Battery installation (remote control unit)

Note: When start to operate the handset, please pull out the insulation

1. Remove the battery cover.
2. Insert one battery (CR 2025) making sure the polarity (+ *I* -) matches the marks inside the unit.
3. Replace the cover.
Do not attempt to recharge, short-circuit, disassemble, heat or throw the batteries into the fire.
Battery installation (player)
Following the diagrams below, to loading or release the battery.
Note: When release the battery, then push down and hold the lock on backside, put back to release.
Using AC Adapter for Player
Insert the DC plug at the end of the adapter cord into the DC IN jack at the right side of the player. Then plug the other end into an AC wall outlet.

 Only use with the supplied AC adapter. Using with other AC adapter could be damaged.
 Remove both DC plug & AC-IN plug, to disconnect the AC adapter when not necessary.
 Charging the Battery
 After loading the battery, then refer the step of "Using AC Adapter for player" to connect power converter. AC AC

For the kind of Ni-MH rechargeable battery, it will not be fully charged when a battery to be charged first time, please note that the discharging time will be short.

The battery will be operated normally with normal capacity after 4-5 times of charging and discharging. It is not a defect and abnormal battery.

abnormal battery.

• After a period of storage, or not use for a period, it will require users to repeat above mentioned steps to get the battery back to not.

• The battery is fully charged for approximately 4 hours after the AC: Battery is charging the CHARGE indicator at the front will light on RED. the FULL indicator will light on GREEN.

ormal condition.
adaptor is connected.
When charging is completed,

Disconnect the AC adapter plugs from both the battery and the AC outlet, when cha completed or not necessary.

Battery recharge circuit operates in OFF mode. Switch off the unit for battery recharge. When battery is fully charged and released from unit, the CHARGE indicator will light on RED, it means the charge circuit is ON battery and the AC outlet, when charging is

exhausted, the player front "STANDBY" indicator will blinking. In a while, the power will be turned off automatically. Refer "Charging the Battery" to recharge the battery.

**Note The Car Adapter (optional)*

**Plug the small end of the car adapter into the DC IN jack and the power is on.

Disc Cleaning

Never use chemicals such as aerosol cleaners, benzene, anti-static liquids or any other solvent for cleaning discs. When cleaning, wipe gentle with a soft damp (water only) cloth from the center to the edge, avoiding circular motions, which could cause scratches and interference during playback. Wipe in a straight motion from the centre to the outside of the disc.
