JPEG (\*.jpg)

An image format that lets you highly compress image data. However, the higher the compression, the lower the image quality. (The TIFF format is recommended when you need to modify or retouch your scanned image.)

### PNG (\*.png)

An image format that does not lose quality during editing.

### TIFF (\*.tif)

A file format created for exchanging data between many programs, such as graphic and DTP software.

### Multi-TIFF (\*.tif)

A TIFF file format when multiple pages are saved to the same file, allowing you to edit the images using a compatible program.

### PDF (\*.pdf)

A document format that is readable by Windows and Mac systems using Adobe Reader, Acrobat, or other programs. You can save multi-page documents in one PDF file.

### Searchable PDF (\*.pdf)

A document format that is readable by Windows and Mac systems using Adobe Reader, Acrobat, or other programs. You can save multi-page documents in one PDF file. Recognized text in the scanned document can be searched.

## Scan Resolution Guidelines

The **Resolution** setting, measured in dpi (dots per inch), controls the amount of detail captured in your scans. Increasing the resolution raises the amount of detailed captured but comes with the following disadvantages:

- Larger file sizes
- It takes longer to scan your originals, send/receive your scans by email or fax, and to print your scans
- The image may become too large to fit on your display or print on paper

If you plan to enlarge a scanned image so you can print it at a larger size, you may need to increase the resolution from the default resolution set by Epson Scan 2. Follow these guidelines to determine the resolution setting you need:

- You will scan the image at its original size but enlarge it later in an image-editing program.

Increase the Epson Scan 2 Resolution setting in your scan. Increase the resolution by the same amount you will increase the image size to retain a high image quality. For example, if the resolution is 300 dpi (dots per inch) and you will double the image size later, change the Resolution setting to 600 dpi.

- You will scan the image at 100% or smaller size.

Select the Epson Scan 2 Resolution setting based on how you will use the scanned image:

- Email/view on a computer screen/post on the web: 96 to 200 dpi
- Print/fax/convert to editable text (OCR)/create searchable PDF: 200 to 300 dpi

## Scanning Two Originals onto One Sheet (Stitching Images) - Windows

You can scan both sides of a double-sided or folded original and combine them into a single image with the Epson Scan 2 Stitch Images settings.

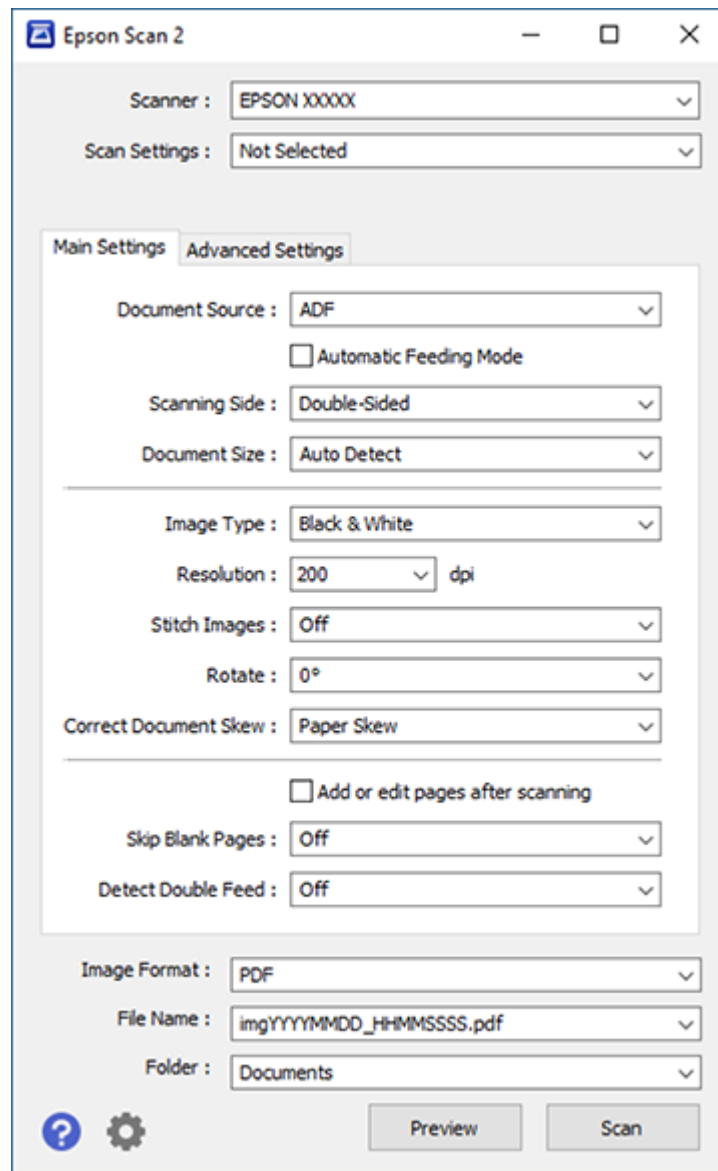

**Note:** When scanning a folded original, you must use the optional carrier sheet or damage to the original may occur. Load the document into the carrier sheet with the folded edge against the right side of the carrier sheet. Make sure to insert the carrier sheet into the scanner with the white edge facing down.

1. Load your original containing multiple images in your product.
2. Do one of the following to start Document Capture Pro:
  - **Windows 10:** Click  and select **All Apps > Epson Software > Document Capture Pro**.
  - **Windows 8.x:** Navigate to the **Apps** screen and select **Document Capture Pro**.
  - **Windows (other versions):** Click  or **Start** and select **All Programs** or **Programs**. Select **Epson Software > Document Capture Pro**.
3. Click **Switch to Standard View**, if necessary.

You see this window:

4. Select **Scan Settings** from the Scan Setting Name list and click **Detailed Settings**.  
You see an Epson Scan 2 window like this:

5. Select **Double-Sided** as the **Scanning Side** setting.
6. Select the original document size as the **Document Size** setting.
7. Select one of the following as the **Stitch Images** setting:
  - **Top&Bottom**: Places the scanned images one above the other.
  - **Left&Right**: Places the scanned images side by side.
8. Select the **Advanced Settings** tab and set the **Edge Fill** setting to **None**.
9. Click **Save**.
10. Click **OK**.
11. Click **Scan**.

The scanned image is displayed.

**Note:** If the scanned images are not stitched together in the correct orientation, click **Scanning Side** on the Epson Scan 2 window, select **Settings**, set the Binding Edge to **Left** or **Top**, and rescan the document.

## **Scanning Multi-Page Originals as Separate Files - Windows**

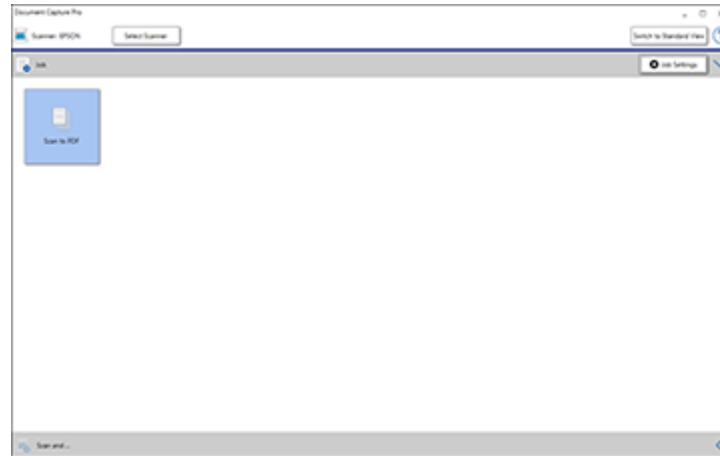

You can use Document Capture Pro (Windows) to scan multi-page originals as separate scanned files. You indicate where you want the new scanned files to start by inserting a blank page or barcode between the pages of your original.

**Note:** The settings may vary, depending on the software version you are using. See the Help information in Document Capture Pro for details.

1. Load a multi-page original with blank pages or barcodes inserted where you want to start a new scanned file.
2. Do one of the following to start Document Capture Pro:
  - **Windows 10:** Click  and select **All Apps > Epson Software > Document Capture Pro**.
  - **Windows 8.x:** Navigate to the **Apps** screen and select **Document Capture Pro**.

- **Windows (other versions):** Click  or **Start**, and select **All Programs** or **Programs**. Select **Epson Software > Document Capture Pro**.

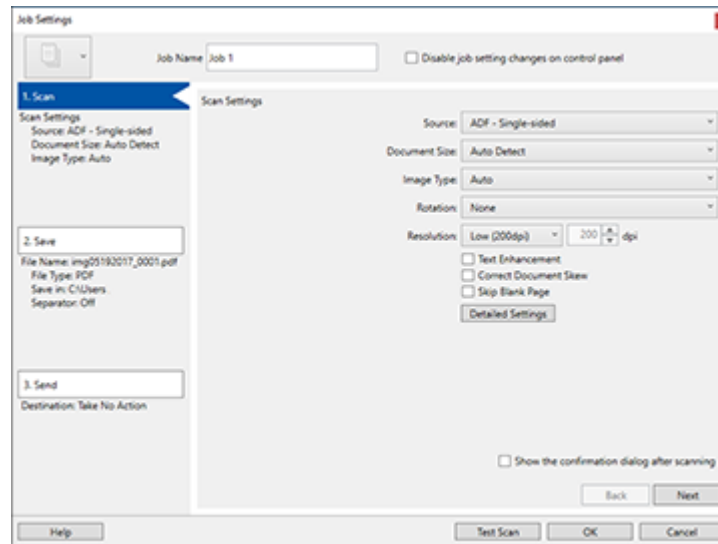

You see this window:

**Note:** Click **Switch to Simple View**, if necessary.

3. Click the **Job Settings** button.
4. Click the  **New Job** icon.

You see this window:

5. Enter a name for the job in the **Job Name** field and select any displayed scan settings you want to use.

**Note:** See the Help information in Document Capture Pro for details.

6. Click **Save**, select the save settings you want to use, and select **Apply job separation**.
7. Click **Separation Settings**.

You see this window:

The screenshot shows a dialog box titled "Job Separation Settings" with a close button (X) in the top right corner. The dialog is divided into several sections:

- Separator:** A dropdown menu set to "Fixed Page".
- Page:** A numeric input field containing "3" with up and down arrow buttons.
- Count blank pages in total**
- Create Folder**
  - Folder Name:** A dropdown menu set to "Customizing".
  - Prefix:** A text input field containing "folder".
  - Digit Number:** A dropdown menu set to "3".
  - Start Number:** A numeric input field containing "1" with up and down arrow buttons.
  - Current Folder Name:** A text input field, currently empty.
- Add job separation**
  - Separator:** A dropdown menu set to "Barcode".
  - Settings:** A button.

At the bottom of the dialog are three buttons: "Help", "OK", and "Cancel".

8. Select the method you used to separate the originals as the **Separator** setting.
9. Select **Create Folder** and select a folder name.
10. Select any other file naming settings you want and click **OK**.
11. Click **Send** and select a destination.
12. Click **OK** to close the Job Settings window, then click **OK** again.  
The separation job is created.

13. On the Document Capture Pro main screen, click on the icon for the job you just made and follow the on-screen instructions.

**Note:** Click **Switch to Simple View**, if necessary.

[Replacing the Scanner Rollers](#)

[Transporting Your Scanner](#)

## Cleaning Your Scanner

To keep your product working at its best, you should clean it several times a year.

**Caution:** Do not use a hard brush, alcohol, or paint thinner to clean the product or you may damage it. Do not use oil or other lubricants inside the product or let water get inside it. Do not open the product's outer case.

1. Turn off the scanner and unplug the AC adapter.
2. Disconnect any connected cables.
3. Clean the outer case with a soft, dry cloth. Do not use liquid or chemical cleansers.

**Note:** If the outer case still requires additional cleaning, use a slightly damp cloth to wipe the outer case. Then wipe the case with a soft, dry cloth.

**Parent topic:** [Cleaning and Transporting Your Scanner](#)

## Cleaning Inside Your Scanner

Clean your scanner regularly to make sure that no dust builds up on the glass scanning surfaces. Dust can cause spots or lines in your scanned images.

**Caution:** Do not use a hard brush, alcohol, or paint thinner to clean the product or you may damage it. Do not use oil or other lubricants inside the product or let water get inside it.

1. Turn off the scanner and unplug the AC adapter.
2. Disconnect any connected cables.

3. Pull down on the cover open lever and open the scanner cover.

4. Use a genuine Epson cleaning kit or a soft, moist cloth to wipe off any dust or dirt on the glass scanning surfaces and the rollers inside the scanner cover. If the glass surface is stained with grease or some other hard-to-remove material, use a genuine Epson cleaning kit. Use a small amount of cleaner on the cleaning cloth to remove the stains. Be sure to wipe off all remaining liquid.

**Caution:** Do not spray glass cleaner directly on the scanning surfaces. Be careful not to place too much force on the glass.

5. Use a cotton swab to wipe off any dust or dirt on the sensors shown here.

**Caution:** Do not use liquid or glass cleaner on the cotton swab.

6. Locate the separation roller.

7. Squeeze the tabs on the sides of the separation roller cover and open the cover.

**Caution:** Be careful not to apply too much force when opening the cover.

8. Slide the separation roller to the left and remove it.

9. Wipe off any dust or dirt on the separation roller using a genuine Epson cleaning kit or a soft, moist cloth.

**Caution:** Use only a genuine Epson cleaning kit or soft, moist cloth to clean the roller; using a dry cloth may damage the surface of the roller.

10. To replace the separation roller, insert the end of the roller into the hole on the right side and lower the other end of the roller into place.

11. Close the separation roller cover until you hear it click into place.

**Note:** If you are not able to close the cover, the roller is not installed correctly. Remove the roller and reinstall it, then try to close the cover again.

12. Locate the pickup roller.

13. Press down on the pickup roller cover latch and pull up the cover to remove it.

14. Pull down the tab on the pickup roller and slide the roller to the right to remove it.

15. Wipe off any dust or dirt on the pickup roller using a genuine Epson cleaning kit or a soft, moist cloth.

**Caution:** Use only a genuine Epson cleaning kit or soft, moist cloth to clean the roller; using a dry cloth may damage the surface of the roller.

16. To replace the pickup roller, align the notches on the roller unit and slide it to the left. Press up on the tab to secure the roller.

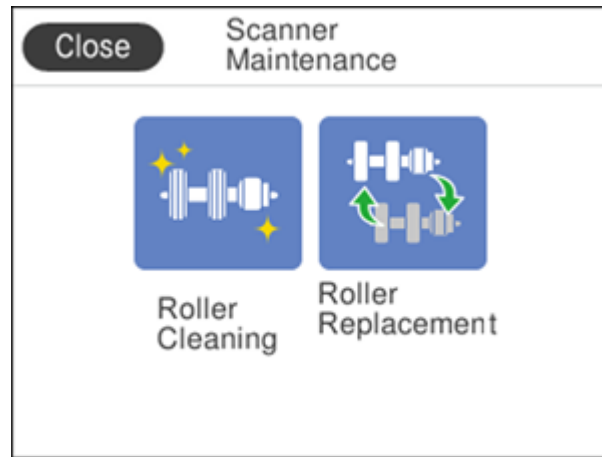

17. Align the bottom edge of the pickup roller cover into the notches as shown and press it down until it clicks into place.

**Note:** If you are not able to close the cover, the roller is not installed correctly. Remove the roller unit and reinstall it, then try to close the cover again.

18. Close the scanner cover.
19. Plug in the AC adapter and press the  power button to turn on the scanner.
20. Press the  home button, if necessary, and select **Scanner Maintenance**.

21. Select **Roller Cleaning**.

22. Pull down on the cover open lever and open the scanner cover.

The scanner enters roller cleaning mode.

23. Slowly rotate the rollers shown here by tapping anywhere on the LCD screen. Use a genuine Epson cleaning kit or a soft, moist cloth to wipe off any dust or dirt on the rollers as they rotate. Repeat this step until the rollers are clean.

**Caution:** Be careful not to get your hands or hair caught in the rollers as they rotate.

24. Close the scanner cover.

3. Disconnect any connected cables.
4. Pull down on the cover open lever and open the scanner cover.

5. Press down on the pickup roller cover latch and pull up the cover to remove it.

6. Pull down the tab on the pickup roller and slide the roller to the right to remove it.

7. To install the new pickup roller, align the notches on the roller unit and slide it to the left. Press up on the tab to secure the roller.

8. Align the bottom edge of the pickup roller cover into the notches as shown and press it down until it clicks into place.

**Note:** If you are not able to close the cover, the pickup roller is not installed correctly. Remove the roller unit and reinstall it, then try to close the cover again.

9. Squeeze the tabs on the sides of the separation roller cover and open the cover.

**Caution:** Be careful not to apply too much force when opening the cover.

10. Slide the separation roller to the left and remove it.

11. To install a new separation roller, insert the end of the roller into the hole on the right side and lower the other end of the roller into place.

12. Close the separation roller cover until you hear it click into place.

**Note:** If you are not able to close the cover, the roller is not installed correctly. Remove the roller and reinstall it, then try to close the cover again.

13. Close the scanner cover.
14. Plug in the AC adapter and turn on the scanner.

## Scanner Does Not Turn On or Turns Off Unexpectedly

If the scanner does not turn on or if it turns off unexpectedly, try these solutions:

- Make sure the AC adapter is securely connected to the scanner and to a working electrical outlet.
- If the scanner turns off unexpectedly, you may need to adjust the **Power Off Timer** setting in Epson Scan 2.
- You may need to adjust the **Sleep Timer** and **Power Off Timer** settings on the control panel.

## Scanning Software Does Not Operate Correctly

If your scanning software does not operate correctly, try these solutions:

- Make sure your computer has adequate memory and meets the system requirements for your operating system.
- Make sure your computer is not running in a power-saving mode, such as sleep or standby. If so, wake your system and restart your scanning software.
- Make sure the scanner is turned on.
- Make sure the connection between the scanner and your computer is secure.
- If you upgraded your operating system but did not reinstall your scanning software, try reinstalling it.
- On Windows, be sure that the scanner is listed under **Imaging Devices** in the Device Manager.
- Check that the correct scanner is selected using the Epson Scan 2 Utility. Make sure your scanner supports Epson Scan 2.
- Connect the scanner directly to the computer. The scanner may not work properly when connected through a USB hub.
- If you are using a TWAIN-compliant program, make sure that the correct product is selected as the **Scanner** or **Source** setting.
- Make sure the **PC Connection via USB** setting is not disabled on the control panel.
- If you are using the scanner over a network, make sure the network cable is securely connected.

## Cannot Start Epson Scan 2

If you cannot start Epson Scan 2, try these solutions:

- Be sure to use the USB cable that came with the scanner.
- Make sure your scanner is turned on and any interface cables are securely connected at both ends.
- Make sure your computer is not running in a power-saving mode, such as sleep or standby. If so, wake your system and restart Epson Scan 2.
- If you connected the scanner using a USB cable, make sure it is connected directly to your computer or through only one USB hub.
- Make sure you do not have multiple versions of Epson Scan 2 installed. If you do, uninstall all versions and install one version.
- If you are using the scanner over a network, make sure the network cable is securely connected.
- If you are using the scanner over a network, make sure your scanner is displayed in the Scanner Settings screen on the control panel. If your scanner is not displayed in the list, click **Enable Editing** and click **Add**. Add your scanner on the Add Network Scanner screen.
- Make sure the **PC Connection via USB** setting is not disabled on the control panel.
- If you upgraded your operating system but did not reinstall Epson Scan 2, try reinstalling it.
- If you are using a TWAIN-compliant program, make sure that the correct product is selected as the **Scanner** or **Source** setting.
- Make sure the  power light stops flashing, indicating that the scanner is ready to scan.

## Original Feeds Incorrectly in Scanner

If you have problems feeding originals in your scanner, try these solutions:

- If multiple pages feed at once, try the following:
  - Remove the originals, fan the edges to separate the sheets, if necessary, and reload them.
  - Load fewer originals at a time.
  - Load only originals that meet the specifications for your scanner.
  - Clean inside the scanner and replace the roller assembly kit, if necessary.
  - Scan the originals one by one using the **Automatic Feeding Mode** setting in Epson Scan 2.
  - Select **Slow** on the scanner control panel to slow down the scanning speed.
  - Use the optional carrier sheet for thin or folded documents.
- If you see a double feed error in the Epson Scan 2 window or the Document Capture Pro window, start Epson Scan 2, select the **Main Settings** tab, select the **Detect Double Feed** setting, and select **Off**.

## Original Jams in Scanner

If an original has jammed inside the scanner, follow these steps:

1. Turn off your scanner.
2. Remove all originals from the input tray.

3. Pull down the cover open lever and open the scanner cover.

4. Gently pull out any jammed originals from inside the scanner.

5. Gently pull out any jammed originals from the output tray.

6. Close the scanner cover.

7. Carefully follow all loading instructions when you reload originals.

If originals jam in the scanner frequently, try the following:

- Select **Slow** on the scanner control panel to slow down the scanning speed.
- Clean inside the scanner and replace the roller assembly kit, if necessary.
- Close the output tray and let the originals fall freely onto the surface below the scanner.

## Scanning is Slow

If scanning becomes slow, try these solutions:

- Scan your original at a lower resolution, if possible.

- Make sure your system meets the requirements for your operating system. If you are scanning a high-resolution image, you may need more than the minimum requirements. If necessary, increase your system's memory.
- If scanning becomes slower after scanning continuously with the ADF for a long time, the scanner may have automatically slowed down to protect the scanner mechanism from overheating or becoming damaged. Let the scanner rest with the power on for 30 minutes, then try scanning again.
- Make sure **Slow** is set to **Off** on the scanner control panel.
- If you are scanning over a network, factors such as interference, network traffic, or weak signal strength may affect your scanning speed.

## **Cannot Scan Over a Network**

If you cannot start Epson Scan 2 when scanning over a network, try these solutions:

- Restart the scanner and check the IP address on the scanner control panel.
- Make sure the Ethernet hub is turned on.
- Restart the Ethernet hub, wait for approximately one minute after restarting, then check the connection again.
- The order in which the Ethernet hub and scanner are turned on may cause a temporary connection error. Restart the scanner, wait for approximately one minute after restarting, then check the connection again.
- If network communication was interrupted while starting Epson Scan 2, exit Epson Scan 2, wait a few seconds, and restart it. If Epson Scan 2 cannot restart, turn off your scanner, turn it back on, and try starting Epson Scan 2 again.
- Check the network connection setting in the Epson Scan 2 Utility.
- Make sure the Ethernet cable is connected securely. If the connection status light on the Ethernet hub is off, check the light status by connecting the Ethernet cable to another port or changing the Ethernet cable. If this does not solve the problem, replace the Ethernet hub.
- If you see a message telling you the product is not available, there may be a communication error between the scanner and computer. Restart the scanner.

- If your network uses a firewall, the scanner may not be discovered by the Epson Scan 2 Utility. Open the Epson Scan 2 Utility, enter the IP address for your scanner, and click **Add**.
- If there is an IP address conflict, the network connection may become unavailable. Check the IP address for each device and assign unique IP addresses.
- Make sure the scanner and Ethernet hub connection modes match. You can change the connection modes using EpsonNet Config. See the [Administrator's Guide](#) for details.
- Restart the computer.

- Make sure your original is loaded straight on your product.
- Use an original with clear text.
- Adjust these Epson Scan 2 settings (if available) and try scanning again:
  - Select the correct **Image Type** setting.
  - Select or adjust the **Text Enhancement** setting.
  - Adjust the **Threshold** setting.
- Set the scanning resolution between 200 and 600 dpi.

- If the original document is in Landscape mode, set the **Rotate** setting to **Auto** in Epson Scan 2.

## Resetting the Epson Scan 2 Settings

If you continue to experience image quality problems after trying all possible solutions, you may need to reset the Epson Scan 2 Settings using the Epson Scan 2 Utility.

1. Do one of the following to start the Epson Scan 2 Utility:
  - **Windows 10**: Click  and select **All apps > EPSON > Epson Scan 2 Utility**.
  - **Windows 8.x**: Navigate to the **Apps** screen and select **Epson Scan 2 Utility**.
  - **Windows (other versions)**: Click  or **Start**, and select **All Programs** or **Programs**. Select **EPSON > Epson Scan 2 > Epson Scan 2 Utility**.
  - **Mac**: Open the **Applications** folder, open the **Epson Software** folder, and select **Epson Scan 2 Utility**.
2. Click the **Other** tab.
3. Click **Reset**.

**Note:** If resetting the Epson Scan 2 settings does not solve your problem, uninstall Epson Scan 2 and re-install it.

## Important Safety Instructions

Follow these safety instructions when setting up and using the scanner:

- Read all these instructions, and follow all warnings and instructions marked on the scanner.
- Place the scanner close enough to the computer for the interface cable to reach it easily.
- Do not use with wet hands.
- When connecting this product to a computer or other device with a cable, ensure the correct orientation of the connectors. Each connector has only one correct orientation. Inserting a connector in the wrong orientation may damage both devices connected by the cable.
- Do not insert objects into any opening as they may touch dangerous voltage points or short out parts. Beware of electrical shock hazards.
- Place the product on a flat, stable surface that extends beyond the base of the product in all directions. If you place the product by the wall, leave at least 3.9 inches (10 cm) between the back of the product and the wall.
- After replacing consumable parts, dispose of them correctly following the rules of your local authority. Do not disassemble them.
- Do not place or store the scanner outdoors, in a car, near excessive dirt or dust, water, heat sources, or in locations subject to shocks, vibrations, condensation, high temperature or humidity, direct sunlight, strong light sources, or rapid changes in temperature or humidity.

- Never disassemble, modify, or attempt to repair the scanner or a scanner option by yourself except as specifically explained in this guide.

### **AC Adapter**

- Do not place or store the AC adapter outdoors, in a car, near excessive dirt or dust, water, heat sources, or in locations subject to shocks, vibrations, condensation, high temperature or humidity, direct sunlight, strong light sources, or rapid changes in temperature or humidity.
- Place the scanner and the AC adapter near an electrical outlet where the adapter can be easily unplugged.
- The AC power cord should be placed to avoid abrasions, cuts, fraying, crimping, and kinking.
- Do not place objects on top of the AC power cord and do not allow the AC adapter or the power cord to be stepped on or run over. Be particularly careful to keep the AC power cord straight at the end and the point where it enters the AC adapter.
- Use only the AC adapter that comes with your scanner. Using any other adapter could cause fire, electrical shock, or injury.
- Use only the power cord that comes with your scanner. Use of another cord may cause fires or shock. Do not use the cord with any other equipment.
- The AC adapter is designed for use with the scanner with which it was included. Do not attempt to use it with other electronic devices unless specified.
- Use only the type of power source indicated on the AC adapter's label, and always supply power directly from a standard domestic electrical outlet with the AC adapter that meets the relevant local safety standards.
- Avoid using outlets on the same circuit as photocopiers or air control systems that regularly switch on and off.
- If you use an extension cord with the scanner, make sure the total ampere rating of the devices plugged into the extension cord does not exceed the cord's ampere rating. Also, make sure the total ampere rating of all devices plugged into the wall outlet does not exceed the wall outlet's ampere rating.
- Never disassemble, modify, or attempt to repair the AC adapter by yourself except as specifically explained in the scanner's guides.
- If damage occurs to the plug, replace the cord set or consult a qualified electrician. If there are fuses in the plug, make sure you replace them with fuses of the correct size and rating.
- Unplug the scanner and the AC adapter, and refer servicing to qualified service personnel under the following conditions: The AC adapter or plug is damaged; liquid has entered the scanner or the AC adapter; the scanner or the AC adapter has been dropped or the case has been damaged; the

scanner or the AC adapter does not operate normally or exhibits a distinct change in performance. (Do not adjust controls that are not covered by the operating instructions.)

- Unplug the scanner and the AC adapter before cleaning. Clean with a damp cloth only. Do not use liquid or aerosol cleaners.
- If you are not going to use the scanner for a long period, be sure to unplug the AC adapter from the electrical outlet.

### **LCD Screen**

- The LCD screen may have uneven brightness or a few small bright or dark spots. This is normal and does not indicate damage.
- Use only a dry, soft cloth to clean the LCD screen. Do not use liquid or chemical cleansers.
- If the LCD screen is damaged, contact Epson. If the liquid crystal solution gets on your hands, wash them thoroughly with soap and water. If the liquid crystal solution gets into your eyes, flush them immediately with water. If discomfort or vision problems remain after a thorough flushing, see a doctor immediately.
- Do not press too hard on the LCD screen or subject it to heavy impacts.
- Do not use a pointy or sharp object, such as a pen or your fingernail, to operate the LCD screen.
- If the LCD screen chips or cracks, do not touch or attempt to remove the broken pieces; contact Epson for support.
- Do not subject your product to sudden changes in temperature or humidity; this may cause condensation to develop inside the LCD screen and degrade its performance.

## **Restrictions on Copying**

Observe the following restrictions to ensure responsible and legal use of your scanner.

Copying of the following items is prohibited by law:

- Bank bills, coins, government-issued marketable securities, government bond securities, and municipal securities
- Unused postage stamps, pre-stamped postcards, and other official postal items bearing valid postage
- Government-issued revenue stamps, and securities issued according to legal procedure

Exercise caution when copying the following items:

- Private marketable securities (stock certificates, negotiable notes, checks, etc.), monthly passes, concession tickets, etc.

- Passports, driver's licenses, warrants of fitness, road passes, food stamps, tickets, etc.

**Note:** Copying these items may also be prohibited by law.

### **Restriction on disassembling and decompiling**

You may not disassemble, decompile or otherwise attempt to derive the source code of any software included with this product.

## **Binding Arbitration and Class Waiver**

### **1. DISPUTES, BINDING INDIVIDUAL ARBITRATION, AND WAIVER OF CLASS ACTIONS AND CLASS ARBITRATIONS**

**1.1 Disputes.** The terms of this Section 1 shall apply to all Disputes between you and Epson. The term "Dispute" is meant to have the broadest meaning permissible under law and includes any dispute, claim, controversy or action between you and Epson arising out of or relating to this Agreement, Epson branded products (hardware and including any related software), or other transaction involving you and Epson, whether in contract, warranty, misrepresentation, fraud, tort, intentional tort, statute, regulation, ordinance, or any other legal or equitable basis. "DISPUTE" DOES NOT INCLUDE IP CLAIMS, or more specifically, a claim or cause of action for (a) trademark infringement or dilution, (b) patent infringement, (c) copyright infringement or misuse, or (d) trade secret misappropriation (an "IP Claim"). You and Epson also agree, notwithstanding Section 1.6, that a court, not an arbitrator, may decide if a claim or cause of action is for an IP Claim.

**1.2 Binding Arbitration.** You and Epson agree that all Disputes shall be resolved by binding arbitration according to this Agreement. **ARBITRATION MEANS THAT YOU WAIVE YOUR RIGHT TO A JUDGE OR JURY IN A COURT PROCEEDING AND YOUR GROUNDS FOR APPEAL ARE LIMITED.**

Pursuant to this Agreement, binding arbitration shall be administered by JAMS, a nationally recognized arbitration authority, pursuant to its code of procedures then in effect for consumer related disputes, but excluding any rules that permit joinder or class actions in arbitration (for more detail on procedure, see Section 1.6 below). You and Epson understand and agree that (a) the Federal Arbitration Act (9 U.S.C. §1, et seq.) governs the interpretation and enforcement of this Section 1, (b) this Agreement

memorializes a transaction in interstate commerce, and (c) this Section 1 shall survive termination of this Agreement.

**1.3 Pre-Arbitration Steps and Notice.** Before submitting a claim for arbitration, you and Epson agree to try, for sixty (60) days, to resolve any Dispute informally. If Epson and you do not reach an agreement to resolve the Dispute within the sixty (60) days, you or Epson may commence an arbitration. Notice to Epson must be addressed to: Epson America, Inc., ATTN: Legal Department, 3840 Kilroy Airport Way, Long Beach, CA 90806 (the "Epson Address"). The Dispute Notice to you will be sent to the most recent address Epson has in its records for you. For this reason, it is important to notify us if your address changes by emailing us at [EAILEgal@ea.epson.com](mailto:EAILEgal@ea.epson.com) or writing us at the Epson Address above. Notice of the Dispute shall include the sender's name, address and contact information, the facts giving rise to the Dispute, and the relief requested (the "Dispute Notice"). Following receipt of the Dispute Notice, Epson and you agree to act in good faith to resolve the Dispute before commencing arbitration.

**1.4 Small Claims Court.** Notwithstanding the foregoing, you may bring an individual action in the small claims court of your state or municipality if the action is within that court's jurisdiction and is pending only in that court.

**1.5 WAIVER OF CLASS ACTIONS AND CLASS ARBITRATIONS. YOU AND EPSON AGREE THAT EACH PARTY MAY BRING DISPUTES AGAINST THE OTHER PARTY ONLY IN AN INDIVIDUAL CAPACITY, AND NOT AS A PLAINTIFF OR CLASS MEMBER IN ANY CLASS OR REPRESENTATIVE PROCEEDING, INCLUDING WITHOUT LIMITATION FEDERAL OR STATE CLASS ACTIONS, OR CLASS ARBITRATIONS. CLASS ACTION LAWSUITS, CLASS-WIDE ARBITRATIONS, PRIVATE ATTORNEY-GENERAL ACTIONS, AND ANY OTHER PROCEEDING WHERE SOMEONE ACTS IN A REPRESENTATIVE CAPACITY ARE NOT ALLOWED. ACCORDINGLY, UNDER THE ARBITRATION PROCEDURES OUTLINED IN THIS SECTION, AN ARBITRATOR SHALL NOT COMBINE OR CONSOLIDATE MORE THAN ONE PARTY'S CLAIMS WITHOUT THE WRITTEN CONSENT OF ALL AFFECTED PARTIES TO AN ARBITRATION PROCEEDING.**

**1.6 Arbitration Procedure.** If you or Epson commences arbitration, the arbitration shall be governed by the rules of JAMS that are in effect when the arbitration is filed, excluding any rules that permit arbitration on a class or representative basis (the "JAMS Rules"), available at <http://www.jamsadr.com> or by calling 1-800-352-5267, and under the rules set forth in this Agreement. All Disputes shall be resolved by a single neutral arbitrator, and both parties shall have a reasonable opportunity to participate in the selection of the arbitrator. The arbitrator is bound by the terms of this Agreement. The arbitrator, and not any federal, state or local court or agency, shall have exclusive authority to resolve all disputes arising out of or relating to the interpretation, applicability, enforceability or formation of this Agreement, including any claim that all or any part of this Agreement is void or voidable. Notwithstanding this broad delegation of authority to the arbitrator, a court may determine the limited question of whether a claim or cause of action is for an IP Claim, which is excluded from the definition of "Disputes" in Section 1.1 above. The arbitrator shall be empowered to grant whatever relief would be available in a court under law or in equity. The arbitrator may award you the same damages as a court could, and may award

declaratory or injunctive relief only in favor of the individual party seeking relief and only to the extent necessary to provide relief warranted by that party's individual claim. In some instances, the costs of arbitration can exceed the costs of litigation and the right to discovery may be more limited in arbitration than in court. The arbitrator's award is binding and may be entered as a judgment in any court of competent jurisdiction.

You may choose to engage in arbitration hearings by telephone. Arbitration hearings not conducted by telephone shall take place in a location reasonably accessible from your primary residence, or in Orange County, California, at your option.

a) Initiation of Arbitration Proceeding. If either you or Epson decides to arbitrate a Dispute, both parties agree to the following procedure:

(i) Write a Demand for Arbitration. The demand must include a description of the Dispute and the amount of damages sought to be recovered. You can find a copy of a Demand for Arbitration at <http://www.jamsadr.com> ("Demand for Arbitration").

(ii) Send three copies of the Demand for Arbitration, plus the appropriate filing fee, to: JAMS, 500 North State College Blvd., Suite 600 Orange, CA 92868, U.S.A.

(iii) Send one copy of the Demand for Arbitration to the other party (same address as the Dispute Notice), or as otherwise agreed by the parties.

b) Hearing Format. During the arbitration, the amount of any settlement offer made shall not be disclosed to the arbitrator until after the arbitrator determines the amount, if any, to which you or Epson is entitled. The discovery or exchange of non-privileged information relevant to the Dispute may be allowed during the arbitration.

c) Arbitration Fees. Epson shall pay, or (if applicable) reimburse you for, all JAMS filings and arbitrator fees for any arbitration commenced (by you or Epson) pursuant to provisions of this Agreement.

d) Award in Your Favor. For Disputes in which you or Epson seeks \$75,000 or less in damages exclusive of attorney's fees and costs, if the arbitrator's decision results in an award to you in an amount greater than Epson's last written offer, if any, to settle the Dispute, Epson will: (i) pay you \$1,000 or the amount of the award, whichever is greater; (ii) pay you twice the amount of your reasonable attorney's fees, if any; and (iii) reimburse you for any expenses (including expert witness fees and costs) that your attorney reasonably accrues for investigating, preparing, and pursuing the Dispute in arbitration. Except as agreed upon by you and Epson in writing, the arbitrator shall determine the amount of fees, costs, and expenses to be paid by Epson pursuant to this Section 1.6d).

e) Attorney's Fees. Epson will not seek its attorney's fees and expenses for any arbitration commenced involving a Dispute under this Agreement. Your right to attorney's fees and expenses under Section 1.6d) above does not limit your rights to attorney's fees and expenses under applicable law; notwithstanding the foregoing, the arbitrator may not award duplicative awards of attorney's fees and expenses.

**1.7 Opt-out.** You may elect to opt-out (exclude yourself) from the final, binding, individual arbitration procedure and waiver of class and representative proceedings specified in this Agreement by sending a written letter to the Epson Address within thirty (30) days of your assent to this Agreement (including without limitation the purchase, download, installation of the Software or other applicable use of Epson Hardware, products and services) that specifies (i) your name, (ii) your mailing address, and (iii) your request to be excluded from the final, binding individual arbitration procedure and waiver of class and representative proceedings specified in this Section 1. In the event that you opt-out consistent with the procedure set forth above, all other terms shall continue to apply, including the requirement to provide notice prior to litigation.

**1.8 Amendments to Section 1.** Notwithstanding any provision in this Agreement to the contrary, you and Epson agree that if Epson makes any future amendments to the dispute resolution procedure and class action waiver provisions (other than a change to Epson's address) in this Agreement, Epson will obtain your affirmative assent to the applicable amendment. If you do not affirmatively assent to the applicable amendment, you are agreeing that you will arbitrate any Dispute between the parties in accordance with the language of this Section 1 (or resolve disputes as provided for in Section 1.7, if you timely elected to opt-out when you first assented to this Agreement).

**1.9 Severability.** If any provision in this Section 1 is found to be unenforceable, that provision shall be severed with the remainder of this Agreement remaining in full force and effect. **The foregoing shall not apply to the prohibition against class or representative actions as provided in Section 1.5. This means that if Section 1.5 is found to be unenforceable, the entire Section 1 (but only Section 1) shall be null and void.**
