Mondopad™

In-room and remote visual collaboration made easy

InFocus Mondopad elegantly blends video calling, whiteboarding and more into one giant touchscreen PC for efficient face-to-face collaboration with people in any location.

Bridge communication gaps, strengthen teams, capture and share information, and save time and money. You'll never want to meet without it.

- Big, bright, high-resolution touch display everyone in the room can see
- Native HD video calling and data sharing that's crystal clear
- Interactive whiteboard and on-screen annotation
- BYOD-friendly to connect and share with any device
- Built on a fast and flexible i7-based Windows PC
- Wireless keyboard and mouse included

Bring Your Own Device

Participants can securely connect and share content with Mondopad from PCs, Macs, Chromebooks, tablets or smartphones – making meetings more collaborative, productive and sustainable.

- Wirelessly cast your device's screen to the Mondopad
- Control the Mondopad with your device, such as advancing slides or annotating
- People can video-call your Mondopad from a computer, tablet or smartphone

Video Connect to the World

Bring people together to collaborate anytime without expensive travel, while still achieving the benefits of face-to-face interaction.

- Make and receive video calls right away with free InFocus 121 Basic video calling service for the first year
- Conduct instant 4-way conversations when you upgrade to InFocus 121 Premium video calling service
- If you have a video conference server or service, you can add Mondopad to it as a SIP endpoint or install the desktop client onto Mondopad, just like you would a PC

Whiteboard and Annotation

Mondopad's whiteboard and annotation apps make it easy to brainstorm and capture and share ideas.

- Create a whiteboard on a canvas of up to 100 display screens in size
- Quickly and easily take notes on presentations, web pages, videos and more
- Save and email your drawings to meeting participants from the Mondopad

BIG TOUCH

The touch PC that demands an audience

BigTouch combines the fun of a tablet with the productivity of a PC in a giant, fast, and fluid touch experience for your shared work space.

- Incredibly sharp 4K resolution now available for 80-inch model
- 70-inch and 57-inch models offer bright, vivid 1080p HD resolution
- Powered by Windows 10 Pro (80") or Windows 8 Pro, with an available Windows 10 upgrade (70" or 57")
- Run all your Windows apps, even the older ones, in touch mode
- Highly customizable for your needs and your PC applications
- Intel Core i7 processor with fast solid state hard drive
- Wireless mouse and keyboard included

The Power of a PC at Your Fingertips

Maximize the touch experience on a large scale by adding the power of a PC with the InFocus BigTouch.

- Use the 5-point touch display with intuitive Windows gestures to interact with your content
- Personalize the Start screen with tiles that connect to a person, app, website, folder or whatever else is important to you
- Familiar Windows desktop that you've used before
- Use your apps, get more apps in the Windows Store, and arrange them any way you want
- Multi-task by snapping two apps side-by-side
- Enhanced features to easily connect to your networks, access files in the cloud, encrypt data, and more

The Tablet Experience...Magnified

Tablets are fun. Touch is intuitive. The InFocus BigTouch employs a beautiful 57-inch, 70-inch or 80-inch display that allows that enjoyable experience, and your content, to be seen and shared.

- Brilliant 4K (80" model) or 1080p HD (70" and 57" models) displays show off your content with incredible brightness, color and clarity
- Five-point touchscreen uses four sensors, one in each corner of the screen, to deliver exceptionally accurate touches, swipes and gestures
- Windows gestures such as tap, slide, swipe, pinch, and rotate can be used to get a global view of everything on the screen and slide back and forth to find what you're looking for
- Wireless keyboard and mouse also included to easily control the display from your seat

Whiteboard Like a Pro (optional)

Add our optional BigNote whiteboarding software to turn your BigTouch into a full-featured digital whiteboard with document annotation

- Wide assortment of pens, colors and shapes
- Whiteboard on up to 10 square feet of space
- Annotate on screen and save the changes
- BigNote files are cross-compatible with Mondopad's whiteboard app

Bring Your Display to Life with 4K

Our 80-inch touchscreen displays now feature 4K resolution for an incredibly sharp, vivid picture. Boost the impact of your content and make every meeting or presentation more engaging, informative, and memorable with 4K.

- More pixels mean more detail and depth for amazingly life-like images
- Enhanced color rendering
- Presenters benefit from crisp, clear images up close
- Audiences enjoy vibrant, detailed images, even from the back of a conference room

DigiEasel

by InFocus

Capture your ideas whenever and wherever they occur

Draw, write, and capture notes or share your device's screen on DigiEasel's bright, colorful 40" touch display—all at an unbeatable price.

- Beautiful 1080p capacitive touch display in portrait or landscape orientation
- Draw on a massive whiteboard canvas and save and share the results
- Multiple colors, shapes, and backgrounds are available to help you communicate your ideas
- Wirelessly display your device's screen or browse the web*
- Display your notebook via HDMI, VGA, or component video

Use It Anywhere

Great ideas and conversations can happen anywhere, anytime. Be ready to capture that information with DigiEasel. At 40 inches, DigiEasel is our most versatile interactive whiteboard and display. Choose from portrait or landscape mode to fit the need of any boardroom, classroom, huddle space—or anywhere you collaborate.

Get the Most Out of Your Whiteboard

Stop taking photos of your old dry erase board and step up to a digital whiteboard. You'll never lose an idea and your meetings will be more efficient and productive.

- Capture and save whiteboard notes electronically
- Email directly from the DigiEasel (LightCast model only)
- The whiteboard scrolls seamlessly as you need additional space, allowing room for free-form drawings, diagrams, and notes
- Use it with or without a stylus
- 10-point touch allows multiple people to write or draw at the same time
- No calibration required
