Important safety instructions

	CAUTION **RISK OF ELECTRIC SHOCK** **DO NOT OPEN**	

The lightning flash with arrowhead symbol within a triangle is intended to alert you to the presence of uninsulated dangerous voltage within your player's enclosure that may be of sufficient magnitude to constitute risk of electric shock to persons.

The exclamation point within a triangle is intended to alert you to the presence of important operating and maintenance (servicing) instructions in the literature accompanying your player.

1   Read these instructions.

2   Keep these instructions.

3   Heed all warnings.

4   Follow all instructions.

5   Do not use this apparatus near water.

6   Clean only with dry cloth.

7   Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

8   Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9   Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10 Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11 Only use attachments/accessories specified by the manufacturer.

12 Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13 Unplug this apparatus during lightning storms or when unused for long periods of time.

14 Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

15 To reduce the risk of fire or electric shock, do not expose this device to rain, moisture, dripping, or splashing, and no objects filled with liquids, such as vases, shall be placed on it.

16 An apparatus with a three-prong, grounding-type plug is a Class I apparatus, which needs to be grounded to prevent possible electric shock. Make sure that you connect this Class I device to a grounding-type, three-prong outlet.

17 The wall plug is the disconnecting device. The plug must remain readily operable.

18 Batteries should not be exposed to excessive heat such as sunshine, fire, or the like.

Caution
Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

Features

Large content display—Includes a 10.1" TFT wide-screen LCD display for a cinematic video experience.

High resolution panel—Adopts MPEG-2 encoding format and brings the horizontal resolution to over 500 lines.

Compatibility—Plays DVDs and CDs.

Parental lock—Makes it easy to control what discs can be played based on ratings.

Convenient multi-function remote — Provides useful functions, such as fast forward, fast reverse, slow play, and repeat play at the touch of the fingertip.

Setting up your player

Using the remote control
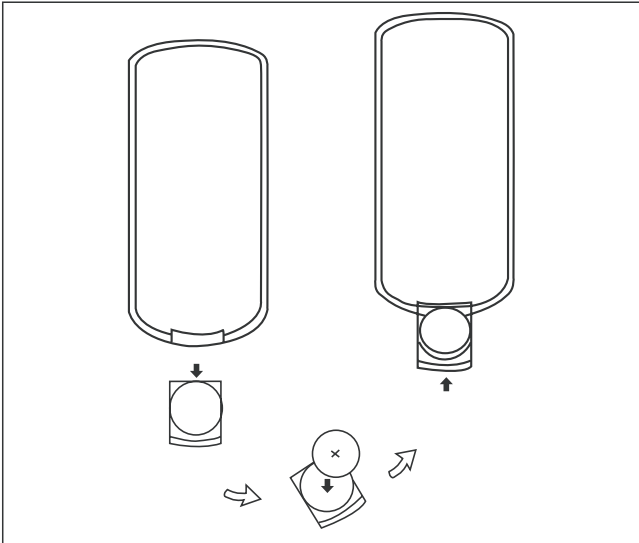

To use the remote control:

1 Open the battery compartment of the remote control, insert the battery, then close the compartment.

2 To use the remote control, point it at the remote sensor of the player. (Operate in the range of 16 feet (5 meters) and 60°.)

| Tip |
|---|
| • Generally, batteries last for about one year. Replace the batteries if the remote control does not work. |
| • Remove the batteries if the remote control will not be used for an extended period of time. |

Installing the battery pack

The battery must be charged and correctly installed before using it.

To attach the battery pack:

1 Turn the player off.

2 Unplug the AC adapter.

3 Turn the player upside down.

4 Insert the battery pack's catches into the corresponding holes in the player, then press the battery pack down until it clicks into place.
To charge the battery pack:

1 Turn the player off. The battery pack charges only when the power is turned OFF.

2 Attach the battery pack to the player.

3 Connect the AC adapter to the player.

When the battery is charging, the CHG indicator turns orange. When the charging is completed, the indicator turns off.

Note
• While the charging is in progress, do not disconnect the AC adapter until the CHG indicator turns off. The charging time of a battery pack is approximately 5 hours and depends on environmental conditions.
• The battery pack may get warm when you are charging it or operating the player. This is not a defect.
• The battery indicator appears on the screen when the power in the battery pack is running low.

To detach the battery pack:

1 Turn the player off.

2 Unplug the AC adapter.

3 Turn the player upside down.

4 Slide the battery lock switch to the open position, then remove the battery pack.
Playback time

After the battery pack is recharged, its continuous playing time is:

Operating status	Continuous playing time
Play DVD (display on)	About 5 hours
Play DVD (display off)	About 6 hours

Special considerations

The battery pack should only be used when the ambient temperature is between 41°F (5°C) and 95°F (35°C).

A newly purchased battery pack must be charged before use.

To assure the longest possible service life of the battery pack, charge it at (or below) indoor temperature.

Warnings
- Never dispose of the battery pack in fire or water.
- Do not use in high temperature or near heat sources.
- Do not let the positive and negative battery terminals come in contact with anything metal.
- Do not open the battery pack. Refer servicing to qualified service personnel only.

Connecting the AC adapter

To connect the AC adapter:

1   Plug the AC adapter into the **DC IN** jack on the left side of your player.

Left side of player
2   Plug the AC adapter plug into a 110 V power outlet.

Caution
Always turn off your player before you unplug the AC adapter, or you may damage your player.

Connecting the car adapter

To connect the car adapter:

1   Plug the car adapter into the DC IN jack on the left side of your player.

2   Plug the other end of the adapter into a car cigarette lighter socket.
3   Turn on your player.

| Cautions |
|---|
| • You cannot use the car adapter to charge the battery.
• Do not connect the car adapter to a vehicle which uses a voltage of 24 V. See the documentation that came with the vehicle.
• If the display does not work normally when the vehicle is running, disconnect the car adapter and turn off your player. Reconnect the adapter, wait a few seconds, then turn on your player. |

Connecting headphones

To connect headphones:

1 Turn off your player.

2 Plug the headphones into the **PHONE 1** jack on the right side of your player.

Maintaining

Handling discs

- To keep a disc clean, do not touch the play side (non-label side) of the disc.
- Do not attach paper or tape to the disc.

- Keep the disc away from direct sunlight or heat sources.
- Store the disc in a disc case after playback.

Cleaning discs

- Before playback, wipe the disc outwards from the center with clean cloth.

Keep dust from the pickup lens by keeping the disc tray closed after use. If there is dust on the pickup lens, use a cleaning disc to clean them. Refer to the operating instructions of the cleaning disc you bought.

Troubleshooting

If you experience the following problems while using the player, this troubleshooting guide can help you.

No sound

- Make sure that the player is connected securely to the TV or amplifier.
- Make sure that the volume of the headphone is set to MIN when using headphones.
- Make sure that you operate the TV or amplifier correctly.
- Make sure that you have selected the DVD player position on the amplifier.

No image

- Make sure that the player is connected securely to the TV.
- Make sure that you operate the TV correctly.
- Make sure that you set the color system correctly.

Bad sound quality

- Make sure that the audio output mode is set correctly.
- Make sure that the audio connection between the player and amplifier is correct.

Disc cannot be played

- Make sure that there is a disc in the player.
- Make sure that the disc is placed on the disc tray correctly, with the label side up.
- Make sure that the disc is clean.
- If moisture has condensed in the player, remove the disc and leave the player on for about one hour.

Remote control does not work

- Remove barriers between the remote control and the player.
- Point the remote control at the remote control sensor of the player.
- Replace the batteries with new ones.

Image rolls and has no color

- The color system of the player does not match with that of TV. Select the correct TV TYPE until TV shows normal color.

FCC Part 15

This device complies with Part 15 of the FCC Rules. Operation of this product is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply within the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC warning

Changes or modifications not expressly approved by the party responsible for compliance with the FCC Rules could void the user's authority to operate this equipment.

DHHS and FDA safety certification

This product is made and tested to meet safety standards of the FCC, requirements and compliance with safety performance of the U.S. Department of Health and Human Services, and also with FDA Radiation Performance Standards 21 CFR Subchapter J.

One-year limited warranty

Insignia Products ("Insignia") warrants to you, the original purchaser of this new product ("Product"), that the Product shall be free of defects in the original manufacture of the material or workmanship for a period of one (1) year from the date of your purchase of the Product ("Warranty Period"). This Product must be purchased from an authorized dealer of Insignia brand products and packaged with this warranty statement. This warranty does not cover refurbished Product. If you notify Insignia during the Warranty Period of a defect covered by this warranty that requires service, terms of this warranty apply.

How long does the coverage last?

The Warranty Period lasts for 1 year (365 days) from the date you purchased the Product. The purchase date is printed on the receipt you received with the Product.

What does this warranty cover?

During the Warranty Period, if the original manufacture of the material or workmanship of the Product is determined to be defective by an authorized Insignia repair center or store personnel, Insignia will (at its sole option): (1) repair the Product with new or rebuilt parts; or (2) replace the Product at no charge with new or rebuilt comparable products or parts. Products and parts replaced under this warranty become the property of Insignia and are not returned to you. If service of Products or parts are required after the Warranty Period expires, you must pay all labor and parts charges. This warranty lasts as long as you own your Insignia Product during the Warranty Period. Warranty coverage terminates if you sell or otherwise transfer the Product.

How to obtain warranty service?

If you purchased the Product at a retail store location, take your original receipt and the Product to the store you purchased it from. Make sure that you place the Product in its original packaging or packaging that provides the same amount of protection as the original packaging. If you purchased the Product from an online web site, mail your original receipt and the Product to the address listed on the web site. Make sure that you put the Product in its original packaging or packaging that provides the same amount of protection as the original packaging.

To obtain in-home warranty service for a television with a screen 30 inches or larger, call 1-888-BESTBUY. Call agents will diagnose and correct the issue over the phone or will have an Insignia-approved repair person dispatched to your home. Should the Insignia-approved repair person not correct the issue on the first call, an Insignia television (size and features to be determined by Insignia) will be loaned to you until your TV is repaired and returned, at no charge to you. This feature is only available to Insignia television consumers residing in the United States.

Where is the warranty valid?

This warranty is valid only to the original purchaser of the product in the United States, Canada, and Mexico.
