Important Safety Precautions

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: **To reduce the risk of electric shock. Do not remove cover (or back). No user serviceable parts inside. Refer servicing to qualified service personnel.**

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING: TO PREVENT FIRE OR SHOCK HAZARDS, DO NOT EXPOSE THIS TV SET TO RAIN OR MOISTURE.

CAUTION: TO INSURE PERSONAL SAFETY, OBSERVE THE FOLLOWING RULES REGARDING THE USE OF THIS UNIT.

1. Operate only from the power source specified on the unit.
2. Avoid damaging the AC plug and power cord.
3. Avoid Improper installation and never position the unit where good ventilation is unattainable.
4. Do not allow objects or liquid into the cabinet openings.
5. In the event of trouble, unplug the unit and call a service technician. Do not attempt to repair it yourself or remove the rear cover.

Changes or modifications not approved by JVC could void the warranty.

* When you don't use this TV set for a long period of time, be sure to disconnect both the power plug from the AC outlet and antenna for your safety.

* To prevent electric shock do not use this polarized plug with an extension cord, receptacle or other outlet unless the blades can be fully inserted to prevent blade exposure.

IMPORTANT RECYCLING INFORMATION

This product utilizes both a Cathode Ray Tube (CRT) and other components that contain lead. Disposal of these materials may be regulated in your community due to environmental considerations. For disposal or recycling information, please contact your local authorities, or the Electronic Industries Alliance: http://www.eiae.org

2

- As an "ENERGY STAR®" partner, JVC has determined that this product or product model meets the "ENERGY STAR®" guidelines for energy efficiency.

Important Safeguards

CAUTION:

Please read and retain for your safety.
Electrical energy can perform many useful functions. This TV set has been engineered and manufactured to assure your personal safety. But **improper use can result in potential electrical shock or fire hazards**. In order not to defeat the safeguards incorporated in this TV set, observe the following basic rules for its installation, use and servicing. Also follow all warnings and instructions marked on your TV set.
INSTALLATION

(POLARIZED-TYPE)

1 Your TV set is equipped with a polarized AC line plug (one blade of the plug is wider than the other). This safety feature allows the plug to fit into the power outlet only one way. Should you be unable to insert the plug fully into the outlet, try reversing the plug. Should it still fail to fit, contact your electrician.

2 Operate the TV set only from a power source as indicated on the TV set or refer to the operating instructions for this information. If you are not sure of the type of power supply to your home, consult your TV set dealer or local power company. For battery operation, refer to the operating instructions.

3 Overloaded AC outlets and extension cords are dangerous, and so are frayed power cords and broken plugs. They may result in a shock or fire hazard. Call your service technician for replacement.

4 Do not allow anything to rest on or roll over the power cord, and do not place the TV set where power cord is subject to traffic or abuse. This may result in a shock or fire hazard.

5 Do not use this TV set near water — for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near swimming pool, etc.

6 If an outside antenna is connected to the TV set, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection requirements for the grounding electrode.

3
7 An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

8 TV sets are provided with ventilation openings in the cabinet to allow heat generated during operation to be released.

Therefore:

— Never block the bottom ventilation slots of a portable TV set by placing it on a bed, sofa, rug, etc.

— Never place a TV set in a "built-in" enclosure unless proper ventilation is provided.
— Never cover the openings with a cloth or other material.
— Never place the TV set near or over a radiator or heat register.

9 To avoid personal injury:

— Do not place a TV set on a sloping shelf unless properly secured.
— Use only a cart or stand recommended by the TV set manufacturer.
— Do not try to roll a cart with small casters across thresholds or deep pile carpets.
— Wall or shelf mounting should follow the manufacturer's instructions, and should use a mounting kit approved by the manufacturer.

Use

10 Caution children about dropping or pushing objects into the TV set through cabinet openings. Some internal parts carry hazardous voltages and contact can result in a fire or electrical shock.

11 Unplug the TV set from the wall outlet before cleaning. Do not use liquid or an aerosol cleaner.

12 Never add accessories to a TV set that has not been designed for this purpose. Such additions may result in a hazard.

4

PORTABLE CART WARNING

(Symbol provided by RETAC)

13 For added protection of the TV set during a lightning storm or when the TV set is to be left unattended for an extended period of time, unplug it from the wall outlet and disconnect the antenna. This will prevent damage to product due to lightning storms or power line surges.

14 A TV set and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the TV set and cart combination to overturn.

Service

15 Unplug this TV set from the wall outlet and refer servicing to qualified service personnel under the following conditions:
A. When the power cord or plug is damaged or frayed.
B. If liquid has been spilled into the TV set.
C. If the TV set has been exposed to rain or water.
D. If the TV set does not operate normally by following the operating instructions. Adjust only those controls that are covered in the operating instructions as improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the TV set to normal operation.

E. If the TV set has been dropped or damaged in any way.
F. When the TV set exhibits a distinct change in performance — this indicates a need for service.

16 Do not attempt to service this TV set yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

17 When replacement parts are required, have the service technician verify in writing that the replacement parts he uses have the same safety characteristics as the original parts. Use of manufacturer's specified replacement parts can prevent fire, shock, or other hazards.

18 Upon completion of any service or repairs to this TV set, please ask the service technician to perform the safety check described in the manufacturer's service literature.

19 When a TV set reaches the end of its useful life, improper disposal could result in a picture tube implosion. Ask a qualified service technician to dispose of the TV set.

20 Note to CATV system installer.
This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

5

Table of Contents

6

7

Thank you for your purchase of a JVC Color Television. Before you begin setting up your new television, please check to make sure you have all of the following items. In addition to this guide, your television box should include:

1 Television   1 Remote Control   Two AA Batteries
Note: Your television and/or remote control may differ from the examples illustrated here.

Once you have unpacked your television, the next step is to connect it to your antenna/ cable or satellite system and to connect the audio/video devices you want to use with your television. To make these connections you will use plugs like the ones illustrated below.

Coaxial Cables

Used to connect an external antenna or cable TV system to your TV.

Component Cables Composite Cables Audio Cables

Used to connect audio/ video devices like VCRs, DVD players, stereo amplifiers, game consoles, etc.

S-Video Cable

Used to make video connections with S-Video VCRs, Camcorders and DVD players.

We recommend that before you start using your new television, you read your entire User's Guide so you can learn about your new television's many great features. If you're anxious to start using your television right away, a quick setup guide follows on the next few pages.

8

NOTE: Before you connect your television to another device, please refer to the proper diagrams for your specific TV and remote. These will help assist you in understanding how to connect your television to another device, as well as use the remote to set up your television.

Rear Panel Diagram

**MODELS : AV-32S776, AV-32S766, AV-30W776, AV-27S776**
Note: The terminal labeled "SERVICE ONLY", is exclusively used to update the software version.

⚠ UNPLUG THE POWER CORD FROM AC OUTLET BEFORE REMOVING THE REAR COVER

When the rear cover is removed, follow "CAUTION AT DISASSEMBLY" procedure in the service manual before plugging the TV's power cord into an AC outlet. Failure to follow the procedure will result in PERMANENT damage to some of the television features.
DÉBRANCHEZ LE CORDON DE LA PRISE DE COURANT C.A. AVANT DE RETIRER LE COUVERCLE ARRIÈRE.
Une fois le couvercle arrière déposé suivez la procédure «ATTENTION LORS DU DÉMONTAGE» décrite dans le manuel de service avant de brancher le cordon du téléviseur dans une prise c.a. L'omission de suivre la procédure causera des dommages PERMANENTS à certaines fonctions du téléviseur.

Download from Www.Somanuals.com. All Manuals Search And Download.

Getting Started

These quick setup pages will provide you, in three easy steps, with the basic information you need to begin using your new television right away.

If you have questions, or for more detailed information on any of these steps, please consult other sections of this manual.

Step 1 – The Remote Control

Before you can operate your remote control, you first need to install the batteries (included).

Lift and pull the latch on the back of the remote control to open. Insert two batteries (included) carefully noting the "+" and "–" markings, placing the "–" end in the unit first. Snap the cover back into place.

When you change the batteries, try to complete the task within three minutes. If you take longer than three minutes, the remote control codes for your VCR, DVD, and/or cable box/satellite receiver may have to be reset. See pages 23 - 26.
Key Feature Buttons

The four key feature buttons at the center of the remote can be used for basic operation of the television. The top and bottom buttons will scan forward and back through the available channels. To move rapidly through the channels using JVC's **Hyperscan** feature, press and hold CH+ or CH–. The channels will zip by at a rate of five channels per second. The right and left buttons will turn the volume up or down. These buttons are also marked with four arrows and are used with JVC's onscreen menu system. To use the onscreen menus, press the MENU button.
Basic Operation

Turn the television on and off by pressing the POWER button at the top right corner of the remote. If this is the first time you are turning on the TV, the interactive plug-in menu appears.

• Make sure the TV/CATV switch is set to TV. Move the switch to CATV only if you need to operate a cable box.

• Slide the VCR/DVD selector switch to VCR to control a VCR. Slide to DVD to control a DVD player. Please see pages 23 to 26 for instructions on programming your remote control to operate a cable box, VCR or DVD player.

12
Step 2 – Connecting Your Devices

Please follow the flow chart below to determine which connection setup is right for you. Then, refer to the appropriate diagrams to connect your television to other devices that you may have. After you are finished connecting your devices, plug the power cord into the nearest power outlet and turn on the TV.

A VCR is not necessary for operation of the television. If you follow these diagrams and the television does not work properly, contact your local cable operator.

• To connect a DVD player, see **Diagram #3**. A DVD player is optional.
• If you have a satellite television system, please refer to the satellite TV manual.

Do you use a Cable TV Box?

Notes:

• If your VCR is a mono sound unit, it will have only one audio out jack. Connect it to the LEFT AUDIO INPUT on the front of the TV.

• Use the S-Video connection if possible for superior picture quality.

• Your VCR must be turned on to view premium cable channels.

14

Notes:

• Green, blue and red are the most common colors for DVD cables. Some models may vary colors. Please consult the user's manual for your DVD player for more information.
• Be careful not to confuse the red DVD cable with the red audio cable. It is best to complete one set of connections (DVD or audio output) before starting the other to avoid accidentally switching the cables.
• You may also connect the DVD player to Input 1.

Diagram #3

15

Download from Www.Somanuals.com. All Manuals Search And Download.
Connecting to a Camcorder

You may connect a camcorder, game console or other equipment to your television by using the input jacks (Input 4) located on the side or front of the television. You can also connect these using the television's rear input jacks, using the same instructions.

Illustration of AV-30W776
1) Connect a yellow composite cable from the camcorder VIDEO OUT, into the VIDEO IN on the side of the TV, **OR** connect an S-Video cable from the side of the TV to the camcorder.

2) Connect a white cable from the camcorder LEFT AUDIO OUT, into the LEFT AUDIO IN on the side of the TV.

3) Connect a red cable from the camcorder RIGHT AUDIO OUT, into the RIGHT AUDIO IN on the side of the TV.

Note:
• If your camcorder is a mono sound model it will have only one AUDIO OUT. Connect it to the L/MONO on the side of the TV. **(AV-30W776 ONLY)**. For all the other models, please use the input jacks on the front control panel.

Connecting to an amplifier using your optical output

You can connect an amplifier that has an optical digital input terminal by using an optical digital cable from the optical output. The signal that is output can be PCM or Dolby Digital.

1) Connect the optical cable from the back of the TV to the back of the amplifier.

Notes:

• This terminal can only output digital audio.
• In order to use the optical output connection, select PCM or Dolby Digital on Digital Sound in the Digital Setup Menu. See page 63.
• Refer to your owners manual on using your amplifier.

16

Connecting to a Digital TV Receiver

By connecting a Digital TV Reciever, high definition pictures can be displayed on your TV in their digital form.

DTV Decoder

DIGITAL OUT   AUDIO OUT
                L   R

TV Rear Panel

HDMI to DVI Cable

After the connections have been made,
tighten the screw to secure the cables.

1) Connect the HDMI to DVI Cable from the DIGITAL OUT on the back of your DTV decoder, to the DIGITAL-IN on the back of your television.

2) Connect a red cable from the DTV decoder RIGHT AUDIO OUT, to the RIGHT AUDIO IN into VIDEO-3 on the back of your television.

3) Connect a white cable from the DTV decoder LEFT AUDIO OUT, to the LEFT AUDIO IN into VIDEO-3 on the back of your television.

• The digital-in terminal is not compatible with the picture signal of a personal computer.

• Use a HDMI to DVI cable (commercially available) in order to digitally connect the television with a DTV decoder.

Notes:

• If 480p signals (640x480 or 720x480) are displayed on the screen, the horizontal balance may be slightly shifted. Access the "DIGITAL-IN" in the initial setup menu to adjust it. (Refer to page 46.)

• When you do the above connection, set DIGITAL-IN AUDIO in the Initial Setup menu to ANALOG. See "DIGITAL-IN AUDIO", page 46.

17

Connecting to a HDMI Compatible Device

By connecting a HDMI compatible device, high definition pictures can be displayed on your TV in their digital form. Some HDMI devices can include DVD players, D-VHS or any HDMI compatible device.

HDMI (High Definition Multimedia Interface) is the first industry supported, uncompressed, all digital audio/video interface. HDMI provides and interface between any audio/video source, such as a set-top box, DVD player, A/V receiver or an audio and/or video monitor, such as a digital television (DTV).

HDMI Compatible Device

HDMI Cable

TV Rear Panel
1) Connect the HDMI Cable from the DIGITAL OUT on the back of your DTV or HDMI device, to the DIGITAL-IN on the back of your television.

Note:

• When you do the above connection, set DIGITAL-IN AUDIO in the Initial Setup menu to DIGITAL. See "DIGITAL-IN AUDIO", page 46.

• If the HDMI output device signal is changed (for example, 480i/60Hz is changed to 480p/60Hz), the screen may turn green and there may be some distortion for a short time until the signal becomes stable.

18

Connecting to an AV Receiver using your television's V1 Smart Input

By connecting your AV Receiver to your television's V1 Smart Input, you can watch picture sources from many different devices, without having to change or use the other input connections on your TV. This allows you to free up the other input connections so you can connect more devices to your television.

AV Receiver

TV Rear Panel
1) Connect an S-Video Cable from the AV Receiver's MONITOR OUT, to the S-Video INPUT-1 on the back of your television.
2) Connect a Yellow Component Cable from the AV Receiver's MONITOR OUT, into the VIDEO INPUT-1 on the back of your television.
3) Connect a Green Component Cable from the AV Receiver's Y MONITOR OUT, into the Y VIDEO INPUT-1 on the back of your television.
4) Connect a Blue Component Cable from the AV Receiver's Pb MONITOR OUT, into the Pb VIDEO INPUT-1 on the back of your television.
5) Connect a Red Component Cable from the AV Receiver's Pr MONITOR OUT, into the Pr VIDEO INPUT-1 on the back of your television.

Notes:

• Please refer to your AV Receiver instruction manual for more information on connecting your speakers and other devices like a DVD player.

• Use your AV Receiver's remote to switch to the different devices you have connected.

• Some AV Receivers may not respond when the V1 Smart Input function is turned on.

• If you have video connections for each input device connected to your AV Receiver, you should not connect them using both S-Video and Composite connection at the same time when you are using V1 Input as the V1 Smart Input. In this case we recommend using the S-Video connection.

19

Step 3 – The Interactive Plug In Menu

When you turn your television on for the first time the interactive plug-in menu will appear. The plug-in menu helps you to get your TV ready to use by letting you set your preferences for:

- The language in which you want the onscreen menus to appear.

- Setting the TV's clock to the correct time so your timer functions will work properly. You can choose "AUTO" or "MANUAL" for setting the clock.

- The auto tuner setup of which channels you wish to receive.

We recommend you complete the interactive plug-in items before you start using your television.

Notes:

- The interactive plug-in menu setting does not appear if your TV has been turned on before. In this case use the onscreen menus to perform these settings. See pages 39, 50 and 30.

- If you press the Menu button while setting up the interactive plug-in menu, it will skip over it.

Language

After the "JVC INTERACTIVE PLUG IN MENU" has been displayed, the TV automatically switches to the LANGUAGE settings. You can choose to view your onscreen menus in three languages: English, French (Français) or Spanish (Español).

|	
LANGUAGE/LANGUE/IDIOMA	◀▶ To choose a language: (English, Français or Español)
◀ ENGLISH ▶	▼ To NEXT (To set clock)
▼ NEXT	
⬍ SELECT ◀▶ OPERATE MENU EXIT	

(To be continued...)

20

Auto Clock Set

Before you use any of your TV's timer functions, you must first set the clock. You may precisely set your clock using the XDS time signal broadcast by most public analog broadcasting stations. If you do not have this in your area, you will have to set the clock manually. See manual clock set below. To set the clock using the XDS signal:
```
SET CLOCK

MODE              ◄ AUTO ►
TIME              -- : -- --
TIME ZONE         ◄ ATLANTIC ►
D.S.T.            ◄ ON ►

          ▼ NEXT

⬍ SELECT ◄► OPERATE      MENU EXIT
```

◄► To choose AUTO
▼ To TIME ZONE

◄► To select your time zone: (Atlantic, Eastern, Central, Mountain, Pacific, Alaska or Hawaii)
▼ To move to D.S.T. (Daylight Savings Time)
◄► To turn D.S.T. ON or OFF
▼ To NEXT (To Auto Tuner Setup)

Notes:

- D.S.T. can be used when it is set to ON in the SET CLOCK menu.
- Only when the MODE is set to AUTO, the Daylight Savings Time feature automatically adjusts your TV's clock for Daylight Savings. The clock will move forward one hour at 2:00 am on the first Sunday in April. The clock will move back one hour at 2:00 am on the last Sunday in October.
- You will have to reset the clock after a power interruption. You must set the clock before operating any timer functions.

Manual Clock Set

To set your clock manually (without using the XDS signal), choose MANUAL. If you choose AUTO, see auto clock set above.

```
SET CLOCK

MODE              ◄ MANUAL ►
TIME              -- : -- --
TIME ZONE         ◄ ATLANTIC ►
D.S.T.            ◄ ON ►

        ▼ START CLOCK

⬍ SELECT ◄► OPERATE      MENU EXIT
```

◄► To choose MANUAL
▼ To TIME
◄► To set the hour
▼ To minute
◄► To set the minute
▼ To TIME ZONE
◄► To select your time zone: (Atlantic, Eastern, Central, Mountain, Pacific, Alaska or Hawaii)
▼ To move to D.S.T. (Daylight Savings Time)
◄► To turn D.S.T. ON or OFF
▼ To START CLOCK

Note:

- You will have to reset the clock after a power interruption. You must set the clock before operating any timer functions.

(To be continued...)

21

Auto Tuner Setup

In auto tuner setup, the TV automatically scans through all available channels, memorizing the active ones and skipping over blank ones or channels with weak signals. This means when you scan (using the CHANNEL +/– buttons) you will receive only clear, active channels.

```
AUTO TUNER SETUP

 TUNER MODE                    ◀ AIR ▶

        ▼ START
 ◆ SELECT ◀▶ OPERATE      MENU  EXIT
```
◀▶   To choose CABLE or AIR (or SKIP when you skip AUTO TUNER SETUP)

▼   To START

After Analog Auto Tuner Setup is finished, Digital Auto Tuner Setup starts.

```
        NOW
   PROGRAMMING !
      ▸▸▸ ⬚ ▸▸▸
         48
```

➡

```
  ᵃₐᵃ  Now Programming...
          20
```
When the setup is finished, "THANK YOU ! SETUP IS NOW COMPLETE" is displayed. Your quick setup is now complete. You can now begin watching your television, or you can continue on in this guide for more information on programming your remote control, or using the JVC onscreen menu system to customize your television viewing experience.

Notes:

• If you want to cancel the Auto Tuner Setup, press the MENU button.
• Noise muting will not work during Auto Tuner Setup.
• If you choose SKIP, it finished without doing the Auto Tuner Setup.

Cable Box and Satellite Users: After your auto tuner setup is complete, you may, (depending on the type of hookup), have only 1 channel, usually 3 or 4 in the auto tuner memory. This is normal.

STOP **The Quick Setup is complete**

Remote Programming

Setting the CATV, VCR and DVD Codes

You can program your remote to operate your cable box, satellite receiver, VCR or DVD player by using the instructions and codes listed below. If the equipment does not respond to any of the codes listed below or to the code search function, use the remote control supplied by the manufacturer.

Cable Box or Satellite Codes

The remote control is programmed with cable box and satellite codes for power on/off, channel up/down, and 10 key operation.

1) Find the cable box or satellite brand from the list of codes shown below.
2) Slide the 2-way selector switch to "CATV".
3) Press and hold down the DISPLAY button, then enter the first code number listed with the 10 key pad.
4) Release the DISPLAY button, and confirm the operation of the cable box/satellite receiver.

• If your cable or satellite box does not respond to the first code, try the others listed. If it does not respond to any code, try the search codes function, on page 26.

Remote Programming

VCR Codes

The remote control is programmed with VCR codes for power on/off, play, stop, fast-forward, rewind, pause, record, channel up/down operation.

1) Find the VCR brand from the list of codes shown below.
2) Slide the first 2-way selector switch to "TV" and the other 2-way selector switch to "VCR".
3) Press and hold down the DISPLAY button, then enter the first code number listed with the 10 key pad.
4) Release the DISPLAY button, and confirm the operation of the VCR.

- If your VCR does not respond to the first code, try the others listed. If it does not respond to any of the codes, try the search codes function on page 26.

- After you program your remote, some VCR buttons may not work properly. If so, use the VCR's remote.

- To record, hold down the REC button on the remote and press PLAY.

Remote Programming

DVD Codes

The remote control is programmed with DVD codes for power on/off, play, stop, fast-forward, rewind, previous/next chapter, tray open/close, and still/pause operation.

1) Find the DVD player brand from the list of codes shown below.
2) Slide the first 2-way selector switch to "TV" and the other 2-way selector switch to "DVD".
3) Press and hold down the Display button, then enter the first code number listed with the 10 key pad.
4) Release the Display button, and confirm the operation of the DVD player.

- If your DVD player does not respond to the first code, try the others listed. If it does not respond to any of the codes, try the search codes function on page 26.

- After you program your remote, some DVD buttons may not work properly. If so, use the DVD player's remote.

DVD Player	CODES	DVD Player	CODES

25

Remote Programming

Search Codes

Cable/Satellite Search Codes Function

1) Slide the first 2-Way Mode Selector switch to CATV.
2) Press the POWER and RETURN+/TV buttons. Hold for at least three seconds and release.
3) Press the POWER button on the remote, and see if the cable or satellite box responds.
4) If there was a response, press RETURN+/TV. The codes are now set. If there was no response, repeat Step 3. If you repeat Step 3 a total of 80 times without a response, use the remote control that came with your equipment.
5) Press RETURN+/TV to exit.

VCR/DVD Search Codes Function

1) Slide the first 2-way selector switch to "TV" and the other 2-way selector switch to "VCR" or "DVD".
2) Press the VCR or DVD POWER and RETURN+/TV buttons. Hold for at least three seconds and release.
3) Press the VCR or DVD POWER button, and see if the VCR or DVD responds.
4) If there was a response, press RETURN+/TV. The codes are now set. If there was no response, repeat Step 3. If you repeat Step 3 a total of 80 times for the VCR (40 times for the DVD player), and there is no response, use the remote control that came with your equipment.
5) Press RETURN+/TV to exit.

26

Using the Guide

Certain symbols are used throughout this guide to help you learn about the features of your new television. The ones you will see most frequently are:

▲▼ Up and Down arrows mean press the CH+ or CH– buttons. Pressing the CH+ or CH– buttons let you:
  • Move vertically in a main menu screen
  • Move through a submenu screen
  • Move to the next letter, number, or other choice in a submenu
  • Back up to correct an error
  • Scan through TV channels (when not in a menu screen)

◄► Left and right arrows mean press the VOLUME+ or VOLUME– buttons to move left or right to:
  • Select a highlighted menu item
  • Select an item in a submenu
  • Select numbers in certain menu options
  • Turn the volume up or down (when not in a menu screen)

The "press button" icon means you should press the button named on your remote control. (Button names appear in SMALL CAPITAL LETTERS.)

K The "helping arrow" icon points to the highlighted or selected item in a menu.

To bring up the onscreen menu, press the MENU button on the remote control. The item that appears in green is the one currently selected. If you use the MENU button on the TV's side or front panel instead of the remote, an additional menu screen showing INPUT, VIDEO STATUS and ASPECT will appear between INITIAL SETUP and PICTURE ADJUST. The "interactive plug-in menu" will appear the first time the TV is plugged in.

```

Note:

• Menus shown in this book are illustrations, not exact replications of the television's onscreen displays.

27

Onscreen Menus

The Onscreen Menu System

Your television comes with JVC's onscreen menu system. The onscreen menus let you make adjustments to your television's operation simply and quickly. Examples of the onscreen menus are shown on the next page. Detailed explanations on using each menu follow later in this guide. For information about the interactive plug-in Menu, see pages 20 - 22.

The Onscreen Menu System

To open the onscreen menu system, press the MENU button on the remote control. You navigate within the onscreen menus by using the four directional arrow buttons on the remote control. (These buttons are also the CH +/– and VOL +/– buttons. Channel and volume functions will not operate when the onscreen menu is active).

The selected feature and option on a menu screen are highlighted in a different color.

Selected Option (Green)

```
•  LANGUAGE              ENG.   FRAN.   ESP.
   CLOSED CAPTION ▶
```

Selected Option (Blue)

To move to a different feature use the ▲ ▼ arrows to move up or down the list. When you press the up arrow at the top of the list or the down arrow at the bottom, the next menu screen will appear. Use the arrows ◄ ► to select an option from the highlighted feature. Pressing MENU on the remote control will close the onscreen menu system and return you to normal television viewing.

Each menu and its features will be discussed in the following pages of this guide.

Notes:
- If you do not press any buttons for a few seconds, the onscreen menu will automatically shut off.
- Button names in this guide are shown in SMALL CAPITAL LETTERS.
- Menus may appear in different sizes onscreen depending on the aspect ratio selected.
- Some menu items may not appear in menu screens when certain aspect ratios or inputs are selected.

└─────────────────────────────────────┘
```

Channel Summary

Channel summary allows you to customize the line-up of channels received by your TV. Regarding analog channels, you can add or delete channels from the line-up or prevent any unauthorized viewers from watching any or all 181 channels. Regarding digital channels, the only channels that will appear are the ones that are broadcasting.

(MENU)	Press the MENU button
▲▼	To CHANNEL SUMMARY
◄►	To operate

The Channel summary screen will now be displayed with the channels set to scan marked with an "√". Regarding analog channels, you can delete channels from the scan by removing the "√". If any channels were missed during auto tuner setup and you wish to add them, you may by placing an "√" next to the channel number.

• Digital channels can not be added to the channel summary if the auto tuner setup did not find them.

▲▼ ◄►	To the SCAN column
(OK)	Press the OK button to include or delete from scan
(MENU)	Press the MENU button when finished

Note:

• The number of a digital channel may change, depending on the time of some broadcastings. If this channel existed and now had disappeared, the lock channel or scanned channel by the channel summary for that channel will be cancelled.

30

How to set the channel label. *(This is only for analog broadcasting.)*

🖫	Press the MENU button	
▲▼	To CHANNEL SUMMARY	
◄►	To operate	
▲▼	To the ID column	
🖫	Press the OK button to enter	
◄►	To select the character you want	
▲▼	To move to the next space	

...continue to follow these directions for all four spaces

🖫 Press the OK button to finish

Your characters are now set

🖫 Press the MENU button when finished
If you want to reset the characters you set:

🖫 Press the MENU button

▲▼ To CHANNEL SUMMARY
◄► To operate
▲▼ To the ID column

🖫 Press the OK button to enter

▲▼ To select RESET

🖫 Press the OK button to finish

Your characters are now reset

Notes:

• You can use characters for: Alphabet, numbers, marks and spaces.
• It is possible to set the maximum of 40 channel labels.
• If you try to set more than the 40 maximum, the message "MEMORY OVERFLOW" will appear.

You can block access to a channel by activating the channel lock.

🖫 Press the MENU button

▲▼ To CHANNEL SUMMARY

◄► To operate

▲▼ ◄► To the Lock Column (🔒)

🖫 Press the ZERO button to lock or unlock that channel

🖫 Press the MENU button when finished

31

Initial Setup

Channel Guard Message

When a viewer attempts to watch a guarded channel, the following message appears:

To watch a channel that you have locked, enter the
Lock Code using the 10 key pad.
If the wrong code is entered, the message
"INVALID LOCK CODE!" will flash on the screen.

The channel cannot be accessed until the correct code
is entered.

> THIS CHANNEL IS LOCKED BY
> CHANNEL GUARD.
> PLEASE ENTER LOCK CODE BY
> 10 KEY PAD TO UNLOCK IT.
>
> No. - - - -

Notes:

• Once a channel has been unlocked, it will remain unlocked until the television is turned off.

• See also "Set Lock Code", page 38.

V-Chip

Your TV is equipped with V-Chip technology which enables you to block channels or content
that you feel to be inappropriate for children, based on US and Canada rating guidelines.
V-Chip has no effect on video signals from a DVD discs, VCR tapes or Camcorder connection.

> **Note:** Some programs, and movies are broadcast without a ratings signal. Even if you set
> up V-CHIP ratings limits, these programs will not be blocked. See page 33 for information on
> how to block unrated programs.
>
> **Note (for Canadian viewers):** The V-Chip function is based on specifications designed for
> the United States and therefore may not work properly in Canada.

You can customize the V-Chip settings of your television to match your personal tastes. The
V-Chip menu below is the starting point for your V-Chip settings

You can use US V-Chip settings (for programming broadcast from the United States), Canadian
V-Chip settings (for programming broadcast from Canada), and movie ratings. You may use
any or all of the settings (US V-Chip, Canada V-Chip, Movie ratings). Descriptions for setting
each of the three V-Chip formats appear in the next six pages along with descriptions of the
rating categories.

To access the rating categories:

Press the MENU button	
▲▼	To V-CHIP
◀▶	To operate (Lock icon 🔒 will appear)
Press ZERO to access the V-Chip menu	
◀▶	To turn V-Chip ON or OFF (V-Chip must be turned ON for rating settings to operate)
▲▼	To move to SET US TV RATINGS, SET MOVIE RATINGS, or SET CANADIAN RATINGS (see following pages for descriptions of each item)

```
┌─────────────────────────────┐
│ 🔒 V-CHIP                     │

└─────────────────────────────┘
```

32
Unrated Programs

Unrated programming refers to any programming which does not contain a rating signal. Programming on television stations which do not broadcast rating signals will be placed in the "Unrated Programming" category.

Examples of Unrated programs:

- Emergency Bulletins
- News
- Public Service Announcements
- Sports
- Some Commercials
- Locally Originated Programming
- Political Programs
- Religious Programs
- Weather

Note:

- TV programs or movies that do not have rating signals will be blocked if the unrated category is set to BLOCK.

Directions to Block Unrated Programs

You can block programs that are not rated.

🖰	Press the MENU button	
▲▼	To V-CHIP	
◀▶	To operate (The lock icon 🔒 appears)	
🖰	Press ZERO to access V-Chip setup options	
▲▼	To UNRATED	
◀▶	To VIEW or BLOCK	
🖰	Press MENU when done	

```
🖵 V-CHIP
V-CHIP                        ◀ OFF ▶

‡ SELECT ◀▶ OPERATE          MENU EXIT
```
Initial Setup

US V-Chip Ratings

U.S. PARENTAL RATING SYSTEMS
Programs with the following ratings are appropriate for children.

❒ **TV Y is Appropriate for All Children**
Programs are created for very young viewers and should be suitable for all ages, including children ages 2 - 6.

❒ **TV Y7 is for Older Children**
Most parents would find such programs suitable for children 7 and above. These programs may contain some mild fantasy violence or comedic violence, which children should be able to discern from reality.

Programs with the following ratings are designed for the entire audience.

❒ **TV G stands for General Audience**
Most parents would find these programs suitable for all age groups. They contain little or no violence, no strong language, and little or no sexual dialog or situations.

❒ **TV PG Parental Guidance Suggested**
May contain some, but not much, strong language, limited violence, and some suggestive sexual dialog or situations. It is recommended that parents watch these programs first, or with their children.

❒ **TV 14 Parents Strongly Cautioned**
Programs contain some material that may be unsuitable for children under the age of 14 including possible intense violence, sexual situations, strong coarse language, or intensely suggestive dialog. Parents are cautioned against unattended viewing by children under 14.

❒ **TV MA Mature Audiences Only**
These programs are specifically for adults and may be unsuitable for anyone under 17 years of age. TV MA programs may have extensive V, S, L, or D.

Viewing Guidelines

In addition to the ratings categories explained above, information on specific kinds of content are also supplied with the V-Chip rating. These types of content may also be blocked. The content types are:

- **V/FV** is for VIOLENCE/FANTASY VIOLENCE
- **S** stands for SEXUAL CONTENT
- **L** stands for strong LANGUAGE
- **D** stands for suggestive DIALOG

```
Directions to set US V-Chip Ratings

Line up the cursor in the column (TV PG, TV G, etc.) with the content row (V/FV, S, etc.) and press the ▲▼ or ◄► to move the cursor to the correct location. Press OK to turn the locking feature on or off. An item is locked if the 🔒 icon appears instead of a "—".

For example. To block viewing of all TV 14 shows, move the cursor to the top row of that column and add a lock icon. Once you've put a lock on the top row, everything in that column is automatically locked.

▲▼ ◄►	To the TV 14 Column
(icon)	Press the OK button to lock
(icon)	Press the Menu button when finished
Note:

• If you want to change the setup, move the cursor to the top column and change the lock icon to "—" by pressing OK again. You may then select individual categories to block.

```

Movies Ratings

❐ **NR – Not Rated**
This is a film which has no rating. In many cases these films were imported from countries which do not use the MPAA ratings system. Other NR films may be from amateur producers who didn't intend to have their film widely released.

NR (Not Rated) Programming may contain all types of programming including children's programming, foreign programs, or adult material.

❐ **G – General Audience**
In the opinion of the review board, these films contain nothing in the way of sexual content, violence, or language that would be unsuitable for audiences of any age.

❐ **PG – Parental Guidance**
Parental Guidance means the movie may contain some contents such as mild violence, some brief nudity, and strong language. The contents are not deemed intense.

❐ **PG-13 – Parents Strongly Cautioned**
Parents with children under 13 are cautioned that the content of movies with this rating may include more explicit sexual, language, and violence content than movies rated PG.

❐ **R – Restricted**
These films contain material that is explicit in nature and is not recommended for unsupervised children under the age of 17.

❐ **NC-17 – No One Under 17**
These movies contain content which most parents would feel is too adult for their children to view. Content can consist of strong language, nudity, violence, and suggestive or explicit subject matter.

❐ **X – No One under 18**
Inappropriate material for anyone under 18.

Directions to set Movie (MPAA) Ratings

Press the MENU button

▲▼ To V-CHIP
◄► To operate (Lock icon 🔒 appears)

Press ZERO to access V-Chip setup options

▲▼ To SET MOVIE RATINGS
◄► To enter movies menu

For example:

To block viewing of X and NC-17 rated from shows:
▲▼ ◄► To the X Column

Press the OK button to lock

▲▼ ◄► To the NC-17 Column

Press the OK button to lock

Press the MENU button to finish

```

36

Canadian V-Chip Ratings

❒ **E – Exempt**
Exempt programming includes: news, sports, documentaries and other information programming, talk shows, music videos, and variety programming.

❒ **C – Programming Intended for Children**
Violence Guidelines: There will be no realistic scenes of violence. Depictions of aggressive behavior will be infrequent and limited to portrayals that are clearly imaginary, comedic or unrealistic in nature.

❒ **C8+ – Programming Intended for Children 8 and Over**
Violence Guidelines: Any realistic depictions of violence will be infrequent, discreet, of low intensity and will show the consequences of the acts. There will be no offensive language, nudity or sexual content.

❒ **G – General Audience**
Programming will contain little violence and will be sensitive to themes which could affect younger children.

❒ **PG – Parental Guidance**
Programming intended for a general audience, but which may not be suitable for younger children. Parents may consider some content not appropriate for children aged 8-13.

❒ **14+ – 14 Years and Older**
Parents are strongly cautioned to exercise discretion in permitting viewing by pre-teens and early teens. Programming may contain mature themes and scenes of intense violence.

❒ **18+ – Adult**
Material intended for mature audiences only.

Directions to set Canadian V-Chip Ratings

👆	Press the MENU button
▲▼	To V-CHIP
◄►	To operate (lock icon 🔒 appears)
👆	Press ZERO to access V-Chip setup options
▲▼	To SET CANADIAN RATINGS ENG (for English)
◄►	To enter ratings menu

For example:

To block viewing of programming rated 14+ and 18+:

◄►	To the 18+ Column
👆	Press the OK button to lock
◄►	To the 14+ Column
👆	Press the OK button to lock
👆	Press the MENU button to finish

```
🔒 SET CANADIAN RATINGS ENG

37

Initial Setup

Set Lock Code

Channel guard and V-Chip settings are protected by a four-digit lock code. Your TV comes pre-set with a lock code of "0000". You may change the code to any four-digit number you wish. To change the lock code, follow the steps below.

⟨☝⟩   Press the MENU button

▲▼   To SET LOCK CODE

◄►   To operate (lock icon 🔒 appears)

⟨☝⟩   Press ZERO to access the lock code

The first digit will be highlighted

◄►   To select the number

▲▼   To move to the next digit

Continue to follow these directions for all four numbers

⟨☝⟩   Press the OK button to finish (your lock code is now set)

⟨☝⟩   Press the MENU button when finished

```
🔒 SET LOCK CODE

LOCK CODE                    0000  ◄

            PRESS ᴏᴋ TO FINISH
⬍ SELECT ◄► OPERATE          MENU EXIT
```

When a viewer attempts to watch a blocked channel, this message appears:

The channel will remain blocked until the correct lock code is entered (see above for information on setting your lock code).

```
THIS PROGRAMMING EXCEEDS
YOUR RATING LIMITS.
PLEASE ENTER LOCK CODE BY
10 KEY PAD TO UNLOCK IT.
          No.  - - - -
```

Notes:

• After a power interruption you must reset the lock code.

• Write your lock code number down and keep it hidden from potential viewers.

• If you forget the lock code, a new code may be set using the steps listed above.

38

Language

The language function is described on page 20 as the interactive plug-in menu. If you need to choose the language again, follow the steps below.

Press the MENU button

▲▼   To LANGUAGE

◀▶   To choose a language: ENG. (English), FRAN. (French) or ESP. (Spanish)

Press the MENU button when finished

Initial Setup

Closed Caption

Many broadcasts now include an onscreen display of dialog called closed captions. Some broadcasts may also include displays of additional information in text form. Your television can access and display this information using the closed caption feature. To activate the closed caption feature, follow the steps below. There are three methods. When you are watching analog channels, you can perform Analog Setting of closed caption. When you are watching digital channels, you can perform Digital Auto Setting or Digital Manual Setting.

Analog Setting

(hand)	Press the MENU button
▲▼	To CLOSED CAPTION
◀▶	To enter
▲▼	To MODE
◀▶	To select CAPTION or TEXT in MODE
▲▼	To CAPTION or TEXT
◀▶	To select a caption (CC1 to CC4) or text channel (T1 to T4)

All fonts used for digital closed caption and digital menus are licensed from Monotype Imaging Inc.

Notes:

- Closed caption subtitles are usually found on closed caption channel CC1. Some programs may include additional text information which is usually found on text channel T1. The other channels are available for future use.
- Closed captioning may not work correctly if the signal being received is weak or if you are playing a video tape.
- Most broadcasts containing closed captioning will display a notice at the start of the program.
- To select the mode, press the C.C. button. See page 55.

41

Initial Setup

Auto Shut Off

This function automatically shuts off your TV when there is no signal from the channel the TV is on.
Press the MENU button

▲▼ To AUTO SHUT OFF
◄► To turn ON or OFF

Press the MENU button when finished

• If the channel that you have on does not receive a signal for more than one minute, the blinking text "NOT RECEIVING A SIGNAL AUTO SHUT OFF IN 9 MIN." appears on the screen, and starts the countdown. If no signal is being received within 10 minutes, the TV shuts itself off.

Picture Adjust

Natural Cinema

Natural cinema corrects the problem of blurred edges which may occur when viewing a program originally shot on film (such as motion pictures) or animation. If you notice blurring at the edges of these programs, choose NATURAL CINEMA and set it to AUTO. Natural Cinema helps correct conversion errors that occur when film, which is shot at 24 frames-per-second, is broadcast at the television rate of 30 frames-per-second.
🖐	Press the MENU button
▲▼	To NATURAL CINEMA
◀▶	To enter
▲▼	To select the mode "AUTO", "ON" or "OFF"
🖐	Press the MENU button when finished

NATURAL CINEMA
AUTO
ON
OFF

Notes: The natural cinema mode is automatically set to "AUTO" in the following cases:

• Turning on or off
• Changing the channel or input mode
• Using multi-screen functions

(VSM) Velocity Scan Modulation

Velocity scan modulation circuitry varies the electron beam's horizontal scanning speed to help accentuate the differences in picture brightness to sharpen the edges of images.
🖐	Press the MENU button

Sound Adjust

Sound Settings

These settings allow you to change and adjust the sound on your television.

BASS – You can increase or decrease the level of low-frequency sound in the TV's audio with the bass adjustment.

TREBLE – Use treble to adjust the level of high-frequency sound in your TV's audio.

BALANCE – Adjust the level of sound between the TV's left and right speakers with the balance setting.

Adjust the Sound Settings

Press the MENU button

▲▼   To BASS, TREBLE or BALANCE
◄ ►   To adjust the setting
▲▼   To move to the next setting

Press the MENU button when finished

```
┌─────────────────────────────────┐
│ ▥ 🗋 SOUND ADJUST          ⊙ 🔒 │

└─────────────────────────────────┘
```
Notes:

• You can reset the sound adjustments (BASS, TREBLE and BALANCE) you set at once as the default setting when you select reset. See page 48.
• You can adjust BALANCE only when HYPER SURROUND is off. See page 53.

Reset

Reset resets all Sound Adjustments (Bass, Treble and Balance) at once to the default settings. See page 48 on how to use reset.

Clock/Timers

Set Clock

The set clock function is described on page 21 as the interactive plug-in menu. You can choose to set the clock automatically, or manually. If you need to set the clock again, follow the steps below.

Press the MENU button
▲▼   To SET CLOCK

◄►   To operate

When you set the clock automatically, choose AUTO by pressing the ◄ or ► arrows.

▲▼   To TIME ZONE

◄►   To select your time zone

→ATLANTIC ←→ EASTERN ←→ CENTRAL ←→ MOUNTAIN ←
       →HAWAII ←→ ALASKA ←→ PACIFIC ←

▲▼   To D.S.T. (daylight savings time)

◄►   To turn D.S.T. ON or OFF

Press OK to finish

Press the MENU button when finished

```
🕐 SET CLOCK

MODE              ◄ AUTO ►
TIME              -- : --
TIME ZONE         ◄ ATLANTIC ►
D.S.T.            ◄ ON ►

    PRESS OK TO FINISH
‡ SELECT ◄► OPERATE     MENU EXIT
```

When you set the clock manually, choose MANUAL by pressing the ◄ or ► arrows.

▲▼   To move to the hour
◄►   To set the hour
▲▼   To move to minutes
◄►   To set the minutes
▲▼   To TIME ZONE
◄►   To select your time zone:
       (Atlantic, Eastern, Central, Mountain, Pacific, Alaska or Hawaii)
▲▼   To D.S.T. (daylight savings time)
◄►   To turn D.S.T. ON or OFF

Press OK to start clock

> THANK YOU !!

Press the MENU button when finished

```
🕐 SET CLOCK

MODE              ◄ MANUAL ►
TIME              -- : --
TIME ZONE         ◄ ATLANTIC ►
D.S.T.            ◄ ON ►

    PRESS OK TO START CLOCK
‡ SELECT ◄► OPERATE     MENU EXIT
```

Notes:

• D.S.T. can be used only for US and Canada when it is set to ON in the SET CLOCK menu.

• Only when the MODE set to AUTO, the Daylight Savings Time feature automatically adjusts your TV's clock for Daylight Savings. The clock will move forward one hour at 2:00 am on the first Sunday in April. The clock will move back one hour at 2:00 am on the last Sunday in October.

• You will have to reset the clock after a power interruption. You must set the clock before operating any timer functions.

50

On/Off Timer

The on/off timer lets you program your television to turn itself on or off. You can use it as an alarm to wake up, to help you remember important programs, or as a decoy when you're not home.

🖱	Press the MENU button
▲▼	To ON/OFF TIMER
◄►	To operate (begins with ON TIME)
◄►	To set the hour (AM/PM) you want the TV to turn on
▼	To move to minutes
◄►	To set the minutes
▼	To accept ON TIME and move to OFF TIME (the time the TV will turn off). Set the OFF TIME the same way as ON TIME
▼	To accept OFF TIME and move to CHANNEL
◄►	To select channel
▼	To ON VOLUME
◄►	To set the volume level
▼	To move to MODE
◄►	Choose ONCE or EVERYDAY
▼	To ON/OFF TIMER
◄►	Choose YES to accept the timer setting, choose NO if you don't wish to accept
🖱	Press the OK button to finish
🖱	Press the MENU button to exit the menu

```
┌────────────────────────────────┐
│ ⏱ ON/OFF TIMER                 │
├────────────────────────────────┤

│ ON/OFF TIMER            ◄ NO ►  │
│                                 │
│      PRESS OK TO FINISH        │
├────────────────────────────────┤
│ ⬍ SELECT ◄► OPERATE   MENU EXIT │
└────────────────────────────────┘
```

Notes:

• The on/off time cannot be set to locked or guarded channels.

• In order for the on/off timer to work, the clock must be set.

• After a power interruption, the timer settings must be reset.

51

Button Functions

Power

Turns the TV on or off.

Press the POWER button

Number Buttons - 10Key Pad

Use the number buttons on the remote control to move directly to a specific channel. For example, to move to channel 12:

0 (ZERO)

1 (ONE)

2 (TWO)

Tune

Lets you decide the input channel and select it. After you press the number buttons on the remote, press the TUNE button. For example, to move to channel 12:

1 (ONE)

2 (TWO)

Press the TUNE button

Input

Selects the signal input source for the television: Input-1, 2, 3, 4 or DIGITAL-IN for video devices like VCR's DVD players, or camcorders.

Press the INPUT button

By every press of the INPUT button, you can change the input mode.

Notes:

• When you return to TV mode, press the RETURN+/TV button or direct 10 key pad.
• You can also access the FRONT PANEL CONTROL screen by using the MENU button on the side or front of the TV instead of the remote control. It appears between INITIAL SETUP and PICTURE ADJUST screen, and it has INPUT, VIDEO STATUS and ASPECT menus. Choose INPUT by pressing Menu ▼ on the side or front panel and choose a mode by using the CHANNEL+/- buttons (◄ OPERATE ►).

Channel +/–

Use these buttons to move up or down all the available channels your TV is able to receive.

Volume +/–

Use these buttons to raise or lower the TV's volume level.

52

Return +/TV

The Return+/TV button has two functions:

Return - Returns to the channel viewed just before the channel currently onscreen.

Return+ - Lets you program a specific channel to return to while scanning through the channels using the CH+ and CH– buttons.

RETURN+/TV and hold for three seconds

> RETURN CHANNEL
> PROGRAMMED!

The channel currently active has been programmed as your return+ channel. Now scan through the channels using the CHANNEL+/- buttons.

RETURN+/TV

You will return to your programmed channel.

- To cancel your return+ channel, press and hold the RETURN+/TV button for three seconds. The message "RETURN CHANNEL CANCELLED!" will appear.
- Return+ works only with the CHANNEL+/- buttons. Pressing any number key will cancel return+.

Sound

By pressing the SOUND button, you can change the Hyper Surround mode, BBE and SMART SOUND on or off.

HYPER SURROUND - Adds a more spacious surround sound. Music gives basic effect and movie for more effect.

BBE - BBE High Definition Sound restores clarity and presence for better speech intelligibility and musical realism.

SMART SOUND - Decreases high sound levels, giving a regulated sound level.

Press the SOUND button

▲▼ To select HYPER SURROUND, BBE or SMART SOUND

◄► To choose the setting

Press the MENU when finished

SOUND EFFECT		
HYPER SURROUND	ON	OFF
BBE	ON	OFF
SMART SOUND	ON	OFF
⬥SELECT ◄► OPERATE		MENU EXIT

Note:
- BBE and SMART SOUND is for models AV-27S776, AV-32S776, AV-30W776 ONLY.

> **Note:** Manufactured under license from BBE Sound, Inc. Licensed by BBE Sound, Inc. under USP4638258, 5510752 and 5736897. BBE and BBE symbol are registered trademarks of BBE Sound, Inc.

Muting

The MUTING button instantly turns the volume down completely when you press it. Press MUTING and the volume level will instantly go to zero. To restore the volume to its previous level, press MUTING again.

53

Button Functions

Video Status

The Video Status button gives you a choice of four TV picture display settings, including a display of your own preferences.

Standard - Resets the picture display to the factory settings.

Dynamic - Gives a vivid picture with better contrast when viewing in a brightly lit room.

Theater - Gives a rich, film-like look to video when viewing in a dimly lit room.

Game - Used for when you are playing video games connected to your TV.

VIDEO STATUS
STANDARD
DYNAMIC
THEATER
GAME

Press the VIDEO STATUS button
By every press of the VIDEO STATUS button, you change the mode.

Note:

• You can also change the mode by pressing the ▲▼ buttons.
• You can also access the FRONT PANEL CONTROL screen by using the MENU button on the side or front of the TV instead of the remote control. It appears between INITIAL SETUP and PICTURE ADJUST screen, and it has INPUT, VIDEO STATUS and ASPECT menus. Choose VIDEO STATUS by pressing Menu▼ on the side or front panel and choose a mode by using the CHANNEL+/- buttons (◄ OPERATE ►).

TheaterPro D6500K

The TheaterPro D6500K color temperature technology function makes sure that the video you watch is set to the standard color temperature, so that what you see is as true to what the film to video editors intended it to be.

Press the THEATERPRO button

Sleep Timer

The Sleep Timer can turn the TV off for you after you fall asleep. Program it to work in intervals of 15 minutes, for a total time of up to 180 minutes.

Press the SLEEP TIMER button

→ 0 15 30 45 60 75 90 105 120 135 150 165 180 →

Sleep Timer Message

60 seconds before the automatic shutoff, this message will appear:

GOOD NIGHT!!
PUSH SLEEP TIMER BUTTON
TO EXTEND

You then have 60 seconds to press the SLEEP TIMER button to delay the shut off for another 15 minutes.

54

Button Functions

Display

The display screen shows the current status of timers, inputs, and XDS ID.

Press the DISPLAY button

The screen to the right shows the following information:

- The current channel or AV input (Channel 05)
- The current time (12:20 pm)
- Sleep timer status/minutes remaining (The Sleep Timer is off)
- On/off timer status (Set to turn on everyday at 7:00 PM, off at 10:00 PM)
- Each Press of the DISPLAY button changes the display mode:

```
05  KLVX  PBS
JAZZ FESTIVAL
NOW                    12:20 PM
SLEEP TIMER                 OFF
ON/OFF TIMER           EVERYDAY
  ON TIME              7:00 PM
  OFF TIME            10:00 PM
```

→ Display ——→ Time ——→ Channel ——→ Off →
Display - Full screen shown above

Time - Shows the current time only

Channel - Shows the current channel

Off - Turns display off

Notes:

- You may also turn off the display at any step by pressing MENU.

- If the clock, sleep timer or on/off timer are not set, the display screen will show: "CLOCK NOT SET", "SLEEP TIMER OFF", and "ON/OFF TIMER OFF" respectively.

C.C. (Closed Caption)

Use the C.C. (Closed Caption) button to select the mode of closed caption.

Press the C.C. button

```
CLOSED CAPTION
            OFF
SMART CAPTION
             ON
```

Notes:

- SMART CAPTION is for models AV-27S776, AV-32S776, AV-30W776 ONLY.
- Smart Caption will appear when you press the Muting button, only on channels where the broadcast contains closed captioning.

- When you select ON, it will be the mode selected in the Closed Caption Menu.

- See page 40 when you set the caption/text mode.

- You can also change the mode by pressing the ▲▼ buttons.

Button Functions

Aspect

This feature will help you adjust the picture you are watching to give you the best possible picture quality.

Aspect Ratios - AV-30W776

PANORAMA - With this ratio a normal 4:3 aspect picture is stretched to fit the dimensions of the 16:9 aspect screen.
CINEMA - This ratio "zooms in" on the center part of a 4:3 aspect picture, blowing it up to fill the 16:9 screen.

**FULL** - This is the ratio to use when watching 16:9 High-Definition broadcasts.
PANORAMA ZOOM - This ratio stretches the High-Definition 16:9 aspect image to eliminate the black side bars.
CINEMA ZOOM - This ratio stretches the High-Definition 16:9 aspect image to eliminate the black surrounding bars.

REGULAR - The regular ratio is used when you want to watch a 4:3 broadcast or recorded program without modifying the original picture to fit the dimensions of your 16:9 screen. The 4:3 picture will fill the screen from top to bottom, while gray bars will appear to fill up the remaining space along the picture's sides. The 4:3 picture will be centered within the boundaries of the 16:9 screen.
SLIM - This aspect mode shrinks the screen of 16:9 to 4:3. There are some programming that is already stretched by mistake at broadcasting companies, so this mode corrects it. Gray side bars will appear.
Aspect Ratios - AV-27S776, AV-32S776, AV-32S766

4:3 - Use this aspect mode when you are watching a 4:3 broadcast.

**16:9** - If you select 16:9 aspect mode while watching a 4:3 broadcast, this will stretch the picture so as to fit into the 16:9 format. When you select this mode, black bars will appear on the top and bottom of the TV screen.

V STRETCH - If you are watching a 4:3 broadcast, this aspect mode will stretch the picture vertically on your TV

16:9 - Use this aspect mode when you are watching a 16:9 broadcast. This is also referred to as "widescreen", for example on a DVD disc. When you select this mode, black bars will appear on the top and bottom of the TV screen.

HD ZOOM - If you are watching a 4:3 high definition broadcast and you select this aspect mode, it will zoom in on the picture.
Button Functions

Aspect Ratios (Continued)

Press the ASPECT button
- *By pressing the ASPECT button, you can change the size.*

When you change the aspect ratios, it is different from their broadcast or recorded program.

Notes:

- You can also choose the size by pressing the ▲▼ buttons.
- When you change the aspect ratio or signal, reset the picture position to center.
- You can also access the FRONT CONTROL PANEL screen by using the MENU button on the side of the TV instead of the remote control. It appears between INITIAL SETUP and PICTURE ADJUST screen, and it has INPUT, VIDEO STATUS and ASPECT menus. Choose ASPECT by pressing MENU ▼ on the side panel and choose a mode by using the CHANNEL +/- buttons (◄ OPERATE ►). (AV-30W776 ONLY)
- "SLIM" can only be dispalyed when the signal is ATSC (480i or 480p). (AV-30W776 ONLY)
- If the televison receives a 16:9 signal from your HDMI device, the aspect mode will turn to FULL automatically. If the television receives a 4:3 signal from your HDMI device when you are in FULL aspect mode, it will return to REGULAR aspect mode. If you change the aspect mode after the televison changed it to FULL automatically, the televison will change to the aspect mode you choosed. (AV-30W776 ONLY)

Favorite

The Favorite button allows you to select your favorite channels easily. First, you must register the channels that you like. See how to register below.

Press the FAVORITE button
The favorite channel list will appear.

▲▼ To select the channel you want to watch

Press the OK button
It will change to the channel you have selected.

FAVORITE	
▲ PREVIOUS	
101	CBS
102	FOX
D103	PBS2
<	>
D107	HBO
8	ABC
▼ NEXT	

Register the favorite channel

Press the channel number you want to register
The channel program will change.

Press the FAVORITE button for three seconds
The channel will be registered in the favorite channel list.

Notes:

• Both analog and digital channels can be registered. The digital channels have a "D" in front of the channel number.
• The maximum number of channels you can register is 24.
• If you have registered the maximum number of channels, and try to register more channels, the oldest channel you registered will be deleted.
• Sub channels can not be registered.
• The newest channel you registered will appear at the top of the list.
• Regarding digital channels, see pages 62 - 64.

Delete the favorite channel

Press the FAVORITE button
The favorite channel list will appear.

▲▼ To select the channel you want to delete
◄► To enter
Press the OK button
The channel was deleted.

Press the FAVORITE button when finished

Note:

• Before pressing the FAVORITE button when you are finished, press the ◄► button again, and you can return to the deleted channel.

Button Functions

ML/MTS

MTS technology allows several audio signals to be broadcast in analog at once, giving you a choice in what you wish to hear with a TV program. In addition to mono or stereo sound, an MTS broadcast may also include a second audio program (SAP).

Press the ML/MTS button

By every press of the ML/MTS button, you change the mode

	MTS
ON AIR	STEREO
ON AIR	SAP
	MONO

Notes:

- When you are receiving a digital broadcast, if there are other languages, you can change the language by pressing the ML/MTS button.
- Keep the TV in stereo mode to get the best sound quality. The sound will work in stereo mode even if a certain broadcast is in mono sound only.
- Choose the mono setting to reduce excessive noise on a certain channel or broadcast.
- Selecting SAP will allow you to hear an alternative soundtrack, if one is available.
- MTS unavailable if your television's Input source is in input 1, 2, 3 or 4 mode, as described on page 52.
- ML/MTS will not work when you are using the Digital-In.
- You can also change the mode by pressing the ▲▼ buttons.

Menu

The Menu button allows you to access JVC's onscreen menu system. Press MENU to activate the onscreen menu system.

- See individual topics like "Sound Adjust" for specific information on using menus.

OK

This button confirms your selection when you are in one of the onscreen menus.

Back

This button allows you to go back in the menu to change a selection or correct a mistake.

60

Button Functions

TV/CATV Slide Switch

Use either the television's own tuner or a cable box to select channels. Set this switch to **TV** to operate the television's built-in tuner. Move the switch to **CATV** to operate a cable box.

Note:

• See page 23 for information on programming your remote for cable box operation.

VCR/DVD Slide Switch

You can control a VCR or DVD player with the buttons on the lower part of the remote control. Move the slide switch to **VCR** or **DVD** to operate.

Notes:

• The remote is preset with the code 000 to control JVC-brand VCR's. For any other manufacturer's brand VCR, please see the code chart and instructions on page 24.

• The remote is preset with the code 000 to control JVC-brand DVD players. For any other manufacturer's brand DVD player, please see the code chart and instructions on page 25.

VCR Buttons

You can use this remote control to operate the basic functions of your VCR. These functions include: play, record, rewind, fast-forward, stop, pause, channel scan, TV/VCR, power on, and power off.

Move the selector switch to **VCR** to operate.

• The remote is preset with the code 000 to control JVC-brand VCR's. For any other manufacturer's brand VCR, please see the code chart and instructions on page 24.

DVD Buttons

You can also use this remote control to operate the basic functions of your DVD player. These functions include: play, rewind, fast-forward, stop, still/pause, previous/next, tray open/close, power on, and power off.

Move the selector switch to **DVD** to operate.

• The remote is preset with the code 000 to control JVC-brand DVD players. For any other manufacturer's brand DVD player, please see the code chart and instructions on page 25.

61

Digital Setup

Digital Setup

Use this function when you are receiving a digital broadcast.
Press the MENU button

▲▼ To DIGITAL SETUP

◄► To enter

Digital Button Functions

Digital CH D/A (Digital/Analog)

The D/A button changes the analog and digital channel. Each time you press the D/A button, you can switch back and forth the analog and digital channels. Digital channels have a "D" in front of the channel number.
Note:

• If the cable card is inserted into the TV, you cannot use the D/A button. You can select a digital channel only.

    Press the D/A button

To watch digital channels

For example, to move to channel D23:

    Press 2 (Two)

    Press 3 (Three)

    Press the TUNE button

Sub Channel

The main channel sometimes has minor channels (Sub Channels). By using the SUB button, you can select a sub channel easily.

For example, to move to sub channel 123-45:

    Press 1 (One)

    Press 2 (Two)

    Press 3 (Three)

    Press the SUB button

    Press 4 (Four)

    Press 5 (Five)

    Press the TUNE button

Note:

• If there are more than 2 major channels, select the digital channel by using the ▲▼ buttons and then press the OK button.

65

Digital Button Functions

Guide

You can view the program from the GUIDE.
Notes:
• The GUIDE function will only work when you are receiving digital programming only.
• The GUIDE will not show the correct time and date if you have not performed the set clock function on your television. See page 50.

Weak Signal

This OSD warning appears when the digital channel that you have selected is too weak to receive or no signal is being detected for that channel.

Troubleshooting

PROBLEMS	CHECK
There is no power	• See if the power cord became unplugged. • Check for a blown fuse or circuit breaker or a power outage.
There is no picture or sound	• The antenna could be disconnected. • The input mode could be set improperly. See page 52. • The tuner (Auto Tuner Setup) could be set improperly. See page 30. • The TV station may be having difficulties. Check to see if other stations are working.
Remote control is not operating properly or at all	• Check to see that the batteries are still working and properly installed. • Make sure the remote has a clear sight path to the TV. • Check that the TV/CATV switch is in the proper position. • You may be too far from the TV. You must be within 23 feet (7 meters).
You cannot select a certain channel	• Make sure the channels have been programmed. See "Channel Summary", page 30. • Check to see if the channel is locked. See "Channel Summary - Lock" page 31.
The power turns off by itself	• Make sure the set did not become unplugged. • Perhaps the On/Off Timer is set. See page 51. • Check to see if the Sleep Timer was set. See page 54.
The clock is wrong	• The power was interrupted and the clock was not reset. See page 50.
The color quality is poor	• Tint and Color may be improperly adjusted. See page 47. • The Video Status mode may be turned to the wrong setting. See page 54.
There are lines across the picture	• There could be interference from another electrical appliance, such as a computer, another TV or VCR. Move any such appliances further away from the TV.
The picture is spotted	• There could be interference from a high-wattage appliance, like a hairdryer or vacuum, operating nearby. Move the antenna away from the appliance or change to a coaxial cable connection which is less prone to interference.
There are double pictures (ghosts)	• A building or passing airplane can reflect the original signal and produce a second, slightly delayed one. Adjust your antenna position.
Picture is snowy (image noise)	• Your antenna may be damaged, disconnected or turned. Check the antenna connection. If the antenna is damaged, replace it.
Screen is 40% black	• The Closed Caption Text mode is on. Turn it off in the Closed Caption Menu, page 40.
Stereo or bilingual programs can't be heard	• Make sure the MTS settings are correct. See "MTS" on page 60.
Static electricity	• It is normal to feel static electricity if you brush or touch the screen.
You hear occasional crackling sounds	• It is normal for the TV to make crackling sounds when first turned on or off. Unless the sound or picture become abnormal, this is fine.

★★

JVC® LIMITED WARRANTY DISPLAY 1-90

For Canadian model televisions, see separate sheets for Canadian Warranty information.

JVC COMPANY OF AMERICA (JVC) warrants this product and all parts thereof, except as set forth below ONLY TO THE ORIGINAL RETAIL PURCHASER to be FREE FROM DEFECTIVE MATERIALS AND WORKMANSHIP from the date of original purchase for the period shown below. ("The Warranty Period")
PICTURE TUBE is covered for Two(2)years.

Parts	Labor
1 YEAR	**90** DAYS

THIS LIMITED WARRANTY IS VALID ONLY IN THE FIFTY (50) UNITED STATES, THE DISTRICT OF COLUMBIA AND IN THE COMMONWEALTH OF PUERTO RICO.

WHAT WE WILL DO:

If this product is found to be defective within the warranty period, JVC will repair or replace defective parts with new or rebuilt equivalents at no charge to the original owner. Such repair and replacement services shall be rendered by JVC during normal business hours at JVC authorized service centers. Parts used for replacement are warranted only for the remainder of the Warranty Period. All products may be brought to a JVC authorized service center on a carry-in basis. Color televisions with a screen size of 27" or greater qualify for in-home service. In such cases, a technician will come to your home and either repair the TV there or remove and return it if it cannot be repaired in your home.

WHAT YOU MUST DO FOR WARRANTY SERVICE:

Please do not return your product to the retailer

Instead, return your product to the JVC authorized service center nearest you. If shipping the product to the service center, please be sure to package it carefully, preferably in the original packaging, and include a brief description of the problem(s). Please call 1-800-252-5722 to locate the nearest JVC authorized service center. Service locations can also be obtained from our website http://www.jvc.com. If your product qualifies for in-home service, the service representative will require clear access to the product.

If you have any questions concerning your JVC Product, please contact our Customer Care Center at 800-252-5722

WHAT IS NOT COVERED:
This limited warranty provided by JVC does not cover:
1. Products which have been subject to abuse, accident, alteration, modification, tampering, negligence, misuse, faulty installation, lack of reasonable care, or if repaired or serviced by anyone other than a service facility authorized by JVC to render such service, or if affixed to any attachment not provided with the products, or if the model or serial number has been altered, tampered with, defaced or removed;
2. Initial installation, installation and removal from cabinets or mounting systems.
3. Operational adjustments covered in the Owner's Manual, normal maintenance, video and audio head cleaning;
4. Damage that occurs in shipment, due to act of God, and cosmetic damage;
5. Signal reception problems and failures due to line power surge;
6. User Removal Memory Devices/ Video Pick-up Tubes/CCD Image Sensors are covered for 90 days from the date of purchase;
7. Accessories;
8. Batteries (except that Rechargeable Batteries are covered for 90 days from the date of purchase);
9. Products used for commercial purposes, including, but not limited to rental.
10. Loss of data resultant from malfunction of hard drive or other data storage device.

There are no express warranties except as listed above.

THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN.

JVC SHALL NOT BE LIABLE FOR ANY LOSS OF USE OF THE PRODUCT, INCONVIENCE, OR ANY OTHER DAMAGES, WHETHER DIRECT, INCIDENTAL OR CONSEQUENTAL (INCLUDING, WITHOUT LIMITATION, DAMAGE TO TAPES, RECORDS OR DISCS) RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE, ARE LIMITED TO THE WARRANTY PERIOD SET FORTH ABOVE.

Some states do not allow the exclusion of incidental or consequential damages or limitations on how long an implied warranty lasts, so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

Remember to retain your Bill of Sale for Warranty Service.

—————— **Do not attempt to service the product yourself** ——————

Caution
To prevent electrical shock, do not open the cabinet.
There are no user serviceable parts inside.
Please refer to qualified service personnel for repairs.

Specifications

MODEL	AV-27S776
Reception Format	NTSC, BTSC System (Multi-Channel Sound) ATSC Terrestrial, Digital Cable
Reception Range	VHF 2 to 13, UHF 14 to 69 Sub Mid, Mid, Super, Hyper and Ultra bands (181 channel frequency synthesizer system) • Reception of channel A-5 ("95" of the TV set's on-screen cable channel numbers) is not recommended for your TV set.
Power Source	AC 120V, 60Hz
Power Consumption	190W
Screen Size	27 inch / 68 cm measured diagonally 4:3Ratio
Audio Output	10W + 10W
Speakers	2 1/2 x 5 inch / 6.5 x 13 cm oval x 2
Antenna Terminal	75 ohms (VHF/UHF) (F-type connector)
External Input Jacks	Video: 1 Vp-p, 75 ohms Audio: 500mVrms (-4dBs) high impedance
S-Video Input Jack	Y: 1Vp-p positive, 75 ohms (negative sync provided) C: 0.286 Vp-p (burst signal), 75 ohms
Component Input Jacks	Y: 1Vp-p positive, 75 ohms (negative sync provided) P$_B$/P$_R$: 0.7 Vp-p, 75 ohms
Audio Output Jacks (FIX)	FIX 500 mVrms (-4dBs) Low impedance (400 Hz when modulated 100%)
Digital–In	HDMI jack x 1 Note: The Digital–In terminal is not compatible with picture signals of a personal computer
Dimensions (In) WxHxD (cm)	32 3/4 x 23 3/8 x 20 1/2 82.9 x 59.3 x 51.9
Weight (lbs / kg)	94.6 / 43
Accessories	Remote control unit x 1 / AA batteries x 2

Specifications subject to change without notice.

Notes:

• Reception of channel A-5 ("95" of the TV set's on-screen cable channel numbers) is not recommended for your TV set.
• The open source software is embedded in this product. For more information, please go to: http://software.jvc.com/opensource/lnx/DP/05_AtscQam/download.html
