

Jabra LINK 14201-33

ELECTRONIC HOOK SWITCH

SOLUTION FOR AVAYA PHONES

The Jabra LINK 14201-33 enables remote Electronic Hook Switch Control (EHS) with Jabra wireless headsets and the Avaya Digital Deskphone series 1400, 9400 and 9500.

Jabra wireless headsets with EHS functionality boost productivity as they provide the user with the ability to answer and end a call, while away from their desk.

THE EHS ADAPTER ALLOWS THE USERS TO

- Hear ring tones
 - Answer and end calls
 - Adjust the volume
 - Mute the microphone
- All from their headset

All quite convenient, when they are up to 150 m/450 ft away from their desk! The integration of desk phone and headset allows users to benefit from enhanced mobility and the ability to multitask while on a call. The wireless freedom improves work efficiency and ergonomics throughout the day.

HOW IT WORKS

The Jabra LINK 14201-33 converts from the EHS standard used in Avaya phones to the Jabra IQ™ or DHSG standard used in Jabra headsets – and vice versa.

COMPATIBILITY

The Jabra LINK 14201-33 is compatible with the Avaya Digital Deskphone series 1400, 9400 and 9500 and most Jabra wireless headsets. For more details see the specifications on page 2.

EASY TO UPGRADE

The Jabra LINK 14201-33 is software upgradable. Simply connect a standard Jabra cable to the computer via the USB port and download free software from www.jabra.com/pcsuite.

1. Connect to telephone port on headset base
2. Connect to AUX port on headset base
3. Connect to headset port on Avaya phone

GN Netcom is a world leader in innovative headset solutions. GN Netcom develops, manufactures and markets its products under the Jabra brand name.
