**CAUTION:** TO REDUCE THE RISK OF ELECTRIC SHOCK.  
DO NOT REMOVE COVER (OR BACK).  
NO USER-SERVICEABLE PARTS INSIDE.  
REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of unisolated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

**WARNING:**  
**TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE.**

**CAUTION:**

This monitor system should be used with DC 12V only. To prevent electric shocks and fire hazards, DO NOT use any other power source.

**CAUTION:**

This product has a fluorescent lamp that contains a small amount of mercury. It also contains lead in some components. Disposal of these materials may be regulated in your community due to environmental considerations.

For disposal or recycling information please contact your local authorities, or the Electronics Industries Alliance:  
<http://www.eiae.org/>

**Installation requires some special knowledge.**  
**Do not install the monitor system yourself. Consult a dealer having special knowledge of this kind for safe and reliable installation.**

## WARNINGS

- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS DRIVING, VISIBILITY OR WHICH IS PROHIBITED BY APPLICABLE LAWS AND REGULATIONS.
- THERE MAY BE LEGAL REGULATIONS DEFINING THE PERMISSIBLE INSTALLATION LOCATIONS FOR THE DISPLAY UNIT WHICH DIFFER BY COUNTRY OR BY STATE. BE SURE TO INSTALL THE DISPLAY UNIT IN A CORRECT LOCATION ACCORDING TO SUCH LAWS.
- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS THE OPERATION OF AN AIR BAG.
- THE DRIVER MUST NOT OPERATE THE MONITOR SYSTEM WHILE DRIVING.  
OPERATING THE MONITOR WHILE DRIVING MAY LEAD TO CARELESSNESS AND CAUSE AN ACCIDENT.  
\* STOP YOUR VEHICLE IN A SAFE LOCATION WHEN OPERATING THE MONITOR.
- THE DRIVER MUST NOT WATCH THE TELEVISION OR VIDEOS WHILE DRIVING.  
IF THE DRIVER WATCHES THE TELEVISION OR A VIDEO WHILE DRIVING, IT MAY LEAD TO CARELESSNESS AND CAUSE AN ACCIDENT.
- WHEN LIGHTNING OCCURS, DO NOT TOUCH THE ANTENNA WIRE OR THE TELEVISION.  
TOUCHING THE ANTENNA WIRE OR THE TELEVISION UNDER SUCH CONDITIONS MAY CAUSE ELECTROCUTION.
- KEEP THE MONITOR AT AN APPROPRIATE SOUND LEVEL WHILE DRIVING.  
DRIVING WITH THE SOUND AT A LEVEL THAT PREVENTS YOU FROM HEARING SOUNDS OUTSIDE OF AND AROUND THE VEHICLE MAY CAUSE AN ACCIDENT.
- ASK A TRAINED TECHNICIAN TO INSTALL THE MONITOR SYSTEM.  
INSTALLATION AND WIRING REQUIRE RETRAINING AND EXPERIENCE.  
\* TO BE SAFE, ASK THE SALES OUTLET WHERE YOU PURCHASED THE MONITOR SYSTEM TO PERFORM THE INSTALLATION.
- BE SURE NOT TO LET THE MONITOR FALL OR BE STRONGLY IMPACTED SINCE THIS MAY CAUSE A MALFUNCTION OR FIRE.
- DO NOT USE THE MONITOR WITH THE ENGINE OFF.  
WATCHING THE MONITOR WITH THE ENGINE OFF WILL CONSUME BATTERY POWER AND MAY PREVENT THE ENGINE FROM STARTING.
- DO NOT USE ANY CEILING LIGHT BULBS OTHER THAN SPECIFIED FOR THIS UNIT (12 V, 3 W). FAILING TO DO SO MAY POSSIBLY CAUSE FIRE.
- WHEN NOT IN USE, CLOSE THE LIQUID CRYSTAL PANEL AND STORE IT INTO THE COMPARTMENT.

Thank you for purchasing a JVC product. Please read all instructions carefully before operation, to ensure your complete understanding and to obtain the best possible performance from the unit.

### **INFORMATION (For U.S.A. only)**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **BEFORE USE**

### \* **For safety....**

- *Do not raise the volume level too much, as this will block outside sounds, making driving dangerous.*
- *Stop the car before performing any complicated operations.*

### \* **Temperature inside the car....**

*If you have parked the car for a long time in hot or cold weather, wait until the temperature in the car becomes normal before operating the unit.*

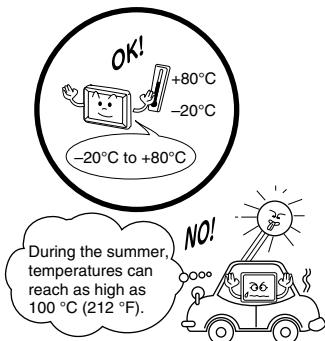

# PRECAUTIONS

ENGLISH

## Cautions for handling the liquid crystal panel

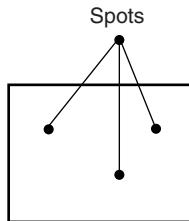

Do not expose the liquid crystal display to direct sunlight.

- Storage temperature range:  $-20^{\circ}\text{C}$  to  $+80^{\circ}\text{C}$  ( $-4^{\circ}\text{F}$  to  $176^{\circ}\text{F}$ )

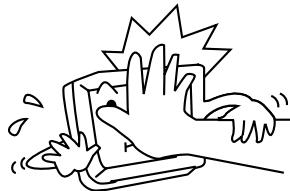

When the liquid crystal panel reaches high temperatures or low temperatures, chemical changes occur within the liquid crystal panel which may cause it to malfunction.

The red spots, blue spots and green spots on the panel surface are a normal characteristic of liquid crystal panels, and not a problem.

The liquid crystal panel is built with very high precision technology and has at least 99.99% effective image pixels. Be aware that on 0.01% of the panel there may be missing or constantly lit pixels.

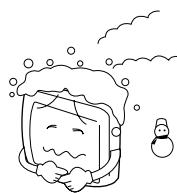

Do not drop the liquid crystal display or strike it sharply.

When the temperature is very cold or very hot, the image may not appear clearly or may move slowly.

The image may not be synchronized with the sound or the image quality may decline in such environments. Note that this is not a malfunction or problem.

- Usage temperature range:  $0^{\circ}\text{C}$  to  $+40^{\circ}\text{C}$  ( $32^{\circ}\text{F}$  to  $104^{\circ}\text{F}$ )

$0^{\circ}\text{C}$  ( $32^{\circ}\text{F}$ ) or colder

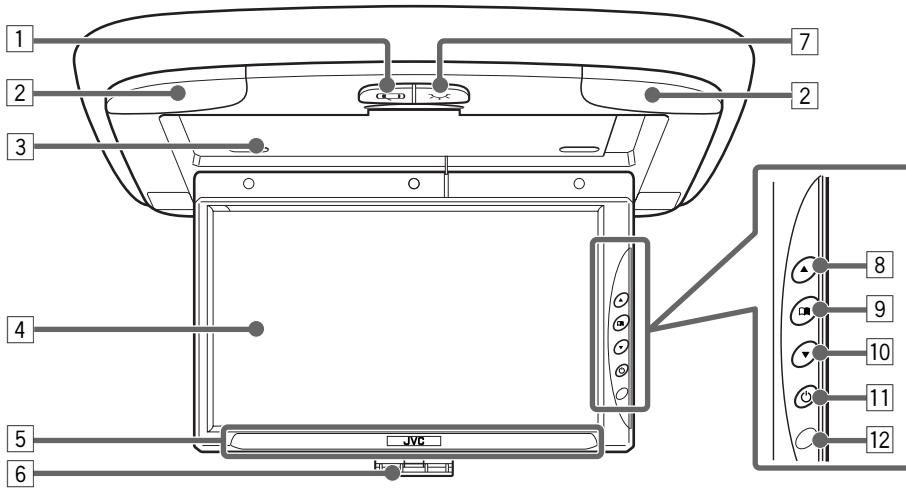

$40^{\circ}\text{C}$  ( $104^{\circ}\text{F}$ ) or hotter

# CONTROLS AND FEATURES

ENGLISH

## Wide color monitor

### 1 Door Sensor button ( )

Activates or deactivates the door sensor which turns on the ceiling light when a door is open.

- When the door sensor is turned on, this button glows red.

### 2 Ceiling lights

### 3 Screen compartment

While not in use, close the screen and store it in this compartment.

### 4 Screen (Liquid crystal panel)

- When you open the screen, the monitor automatically turns on.
- When you close it, the monitor automatically turns off.

### 5 IR transmitter

- See "Specifications" for cordless headphones.

It is recommended to use JVC's cordless headphones KS-HP1K.

### 6 Screen hook

- Release from the screen compartment to use the monitor.
- After using the monitor, close the screen, and hook to the screen compartment.

### 7 Ceiling Light button ( )

Turns on or off the ceiling lights.

### 8 Up button ( )

Increase the adjustment level of (or select an appropriate setting for) the item selected by the Menu button.

### 9 Menu button ( )

Select an adjustment item.

### 10 Down button ( )

Decrease the adjustment level of (or select an appropriate setting for) the item selected by the Menu button.

### 11 Power button ( )

- Press to turn on the power.  
Each time you press the button, the input mode changes when the power is on.
- Press and hold to turn off the power.

### 12 Remote sensor

Aim at this area when operating the monitor from the remote controller.

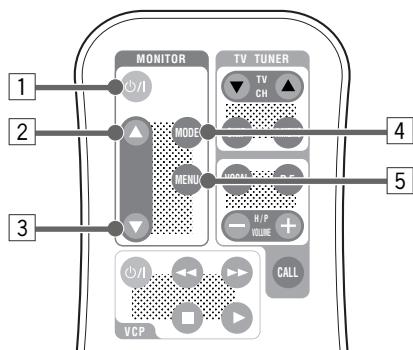

#### Note:

*When you watch the screen at an angle, the picture might not be clear. This is not a malfunction. The finest picture can be seen when you watch the screen straight-on.*

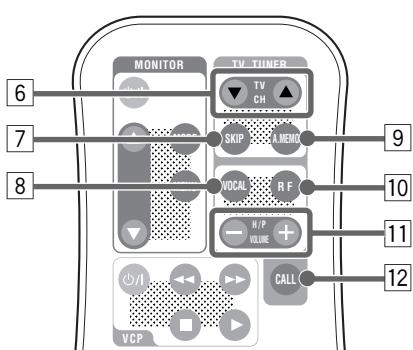

## Remote controller RM-RK500

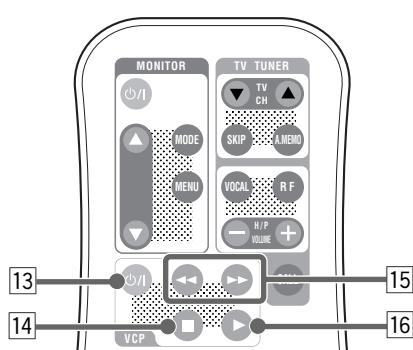

### Monitor section

### TV tuner section

### Video cassette player section

### Monitor section

- 1 Power On/Standby button (○/|)**

Turn on or off the monitor system.

- 2 Up button (▲)**

Increase the adjustment level of (or select an appropriate setting for) the item selected by the MENU button.

- 3 Down button (▼)**

Decrease the adjustment level of (or select an appropriate setting for) the item selected by the MENU button.

- 4 MODE button**

Each time you press the button, the input mode changes.

- 5 MENU button**

Call up or erase the Menu screen.

### TV tuner section

The following buttons can be used for operating JVC's KV-C10.

- For specific operations, refer to the instructions for the KV-C10.

- 6 TV CH buttons (▲/▼)**

- 7 SKIP button**

- 8 VOCAL button**

- 9 A.MEMO (auto memory) button**

- 10 RF (radio frequency) button**

- 11 H/P (headphones) VOLUME buttons (+/-)**

- 12 CALL button**

### Video cassette player (VCP) section

The following buttons can be used for operating JVC's KV-V8 or KZ-V10.

- For specific operations, refer to the instructions for the KV-V8 or KZ-V10

- 13 Power On/Standby button (○/|)**

- 14 ■ (Stop) button**

- 15 ◀◀ (Rewind)/▶▶ (Fast-forward) buttons**

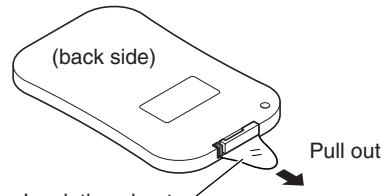

- 16 ▶▶ (Play) button**

### Before using the remote controller:

When you use the remote controller for the first time, **pull out the insulation sheet** as illustrated to the right.

- Aim the remote controller directly at the remote sensor on the color monitor. Make sure there is no obstacle in between.
- Do not expose the remote sensor to strong light (direct sunlight or artificial lighting).

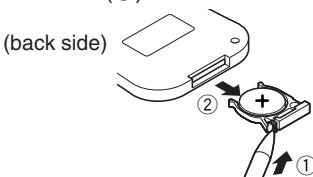

(The battery has been installed when shipped from the factory.)

## Replacing the battery

When the controllable range or effectiveness of the remote controller decreases, replace the battery.

### 1. Remove the battery holder.

While pushing in the lock using a ball-point pen or a similar tool (①), pull out the battery holder in the direction indicated by the arrow (②).

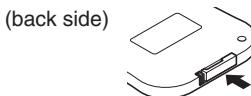

### 2. Replace the battery.

Slide a new battery into the holder with the + side facing upwards so that the battery is fixed in the holder.

### 3. Return the battery holder.

Insert the battery holder again pushing it until you hear a clicking sound.

### **WARNING:**

- Store the battery in a place which children cannot reach.  
*If a child accidentally swallows the battery, immediately consult a doctor.*
- Do not recharge, short, disassemble or heat the battery or dispose of in a fire.  
*Doing any of these things may cause the battery to give off heat, crack or start a fire.*
- Do not leave the battery with other metallic materials.  
*Doing this may cause the battery to give off heat, crack or start a fire.*
- When throwing away or saving the battery, wrap in tape and insulate; otherwise, it may cause the battery to give off heat, crack or start a fire.
- Do not poke the battery with tweezers or similar tools.  
*Doing this may cause the battery to give off heat, crack or start a fire.*

### **CAUTION:**

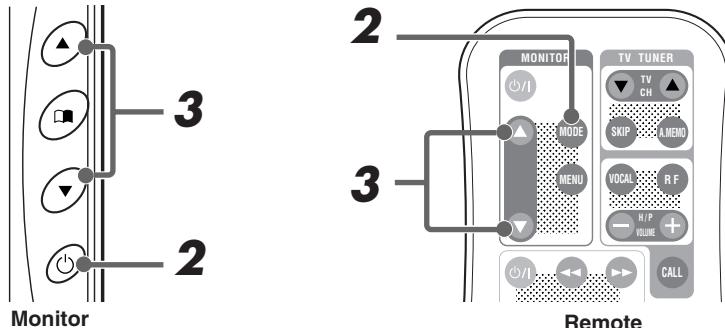

*DO not leave the remote controller in a place (such as dashboard) exposed to direct sunlight for a long time. Otherwise, it may be damaged.*

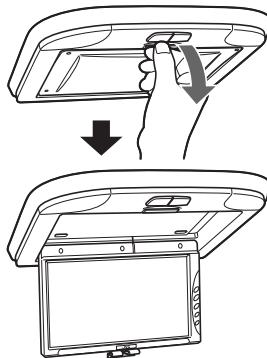

# BASIC OPERATIONS

## Preparation

Before operating the monitor system, make sure that all external components are correctly connected and installed.

1

Open the liquid crystal panel.

The monitor turns on.

**Note:**

If the liquid crystal panel is already open, press the Power button ( ) on the unit or the Power On/Standy button ( ) on the remote control to turn on the monitor.

**CAUTION:**

When not in use, close the liquid crystal panel and store it into the compartment; otherwise it may obstruct the visibility through the rearview mirror.

2

Monitor

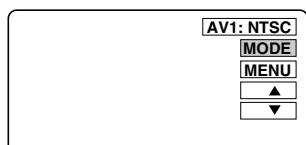

Remote

Select the input source.

Each time you press the button, the input source changes as follows:

- When KV-C10 is not connected:

→ AV 1 → AV 2 →

Ex. When "AV 1" is selected

- When KV-C10 is connected:

→ TV → VIDEO1 → VIDEO2 →

Ex. When "VIDEO 1" is selected

## 3

Monitor

Remote

Select the video format—NTSC or PAL, while the indication of the video format is still on the screen.

Each time you press the button, the video format alternates between NTSC (initial setting) and PAL. Select whichever matches to the incoming signals.

**Note:**

*When not using the KV-C10: You can preset the video format separately for "AV 1" and "AV 2."*

## 4

### Play back the external component.

To operate the external components, refer to the manuals for the connected components.

## 5

Select the external component and adjust the volume on the car receiver.

### To check the current input source

**On the monitor:** Press the Power button (⊕) once.

**On the remote:** Press the MODE button once.

The on-screen display appears for about 5 seconds.

Monitor

Remote

### To turn off the power

Close the liquid crystal panel.

- You can also turn off the power by holding the Power button (⊕) on the unit, or by pressing the Power On/Standby button (⊕/|) on the remote control briefly.

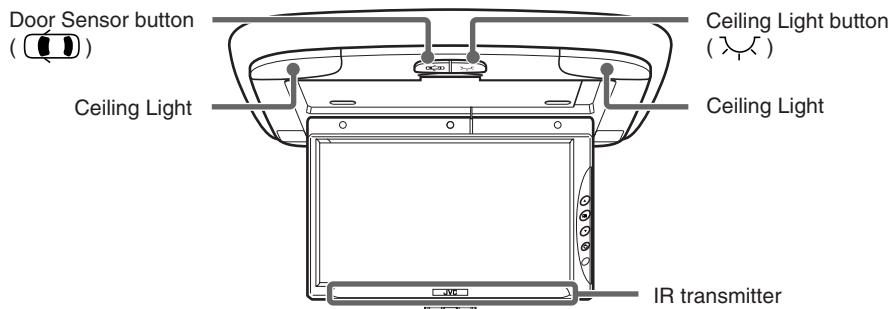

Monitor

Remote

## Other Basic Operations

### Activating the door sensor

You can activate or deactivate the door sensor by pressing the Door Sensor button ( ). When you activate the door sensor, the Door Sensor button glows red if the ignition switch of the car is turned to "ON" or to "ACC."

- With the door sensor activated, the ceiling lights go on when a door is open.

### Turning on or off the ceiling lights

You can turn on or off the ceiling lights on the monitor by pressing the Ceiling Light button ( ).

#### Note:

*When the Door Sensor button is on, the ceiling lights go off when the door is opened then closed even if the Ceiling Light button has been turned on.*

### Selecting the RF signals to the receiver

#### When you use JVC FM modulator KS-IF200 only:

You can listen to playback sounds from the external component through the receiver even if it is equipped with no line input.

- Refer also to the instructions of KS-IF200.

#### When KV-C10 is connected:

Press the RF button on the remote controller.

Each time you press the button, "RF ON" and "RF OFF" alternate and the sounds you hear through the car speakers change accordingly.

**RF ON** : Select to listen to the sound of the external component.

**RF OFF** : Select to listen to the radio (through the receiver).

### Using optional cordless headphones

You can use JVC's optional cordless headphones KS-HP1K to listen to the playback sounds of the external component.

Playback sounds of the external component are transmitted through this IR transmitter to the cordless headphones.

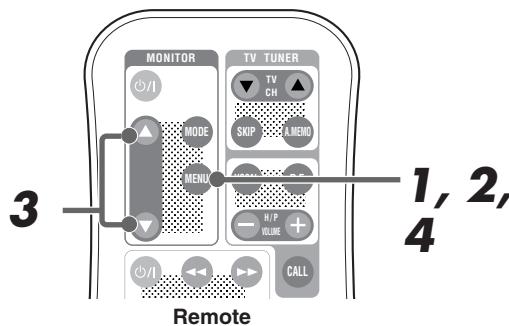

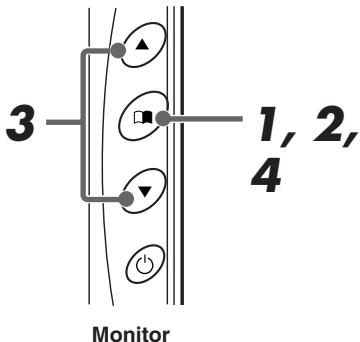

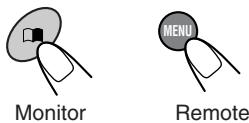

## Using the Menu

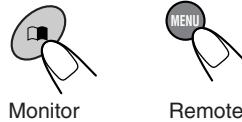

You can make your own adjustments using the Menu.

- For the adjustable items, see the next page.

### Basic procedure

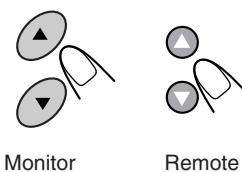

**1**

Call up the Menu.

**2**

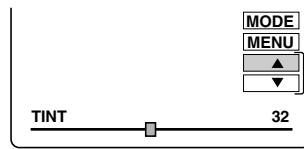

Select an item you want to adjust.

Each time you press the button, the cursor moves to the next item.

**3**

Adjust the level of the selected item (or select an appropriate setting for the selected item).

- When "RESET" is selected in the above step, the Color, Brightness, and Tint settings are reset.

Ex: When adjusting Tint

CONTINUED ON THE NEXT PAGE

**4**

Monitor

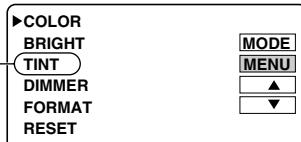

Remote

## Exit from the Menu.

- Press the button repeatedly until the Menu is erased.

## **Adjustable items on the menu**

Appears only for NTSC video format

### **Note:**

*Menu goes off if no operation is done for about 5 seconds.*

- COLOR** : Adjust the color of the picture—lighter or darker.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

- BRIGHT** : Adjust this if the picture is too bright or too dark.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

- TINT** : Adjust this if the human skin color is unnatural.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

### **Note:**

*This can be shown and adjusted when the video format is NTSC.*

- DIMMER** : Activate the dimmer if the inside of the car is too bright to view the picture on the screen.  
 • Selectable settings: ON/OFF  
 • Initial setting: OFF

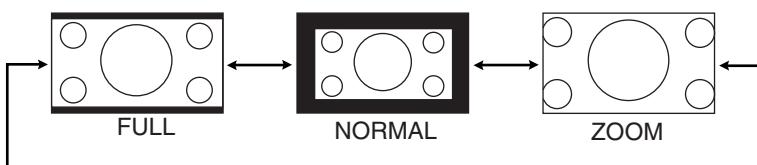

**FORMAT**

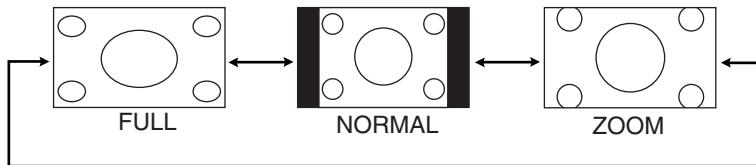

- : Select an appropriate display size.
- Selectable settings: FULL/NORMAL/ZOOM
- Initial setting: FULL

**When viewing 16:9 video signals:**

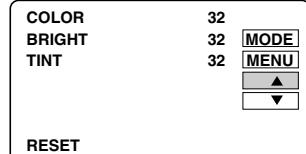

- FULL:** Pictures are fully shown on the screen.
  - The black bars will be shown both at the top and the bottom of the screen.**NORMAL:** Pictures are shown at the center of the screen.  
**ZOOM:** Pictures are enlarged on the screen so that no black bars will be shown on the screen. (The entire picture cannot be shown on the screen.)

**When viewing 4:3 video signals:**

- FULL:** Pictures are enlarged horizontally and are fully shown on the screen.  
**NORMAL:** Pictures are shown at the center of the screen.
  - The black bars will be shown at the left and right sides of the screen.**ZOOM:** Pictures are enlarged on the screen so that no black bars will be shown on the screen. (The entire picture cannot be shown on the screen.)

**RESET**

- : Reset the Color, Brightness, and Tint levels to the initial settings.

# MAINTENANCE

## To prevent damage to the exterior

- Do not apply pesticides, benzine, thinner or other volatile substances to the unit.  
The cabinet surface primarily consists of plastic materials.
- Do not wipe with benzine, thinner or similar substances because this will result in discoloration or removal of the paint.
- When a cloth with a cleansing chemical is used, follow the caution points.
  - Do not leave the unit in contact with rubber or vinyl products for long periods of time.
  - Do not use cleansers which have polishing granules because this could damage the surface of the unit.

## Clean off dirt by wiping lightly with a soft cloth

When the unit is very dirty, wipe with a well-wrung cloth dipped in a kitchen cleanser (neutral) thinned by water and then go over the same surface with a dry cloth.

(Since there is the possibility of water drops getting inside of the unit, do not directly apply cleanser to the surface.)

### Caution:

*If water drops or similar wet substances get inside of the monitor via the liquid crystal panel surface, it may cause a malfunction.*

# TROUBLESHOOTING

What appears to be trouble is not always serious. Check the following points before calling a service center.

Symptoms	Causes	Remedies
• Colored spots (red, blue and green) appear on the screen.	This is a characteristic of liquid crystal panels and is not a malfunction.	See "Note" on page 15.
• No picture appears and sound is not heard.	Correct input mode is not selected.	Select the correct input mode.
• Picture shakes vertically or colors are abnormal.	The video format (NTSC/PAL) is not correct.	Select the correct video format.
• Remote controller does not work. • Cordless headphones (not supplied) do not work.	The battery has lost its charge.	Install a new battery.
	Remote sensor is exposed to strong light.	Do not expose the remote sensor to strong light.

## WIDE COLOR MONITOR

### Display:

9 inch Liquid crystal panel

### Number of Pixel:

336,960 pixels (480 vertical × 234 horizontal × 3)

### Drive Method:

TFT (Thin Film Transistor) active matrix format

### Cordless Audio:

Infrared audio transmitter (Support IR receiver stereo headphones)

L-channel: 2.3 MHz

R-channel: 2.8 MHz

Effective listening angle: 30°

Effective range: 4 m (13.1 ft)

### Dimensions (W × H × D):

314 mm × 38 mm × 257 mm  
(12-3/8" × 1-1/2" × 10-1/8")

including Shroud

Mass: 1.2 kg (2.7 lbs) including Shroud

## MONITOR CONNECTION

### UNIT

#### Input

Video: RCA pin × 2 circuits  
1 V(p-p), 75 Ω

Audio: RCA pin × 2 circuits  
0.5 V(rms)

Tuner: 8-pin DIN connector  
(only for JVC's KV-C10)

#### Output

Display:  
13-pin DIN connector

Video: RCA pin × 1 circuit  
1 V(p-p), 75 Ω

Audio: RCA pin × 1 circuit  
0.5 V(rms)

### Dimensions (W × H × D):

108.5 mm × 28.5 mm × 78 mm  
(4-5/16" × 1-1/8" × 3-1/8")  
excluding projections

Mass: 160 g (0.36 lbs)

## GENERAL

### Power Requirement

Operating Voltage:

DC 14.4 V (11 V to 16 V allowance)

### Grounding System:

Negative ground

### Allowable Operating Temperature:

0°C to +40°C (32°F to 104°F)

### Allowable Storage Temperature:

-20°C to +80°C (-4°F to 176°F)

Ceiling light bulb: 12 V / 3 W

## ACCESSORIES

Metal plate × 1

Shroud × 1

Extension cord × 1

Power cord × 1

Ceiling light cord × 1

Remote controller (with the battery) × 1

Screw (M4 × 5 mm) (M4 × 1/4") × 4

Screw (M4 × 12 mm) (M4 × 1/2") × 4

*Design and specifications are subject to change without notice.*

### Note:

*The liquid crystal panel is built with very high precision technology and has at least 99.99% effective image pixels. Be aware that on 0.01% of the panel there may be missing pixels or constantly lit pixels.*

### ENGLISH

## WARNING

Installation requires some special knowledge.  
Do not install the monitor system yourself. Consult a dealer having special knowledge of this kind for safe and reliable installation.

- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS DRIVING, VISIBILITY OR WHICH IS PROHIBITED BY APPLICABLE LAWS AND REGULATIONS.**

If the monitor is installed in a location which obstructs forward visibility or operation of the air bag or other safety equipment or which interferes with operation of the vehicle, it may cause an accident.

- NEVER USE BOLTS OR NUTS FROM THE VEHICLE'S SAFETY DEVICES FOR INSTALLATION.**

If bolts or nuts from the steering wheel, brakes or other safety devices are used for installation of the monitor, it may cause an accident.

- ATTACH THE WIRES CORRECTLY.**

If the wiring is not correctly performed, it may cause a fire or an accident. In particular, be sure to run and secure the lead wire so that it does not get tangled with a screw or the moving portion of a seat rail.

- USE WITH DC 12 V NEGATIVE GROUND VEHICLES.**

This monitor system is only for use in a DC 12 V negative ground vehicle.

It cannot be used in large trucks or diesel vehicles which are DC 24 V vehicles.

If it is used in the wrong type of vehicle, it may cause a fire or accident.

- To prevent short circuits, we recommend that you disconnect the battery's negative terminal and make all electrical connections before installing the unit. If you are not sure how to install this unit correctly, have it installed by a qualified technician.**

- Avoid installing the monitor connection unit in the following places**

- Where it would hinder your safe driving.
- Where it would be exposed to direct sunlight or heat directly from the heater or placed in an extremely hot place.
- Where it would be subject to rain, water splashes or excessive humidity.
- Where it would be subject to dust.
- Where it would be positioned on an unstable place.
- Where it could damage the car's fittings.
- Where proper ventilation would not be maintained, such as under a floor mat.

### CAUTION

Since there may be legal regulations defining the permissible installation locations for the color monitor which differ by country or by state, be sure to install the color monitor in a location complying with any such laws.

### ESPAÑOL

## ADVERTENCIA

La instalación requiere cierto conocimiento especial.  
No instale el sistema del monitor por sí mismo. Para una instalación segura y confiable, consulte con un concesionario que tenga conocimientos especiales en esta área.

- NO INSTALE EL MONITOR EN UN LUGAR QUE IMPIDA EL MANEJO O LA VISIBILIDAD, NI DONDE LOS PROHIBAN LAS LEYES Y REGLAMENTOS APLICABLES.**

Si el monitor se instala en un lugar que obstruye la visibilidad hacia adelante o la operación de una bolsa de aire u otro equipo de seguridad, o que interfiere con la operación del vehículo, cerca de la palanca de cambios o pedal del freno por ejemplo, podrá causarse un accidente.

- NUNCA UTILICE PERNOS O TUERCAS DE LOS DISPOSITIVOS DE SEGURIDAD DEL VEHÍCULO PARA HACER LA INSTALACIÓN.**

Si los pernos o tuercas del volante, frenos u otros dispositivos de seguridad se utilizan para instalar el monitor podrá causarse un accidente.

- REALICE EL CABLEADO CORRECTAMENTE.**

Si no se hace bien el cableado puede producirse un incendio o un accidente. En particular, asegúrese de instalar el cable conductor para que éste no quede enredado en un tornillo ni en la parte móvil del raíl del asiento.

- UTILICE EL MONITOR EN VEHÍCULOS DE 12 V CC CON PUESTA A TIERRA NEGATIVA.**

Este monitor ha sido diseñado para ser utilizado solamente en vehículos de 12 V CC con puesta a tierra negativa.

No puede utilizarse en camiones grandes ni vehículos diesel de 24 V CC.

Si se utiliza en el tipo equivocado de vehículo se puede causar un incendio o accidente.

- Para evitar cortocircuitos, se recomienda desconectar el terminal negativo de la batería y realizar todas las conexiones eléctricas antes de instalar la unidad. Si tiene dudas sobre cómo realizar la instalación correctamente, déjela en manos de un técnico cualificado.**

- Evite instalar la unidad de conexión del monitor en los siguientes lugares:**

- Donde pueda constituir un obstáculo para la conducción.
- Donde pueda quedar expuesto a la luz solar directa o al calor directo de un calefactor, o en un lugar muy caliente.
- Donde pueda mojarse debido a la lluvia, etc., o en un lugar excesivamente húmedo.
- En un lugar polvoriento.
- En un sitio inestable.
- Donde pueda producir daños en los herrajes del automóvil.
- En lugares donde no pueda obtenerse una ventilación adecuada, como debajo de la alfombra del piso.

### PRECAUCION

Dependiendo de los estados, pueden haber reglamentos locales que determinan los lugares de instalación permisibles para el monitor de color; por lo tanto, asegúrese de instalar el monitor en un sitio que cumpla con tales reglamentos.

### FRANÇAIS

L'installation nécessite certaines connaissances spéciales.  
N'installez pas le moniteur vous-même. Consultez un revendeur possédant les connaissances spéciales nécessaires pour une installation correcte et sûre.

- N'INSTALLEZ PAS LE MONITEUR DANS UN ENDROIT QUI GÈNE LA CONDUITE, LA VISIBILITÉ OU QUI EST INTERDIT PAR LE CODE DE LA ROUTE ET LES RÈGLEMENTS.**

Si le moniteur était installé à un emplacement gênant la visibilité avant, ou le déploiement du sac à air, et autres dispositifs de sécurité, ou à un emplacement gênant pour la conduite du véhicule, comme près du levier des vitesses ou de la pédale du frein, cela risquerait de provoquer des accidents.

- NE JAMAIS UTILISER POUR L'INSTALLATION DES BOULONS OU DES ÉCROUS PROVENANT DES DISPOSITIFS DE SÉCURITÉ DU VÉHICULE.**

Si l'on utilisait pour l'utilisation du moniteur des boulons et des écrous cannibalisés du volant, des freins ou autres dispositifs de sécurité, cela risquerait de provoquer des accidents.

- ATTACHER LES CORDONS CORRECTEMENT.**

Si le câblage n'est pas exécuté correctement, cela risque de provoquer un incendie ou autre accident. Veiller, en particulier, à tirer et attacher les fils en sorte qu'ils ne s'accrochent pas à une vis ou ne se coincent dans les parties mobiles des rails des sièges.

- USAGE SUR LES VÉHICULES DE 12 V CC AVEC NÉGATIF À LA MASSE.**

Ce moniteur ne peut être utilisé que sur les véhicules de 12 V CC avec négatif à la masse.

Il ne peut pas être utilisé sur les gros camions ou les véhicules diesel de 24 V CC.

S'il était utilisé sur un type de véhicule inadéquat cela risquerait de provoquer un incendie ou autres accidents.

- Pour éviter les courts-circuits, nous recommandons que vous déconnectiez la borne négative de la batterie et réalisez toutes les connexions électriques avant d'installer l'appareil. Si vous n'êtes pas sûr de savoir comment installer cet appareil correctement, faites-le installer par un technicien qualifié.**

- Évitez d'installer l'unité de connexion du moniteur dans les endroits suivants:**

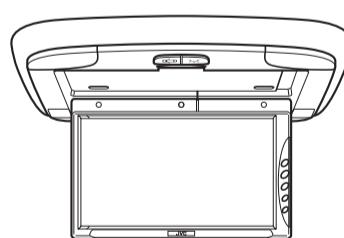

- Où il peut gêner la conduite de la voiture.
- Où il est exposé à la lumière directe du soleil, à la chaleur directe du chauffage ou placé dans un endroit très chaud.
- Où il est sujet à la pluie, aux éclaboussures ou à une humidité excessive.
- Où il est sujet à la poussière.
- Où il est positionné dans un endroit instable.
- Où il peut endommager les accessoires de la voiture.
- Où une ventilation correcte ne peut pas être maintenue, comme sous un tapis de sol.

### ATTENTION

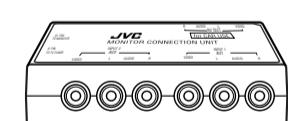

Il peut y avoir des réglementations définissant les emplacements d'installation autorisés pour un moniteur couleur et celles-ci peuvent varier d'une région à l'autre. Assurez-vous d'installer le moniteur dans un endroit conforme à ces lois.

### Parts list for installation and connection

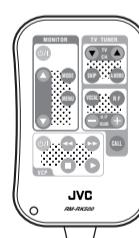

The following parts are provided with this unit.  
After checking them, please set them correctly.

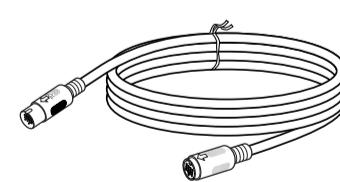

Wide color monitor (center unit and shroud)  
Monitor color de pantalla ancha

## LOCALIZACION DE AVERIAS

- El fusible se quema.**  
\* ¿Están los conductores rojo y negro correctamente conectados?
- No es posible conectar la alimentación.**  
\* ¿Está el cable amarillo conectado?
- La imagen no aparece en la pantalla.**  
\* ¿Se ha seleccionado la entrada correcta?

## TROUBLESHOOTING

- The fuse blows.**  
\* Are the red and black leads connected correctly?
- Power cannot be turned on.**  
\* Is the yellow lead connected?
- Picture does not come on screen.**  
\* Is the correct input selected?

## EN CAS DE DIFFICULTÉS

- Le fusible saute.**  
\* Les fils rouge et noir sont-ils raccordés correctement?
- L'appareil ne peut pas être mise sous tension.**  
\* Le fil jaune est-il raccordée?
- Aucune image n'apparaît sur l'écran.**  
\* L'entrée correcte est-elle choisie?

## INSTALLATION

The following illustration shows a typical installation. However, you should make adjustments corresponding to your specific car. If you have any questions or require information regarding installation kits, consult your JVC car audio dealer or a company supplying kits.

## INSTALACIÓN

La siguiente ilustración muestra una instalación típica. Sin embargo usted deberá efectuar los ajustes correspondientes a su automóvil. Si tiene alguna pregunta o necesita información acerca de las herramientas para instalación, consulte con su concesionario de JVC de equipos de audio para automóviles o a una compañía que suministra tales herramientas.

## INSTALLATION

L'illustration suivante est un exemple d'installation typique. Cependant, vous devez faire les ajustements correspondant à votre voiture particulière. Si vous avez des questions ou avez besoin d'information sur des kits d'installation, consulter votre revendeur d'autoradios JVC ou une compagnie d'approvisionnement.

### Mounting the color monitor

Installation procedure varies among different cars. The following is an example.

**It is recommended to have the monitor system installed by a qualified technician.**

#### Before mounting the monitor to the ceiling:

- Perform the required external connections first.

\* When shipped from the factory, these three parts are temporarily assembled as one unit with the screws.

\* Cuando se expide de fábrica, estas tres partes se encuentran ensambladas temporalmente como una sola unidad por medio de tornillos.

\* À l'expédition de l'usine, ces trois pièces sont provisoirement assemblées en un seul élément avec les vis.

### Montaje del monitor de color

El procedimiento de instalación varía según los diferentes vehículos. Lo siguiente es sólo un ejemplo.

**Se recomienda que el sistema de monitor sea instalado por un técnico cualificado.**

#### Antes de instalar el monitor en el techo:

- Efectúe primero las conexiones externas requeridas.

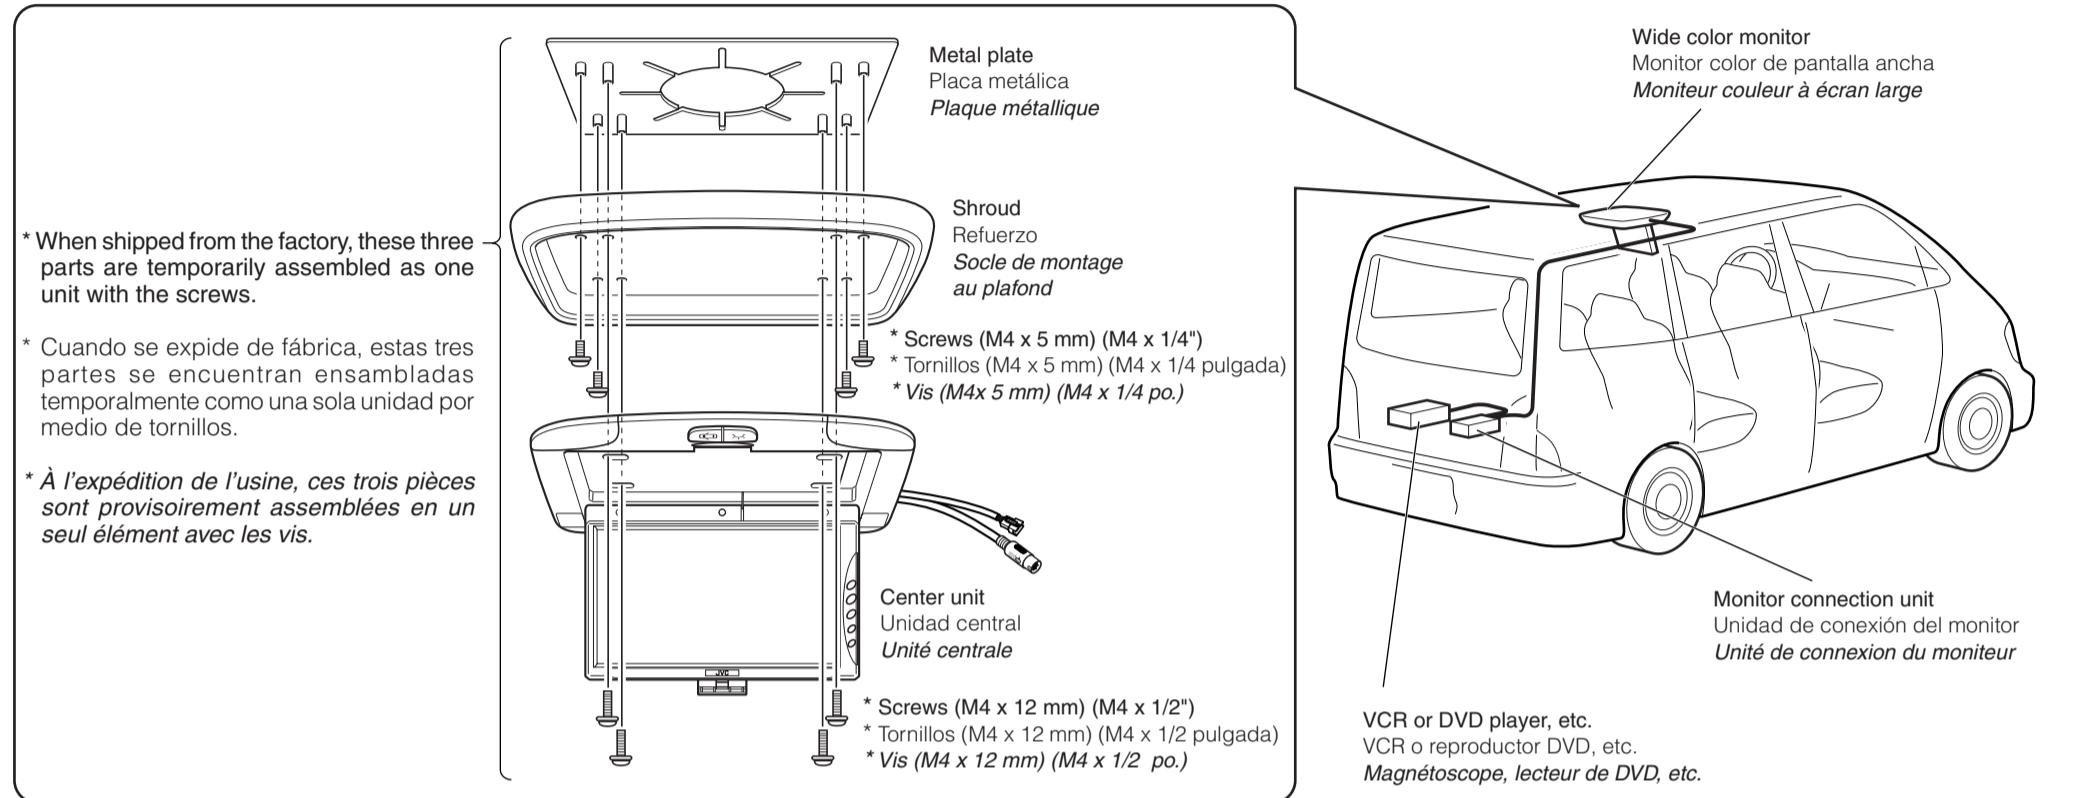

### Montage du moniteur couleur

La procédure d'installation varie d'une voiture à l'autre. La procédure qui suit est un exemple.

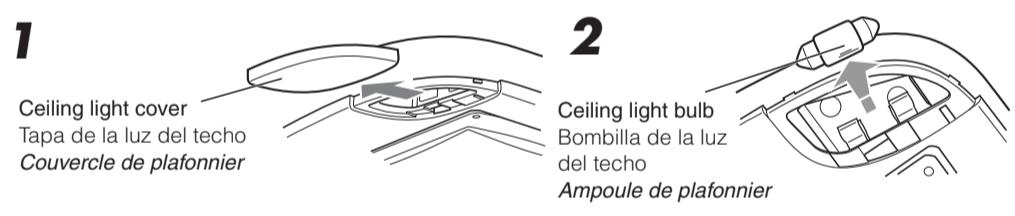

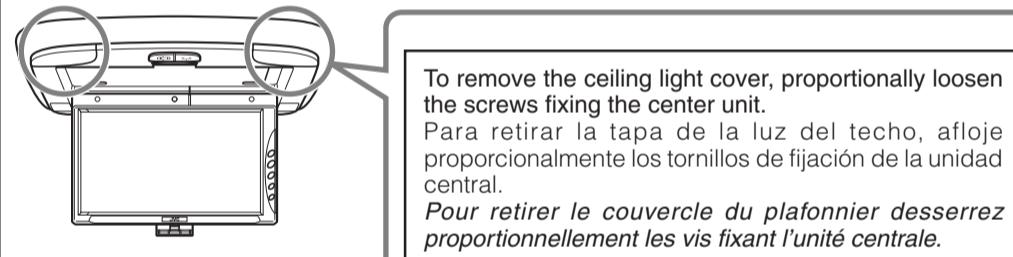

**Il est recommandé de faire installer le système de moniteur par un technicien qualifié.**

#### Avant de fixer le moniteur au plafond:

- Réalisez d'abord les connexions extérieures nécessaires.

### Replacing the ceiling light bulbs / Reemplazo de las bombillas de las luces del techo / Remplacement des ampoules du plafonnier

## ELECTRICAL CONNECTIONS

To prevent short circuits, we recommend that you disconnect the battery's negative terminal and make all electrical connections before installing the unit. If you are not sure how to install this unit correctly, have it installed by a qualified technician.

#### Note:

This unit is designed to operate on **12 V DC, NEGATIVE ground electrical systems**. If your vehicle does not have this system, a voltage inverter is required, which can be purchased at JVC car audio dealers.

• Replace the fuse with one of the specified ratings. If the fuse blows frequently, consult your JVC car audio dealer.

## CONEXIONES ELECTRICAS

Para evitar cortocircuitos, recomendamos que desconecte el terminal negativo de la batería y que efectúe todas las conexiones eléctricas antes de instalar la unidad. Si usted no está seguro de cómo instalar correctamente la unidad, hágala instalar por un técnico cualificado.

#### Nota:

Esta unidad está diseñada para funcionar con **12 V de CC, con sistemas eléctricos de masa NEGATIVA**. Si su vehículo no posee este sistema, será necesario un inversor de tensión, que puede ser adquirido en los concesionarios de JVC de equipos de audio para automóviles.

• Reemplace el fusible por uno con la corriente especificada. Si el fusible se quemase frecuentemente, consulte con su concesionario car audio de JVC.

## RACCORDEMENTS ELECTRIQUES

Pour éviter tout court-circuit, nous vous recommandons de débrancher la borne négative de la batterie et d'effectuer tous les raccordements électriques avant d'installer l'appareil. Si l'on n'est pas sûr de pouvoir installer correctement cet appareil, le faire installer par un technicien qualifié.

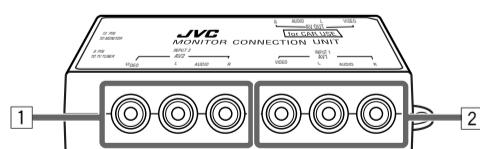

#### Remarque:

Cet appareil est conçu pour fonctionner sur des sources de courant continu de **12 V à masse NEGATIVA**. Si votre véhicule n'offre pas ce type d'alimentation, il vous faut un convertisseur de tension, que vous pouvez acheter chez un revendeur d'autoradios JVC.

• Remplacer le fusible par un de la valeur précisée. Si le fusible saute souvent, consulter votre revendeur d'autoradios JVC.

## Typical Connections / Conexiones tipicas / Raccordements typiques

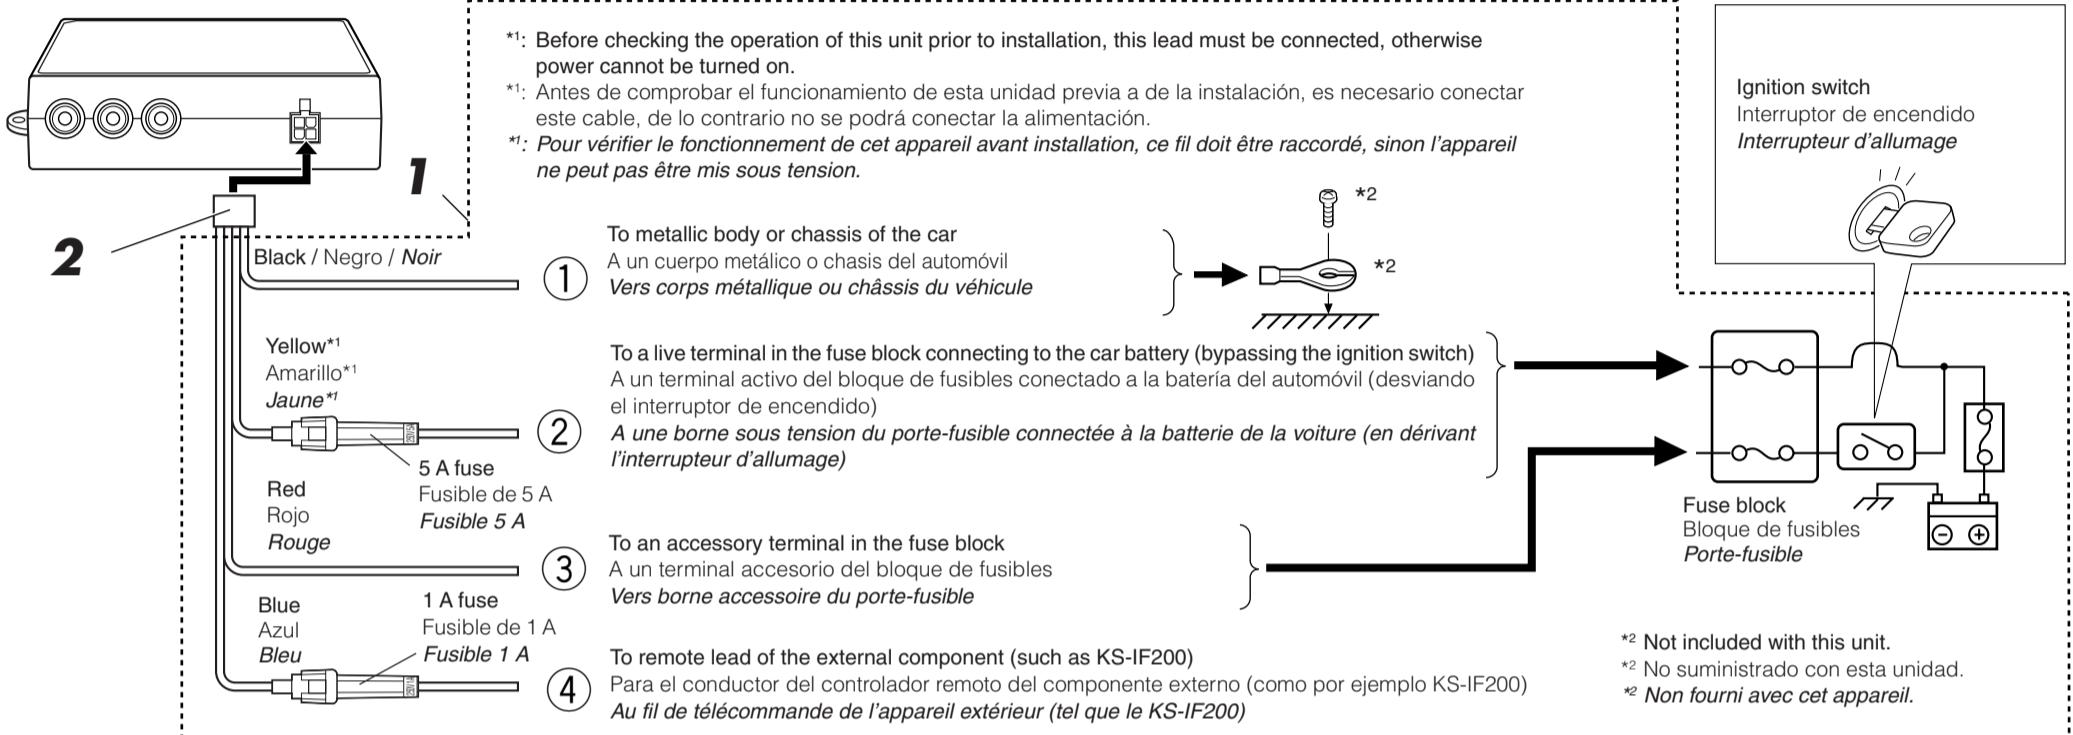

**Before connecting:** Check the wiring in the vehicle carefully. Incorrect connection may cause serious damage to this unit. The leads of the power cord and the ceiling light cord and those of the connector from the car body may be different in color.

### ■ Power supply connection

1 Connect the colored leads of the power cord in the following sequence.

- ① Black: ground
- ② Yellow: to car battery (constant 12 V)
- ③ Red: to an accessory terminal
- ④ Blue: to remote control lead of the external component (such as KS-IF200).

2 Finally connect the wiring harness to the unit.

### ■ Ceiling light connection

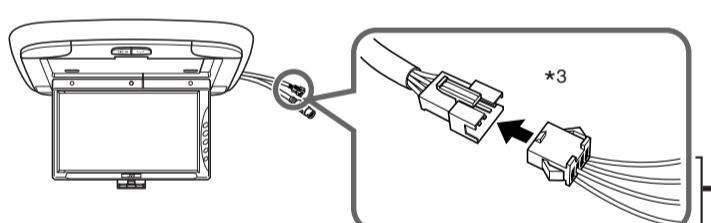

1 Connect the colored leads of the ceiling light cord in the following sequence.

- ① Black: ground (GND)
- ② Yellow: to car battery (constant 12 V) (BATTERY B+)
- ③ Red: to an accessory terminal (ACC)
- ④ Grey: to the door sensor (DOOR SW)

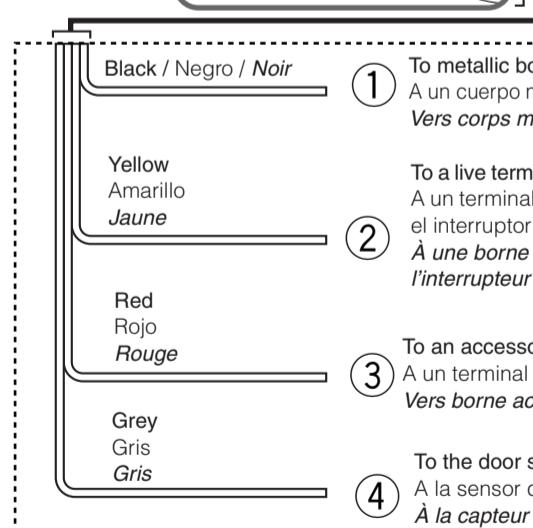

### ■ Conexión de la luz del techo

1 Conecte los conductores de color de la luz del techo en la secuencia siguiente.

- ① Negro: a tierra (GND)
- ② Amarillo: a la batería del automóvil (12 V constantes) (BATTERY B+)
- ③ Rojo: a un terminal de accesorio (ACC)
- ④ Gris: al sensor de la puerta (DOOR SW)

\*3 Cover the joined connectors with vinyl tape to prevent unexpected disconnection.  
\*3 Para evitar una desconexión imprevista, cubra la parte de unión de los conectores con una cinta de vinilo.  
\*3 Recouvrez les connexions jointes avec un ruban adhésif pour éviter toute déconnexion imprévue.

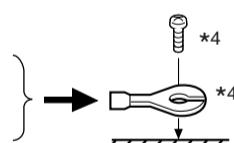

To metallic body or chassis of the car  
A un cuerpo metálico o chasis del automóvil  
Vers corps métallique ou châssis du véhicule

To a live terminal in the fuse block connecting to the car battery (bypassing the ignition switch)  
A un terminal activo del bloque de fusibles conectado a la batería del automóvil (desviando el interruptor de encendido)  
A une borne sous tension du porte-fusible connectée à la batterie de la voiture (en dérivant l'interrupteur d'allumage)

To an accessory terminal in the fuse block  
A un terminal accesorio del bloque de fusibles  
Vers borne accéssoire du porte-fusible

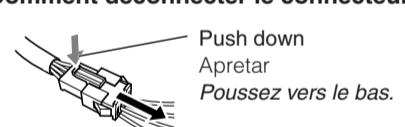

To the door sensor  
A la sensor de la puerta  
À la capteur de porte

**■ Connexion de plafonnier**  
**1** Connectez les fils de couleur du cordon du plafonnier dans l'ordre suivant.

- ① Noir: à la masse (GND)
- ② Jaune: à la batterie de la voiture (12 V constant) (BATTERY B+)
- ③ Rouge: à la prise accéssoire(ACC)
- ④ Gris: au capteur de porte (DOOR SW)

**How to disconnect the connector**  
**Cómo desconectar el conector**  
**Comment déconnecter le connecteur**

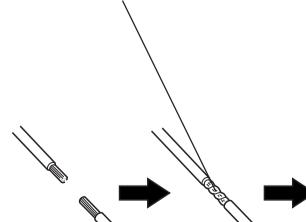

\*4 Not included with this unit.  
\*4 No suministrado con esta unidad.  
\*4 Non fourni avec cet appareil.

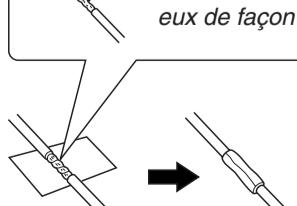

## Connecting the leads / Conexión de los conductores / Raccordement des fils

Twist the core wires when connecting.  
Retuerce los alambres de alma para conectarlos.

Torsader les âmes des fils en les raccordant.

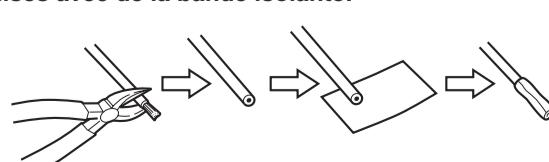

Solder the core wires to connect them securely.  
Suelde los alambres de alma para conectarlos con firmeza.  
Souder les âmes des fils pour les raccorder entre eux de façon sûre.

**CAUTION / PRECAUCION / ATTENTION:**

- To prevent short-circuit, cover the terminals of the UNUSED leads with insulating tape.
- Para evitar cortocircuitos, cubra los cables NO UTILIZADOS con cinta aislante.
- Pour éviter les court-circuits, couvrir les bornes des fils qui ne sont PAS utilisés avec de la bande isolante.

## CONNECTING THE EXTERNAL COMPONENTS

Connect the monitor to TO MONITOR jack. If the monitor cord is not long enough for connection, use the extension cord supplied with the unit. The monitor connection unit provides 2 input circuits and 1 output circuit. Connect one or two playback sources to AV 1 (INPUT 1) and/or AV 2 (INPUT 2) and connect reproducing components, such as a car receiver, to AV OUT.

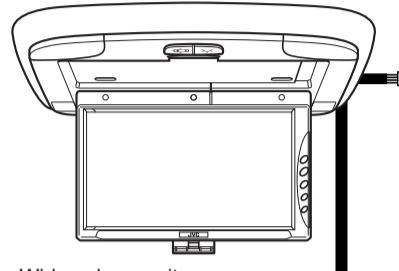

## CONEXION DE LOS COMPONENTES EXTERNOS

Conecte el monitor al jack TO MONITOR. Utilice el cable prolongador suministrado con la unidad cuando la longitud del cable del monitor no sea suficiente para la conexión. La unidad de conexión monitor provee 2 circuitos de entrada y 1 circuito de salida. Conecte uno o dos fuentes de reproducción a AV 1 (INPUT 1) y/o AV 2 (INPUT 2) y conecte los componentes de reproducción, como un receptor de audio para automóvil, a AV OUT.

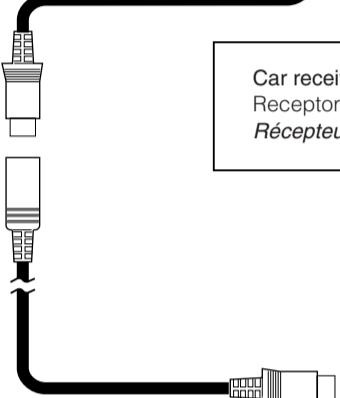

## CONNEXION DES APPAREILS EXTERIEURS

Connectez le moniteur à la prise TO MONITOR. Si le cordon du moniteur n'est pas assez long pour la connexion, utilisez le cordon prolongateur fourni avec cet appareil. Cet unité de connexion du moniteur possède 2 circuits d'entrée et un circuit de sortie. Connectez une ou deux sources de lecture à la prise AV 1 (INPUT 1) et/ou à la prise AV 2 (INPUT 2) et connectez un appareil de traitement du son tel qu'un récepteur d'autoradio à la prise AV OUT.

## 9-INCH WIDE COLOR MONITOR

9"-BREITBILD-FARBMONITOR

MONITEUR COULEUR À ÉCRAN LARGE DE 9 POUCES

9-INCH BREED KLEURENMONITOR

# KV-MR9000

For installation and connections, refer to the separate manual.

Für den Einbau und die Anschlüsse siehe das eigenständige Handbuch.

Pour l'installation et les raccordements, référez-vous au manuel séparé.

Bijzonderheden over de installatie en aansluiting van het apparaat vindt u in de desbetreffende handleiding.

\* This system cannot receive television broadcasts and is primarily designed for use with a VCR or a DVD player. Use the separately sold mobile TV tuner unit KV-C10 for optional television broadcast reception.

\* Dieses System kann keine Fernsehsignale empfangen und wurde in erster Linie für die Verwendung mit einem Videorecorder oder einem DVD-Spieler konzipiert. Verwenden Sie den separat erhältlichen Fernsehtuner KV-C10, um Fernsehsignale zu empfangen.

\* Ce système ne peut pas recevoir les émissions de télévision et il est essentiellement conçu pour l'utilisation avec un magnétoscope ou un lecteur de DVD. Utilisez le module de tuner de télévision mobile KV-C10 vendu séparément afin de pouvoir recevoir les émissions de télévision.

\* Met dit systeem kunt u geen televisie-uitzendingen ontvangen. Dit systeem is voornamelijk ontworpen voor het gebruik met een videorecorder of een DVD-speler. Gebruik de los verkrijgbare draagbare, KV-C10 TV-tuner voor ontvangst van televisie-uitzendingen.

## INSTRUCTIONS

**BEDIENUNGSANLEITUNG**  
**MANUEL D'INSTRUCTIONS**  
**GEBRUIKSAANWIJZING**

**WARNING:**

**TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE.**

**CAUTION:**

This monitor system should be used with DC 12V only. To prevent electric shocks and fire hazards, DO NOT use any other power source.

**Installation requires some special knowledge.**

**Do not install the monitor system yourself. Consult a dealer having special knowledge of this kind for safe and reliable installation.**

**WARNINGS**

- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS DRIVING, VISIBILITY OR WHICH IS PROHIBITED BY APPLICABLE LAWS AND REGULATIONS.
- THERE MAY BE LEGAL REGULATIONS DEFINING THE PERMISSIBLE INSTALLATION LOCATIONS FOR THE DISPLAY UNIT WHICH DIFFER BY COUNTRY OR BY STATE. BE SURE TO INSTALL THE DISPLAY UNIT IN A CORRECT LOCATION ACCORDING TO SUCH LAWS.
- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS THE OPERATION OF AN AIR BAG.
- THE DRIVER MUST NOT OPERATE THE MONITOR SYSTEM WHILE DRIVING.  
OPERATING THE MONITOR WHILE DRIVING MAY LEAD TO CARELESSNESS AND CAUSE AN ACCIDENT.  
\* STOP YOUR VEHICLE IN A SAFE LOCATION WHEN OPERATING THE MONITOR.
- THE DRIVER MUST NOT WATCH THE TELEVISION OR VIDEOS WHILE DRIVING.  
IF THE DRIVER WATCHES THE TELEVISION OR A VIDEO WHILE DRIVING, IT MAY LEAD TO CARELESSNESS AND CAUSE AN ACCIDENT.
- WHEN LIGHTNING OCCURS, DO NOT TOUCH THE ANTENNA WIRE OR THE TELEVISION.  
TOUCHING THE ANTENNA WIRE OR THE TELEVISION UNDER SUCH CONDITIONS MAY CAUSE ELECTROCUTION.
- KEEP THE MONITOR AT AN APPROPRIATE SOUND LEVEL WHILE DRIVING.  
DRIVING WITH THE SOUND AT A LEVEL THAT PREVENTS YOU FROM HEARING SOUNDS OUTSIDE OF AND AROUND THE VEHICLE MAY CAUSE AN ACCIDENT.
- ASK A TRAINED TECHNICIAN TO INSTALL THE MONITOR SYSTEM.  
INSTALLATION AND WIRING REQUIRE TRAINING AND EXPERIENCE.  
\* TO BE SAFE, ASK THE SALES OUTLET WHERE YOU PURCHASED THE MONITOR SYSTEM TO PERFORM THE INSTALLATION.
- BE SURE NOT TO LET THE MONITOR FALL OR BE STRONGLY IMPACTED SINCE THIS MAY CAUSE A MALFUNCTION OR FIRE.
- DO NOT USE THE MONITOR WITH THE ENGINE OFF.  
WATCHING THE MONITOR WITH THE ENGINE OFF WILL CONSUME BATTERY POWER AND MAY PREVENT THE ENGINE FROM STARTING.
- DO NOT USE ANY CEILING LIGHT BULBS OTHER THAN SPECIFIED FOR THIS UNIT (12 V, 3 W). FAILING TO DO SO MAY POSSIBLY CAUSE FIRE.
- WHEN NOT IN USE, CLOSE THE LIQUID CRYSTAL PANEL AND STORE IT INTO THE COMPARTMENT.

Thank you for purchasing a JVC product. Please read all instructions carefully before operation, to ensure your complete understanding and to obtain the best possible performance from the unit.

#### \* *For safety....*

- *Do not raise the volume level too much, as this will block outside sounds, making driving dangerous.*
- *Stop the car before performing any complicated operations.*

#### \* *Temperature inside the car....*

*If you have parked the car for a long time in hot or cold weather, wait until the temperature in the car becomes normal before operating the unit.*

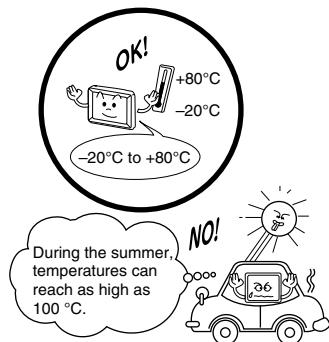

# PRECAUTIONS

ENGLISH

## Cautions for handling the liquid crystal panel

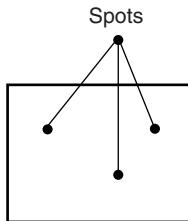

Do not expose the liquid crystal display to direct sunlight.

- Storage temperature range:  
-20 °C to +80 °C

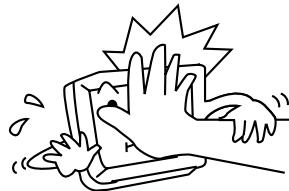

When the liquid crystal panel reaches high temperatures or low temperatures, chemical changes occur within the liquid crystal panel which may cause it to malfunction.

The red spots, blue spots and green spots on the panel surface are a normal characteristic of liquid crystal panels, and not a problem.

The liquid crystal panel is built with very high precision technology and has at least 99.99% effective image pixels. Be aware that on 0.01% of the panel there may be missing or constantly lit pixels.

Do not drop the liquid crystal display or strike it sharply.

When the temperature is very cold or very hot, the image may not appear clearly or may move slowly.

The image may not be synchronized with the sound or the image quality may decline in such environments. Note that this is not a malfunction or problem.

- Usage temperature range: 0 °C to +40 °C

0 °C or colder

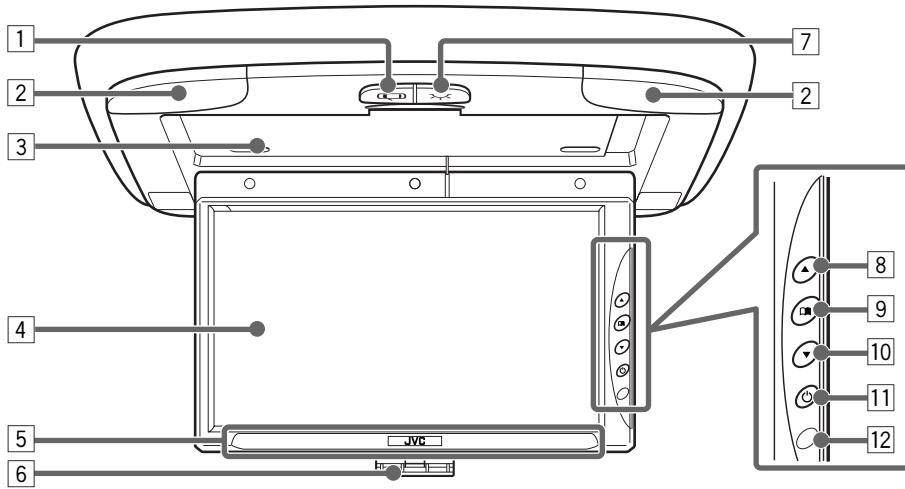

40 °C or hotter

# CONTROLS AND FEATURES

ENGLISH

## Wide color monitor

### 1 Door Sensor button (Door icon)

Activates or deactivates the door sensor which turns on the ceiling light when a door is open.

- When the door sensor is turned on, this button glows red.

### 2 Ceiling lights

### 3 Screen compartment

While not in use, close the screen and store it in this compartment.

### 4 Screen (Liquid crystal panel)

- When you open the screen, the monitor automatically turns on.
- When you close it, the monitor automatically turns off.

### 5 IR transmitter

- See "Specifications" for cordless headphones.

It is recommended to use JVC's cordless headphones KS-HP1K.

### 6 Screen hook

- Release from the screen compartment to use the monitor.
- After using the monitor, close the screen, and hook to the screen compartment.

### 7 Ceiling Light button (Ceiling light icon)

Turns on or off the ceiling lights.

### 8 Up button (Up arrow icon)

Increase the adjustment level of (or select an appropriate setting for) the item selected by the Menu button.

### 9 Menu button (Menu icon)

Select an adjustment item.

### 10 Down button (Down arrow icon)

Decrease the adjustment level of (or select an appropriate setting for) the item selected by the Menu button.

### 11 Power button (Power icon)

- Press to turn on the power.  
Each time you press the button, the input mode changes when the power is on.
- Press and hold to turn off the power.

### 12 Remote sensor

Aim at this area when operating the monitor from the remote controller.

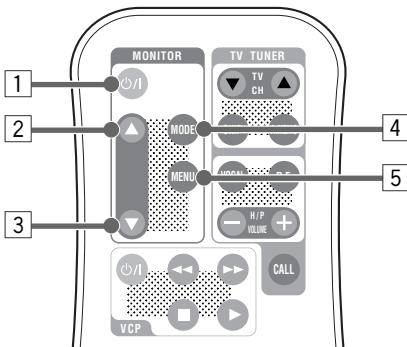

#### Note:

*When you watch the screen at an angle, the picture might not be clear. This is not a malfunction. The finest picture can be seen when you watch the screen straight-on.*

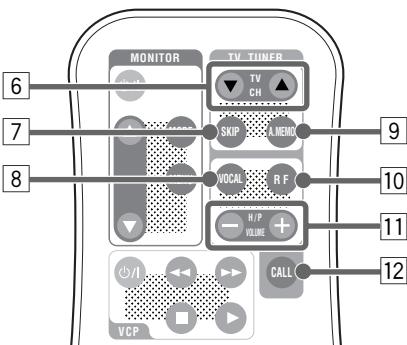

## Remote controller RM-RK500

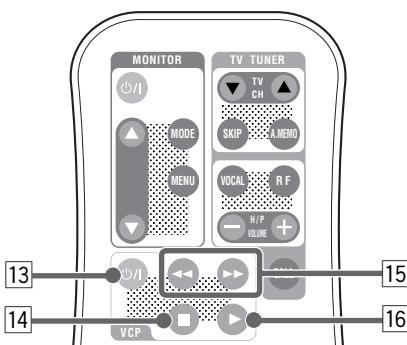

### Monitor section

### TV tuner section

### Video cassette player section

### Monitor section

- 1 Power On/Standby button (○/|)**

Turn on or off the monitor system.

- 2 Up button (▲)**

Increase the adjustment level of (or select an appropriate setting for) the item selected by the MENU button.

- 3 Down button (▼)**

Decrease the adjustment level of (or select an appropriate setting for) the item selected by the MENU button.

- 4 MODE button**

Each time you press the button, the input mode changes.

- 5 MENU button**

Call up or erase the Menu screen.

### TV tuner section

The following buttons can be used for operating JVC's KV-C10.

- For specific operations, refer to the instructions for the KV-C10.

- 6 TV CH buttons (▲/▼)**

- 7 SKIP button**

- 8 VOCAL button**

- 9 A.MEMO (auto memory) button**

- 10 RF (radio frequency) button**

- 11 H/P (headphones) VOLUME buttons (+/-)**

- 12 CALL button**

### Video cassette player (VCP) section

The following buttons can be used for operating JVC's KV-V8 or KV-V10.

- For specific operations, refer to the instructions for the KV-V8 or KV-V10

- 13 Power On/Standby button (○/|)**

- 14 ■ (Stop) button**

- 15 << (Rewind)/>> (Fast-forward) buttons**

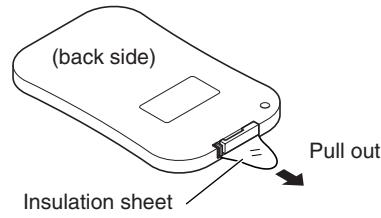

- 16 ▶ (Play) button**

## Before using the remote controller:

When you use the remote controller for the first time, **pull out the insulation sheet** as illustrated to the right.

- Aim the remote controller directly at the remote sensor on the color monitor. Make sure there is no obstacle in between.
- Do not expose the remote sensor to strong light (direct sunlight or artificial lighting).

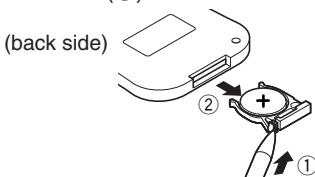

(The battery has been installed when shipped from the factory.)

## Replacing the battery

When the controllable range or effectiveness of the remote controller decreases, replace the battery.

### 1. Remove the battery holder.

While pushing in the lock using a ball-point pen or a similar tool (①), pull out the battery holder in the direction indicated by the arrow (②).

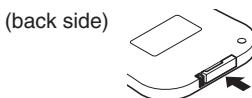

### 2. Replace the battery.

Slide a new battery into the holder with the + side facing upwards so that the battery is fixed in the holder.

### 3. Return the battery holder.

Insert the battery holder again pushing it until you hear a clicking sound.

### **WARNING:**

- Store the battery in a place which children cannot reach.  
*If a child accidentally swallows the battery, immediately consult a doctor.*
- Do not recharge, short, disassemble or heat the battery or dispose of in a fire.  
*Doing any of these things may cause the battery to give off heat, crack or start a fire.*
- Do not leave the battery with other metallic materials.  
*Doing this may cause the battery to give off heat, crack or start a fire.*
- When throwing away or saving the battery, wrap in tape and insulate; otherwise, it may cause the battery to give off heat, crack or start a fire.
- Do not poke the battery with tweezers or similar tools.  
*Doing this may cause the battery to give off heat, crack or start a fire.*

### **CAUTION:**

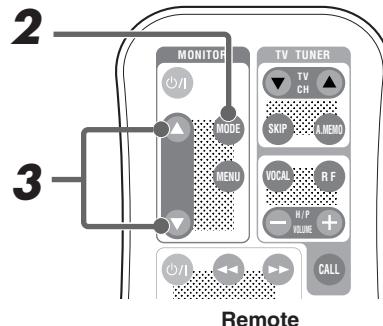

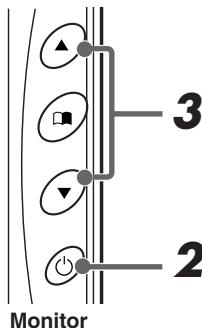

*DO not leave the remote controller in a place (such as dashboard) exposed to direct sunlight for a long time. Otherwise, it may be damaged.*

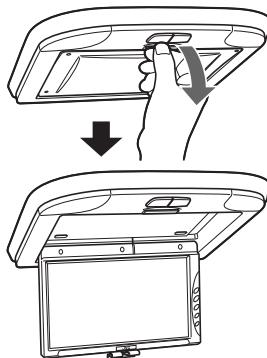

# BASIC OPERATIONS

## Preparation

Before operating the monitor system, make sure that all external components are correctly connected and installed.

1

Open the liquid crystal panel.

The monitor turns on.

**Note:**

If the liquid crystal panel is already open, press the Power button (  $\text{O/I}$  ) on the unit or the Power On/Standy button (  $\text{O/I/I}$  ) on the remote control to turn on the monitor.

**CAUTION:**

When not in use, close the liquid crystal panel and store it into the compartment; otherwise it may obstruct the visibility through the rearview mirror.

2

Monitor

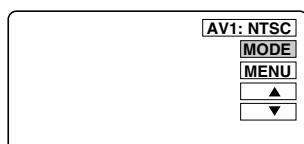

Remote

Select the input source.

Each time you press the button, the input source changes as follows:

- When KV-C10 is not connected:

→ AV 1 → AV 2 →

Ex. When "AV 1" is selected

- When KV-C10 is connected:

→ TV → VIDEO1 → VIDEO2 →

Ex. When "VIDEO 1" is selected

## 3

Monitor

Remote

Select the video format—NTSC or PAL, while the indication of the video format is still on the screen.

Each time you press the button, the video format alternates between NTSC (initial setting) and PAL. Select whichever matches to the incoming signals.

**Note:**

*When not using the KV-C10: You can preset the video format separately for “AV 1” and “AV 2.”*

## 4

Play back the external component.

To operate the external components, refer to the manuals for the connected components.

## 5

Select the external component and adjust the volume on the car receiver.

### To check the current input source

**On the monitor:** Press the Power button (⊕) once.

**On the remote:** Press the MODE button once.

The on-screen display appears for about 5 seconds.

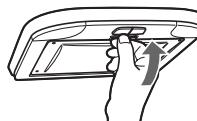

Monitor

Remote

### To turn off the power

Close the liquid crystal panel.

- You can also turn off the power by holding the Power button (⊕) on the unit, or by pressing the Power On/Standy button (⊕/I) on the remote control briefly.

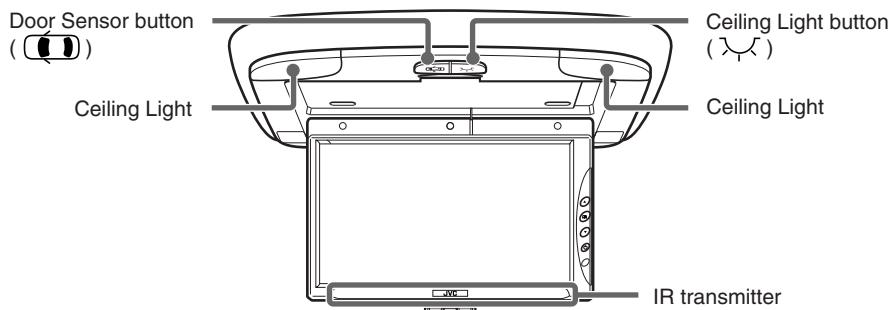

Monitor

Remote

## Other Basic Operations

### Activating the door sensor

You can activate or deactivate the door sensor by pressing the Door Sensor button (  ). When you activate the door sensor, the Door Sensor button glows red if the ignition switch of the car is turned to "ON" or to "ACC."

- With the door sensor activated, the ceiling lights go on when a door is open.

### Turning on or off the ceiling lights

You can turn on or off the ceiling lights on the monitor by pressing the Ceiling Light button (  ).

#### Note:

*When the Door Sensor button is on, the ceiling lights go off when the door is opened then closed even if the Ceiling Light button has been turned on.*

### Selecting the RF signals to the receiver

#### When you use JVC FM modulator KS-IF200 only:

You can listen to playback sounds from the external component through the receiver even if it is equipped with no line input.

- Refer also to the instructions of KS-IF200.

#### When KV-C10 is connected:

Press the RF button on the remote controller.

Each time you press the button, "RF ON" and "RF OFF" alternate and the sounds you hear through the car speakers change accordingly.

**RF ON** : Select to listen to the sound of the external component.

**RF OFF** : Select to listen to the radio (through the receiver).

### Using optional cordless headphones

You can use JVC's optional cordless headphones KS-HP1K to listen to the playback sounds of the external component.

Playback sounds of the external component are transmitted through this IR transmitter to the cordless headphones.

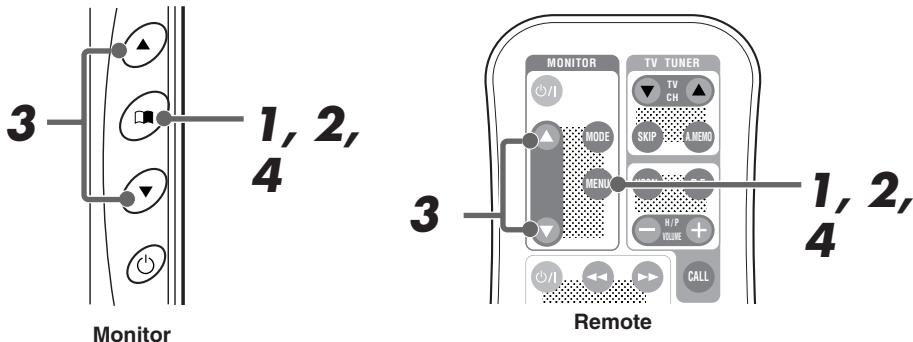

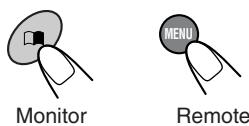

## Using the Menu

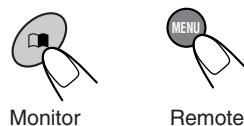

You can make your own adjustments using the Menu.

- For the adjustable items, see the next page.

### Basic procedure

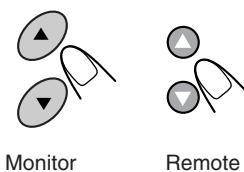

**1**

Call up the Menu.

**2**

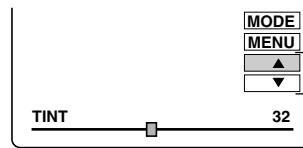

Select an item you want to adjust.

Each time you press the button, the cursor moves to the next item.

**3**

Adjust the level of the selected item (or select an appropriate setting for the selected item).

- When "RESET" is selected in the above step, the Color, Brightness, and Tint settings are reset.

Ex: When adjusting Tint

CONTINUED ON THE NEXT PAGE

4

Monitor

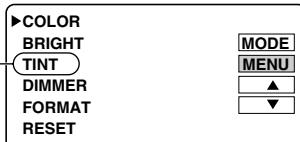

Remote

## Exit from the Menu.

- Press the button repeatedly until the Menu is erased.

## Adjustable items on the menu

Appears only for  
NTSC video format

### Note:

*Menu goes off if no operation is done for about 5 seconds.*

- COLOR** : Adjust the color of the picture—lighter or darker.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

- BRIGHT** : Adjust this if the picture is too bright or too dark.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

- TINT** : Adjust this if the human skin color is unnatural.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

### Note:

*This can be shown and adjusted when the video format is NTSC.*

- DIMMER** : Activate the dimmer if the inside of the car is too bright to view the picture on the screen.  
 • Selectable settings: ON/OFF  
 • Initial setting: OFF

**FORMAT**

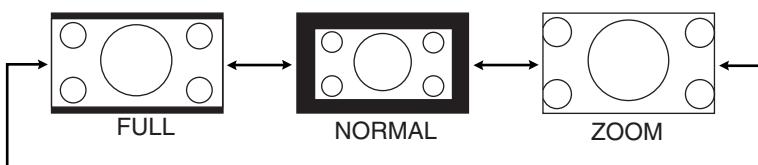

- : Select an appropriate display size.  
• Selectable settings: FULL/NORMAL/ZOOM  
• Initial setting: FULL

FORMAT

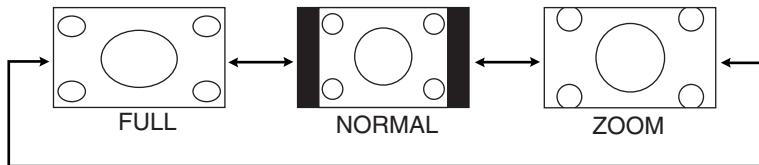

FULL

**When viewing 16:9 video signals:**

- FULL:** Pictures are fully shown on the screen.  
• The black bars will be shown both at the top and the bottom of the screen.
- NORMAL:** Pictures are shown at the center of the screen.
- ZOOM:** Pictures are enlarged on the screen so that no black bars will be shown on the screen. (The entire picture cannot be shown on the screen.)

**When viewing 4:3 video signals:**

- FULL:** Pictures are enlarged horizontally and are fully shown on the screen.
- NORMAL:** Pictures are shown at the center of the screen.  
• The black bars will be shown at the left and right sides of the screen.
- ZOOM:** Pictures are enlarged on the screen so that no black bars will be shown on the screen. (The entire picture cannot be shown on the screen.)

**RESET**

- : Reset the Color, Brightness, and Tint levels to the initial settings.

# MAINTENANCE

## To prevent damage to the exterior

- Do not apply pesticides, benzine, thinner or other volatile substances to the unit.  
The cabinet surface primarily consists of plastic materials.
- Do not wipe with benzine, thinner or similar substances because this will result in discoloration or removal of the paint.
- When a cloth with a cleansing chemical is used, follow the caution points.
  - Do not leave the unit in contact with rubber or vinyl products for long periods of time.
  - Do not use cleansers which have polishing granules because this could damage the surface of the unit.

## Clean off dirt by wiping lightly with a soft cloth

When the unit is very dirty, wipe with a well-wrung cloth dipped in a kitchen cleanser (neutral) thinned by water and then go over the same surface with a dry cloth.

(Since there is the possibility of water drops getting inside of the unit, do not directly apply cleanser to the surface.)

**Caution:**

*If water drops or similar wet substances get inside of the monitor via the liquid crystal panel surface, it may cause a malfunction.*

# TROUBLESHOOTING

What appears to be trouble is not always serious. Check the following points before calling a service center.

Symptoms	Causes	Remedies
• Colored spots (red, blue and green) appear on the screen.	This is a characteristic of liquid crystal panels and is not a malfunction.	See "Note" on page 15.
• No picture appears and sound is not heard.	Correct input mode is not selected.	Select the correct input mode.
• Picture shakes vertically or colors are abnormal.	The video format (NTSC/PAL) is not correct.	Select the correct video format.
• Remote controller does not work. • Cordless headphones (not supplied) do not work.	The battery has lost its charge.	Install a new battery.
	Remote sensor is exposed to strong light.	Do not expose the remote sensor to strong light.

## WIDE COLOR MONITOR

**Display:**

9 inch Liquid crystal panel

**Number of Pixel:**

336,960 pixels (480 vertical × 234 horizontal × 3)

**Drive Method:**

TFT (Thin Film Transistor) active matrix format

**Cordless Audio:**

Infrared audio transmitter (Support IR receiver stereo headphones)

L-channel: 2.3 MHz

R-channel: 2.8 MHz

Effective listening angle: 30°

Effective range: 4 m

**Dimensions (W × H × D):**

314 mm × 38 mm × 257 mm

including Shroud

Mass: 1.2 kg including Shroud

## MONITOR CONNECTION UNIT

**Input**

Video: RCA pin × 2 circuits  
1 V(p-p), 75 Ω

Audio: RCA pin × 2 circuits  
0.5 V(rms)

Tuner: 8-pin DIN connector  
(only for JVC's KV-C10)

**Output**

Display:  
13-pin DIN connector

Video: RCA pin × 1 circuit  
1 V(p-p), 75 Ω

Audio: RCA pin × 1 circuit  
0.5 V(rms)

**Dimensions (W × H × D):**

108.5 mm × 28.5 mm × 78 mm  
excluding projections

Mass: 160 g

## GENERAL

**Power Requirement**

Operating Voltage:

DC 14.4 V (11 V to 16 V allowance)

**Grounding System:**

Negative ground

**Allowable Operating Temperature:**

0°C to +40°C

**Allowable Storage Temperature:**

-20°C to +80°C

Ceiling light bulb: 12 V / 3 W

## ACCESSORIES

Metal plate × 1

Shroud × 1

Extension cord × 1

Power cord × 1

Ceiling light cord × 1

Remote controller (with the battery) × 1

Screw (M4 × 5 mm) × 4

Screw (M4 × 12 mm) × 4

*Design and specifications are subject to change without notice.*

**Note:**

*The liquid crystal panel is built with very high precision technology and has at least 99.99% effective image pixels. Be aware that on 0.01% of the panel there may be missing pixels or constantly lit pixels.*

## ENGLISH

### WARNING

Installation requires some special knowledge. Do not install the monitor system yourself. Consult a dealer having special knowledge of this kind for safe and reliable installation.

- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS DRIVING, VISIBILITY OR WHICH IS PROHIBITED BY APPLICABLE LAWS AND REGULATIONS.**

If the monitor is installed in a location which obstructs forward visibility or operation of the air bag or other safety equipment or which interferes with operation of the vehicle, it may cause an accident.

- NEVER USE BOLTS OR NUTS FROM THE VEHICLE'S SAFETY DEVICES FOR INSTALLATION.**

If bolts or nuts from the steering wheel, brakes or other safety devices are used for installation of the monitor, it may cause an accident.

- ATTACH THE WIRES CORRECTLY.**

If the wiring is not correctly performed, it may cause a fire or an accident. In particular, be sure to run and secure the lead wire so that it does not get tangled with a screw or the moving portion of a seat rail.

- USE WITH DC 12 V NEGATIVE GROUND VEHICLES.**

This monitor system is only for use in a DC 12 V negative ground vehicle.

It cannot be used in large trucks or diesel vehicles which are DC 24 V vehicles.

If it is used in the wrong type of vehicle, it may cause a fire or an accident.

- To prevent short circuits, we recommend that you disconnect the battery's negative terminal and make all electrical connections before installing the unit. If you are not sure how to install this unit correctly, have it installed by a qualified technician.**

- Avoid installing the monitor connection unit in the following places**

- Where it would hinder your safe driving.
- Where it would be exposed to direct sunlight or heat directly from the heater or placed in an extremely hot place.
- Where it would be subject to rain, water splashes or excessive humidity.
- Where it would be subject to dust.
- Where it would be positioned on an unstable place.
- Where it could damage the car's fittings.
- Where proper ventilation would not be maintained, such as under a floor mat.

### CAUTION

Since there may be legal regulations defining the permissible installation locations for the color monitor which differ by country or by state, be sure to install the color monitor in a location complying with any such laws.

## DEUTSCH

### WARNUNGEN

Die Installation erfordert entsprechende Fachkenntnisse.  
Installieren Sie das Monitorsystem nicht selbst. Wenden Sie sich für eine sichere und fachgerechte Installation an einen Vertragshändler.

- INSTALLIEREN SIE DEN MONITOR NICHT AN EINEM ORT, AN DEM DAS FÜHREN DES FAHRZEUGS ODER DIE SICHT BEEINTRÄCHTIGT WIRD ODER DER AUFGRUND GELTENDER GESETZE UND VERORDNUNGEN UNZULÄSSIG IST.**

Wenn Sie den Monitor an einem Ort installieren, an dem die Voraussicht oder der Betrieb des Airbags oder anderer Sicherheitseinrichtungen des Fahrzeugs beeinträchtigt wird oder das Führen des Fahrzeugs gestört wird, kann er die Ursache für einen Unfall sein.

- VERWENDEN SIE NIEMALS SCHRAUBEN ODER MUTTERN DER SICHERHEITSEINRICHTUNGEN DES FAHRZEUGS ZUR INSTALLATION.**

Wenn Schrauben oder Muttern des Lenkrads, der Bremsen oder anderer Sicherheitseinrichtungen zur Installation des Monitors verwendet werden, kann ein Unfall verursacht werden.

- BRINGEN SIE DIE DRÄLTE ORDNUNGSGEMÄSS AN.**

Wenn die Verkabelung nicht richtig durchgeführt wird, entsteht hierdurch möglicherweise ein Feuer oder Unfall. Achten Sie insbesondere darauf, dass das Kabel so zu verlegen und zu sichern, dass es sich nicht mit einer Schraube oder dem beweglichen Teil einer Sitzschiene verheddet.

- VERWENDEN SIE DAS GERÄT NUR IN FAHRZEUGEN MIT 12-V-GLEICHSTROM-SYSTEM UND NEGATIVER ERDUNG.**

Dieser Monitor darf nur in Fahrzeugen mit einem 12-V-Gleichstromsystem und Negativer Erdung verwendet werden. Er darf nicht in großen Lkw oder Diesel-fahrzeugen mit 24-V-Gleichstrom-systemen verwendet werden.

Wenn der Monitor im falschen Fahrzeugtyp verwendet wird, kann er ein Feuer oder einen Unfall verursachen.

- Um einen Kurzschluß zu vermeiden, empfiehlt es sich, den negativen Pol der Batterie abzutrennen und alle elektrischen Anschlüsse vorzunehmen, bevor der Monitor installiert wird. Wenn Sie sich nicht sicher sind, wie das Gerät installiert wird, lassen Sie es von einem qualifizierten Techniker einbauen.**

- Die Monitor-Anschlußeinheit nicht an den folgenden Orten installieren**

- an denen die Fahrsicherheit gefährdet wäre.
- an denen es direkt Sonneneinstrahlung oder Hitzeinwirkung durch die Heizung ausgesetzt wäre. Installieren Sie es auch nicht an einem extrem heißen Ort.
- an denen es Regen, Wasserspritzer oder übermäßiger Feuchtigkeit ausgesetzt wäre.
- an denen es Staub ausgesetzt wäre.
- die instabil sind.
- an denen die Fahrzeugarmaturen beschädigt werden könnten.
- an denen keine ordnungsgemäße Belüftung aufrechterhalten werden kann, z.B. unterhalb von Bodenmatte.

### VORSICHT

Da es möglicherweise gesetzliche Vorschriften gibt, mit denen zulässige Installationsorte für den Farbmonitor geregelt werden und die von Staat zu Staat oder Bundesland zu Bundesland unterschiedlich sein können, vergewissern Sie sich, dass Sie den Farbmonitor an einem Ort installieren, der mit den gesetzlichen Vorschriften im Einklang steht.

## FRANÇAIS

### AVERTISSEMENT

L'installation nécessite certaines connaissances spéciales.  
N'installez pas le moniteur vous-même. Consultez un revendeur possédant les connaissances spéciales nécessaires pour une installation correcte et sûre.

- N'INSTALLEZ PAS LE MONITEUR DANS UN ENDROIT QUI GÈNE LA CONDUITE, LA VISIBILITÉ OU QUI EST INTERDIT PAR LE CODE DE LA ROUTE ET LES RÈGLEMENTS.**

Si le moniteur était installé à un emplacement gênant la visibilité avant, ou le déploiement du sac à air, et autres dispositifs de sécurité, ou à un emplacement gênant pour la conduite du véhicule, comme près du levier des vitesses ou de la pédale du frein, cela risquerait de provoquer des accidents.

- NE JAMAIS UTILISER POUR L'INSTALLATION DES BOULONS OU DES ÉCROUS PROVENANT DES DISPOSITIFS DE SÉCURITÉ DU VÉHICULE.**

Si l'on utilisait pour l'utilisation du moniteur des boulons et des écrous cannibalisés du volant, des freins ou autres dispositifs de sécurité, cela risquerait de provoquer des accidents.

- ATTACHER LES CORDONS CORRECTEMENT.**

Si le câblage n'est pas exécuté correctement, cela risque de provoquer un incendie ou autre accident. Veiller, en particulier, à tirer et attacher les fils en sorte qu'ils ne s'accrochent pas à une vis ou ne se coincent dans les parties mobiles des rails des sièges.

- USAGE SUR LES VÉHICULES DE 12 V CC AVEC NÉGATIF À LA MASSE.**

Ce moniteur ne peut être utilisé que sur les véhicules de 12 V CC avec négatif à la masse.  
Il ne peut pas être utilisé sur les gros camions ou les véhicules diesel de 24 V CC.

S'il était utilisé sur un type de véhicule inadéquat cela risquerait de provoquer un incendie ou autres accidents.

- Pour éviter les courts-circuits, nous recommandons que vous déconnectiez la borne négative de la batterie et réalisez toutes les connexions électriques avant d'installer l'appareil. Si vous n'êtes pas sûr de savoir comment installer cet appareil correctement, faites-le installer par un technicien qualifié.**

- Evitez d'installer l'unité de connexion du moniteur dans les endroits suivants.**

- Où il peut gêner la conduite de la voiture.
- Où il est exposé à la lumière directe du soleil, à la chaleur directe du chauffage ou placé dans un endroit très chaud.
- Où il est sujet à la pluie, aux éclaboussures ou à une humidité excessive.
- Où il est sujet à la poussière.
- Où il est positionné dans un endroit instable.
- Où il peut endommager les accessoires de la voiture.
- Où une ventilation correcte ne peut pas être maintenue, comme sous un tapis de sol.

## NEDERLANDS

### WAARSCHUWING

Het installeren vereist een specifieke kennis. Installeer het monitorsysteem derhalve niet zelf. Raadpleeg daarop de plaats van aankoop of een vakman die deze speciale kennis heeft voor het veilig en betrouwbaar installeren.

- INSTALLEER DE MONITOR NIET OP EEN PLAATS WAAR DIT HET RIJDEN, OF HET UITZICHT BELEMKT, OF WAAR DIT BIJ WET OF ANDERE REGELGEVING IS VERBODEN.**

Als de monitor op een plaats is geïnstalleerd waar dit het uitzicht op de weg belemmt, of de werking van de airbag of dit andere veiligheidsvoorzieningen hindert, of waar het besturen van het voertuig in gevaar wordt gebracht, kan dit tot een ongeval leiden.

- GEBRUIK NOOIT SCHROEVEN OF MOEREN VOOR DE INSTALLATIE DIE NODIG ZIJN VOOR DE VEILIGHEIDSVOORZIENINGEN VAN DE AUTO.**

Als schroeven of moeren van het stuur, de rem of andere veiligheidsvoorzieningen worden gebruikt voor de installatie van de monitor, kan dit tot een ongeval leiden.

- SLUIT DE BEDRADING OP DE JUISTE WIJZE AAN.**

Als de bedrading verkeerd wordt aangesloten, kan dit tot brand of een ongeval leiden. Let er met name op dat de stroomvoorzieningskabel nergens achter blijft steken of in contact komt met de bewegende delen van de rails van de stoelen.

- ALLEEN GEBRUIKEN IN COMBINATIE MET VOERTUIGEN DIE WERKEN MET EEN NEGATIEVE AARDING VAN 12 V GELIJKSTROOM.**

Dit monitorsysteem is alleen bedoeld voor voertuigen die zijn gebaseerd op een negatieve aarding van 12 V gelijkstroom.

Het systeem kan niet worden gebruikt in vrachtwagens of diesels, die met 24 V gelijkstroom werken.

Wanneer dit systeem in een verkeerd type voertuig wordt gebruikt, kan dit tot brand of een ongeval leiden.

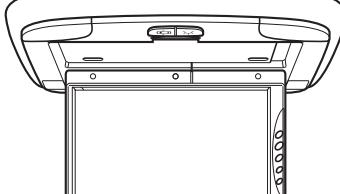

- Ter voorkoming van kortsluiting, raden we aan dat u de negatieve aansluiting van de accu losmaakt en daarna alle benodigde verbindingen tot stand brengt alvorens de eenheid te installeren. Als u niet zeker weet hoe u de eenheid moet installeren, kunt u dit beter door een erkend vakman laten doen.**

- Installeer het monitor-aansluitgedeelte niet op de volgende plaatsen**

- waar deze een gevaar vormt voor het besturen van de auto.
- waar deze wordt blootgesteld aan direct zonlicht, een verwarming of een andere hittebron.
- waar deze wordt blootgesteld aan regen, spatwater of extreme vochtigheid.
- waar deze wordt blootgesteld aan stof.
- waar deze op een instabiele ondergrond komt te staan.
- waar deze de auto kan beschadigen.
- waar geen ventilatie is, zoals onder een vloermat.

### Parts list for installation and connection

The following parts are provided with this unit. After checking them, please set them correctly.

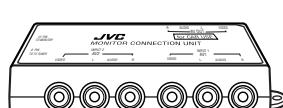

Wide color monitor (center unit and shroud)  
Breitbild-Farbmonitor  
(Mittlere Einheit und Abschirmung)  
Moniteur couleur à écran large  
(unité centrale et socle  
de montage au plafond)  
Breedkleur-monitor  
(centrale toestel en versteviging)

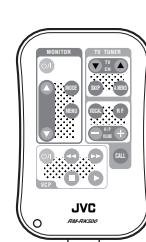

### Teileliste für den Einbau und Anschluß

Die folgenden Teile werden zusammen mit diesem Gerät geliefert.

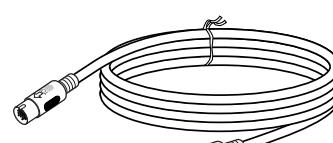

Nach Ihrer Überprüfung, die Teile richtig einsetzen.

Monitor connection unit  
Monitor-Anschlußeinheit  
Unité de connexion du moniteur  
Aansluitgedeelte van de monitor

Remote controller  
with a battery (CR2025) installed  
Fernbedienung mit einer  
eingebauten Batterie des Typs  
CR2025  
Télécommande  
avec une pile en place (CR2025)  
Afstandsbediening met een batterij  
(CR2025) geplaatst

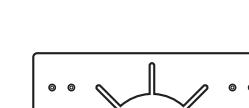

Extension cord (4 m)  
Verlängerungskabel (4 m)  
Cordon prolongateur (4 m)  
Verlengkabel (4 m)

### Liste des pièces pour l'installation et raccordement

Les pièces suivantes sont fournies avec cet appareil.  
Après vérification, veuillez les placer correctement.

Remote controller  
with a battery (CR2025) installed  
Fernbedienung mit einer  
eingebauten Batterie des Typs  
CR2025

Afstandsbediening met een batterij  
(CR2025) geplaatst

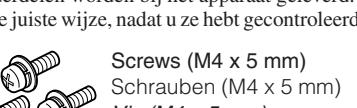

Metal plate  
Metallplatte  
Plaque métallique  
Metalen plaat

Power cord  
Spannungsversorgungskabel  
Cordon d'alimentation  
Electriciteitskabel

### Lijst van onderdelen die u bij installatie en aansluiting nodig hebt

De volgende onderdelen worden bij het apparaat geleverd. Installeer ze op de juiste wijze, nadat u ze hebt gecontroleerd.

Screws (M4 x 5 mm)  
Schrauben (M4 x 5 mm)  
Vis (M4 x 5 mm)  
Schroef (M4 x 5 mm)

Screws (M4 x 12 mm)  
Schrauben (M4 x 12 mm)  
Vis (M4 x 12 mm)  
Schroef (M4 x 12 mm)

Ceiling light cord  
Innenbeleuchtungskabel  
Cordon de plafonnier  
Plafondlicht-snoer

### TROUBLESHOOTING

- The fuse blows.**  
\* Are the red and black leads connected correctly?
- Power cannot be turned on.**  
\* Is the yellow lead connected?
- Picture does not come on screen.**  
\* Is the correct input selected?

### FEHLERSUCHE

- Die Sicherung brennt durch.**  
\* Sind das rote und das schwarze Kabel ordnungsgemäß angeschlossen?
- Die Stromversorgung kann nicht eingeschaltet werden.**  
\* Ist das gelbe Kabel angeschlossen?
- Auf dem Bildschirm erscheint kein Bild.**  
\* Wurde der richtige Eingang ausgewählt?

## INSTALLATION

- The following illustration shows a typical installation. However, you should make adjustments corresponding to your specific car. If you have any questions or require information regarding installation kits, consult your JVC IN-CAR ENTERTAINMENT dealer or a company supplying kits.

### Mounting the color monitor

Installation procedure varies among different cars. The following is an example.

**It is recommended to have the monitor system installed by a qualified technician.**

#### Before mounting the monitor to the ceiling:

- Perform the required external connections first.

## Einbau

- Die folgende Abbildung zeigt einen typischen Einbau. Dennoch müssen Sie entsprechend Ihrem jeweiligen Auto Anpassungen vornehmen. Bei irgendwelchen Fragen oder wenn Sie Informationen hinsichtlich des Einbausatzes brauchen, wenden Sie sich an Ihren JVC-Autoradiofachhändler oder ein Unternehmen das diese Einbausätze vertreibt.

## INSTALLATION

- L'illustration suivante est un exemple d'installation typique. Cependant, vous devez faire les ajustements correspondant à votre voiture particulière. Si vous avez des questions ou avez besoin d'information sur des kits d'installation, consulter votre revendeur d'autoradios JVC ou une compagnie d'approvisionnement.

## INSTALLATIE

- Op de volgende afbeelding kunt u zien hoe de installatie normaal gesproken, in zijn werk gaat. U moet echter bij de installatie rekening houden met de bijzonderheden van uw eigen auto. Neem bij vragen voor meer bijzonderheden over inbouwpakketten contact op met uw JVC auto audiohandelaar of een dealer of een bedrijf dat inbouwpakketten levert.

\* When shipped from the factory, these three parts are temporarily assembled as one unit with the screws.

\* Diese drei Teile sind werkseitig vorübergehend als eine Einheit mit den Schrauben zusammengebaut.

\* À l'expédition de l'usine, ces trois pièces sont provisoirement assemblées en un seul élément avec les vis.

\* Bij het verlaten van de fabriek zijn deze drie onderdelen tijdelijk als één gedeelte gemonteerd met de schroeven.

### Monitor befestigen

Das Installationsverfahren hängt von dem jeweiligen Fahrzeugtyp ab. Das folgende ist ein Beispiel.

**Es wird empfohlen, daß das Monitorsystem durch einen qualifizierten Techniker installiert wird.**

#### Vor der Installation des Monitors an der Decke:

- Schließen Sie die externen Anschlüsse zuerst an.

### Montage du moniteur couleur

La procédure d'installation varie d'une voiture à l'autre. La procédure qui suit est un exemple.

**Il est recommandé de faire installer le système de moniteur par un technicien qualifié.**

#### Avant de fixer le moniteur au plafond:

- Réalisez d'abord les connexions extérieures nécessaires.

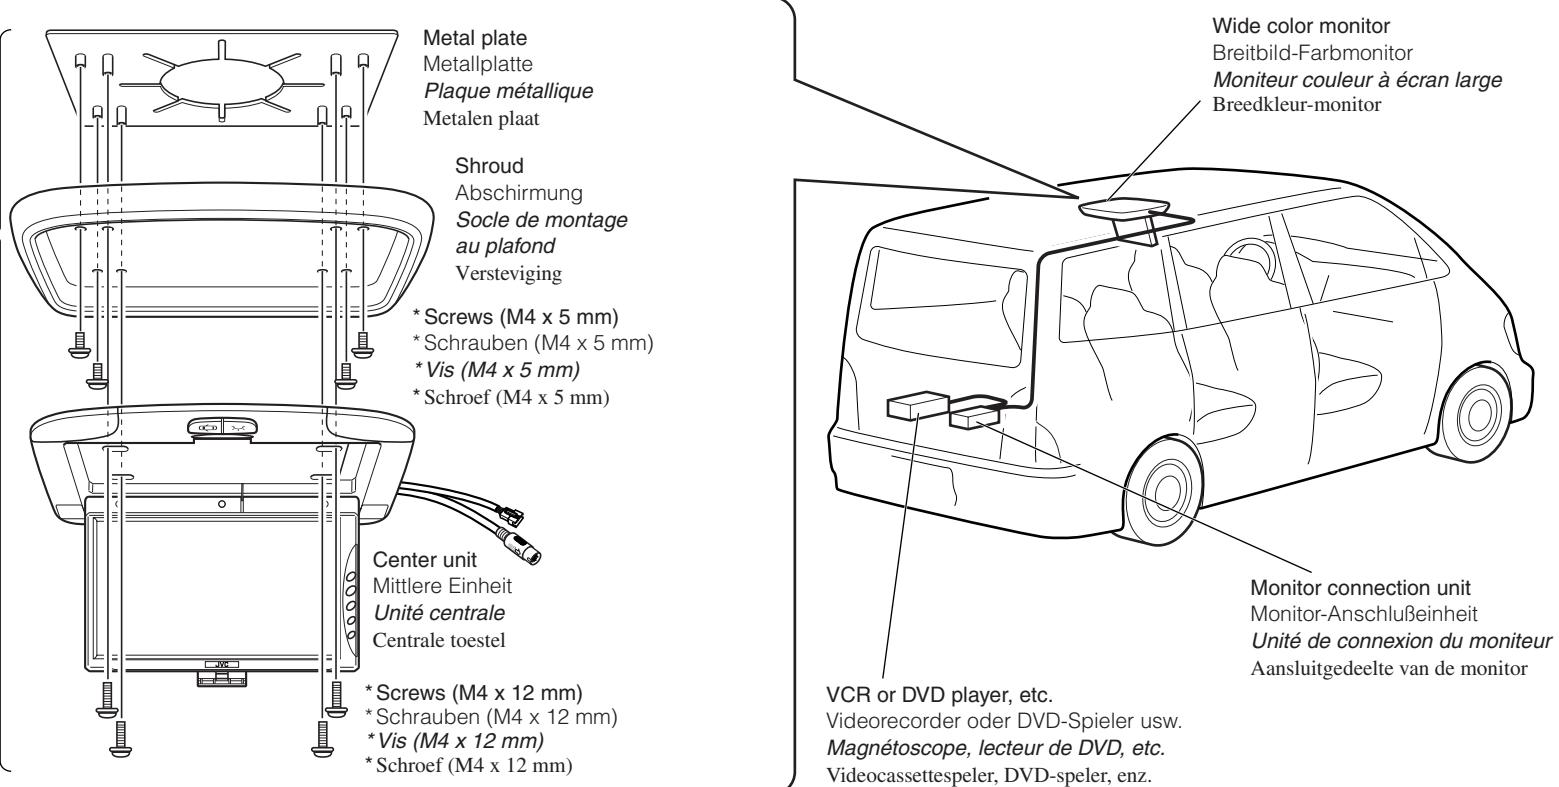

**Bevestigen van de kleurenmonitor**

De installatiewijze verschilt afhankelijk van het type auto. Hier wordt slechts een voorbeeld gegeven.

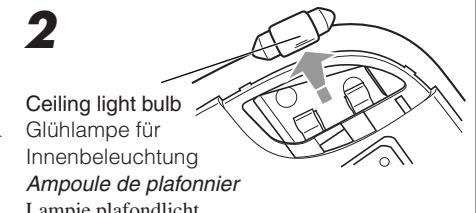

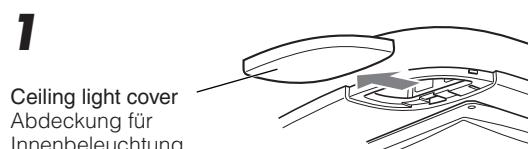

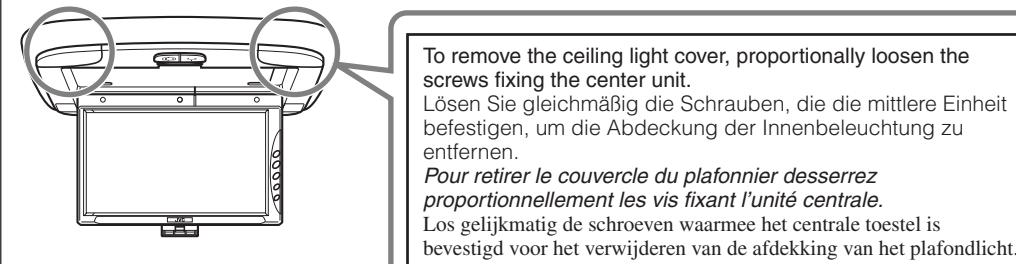

**Laat bij voorkeur het monitorsysteem door een erkend technicus installeren.**

#### Alvorens de monitor aan het plafond te bevestigen:

- Maak eerst de vereiste externe verbindingen.

## Replacing the ceiling light bulbs / Glühlampen der Innenbeleuchtung austauschen / Remplacement des ampoules du plafonnier / Vervangen van de lampjes van het plafondlicht

## ELECTRICAL CONNECTIONS

## ELEKTRISCHE ANSCHLÜSSE

To prevent short circuits, we recommend that you disconnect the battery's negative terminal and make all electrical connections before installing the unit. If you are not sure how to install this unit correctly, have it installed by a qualified technician.

Zu Vermeidung von Kurzschlüssen empfehlen wir, daß Sie den negativen Batterieanschluß abtrennen und alle elektrischen Anschlüsse herstellen, bevor das Gerät eingebaut wird. Sind Sie sich über den richtigen Einbau des Geräts nicht sicher, lassen Sie es von einem qualifizierten Techniker einbauen.

Pour éviter tout court-circuit, nous vous recommandons de débrancher la borne négative de la batterie et d'effectuer tous les raccordements électriques avant d'installer l'appareil. Si l'on n'est pas sûr de pouvoir installer correctement cet appareil, le faire installer par un technicien qualifié.

Om kortsleut te voorkomen adviseren wij u om de minpool van de accu los te maken en alle elektrische verbindingen tot stand te brengen voordat u het apparaat in de auto installeert. Als u niet zeker weet hoe u dit apparaat moet installeren, kunt u dit beter door een daartoe gekwalificeerde technicus laten doen.

#### Note:

This unit is designed to operate on **12 V DC, NEGATIVE ground electrical systems**. If your vehicle does not have this system, a voltage inverter is required, which can be purchased at JVC IN-CAR ENTERTAINMENT dealers.

- Replace the fuse with one of the specified ratings. If the fuse blows frequently, consult your JVC IN-CAR ENTERTAINMENT dealer.

#### Hinweis:

Dieses Gerät ist für den Betrieb in **elektrischen Anlagen mit 12 V Gleichstrom und (-) Erdung** ausgelegt. Verfügt Ihr Fahrzeug nicht über diese Anlage, ist ein Spannungsomtwerter erforderlich, der bei JVC-Autoradiofachhändler erworben werden kann.

- Die Sicherung mit einer der entsprechenden Nennleistung ersetzen. Brennt die Sicherung häufig durch, wenden Sie sich an Ihren JVC-Autoradiofachhändler.

#### Remarque:

Cet appareil est conçu pour fonctionner sur des sources de courant continu de **12 V à masse NEGATIVE**. Si votre véhicule n'offre pas ce type d'alimentation, il vous faut un convertisseur de tension, que vous pouvez acheter chez un revendeur d'autoradios JVC.

- Remplacer le fusible par un de la valeur précisée. Si le fusible saute souvent, consulter votre revendeur d'autoradios JVC.

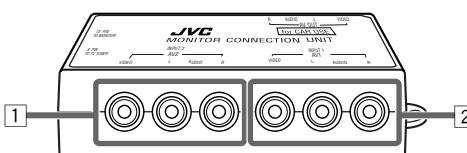

#### Opmerking:

Dit apparaat mag worden gebruikt bij elektrische systemen die werken op **12 V gelijkstroom met negatieve aarding**. Als uw auto niet is uitgerust met een dergelijk systeem, is een spanningsomtwerter vereist. Dit instrument kan worden aangeschaft bij JVC auto audiohandelaar.

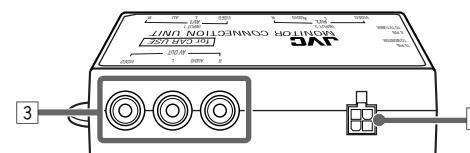

- Vervang de zekering door een exemplaar met het aangegeven vermogen. Als de zekering vaak doorslaat, moet u uw JVC auto audiohandelaar raadplegen.

## Typical Connections / Typische Anschlüsse / Raccordements typiques / Normale verbindingen

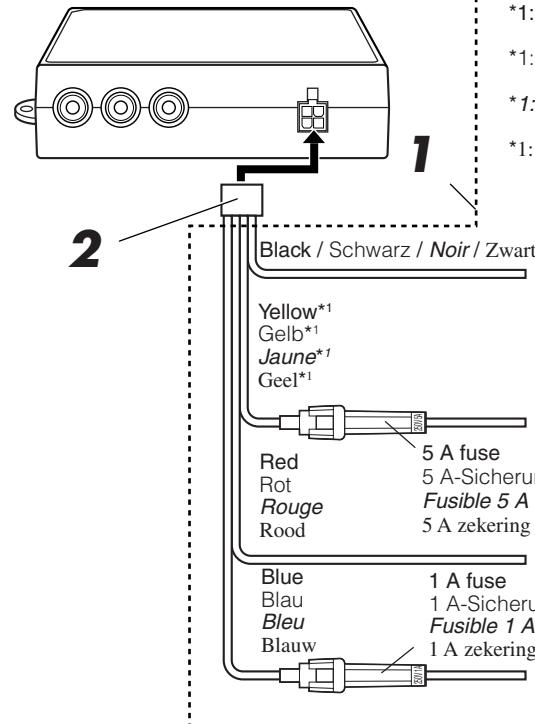

**Before connecting:** Check the wiring in the vehicle carefully. Incorrect connection may cause serious damage to this unit.  
The leads of the power cord and the ceiling light cord and those of the connector from the car body may be different in color.

### ■ Power supply connection

**1** Connect the colored leads of the power cord to the car battery, remote control and parking brake in the following sequence.

- ① Black: ground
- ② Yellow: to car battery (constant 12 V)
- ③ Red: to an accessory terminal
- ④ Blue: to remote control lead of the external component (such as KS-IF200)

**2** Finally connect the wiring harness to the unit.

**Vor dem Anschließen:** Die Verdrahtung im Fahrzeug sorgfältig überprüfen. Falsche Anschlüsse können ernsthafte Schäden am Gerät hervorrufen.  
Die Kabel von Stromversorgung, Innenbeleuchtung und der Anschluss zur Fahrzeugmasse haben möglicherweise unterschiedliche Farben.

### ■ Stromversorgungsanschluß

- 1 Schließen Sie die farbigen Kabel des Spannungsvorsorgungskabels in der folgenden Reihenfolge an die Autobatterie, Fernbedienung und Feststellbremse an:
  - ① Schwarz: an Erde
  - ② Gelb: an die Autobatterie (12 V Gleichstrom)
  - ③ Rot: an den Hilfsanschluss
  - ④ Blau: an Fernsteuerkabel der externen Komponente (wie z. B. KS-IF200)

- 2 Schließen Sie zum Schluß den Kabelbaum an das Gerät an.

**Avant de commencer la connexion:** Vérifiez attentivement le câblage du véhicule. Une connexion incorrecte peut endommager sérieusement l'appareil.  
Les fils du cordon d'alimentation et du cordon du plafonnier et ceux du connecteur provenant de la voiture peuvent être de couleur différente.

### ■ Connexion de l'alimentation

- 1 Connectez les fils de couleur du cordon d'alimentation à la batterie de la voiture, aux enceintes et à l'antenne automatique (s'il y en a une) dans l'ordre suivant.

- ① Noir: à la masse
- ② Jaune: à la batterie de la voiture (12 V constant)
- ③ Rouge: à la prise accessoire
- ④ Bleu: au fil de télécommande de l'appareil extérieur (tel que le KS-IF200)

- 2 Finalement, connectez le faisceau de fils à l'appareil.

**Alvorens de verbindingen tot stand te brengen:** Moet u de bedrading in de auto zorgvuldig. Het apparaat kan door verkeerde verbindingen ernstige schade oplopen.  
De draden van het stroomsnoer en het plafondlicht-snoer en die van de aansluitingen in de auto zijn mogelijk verschillend van kleur.

### ■ Aansluiten van de stroomtoevoer

- 1 Sluit de gekleurde draden van de stroomtoevoer in de onderstaande volgorde aan op de accu van de auto, de afstandsbediening en de parkeerrem:

- ① Zwart: aarde
- ② Geel: naar de accu van de auto (constant 12 V)
- ③ Rood: naar het aansluitpunt van een accessoire
- ④ Blauw: naar het afstandsbedieningsdraad van het externe component (bijvoorbeeld de KS-IF200)

- 2 Sluit tot slot de bedrading naar de eenheid aan.

Ignition switch  
Zündschalter  
Interrupteur d'allumage  
Contactschakelaar

Fuse block  
Sicherungsblock  
Porte-fusible  
Zekeringblok

- \*2 Not included with this unit.
- \*2 Wird nicht mit Gerät mitgeliefert.
- \*2 Non fourni avec cet appareil.
- \*2 Niet bij het apparaat inbegrepen.

### ■ Ceiling light connection

**1** Connect the colored leads of the ceiling light cord in the following sequence.

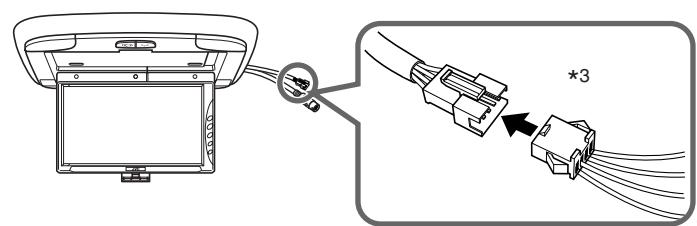

- ① Black: ground (GND)
- ② Yellow: to car battery (constant 12 V)  
(BATTERY B+)
- ③ Red: to an accessory terminal (ACC)
- ④ Grey: to the door sensor (DOOR SW)

### ■ Anschluss für Innenbeleuchtung

**1** Schließen Sie die farbigen Leitungen des Innenbeleuchtungskabels in der folgenden Reihenfolge an:

- ① Schwarz: an Erde (GND)
- ② Gelb: an die Autobatterie (12 V Gleichstrom)  
(BATTERY B+)
- ③ Rot: an den Hilfsanschluss (ACC)
- ④ Grau: zum Türkontakt (DOOR SW)

- \*3 Cover the joined connectors with vinyl tape to prevent unexpected disconnection.
- \*3 Die verbundenen Anschlüsse mit einem Isolierband umwickeln, um so ein unbeabsichtigtes Trennen zu verhindern.
- \*3 Recouvrez les connexions jointes avec un ruban adhésif pour éviter toute déconnexion imprévue.
- \*3 Bedek de verbonden aansluitingen met isolatieband zodat de aansluitingen niet per ongeluk worden ontkoppeld.

### ■ Connexion de plafonnier

- 1 Connectez les fils de couleur du cordon du plafonnier dans l'ordre suivant.

- ① Noir: à la masse (GND)
- ② Jaune: à la batterie de la voiture (12 V constant)  
(BATTERY B+)
- ③ Rouge: à la prise accessoire (ACC)
- ④ Gris: au capteur de porte (DOOR SW)

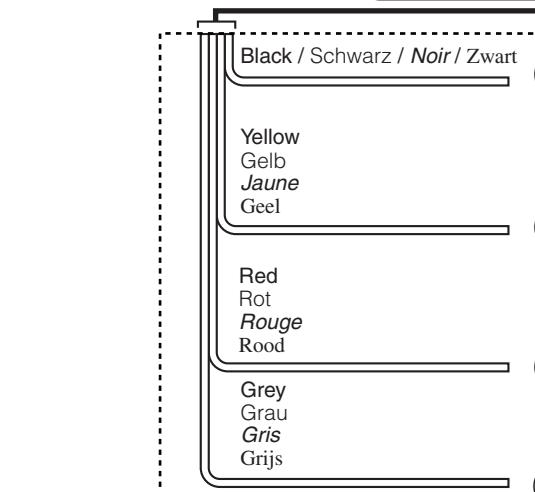

### ■ Aansluiten van het plafondlicht

**1** Verbind de gekleurde draden van het plafondlichtsnoer in de volgende volgorde.

- ① Zwart: aarde (GND)
- ② Geel: naar de accu van de auto (constant 12 V)  
(BATTERY B+)
- ③ Rood: naar het aansluitpunt van een accessoire (ACC)
- ④ Grijs: naar portiersensor (DOOR SW)

## Connecting the leads / Anschließen der Leitungen / Raccordement des fils / Aansluiting van de gekleurde draden

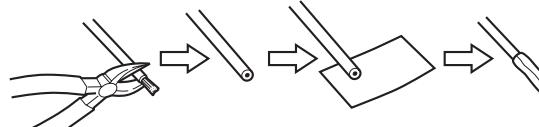

Twist the core wires when connecting.  
Die Kerndrähte beim Anschließen verdrehen.  
Torsader les âmes des fils en les raccordant.  
Draai de kerndraden om elkaar heen wanneer u ze wilt aansluiten.

Solder the core wires to connect them securely.  
Die Kerndrähte anlöten, um sie fest anzuschließen.  
Souder les âmes des fils pour les raccorder entre eux de façon sûre.  
Soldeer de kerndraden zodat ze stevig vast zitten.

**CAUTION / VORSICHT / PRECAUTION / LET OP!:**

- To prevent short-circuit, cover the terminals of the UNUSED leads with insulating tape.
- Zur Vermeidung eines Kurzschlusses die Anschlußklemmen der NICHT VERWENDETEN Leitungen mit Isolierklebeband umwickeln.
- Pour éviter les court-circuits, couvrir les bornes des fils qui ne sont PAS utilisés avec de la bande isolante.
- Om kortsmiting te voorkomen, moet u de aansluitklemmen van ONGEBRUIKTE gekleurde draden met isolatieband bedekken.

## CONNECTING THE EXTERNAL COMPONENTS

Connect the monitor to TO MONITOR jack. If the monitor cord is not long enough for connection, use the extension cord supplied with the unit. This unit provides 2 input circuits and 1 output circuit. Connect one or two playback sources to AV 1 (INPUT 1) and/or AV 2 (INPUT 2) and connect reproducing components, such as a car receiver, to AV OUT.

## ANSCHLIESSEN EXTERNER KOMPONENTEN

Schließen Sie Monitor an die Buchse TO MONITOR an. Wenn das Monitorkabel für den Anschluß nicht lang genug ist, verwenden Sie das Verlängerungskabel, das zum Lieferumfang des Geräts gehört. Die Monitor-Anschlußeinheit stellt zwei Eingangs- und einen Ausgangskreis zur Verfügung. Schließen Sie eine oder zwei Wiedergabesignalquellen an AV 1 (INPUT 1) und/oder AV 2 (INPUT 2) und eine Reproduktionskomponente, z.B. einen Autoreceiver, an AV OUT.

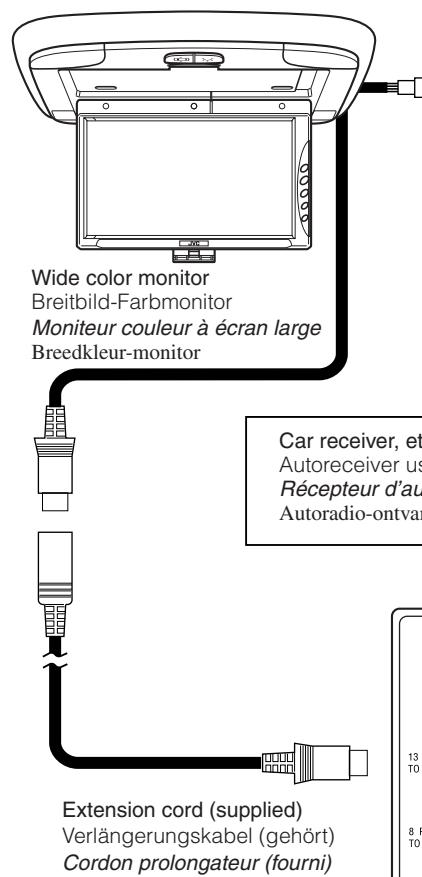

## CONNEXION DES APPAREILS EXTÉRIEURS

Connectez le moniteur couleur à la prise TO MONITOR. Si le cordon du moniteur n'est pas assez long pour la connexion, utilisez le cordon prolongateur fourni avec cet appareil. L'unité de connexion du moniteur possède 2 circuits d'entrée et un circuit de sortie. Connectez une ou deux sources de lecture à la prise AV 1 (INPUT 1) et/ou à la prise AV 2 (INPUT 2) et connectez un appareil de traitement du son tel qu'un récepteur d'autoradio à la AV OUT.

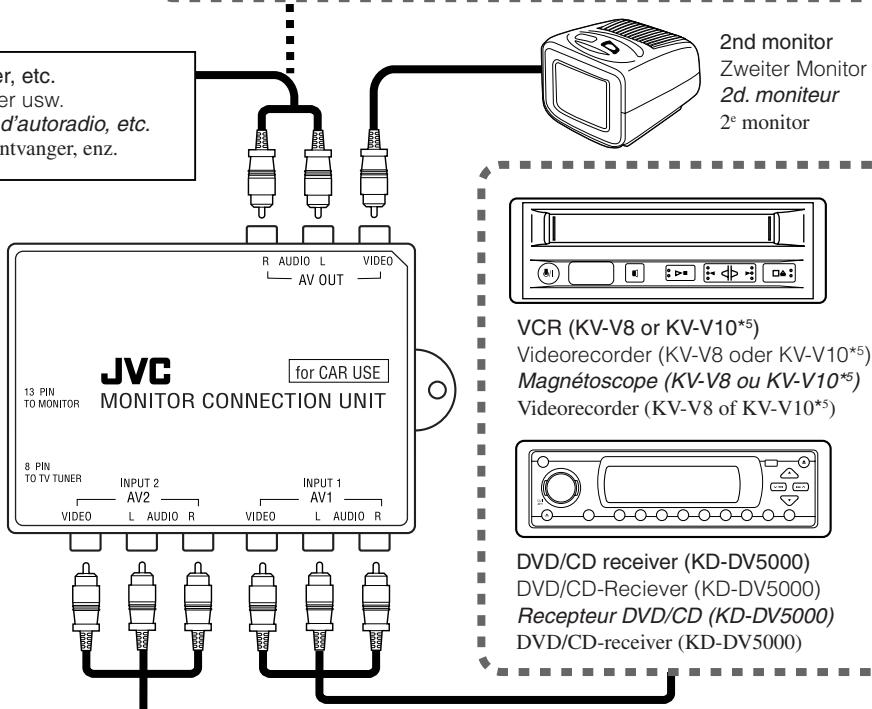

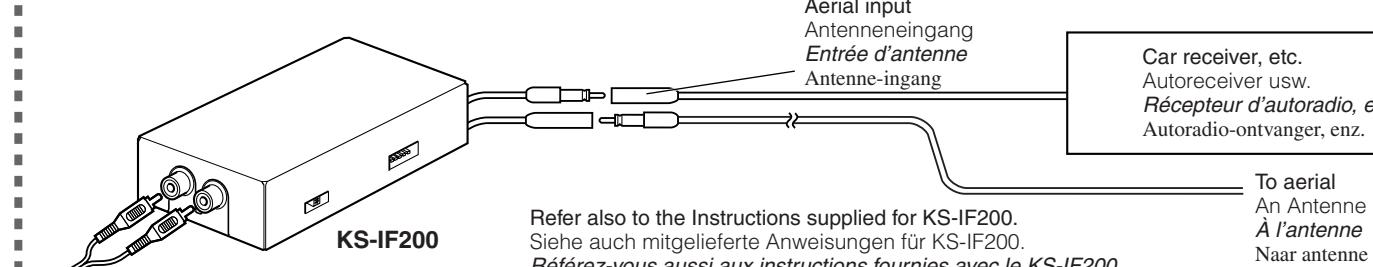

## DE EXTERNE ONDERDELEN AANSLUITEN

Sluit de kleurenmonitor aan op de TO MONITOR-bus. Als de monitorkabel niet lang genoeg is om deze te kunnen aansluiten, kunt u de meegeleverde verlengkabel gebruiken. Het monitor-aansluitgedeelte heeft 2 ingangscircuits en 1 uitgangscircuit. Sluit 1 of 2 afspelbronnen aan op de AV 1 (INPUT 1)-bus en/of AV 2 (INPUT 2)-bus, en sluit een reproduceerbron, zoals een autoradio-ontvanger, aan op de AV OUT.

- When not using the mobile TV tuner system KV-C10 / Bei Nichtbenutzung des mobilen TV-Tuner-Systems KV-C10 / Lorsque vous n'utilisez pas le système de tuner de télévision mobile KV-C10 / Indien u het draagbare KV-C10 TV-tunersysteem niet gebruikt

\*5 Carefully differentiate the power supply cords supplied for KV-V10 and for the monitor connection unit. Their connectors are the same in shape, but their wirings are different.

\*6 Halten Sie die Stromversorgungskabel für KV-V10 und Monitor-Anschlußeinheit gut auseinander. Die Steckverbinder haben die gleiche Form, die die Anschlußbelegung ist jedoch unterschiedlich.

\*7 Prenez soin de bien distinguer les cordons d'alimentation fournis pour les KV-V10 et ceux de l'unité de connexion du moniteur. Leurs connecteurs ont la même forme mais leur câblage est différent.

\*8 Zorg dat er een duidelijke onderscheid is tussen de stroomsnoeren die bij de KV-V10 en het monitor-aansluitgedeelte zijn geleverd. De stekkers zijn hetzelfde qua vorm, maar de bedrading is verschillend.

## คำแนะนำ

LVT0988-001A

[U]

**WARNING:**

**TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE.**

**CAUTION:**

This monitor system should be used with DC 12V only. To prevent electric shocks and fire hazards, DO NOT use any other power source.

**Installation requires some special knowledge.**

**Do not install the monitor system yourself. Consult a dealer having special knowledge of this kind for safe and reliable installation.**

**WARNINGS**

- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS DRIVING, VISIBILITY OR WHICH IS PROHIBITED BY APPLICABLE LAWS AND REGULATIONS.
- THERE MAY BE LEGAL REGULATIONS DEFINING THE PERMISSIBLE INSTALLATION LOCATIONS FOR THE DISPLAY UNIT WHICH DIFFER BY COUNTRY OR BY STATE. BE SURE TO INSTALL THE DISPLAY UNIT IN A CORRECT LOCATION ACCORDING TO SUCH LAWS.
- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS THE OPERATION OF AN AIR BAG.
- THE DRIVER MUST NOT OPERATE THE MONITOR SYSTEM WHILE DRIVING.  
OPERATING THE MONITOR WHILE DRIVING MAY LEAD TO CARELESSNESS AND CAUSE AN ACCIDENT.  
\* STOP YOUR VEHICLE IN A SAFE LOCATION WHEN OPERATING THE MONITOR.
- THE DRIVER MUST NOT WATCH THE TELEVISION OR VIDEOS WHILE DRIVING.  
IF THE DRIVER WATCHES THE TELEVISION OR A VIDEO WHILE DRIVING, IT MAY LEAD TO CARELESSNESS AND CAUSE AN ACCIDENT.
- WHEN LIGHTNING OCCURS, DO NOT TOUCH THE ANTENNA WIRE OR THE TELEVISION.  
TOUCHING THE ANTENNA WIRE OR THE TELEVISION UNDER SUCH CONDITIONS MAY CAUSE ELECTROCUTION.
- KEEP THE MONITOR AT AN APPROPRIATE SOUND LEVEL WHILE DRIVING.  
DRIVING WITH THE SOUND AT A LEVEL THAT PREVENTS YOU FROM HEARING SOUNDS OUTSIDE OF AND AROUND THE VEHICLE MAY CAUSE AN ACCIDENT.
- ASK A TRAINED TECHNICIAN TO INSTALL THE MONITOR SYSTEM.  
INSTALLATION AND WIRING REQUIRE TRAINING AND EXPERIENCE.  
\* TO BE SAFE, ASK THE SALES OUTLET WHERE YOU PURCHASED THE MONITOR SYSTEM TO PERFORM THE INSTALLATION.
- BE SURE NOT TO LET THE MONITOR FALL OR BE STRONGLY IMPACTED SINCE THIS MAY CAUSE A MALFUNCTION OR FIRE.
- DO NOT USE THE MONITOR WITH THE ENGINE OFF.  
WATCHING THE MONITOR WITH THE ENGINE OFF WILL CONSUME BATTERY POWER AND MAY PREVENT THE ENGINE FROM STARTING.
- DO NOT USE ANY CEILING LIGHT BULBS OTHER THAN SPECIFIED FOR THIS UNIT (12 V, 3 W). FAILING TO DO SO MAY POSSIBLY CAUSE FIRE.
- WHEN NOT IN USE, CLOSE THE LIQUID CRYSTAL PANEL AND STORE IT INTO THE COMPARTMENT.

Thank you for purchasing a JVC product. Please read all instructions carefully before operation, to ensure your complete understanding and to obtain the best possible performance from the unit.

#### \* *For safety....*

- *Do not raise the volume level too much, as this will block outside sounds, making driving dangerous.*
- *Stop the car before performing any complicated operations.*

#### \* *Temperature inside the car....*

*If you have parked the car for a long time in hot or cold weather, wait until the temperature in the car becomes normal before operating the unit.*

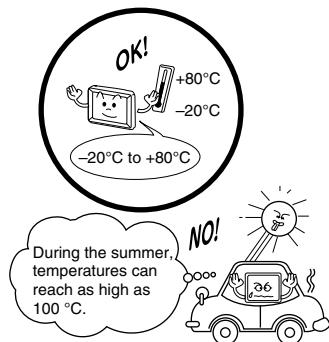

# PRECAUTIONS

ENGLISH

## Cautions for handling the liquid crystal panel

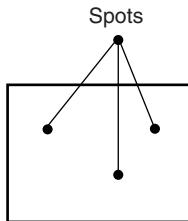

Do not expose the liquid crystal display to direct sunlight.

- Storage temperature range:  
-20 °C to +80 °C

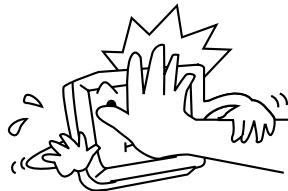

When the liquid crystal panel reaches high temperatures or low temperatures, chemical changes occur within the liquid crystal panel which may cause it to malfunction.

The red spots, blue spots and green spots on the panel surface are a normal characteristic of liquid crystal panels, and not a problem.

The liquid crystal panel is built with very high precision technology and has at least 99.99% effective image pixels. Be aware that on 0.01% of the panel there may be missing or constantly lit pixels.

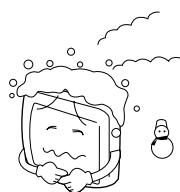

Do not drop the liquid crystal display or strike it sharply.

When the temperature is very cold or very hot, the image may not appear clearly or may move slowly.

The image may not be synchronized with the sound or the image quality may decline in such environments. Note that this is not a malfunction or problem.

- Usage temperature range: 0 °C to +40 °C

0 °C or colder

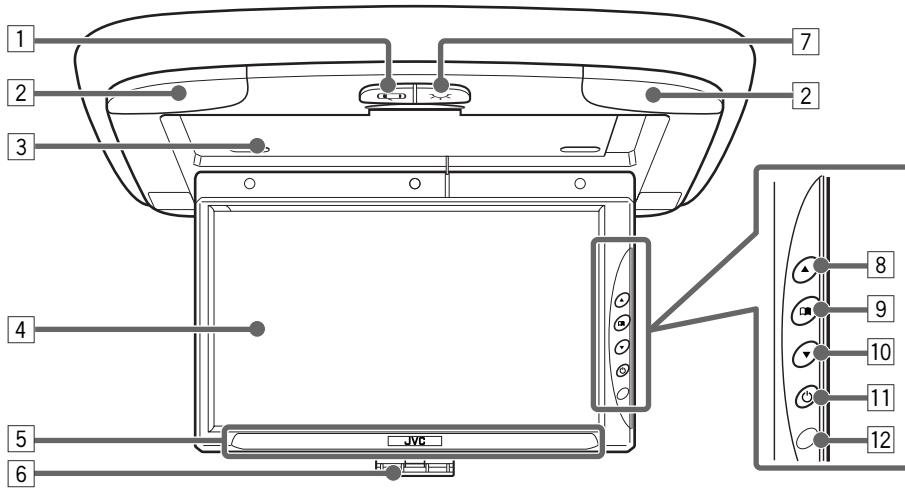

40 °C or hotter

# CONTROLS AND FEATURES

ENGLISH

## Wide color monitor

### 1 Door Sensor button ( )

Activates or deactivates the door sensor which turns on the ceiling light when a door is open.

- When the door sensor is turned on, this button glows red.

### 2 Ceiling lights

### 3 Screen compartment

While not in use, close the screen and store it in this compartment.

### 4 Screen (Liquid crystal panel)

- When you open the screen, the monitor automatically turns on.
- When you close it, the monitor automatically turns off.

### 5 IR transmitter

- See "Specifications" for cordless headphones.

It is recommended to use JVC's cordless headphones KS-HP1K.

### 6 Screen hook

- Release from the screen compartment to use the monitor.
- After using the monitor, close the screen, and hook to the screen compartment.

### 7 Ceiling Light button ( )

Turns on or off the ceiling lights.

### 8 Up button (▲)

Increase the adjustment level of (or select an appropriate setting for) the item selected by the Menu button.

### 9 Menu button ( )

Select an adjustment item.

### 10 Down button (▼)

Decrease the adjustment level of (or select an appropriate setting for) the item selected by the Menu button.

### 11 Power button ( )

- Press to turn on the power.  
Each time you press the button, the input mode changes when the power is on.
- Press and hold to turn off the power.

### 12 Remote sensor

Aim at this area when operating the monitor from the remote controller.

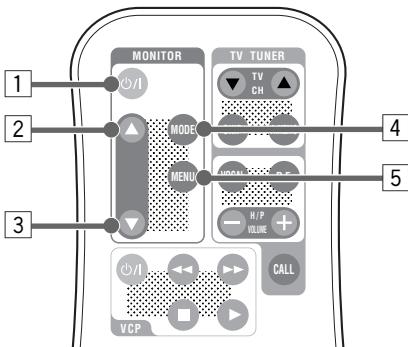

#### Note:

*When you watch the screen at an angle, the picture might not be clear. This is not a malfunction. The finest picture can be seen when you watch the screen straight-on.*

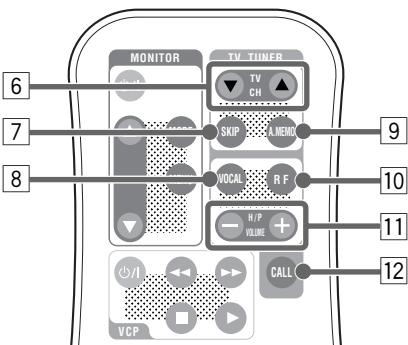

## Remote controller RM-RK500

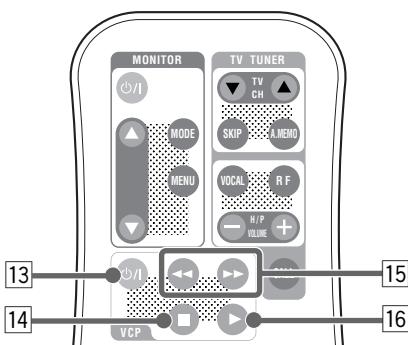

### Monitor section

### TV tuner section

### Video cassette player section

### Monitor section

- 1 Power On/Standby button (○/|)**

Turn on or off the monitor system.

- 2 Up button (▲)**

Increase the adjustment level of (or select an appropriate setting for) the item selected by the MENU button.

- 3 Down button (▼)**

Decrease the adjustment level of (or select an appropriate setting for) the item selected by the MENU button.

- 4 MODE button**

Each time you press the button, the input mode changes.

- 5 MENU button**

Call up or erase the Menu screen.

### TV tuner section

The following buttons can be used for operating JVC's KV-C10.

- For specific operations, refer to the instructions for the KV-C10.

- 6 TV CH buttons (▲/▼)**

- 7 SKIP button**

- 8 VOCAL button**

- 9 A.MEMO (auto memory) button**

- 10 RF (radio frequency) button**

- 11 H/P (headphones) VOLUME buttons (+/-)**

- 12 CALL button**

### Video cassette player (VCP) section

The following buttons can be used for operating JVC's KV-V8 or KZ-V10.

- For specific operations, refer to the instructions for the KV-V8 or KZ-V10

- 13 Power On/Standby button (○/|)**

- 14 ■ (Stop) button**

- 15 < (Rewind)/> (Fast-forward) buttons**

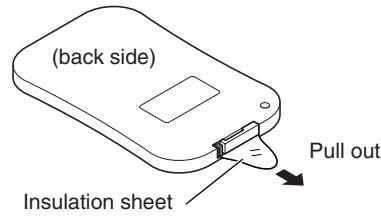

- 16 ▶ (Play) button**

## Before using the remote controller:

When you use the remote controller for the first time, **pull out the insulation sheet** as illustrated to the right.

- Aim the remote controller directly at the remote sensor on the color monitor. Make sure there is no obstacle in between.
- Do not expose the remote sensor to strong light (direct sunlight or artificial lighting).

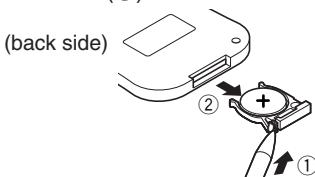

(The battery has been installed when shipped from the factory.)

## Replacing the battery

When the controllable range or effectiveness of the remote controller decreases, replace the battery.

### 1. Remove the battery holder.

While pushing in the lock using a ball-point pen or a similar tool (①), pull out the battery holder in the direction indicated by the arrow (②).

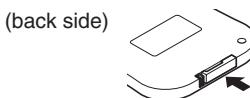

### 2. Replace the battery.

Slide a new battery into the holder with the + side facing upwards so that the battery is fixed in the holder.

### 3. Return the battery holder.

Insert the battery holder again pushing it until you hear a clicking sound.

### **WARNING:**

- Store the battery in a place which children cannot reach.  
*If a child accidentally swallows the battery, immediately consult a doctor.*
- Do not recharge, short, disassemble or heat the battery or dispose of in a fire.  
*Doing any of these things may cause the battery to give off heat, crack or start a fire.*
- Do not leave the battery with other metallic materials.  
*Doing this may cause the battery to give off heat, crack or start a fire.*
- When throwing away or saving the battery, wrap in tape and insulate; otherwise, it may cause the battery to give off heat, crack or start a fire.
- Do not poke the battery with tweezers or similar tools.  
*Doing this may cause the battery to give off heat, crack or start a fire.*

### **CAUTION:**

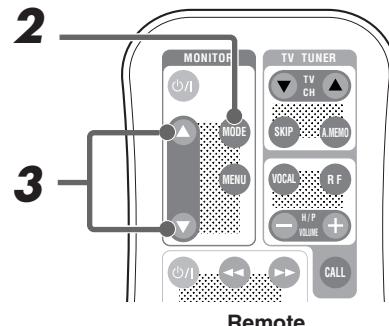

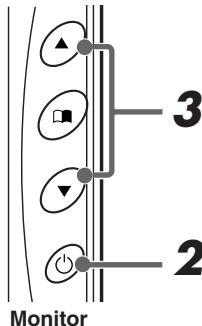

*DO not leave the remote controller in a place (such as dashboard) exposed to direct sunlight for a long time. Otherwise, it may be damaged.*

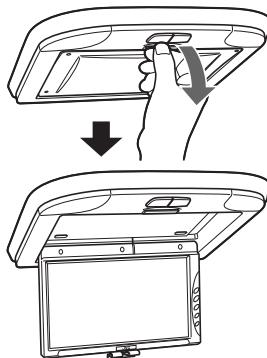

# BASIC OPERATIONS

## Preparation

Before operating the monitor system, make sure that all external components are correctly connected and installed.

1

Open the liquid crystal panel.

The monitor turns on.

**Note:**

If the liquid crystal panel is already open, press the Power button ( ) on the unit or the Power On/Standy button ( ) on the remote control to turn on the monitor.

**CAUTION:**

When not in use, close the liquid crystal panel and store it into the compartment; otherwise it may obstruct the visibility through the rearview mirror.

2

Monitor

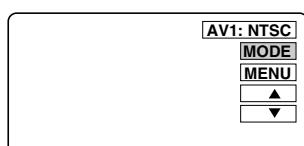

Remote

Select the input source.

Each time you press the button, the input source changes as follows:

- When KV-C10 is not connected:

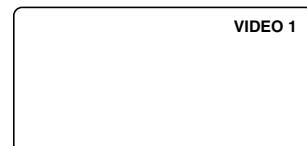

→ AV 1 → AV 2 →

Ex. When "AV 1" is selected

- When KV-C10 is connected:

→ TV → VIDEO1 → VIDEO2 →

Ex. When "VIDEO 1" is selected

## 3

Monitor

Remote

Select the video format—NTSC or PAL, while the indication of the video format is still on the screen.

Each time you press the button, the video format alternates between NTSC (initial setting) and PAL. Select whichever matches to the incoming signals.

**Note:**

*When not using the KV-C10: You can preset the video format separately for “AV 1” and “AV 2.”*

## 4

Play back the external component.

To operate the external components, refer to the manuals for the connected components.

## 5

Select the external component and adjust the volume on the car receiver.

### To check the current input source

**On the monitor:** Press the Power button (⊕) once.

**On the remote:** Press the MODE button once.

The on-screen display appears for about 5 seconds.

Monitor

Remote

### To turn off the power

Close the liquid crystal panel.

- You can also turn off the power by holding the Power button (⊕) on the unit, or by pressing the Power On/Standy button (⊕/I) on the remote control briefly.

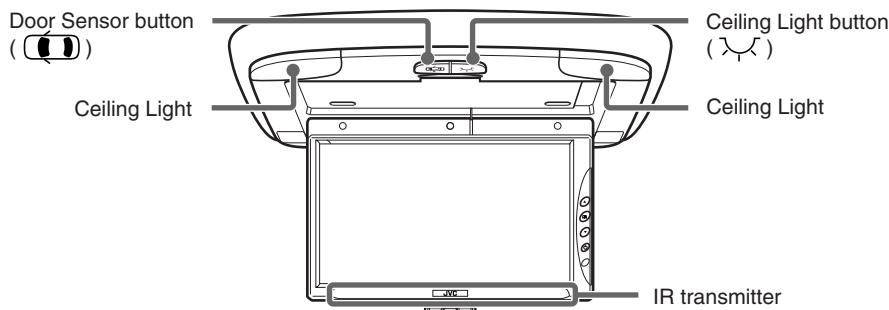

Monitor

Remote

## Other Basic Operations

### Activating the door sensor

You can activate or deactivate the door sensor by pressing the Door Sensor button (  ). When you activate the door sensor, the Door Sensor button glows red if the ignition switch of the car is turned to "ON" or to "ACC."

- With the door sensor activated, the ceiling lights go on when a door is open.

### Turning on or off the ceiling lights

You can turn on or off the ceiling lights on the monitor by pressing the Ceiling Light button (  ).

#### Note:

*When the Door Sensor button is on, the ceiling lights go off when the door is opened then closed even if the Ceiling Light button has been turned on.*

### Selecting the RF signals to the receiver

#### When you use JVC FM modulator KS-IF200 only:

You can listen to playback sounds from the external component through the receiver even if it is equipped with no line input.

- Refer also to the instructions of KS-IF200.

#### When KV-C10 is connected:

Press the RF button on the remote controller.

Each time you press the button, "RF ON" and "RF OFF" alternate and the sounds you hear through the car speakers change accordingly.

**RF ON** : Select to listen to the sound of the external component.

**RF OFF** : Select to listen to the radio (through the receiver).

### Using optional cordless headphones

You can use JVC's optional cordless headphones KS-HP1K to listen to the playback sounds of the external component.

Playback sounds of the external component are transmitted through this IR transmitter to the cordless headphones.

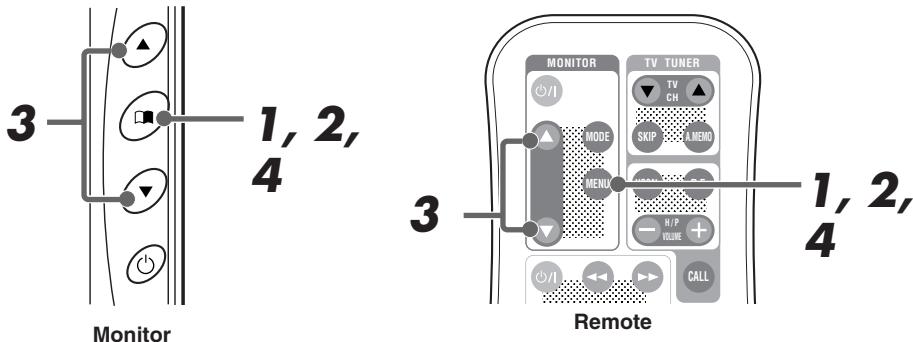

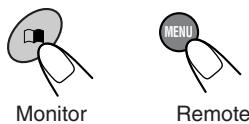

## Using the Menu

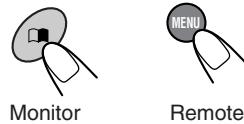

You can make your own adjustments using the Menu.

- For the adjustable items, see the next page.

### Basic procedure

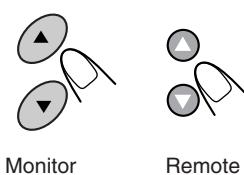

**1**

Call up the Menu.

**2**

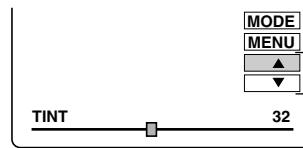

Select an item you want to adjust.

Each time you press the button, the cursor moves to the next item.

**3**

Adjust the level of the selected item (or select an appropriate setting for the selected item).

- When "RESET" is selected in the above step, the Color, Brightness, and Tint settings are reset.

Ex: When adjusting Tint

CONTINUED ON THE NEXT PAGE

4

Monitor

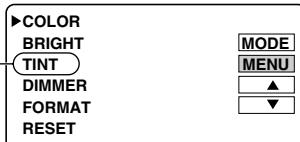

Remote

## Exit from the Menu.

- Press the button repeatedly until the Menu is erased.

## Adjustable items on the menu

Appears only for  
NTSC video format

### Note:

*Menu goes off if no operation is done for about 5 seconds.*

- COLOR** : Adjust the color of the picture—lighter or darker.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

- BRIGHT** : Adjust this if the picture is too bright or too dark.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

- TINT** : Adjust this if the human skin color is unnatural.  
 • Adjustable range: 0 to 63  
 • Initial level: 32

### Note:

*This can be shown and adjusted when the video format is NTSC.*

- DIMMER** : Activate the dimmer if the inside of the car is too bright to view the picture on the screen.  
 • Selectable settings: ON/OFF  
 • Initial setting: OFF

**FORMAT**

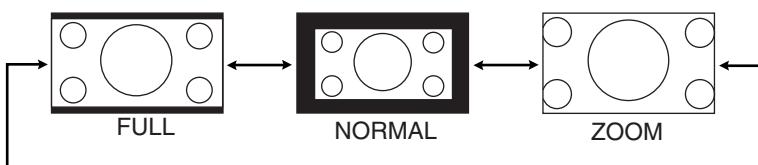

- : Select an appropriate display size.  
• Selectable settings: FULL/NORMAL/ZOOM  
• Initial setting: FULL

FORMAT

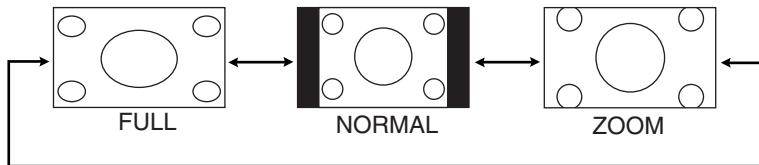

FULL

**When viewing 16:9 video signals:**

- FULL:** Pictures are fully shown on the screen.  
• The black bars will be shown both at the top and the bottom of the screen.
- NORMAL:** Pictures are shown at the center of the screen.
- ZOOM:** Pictures are enlarged on the screen so that no black bars will be shown on the screen. (The entire picture cannot be shown on the screen.)

**When viewing 4:3 video signals:**

- FULL:** Pictures are enlarged horizontally and are fully shown on the screen.
- NORMAL:** Pictures are shown at the center of the screen.  
• The black bars will be shown at the left and right sides of the screen.
- ZOOM:** Pictures are enlarged on the screen so that no black bars will be shown on the screen. (The entire picture cannot be shown on the screen.)

# MAINTENANCE

## To prevent damage to the exterior

- Do not apply pesticides, benzine, thinner or other volatile substances to the unit.  
The cabinet surface primarily consists of plastic materials.
- Do not wipe with benzine, thinner or similar substances because this will result in discoloration or removal of the paint.
- When a cloth with a cleansing chemical is used, follow the caution points.
  - Do not leave the unit in contact with rubber or vinyl products for long periods of time.
  - Do not use cleansers which have polishing granules because this could damage the surface of the unit.

## Clean off dirt by wiping lightly with a soft cloth

When the unit is very dirty, wipe with a well-wrung cloth dipped in a kitchen cleanser (neutral) thinned by water and then go over the same surface with a dry cloth.

(Since there is the possibility of water drops getting inside of the unit, do not directly apply cleanser to the surface.)

**Caution:**

*If water drops or similar wet substances get inside of the monitor via the liquid crystal panel surface, it may cause a malfunction.*

# TROUBLESHOOTING

What appears to be trouble is not always serious. Check the following points before calling a service center.

Symptoms	Causes	Remedies
• Colored spots (red, blue and green) appear on the screen.	This is a characteristic of liquid crystal panels and is not a malfunction.	See "Note" on page 15.
• No picture appears and sound is not heard.	Correct input mode is not selected.	Select the correct input mode.
• Picture shakes vertically or colors are abnormal.	The video format (NTSC/PAL) is not correct.	Select the correct video format.
• Remote controller does not work. • Cordless headphones (not supplied) do not work.	The battery has lost its charge.	Install a new battery.
	Remote sensor is exposed to strong light.	Do not expose the remote sensor to strong light.

## WIDE COLOR MONITOR

**Display:**

9 inch Liquid crystal panel

**Number of Pixel:**

336,960 pixels (480 vertical × 234 horizontal × 3)

**Drive Method:**

TFT (Thin Film Transistor) active matrix format

**Cordless Audio:**

Infrared audio transmitter (Support IR receiver stereo headphones)

L-channel: 2.3 MHz

R-channel: 2.8 MHz

Effective listening angle: 30°

Effective range: 4 m

**Dimensions (W × H × D):**

314 mm × 38 mm × 257 mm

including Shroud

Mass: 1.2 kg including Shroud

## MONITOR CONNECTION UNIT

**Input**

Video: RCA pin × 2 circuits  
1 V(p-p), 75 Ω

Audio: RCA pin × 2 circuits  
0.5 V(rms)

Tuner: 8-pin DIN connector  
(only for JVC's KV-C10)

**Output**

Display:  
13-pin DIN connector

Video: RCA pin × 1 circuit  
1 V(p-p), 75 Ω

Audio: RCA pin × 1 circuit  
0.5 V(rms)

**Dimensions (W × H × D):**

108.5 mm × 28.5 mm × 78 mm  
excluding projections

Mass: 160 g

## GENERAL

**Power Requirement**

Operating Voltage:

DC 14.4 V (11 V to 16 V allowance)

**Grounding System:**

Negative ground

**Allowable Operating Temperature:**

0°C to +40°C

**Allowable Storage Temperature:**

-20°C to +80°C

Ceiling light bulb: 12 V / 3 W

## ACCESSORIES

Metal plate × 1

Shroud × 1

Extension cord × 1

Power cord × 1

Ceiling light cord × 1

Remote controller (with the battery) × 1

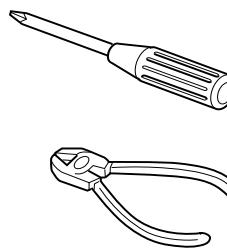

Screw (M4 × 5 mm) × 4

Screw (M4 × 12 mm) × 4

*Design and specifications are subject to change without notice.*

**Note:**

*The liquid crystal panel is built with very high precision technology and has at least 99.99% effective image pixels. Be aware that on 0.01% of the panel there may be missing pixels or constantly lit pixels.*

ENGLISH

中文

عربى

**WARNING**

Installation requires some special knowledge.  
Do not install the monitor system yourself.  
Consult a dealer having special knowledge  
of this kind for safe and reliable installation.

- DO NOT INSTALL THE MONITOR IN A LOCATION WHICH OBSTRUCTS DRIVING, VISIBILITY OR WHICH IS PROHIBITED BY APPLICABLE LAWS AND REGULATIONS.**

If the monitor is installed in a location which obstructs forward visibility or operation of the air bag or other safety equipment or which interferes with operation of the vehicle, it may cause an accident.

- NEVER USE BOLTS OR NUTS FROM THE VEHICLE'S SAFETY DEVICES FOR INSTALLATION.**

If bolts or nuts from the steering wheel, brakes or other safety devices are used for installation of the monitor, it may cause an accident.

- ATTACH THE WIRES CORRECTLY.**

If the wiring is not correctly performed, it may cause a fire or an accident. In particular, be sure to run and secure the lead wire so that it does not get tangled with a screw or the moving portion of a seat rail.

- USE WITH DC 12 V NEGATIVE GROUND VEHICLES.**

This monitor system is only for use in a DC 12 V negative ground vehicle.

It cannot be used in large trucks or diesel vehicles which are DC 24 V vehicles.

If it is used in the wrong type of vehicle, it may cause a fire or accident.

- To prevent short circuits, we recommend that you disconnect the battery's negative terminal and make all electrical connections before installing the unit. If you are not sure how to install this unit correctly, have it installed by a qualified technician.**

- Avoid installing the connection unit in the following places**

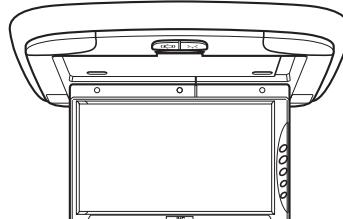

- Where it would hinder your safe driving.
- Where it would be exposed to direct sunlight or heat directly from the heater or placed in an extremely hot place.
- Where it would be subject to rain, water splashes or excessive humidity.
- Where it would be subject to dust.
- Where it would be positioned on an unstable place.
- Where it could damage the car's fittings.
- Where proper ventilation would not be maintained, such as under a floor mat.

**CAUTION**

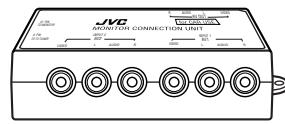

Since there may be legal regulations defining the permissible installation locations for the color monitor which differ by country or by state, be sure to install the color monitor in a location complying with any such laws.

**Parts list for installation and connection**

The following parts are provided with this unit. After checking them, please set them correctly.

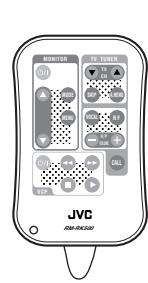

Wide color monitor (center unit and shroud)  
寬螢幕彩色監視器（中機組和遮蓋）  
จอสีขนาดกลางและห้องรับ  
الراقب الملون الواسع (الوحدة الرئيسية)  
والحجاب

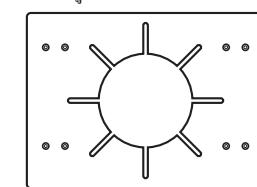

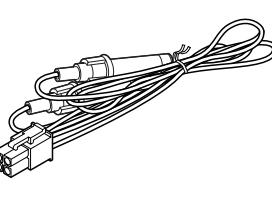

Monitor connection unit  
監視器連接機  
وحدة توصيل المراقب

Extension cord (4 m)  
延長用導線 (4 m)  
ساقه امتداد (4 متر)  
سلك التطويل (4 متر)

Remote controller with a battery (CR2025) installed  
遙控器已置入乾電池 (CR2025)  
رีโมทคอนโทรลพร้อมแบตเตอรี่ (CR2025)

Metal plate  
金属盤

## Typical Connections / 典型連接 / การเชื่อมต่อแบบทั่วไป / التوصيلات التموزجية

**Before connecting:** Check the wiring in the vehicle carefully. Incorrect connection may cause serious damage to this unit.  
The leads of the power cord and the ceiling light cord and those of the connector from the car body may be different in color.

### ■ Power supply connection

1 Connect the colored leads of the power cord in the following sequence.

- ① Black: ground
- ② Yellow: to car battery (constant 12 V)
- ③ Red: to an accessory terminal
- ④ Blue: to remote control lead of the external component (such as KS-IF200).

2 Finally connect the wiring harness to the unit.

**连接之前：**請仔細檢查汽車內的接線。錯誤的接線可能導致本機嚴重損傷。

電纜的軟線和頂燈電線和汽車車身的連接器可能不同顏色。

### ■ 電源連接

1 按照下列程序連接標有顏色的電源線。

- ① 黑色：接地
- ② 黃色：接至汽車電池（恆定 12 V）
- ③ 紅色：接至附屬的端子
- ④ 藍色：至外部組件的遙控器電線（如 KS-IF200）。

2 最後將導線連接到本機。

**ก่อนการเชื่อมต่อ：**โปรดตรวจสอบการเดินสายไฟในรถอย่างรอบคอบ การต่อสายไฟที่ไม่ถูกต้องอาจสร้างความเสียหายซึ่งนุนแనะให้กับชุดจอด้านไฟได้ ตัวนำสายไฟ สายไฟคอนโทรล และตัวเชื่อมต่อหัวร่อง อาจมีสีแตกต่างกัน

### ■ การเชื่อมต่อ กับ ตัวจ่ายไฟ

1 ต่อตัวนำสายไฟที่เป็นสีตามลำดับดังที่ไปนี้

- ① สีดำ: ต่อขั้บสามดิน
- ② สีเหลือง: ต่อขั้บแบตเตอรี่ (แบตคอกที่ ขนาด 12 V)
- ③ สีแดง: ต่อขั้บอุปกรณ์
- ④ สายสีน้ำเงิน: ต่อขั้บสายรีโมทคอนโทรลของอุปกรณ์ภายนอก (ไดเรกต์ KS-IF200)

2 ขันนุดหัวไฟให้ดอนมัดสายไฟเข้ากับชุดของภาพ

**قبل البدء بالتوسيل:** تأكيد من شبكة الأسلاك في السيارة بدقة. يمكن أن يسبب التوصيل الخاطئ إلى عطل حقيقي للجهاز.

سلك الطاقة الكهربائية وسلك ضوء السقف وأسلاك الموصول من هيكل السيارة يمكن ان تختلف باللون.

### ■ توصيل مصدر الطاقة الكهربائية

1 اوصل الأسلاك الملونة لسلك الطاقة الكهربائية بالترتيب التالي.

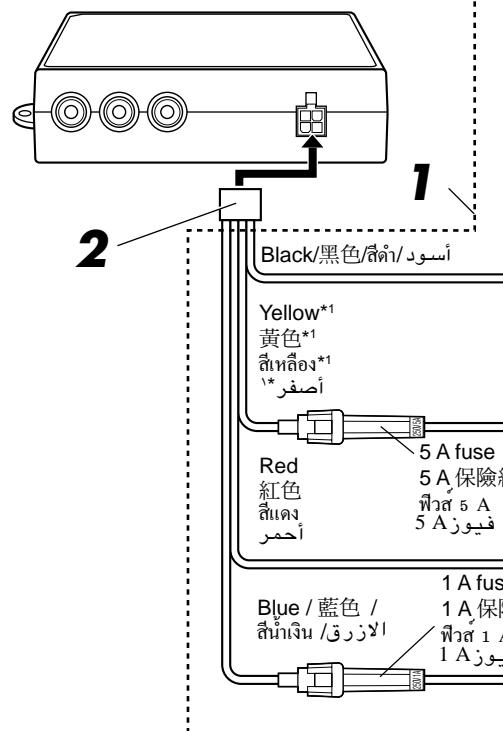

① السلك الأسود: مع الأرض

② السلك الأصفر: مع بطارية السيارة (ثابت)

③ السلك الأحمر: مع الطرف الإضافي

④ الأزرق: مع سلك وحدة التحكم عن بعد (KS-IF200) للكمبيونات الخارجية (مثل KS-IF200).

أخيراً، اوصل حامل الأسلاك مع الجهاز.

\*1: Before checking the operation of this unit prior to installation, this lead must be connected, otherwise power cannot be turned on.

\*1: 在安裝本機和進行工作狀況檢查之前，請務必連接此導線接頭，否則不能開啟電源。

\*1: ต้องดูสายไฟก่อนนำไปเช็คการทำงานของชุดของการติดตั้ง มิฉะนั้น ปุ่มเปิด/ปิดจะไม่ทำงาน

\*: قبل فحص تشغيل هذا الجهاز قبل التركيب، يجب توصيل هذا السلك، حيث لا يمكن تشغيل الجهاز بدون توصيل السلك.

To metallic body or chassis of the car

接至金屬體或汽車底盤  
ต่อขั้บกับโครงไฟหรือเปลือกของรถ  
إلى الجسم المعدني أو هيكل السيارة المعدني

To a live terminal in the fuse block connecting to the car battery (bypassing the ignition switch)

接至與汽車電池相連接的保險絲單元內的未使用的端子（用於旁路點火開關）  
ต่อไปยังขั้ววากที่อยู่ในกล่องไฟฟ้าที่เดินสายไฟไปยังแบตเตอรี่（ไม่ผ่านสวิตช์ติดตั้งไฟ）  
إلى الطرف الحي في مجموعة الفيوز الموصولة مع البطارية (مروراً بفتح الاشتغال)

To an accessory terminal in the fuse block

接至保險絲單元內的附屬端子  
ต่อขั้บกับอุปกรณ์ในกล่องไฟฟ้า  
إلى الطرف الإضافي في مجموعة الفيوز

To remote lead of the external component (such as KS-IF200)

至外部組件（如 KS-IF200）的遙控器電線  
ต่อขั้บสายรีโมทคอนโทรลของอุปกรณ์ภายนอก (ไดเรกต์ KS-IF200)  
إلى سلك التحكم عن بعد للكمبيونات الخارجية (مثل KS-IF200)

Ignition switch  
點火開關  
สวิตซ์ติดตั้งไฟ  
مفتاح الاشتغال

Fuse block  
保險絲單元  
กล่องไฟฟ้า  
مجموعة الفيوز

\*2 Not included with this unit.

\*2 不包含在本機內。

\*2 نَمْرُونَ حُدُوكَ الْفَاهِنِ

\*: غير مزود مع هذا الجهاز.

### ■ Ceiling light wire connection

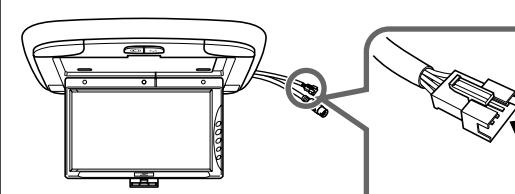

1 Connect the colored leads of the ceiling light cord in the following sequence.

- ① Black: ground (GND)
- ② Yellow: to car battery (constant 12 V) (BATTERY B+)
- ③ Red: to an accessory terminal (ACC)
- ④ Grey: to the door sensor (DOOR SW)

### ■ 蓬頂燈電線連接

1 按照下列程序連接蓬頂燈的顏色電線。

- ① 黑色：接地 (GND)
- ② 黃色：接至汽車電池（恆定 12 V）(BATTERY B+)
- ③ 紅色：接至附屬的端子 (ACC)
- ④ 灰色：至車門感應器 (DOOR SW)

\*3: Cover the joined connectors with vinyl tape to prevent unexpected disconnection.

\*3: 用塑膠帶覆蓋連接器的銜接處以防意外斷開。

\*3: ใช้เทปไวนิลพันรอบขั้วต่อที่ต่อเข้าด้วยกันเพื่อป้องกันการหลุดออกจากกัน

\*: اوصل الأسلاك الملونة لسلك الطاقة الكهربائية بالتسلسل التالي.

To metallic body or chassis of the car

接至金屬體或汽車底盤  
ต่อขั้บกับโครงไฟหรือเปลือกของรถ  
إلى الجسم المعدني أو هيكل السيارة المعدني

To a live terminal in the fuse block connecting to the car battery (bypassing the ignition switch)

接至與汽車電池相連接的保險絲單元內的未使用的端子（用於旁路點火開關）  
ต่อไปยังขั้ววากที่อยู่ในกล่องไฟฟ้าที่เดินสายไฟไปยังแบตเตอรี่（ไม่ผ่านสวิตช์ติดตั้งไฟ）  
إلى الطرف الحي في مجموعة الفيوز الموصولة مع البطارية (مروراً بفتح الاشتغال)

To an accessory terminal in the fuse block

接至保險絲單元內的附屬端子  
ต่อขั้บกับอุปกรณ์ในกล่องไฟฟ้า  
إلى الطرف الإضافي في مجموعة الفيوز

To the door sensor

至車門感應器

مع مفتاح حساس الباب  
ตามขั้บเซ็นเซอร์ประตู

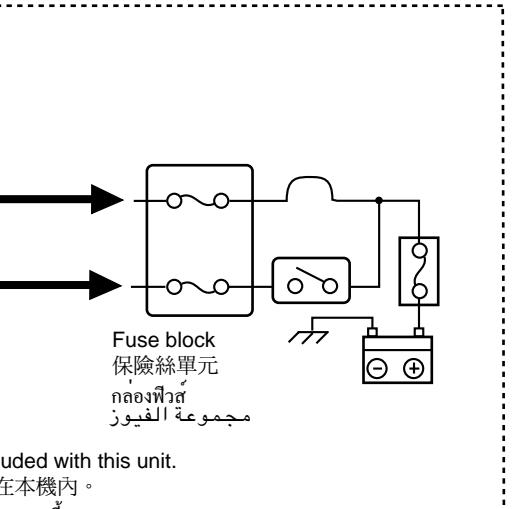

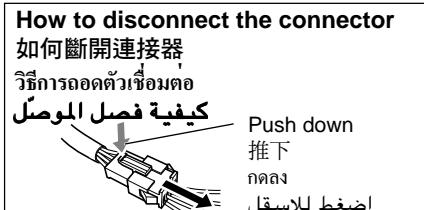

**■ توصيل سلك ضوء السقف**  
اوصل الأسلاك الملونة لسلك ضوء السقف في الترتيب التالي.

① السلك الأسود: مع الأرض (GND)

② السلك الأصفر: مع بطارية السيارة (ثابت) (BATTERY B+)

③ السلك الأحمر: مع الطرف الإضافي (ACC)

④ الرمادي: مع مفتاح حساس الباب (DOOR SW)

## Connecting the leads / 連接電線 / การเชื่อมต่อสายไฟ / توصيل الأسلاك

Twist the core wires when connecting.

連接時彎曲電線芯心。

انزع الملاعة العازلة قبل التوصيل.

拔去絕緣帶再連接。

# CONNECTING THE EXTERNAL COMPONENTS

## 連接外部組件

Connect the monitor to TO MONITOR jack. If the monitor cord is not long enough for connection, use the extension cord supplied with the unit. The monitor connection unit provides 2 input circuits and 1 output circuit. Connect one or two playback sources to AV 1 (INPUT 1) and/or AV 2 (INPUT 2) and connect reproducing components, such as a car receiver, to AV OUT.

將監視器連接至 **TO MONITOR** (至監視器) 插孔。若監視器導線不夠長以進行連接，用隨機附帶的延長電線。

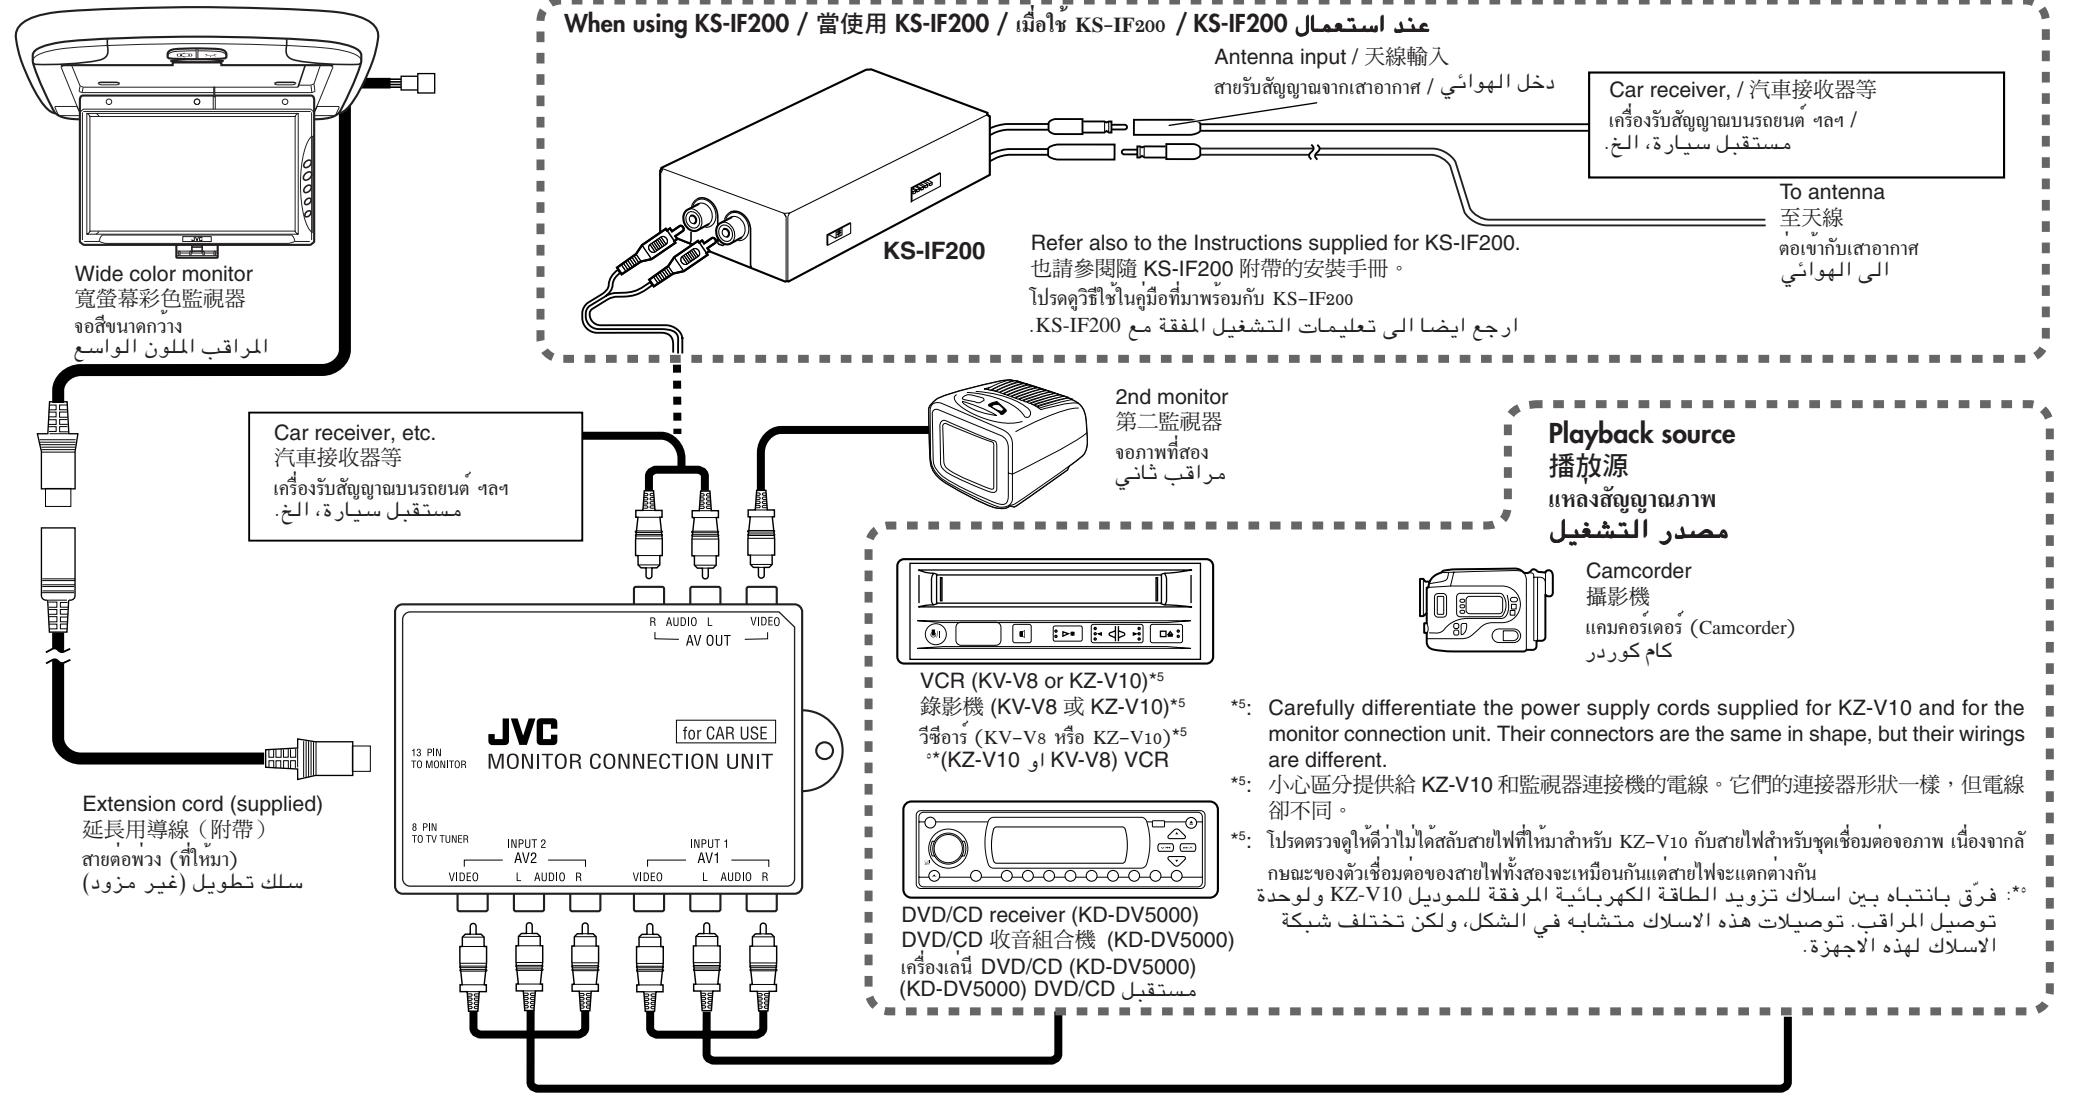

監視器連接機提供 2 個輸入電路和 1 個輸出電路。將一個或兩個播放源連接至 **AV1 (INPUT 1)** 及 / 或 **AV2 (INPUT 2)** 並連接再現組件，如汽車接收器至 **AV OUT**。

## การเชื่อมต่ออุปกรณ์ภายนอก

توصيل اجهزة  
الكمبونانت الخارجية

اوصل المراقب مع مقبس TO MONITOR اذا كان سلك المراقب غير طويل بصورة كافية للتوصيل، استعمل سلك التطويل المرفق مع الجهاز. تزود وحدة توصيل المراقب ٢ دائرة دخل و ١ دائرة خرج. اوصل مصدر او مصدر اي تشغيل مع طرف الدخل ١ (INPUT 1) AV 1 / او طرف الدخل AV 2 (INPUT 2) اوصل كمبونانات التشغيل مثل مستقبل السيارة مع طرف الخرج AV OUT.

- When not using the mobile TV tuner system KV-C10 / 當不使用流動電視調諧器系統 KV-C10 時 / เมื่อไม่ได้ใช้ระบบจุนทีวีเคลื่อนที่ KV-C10

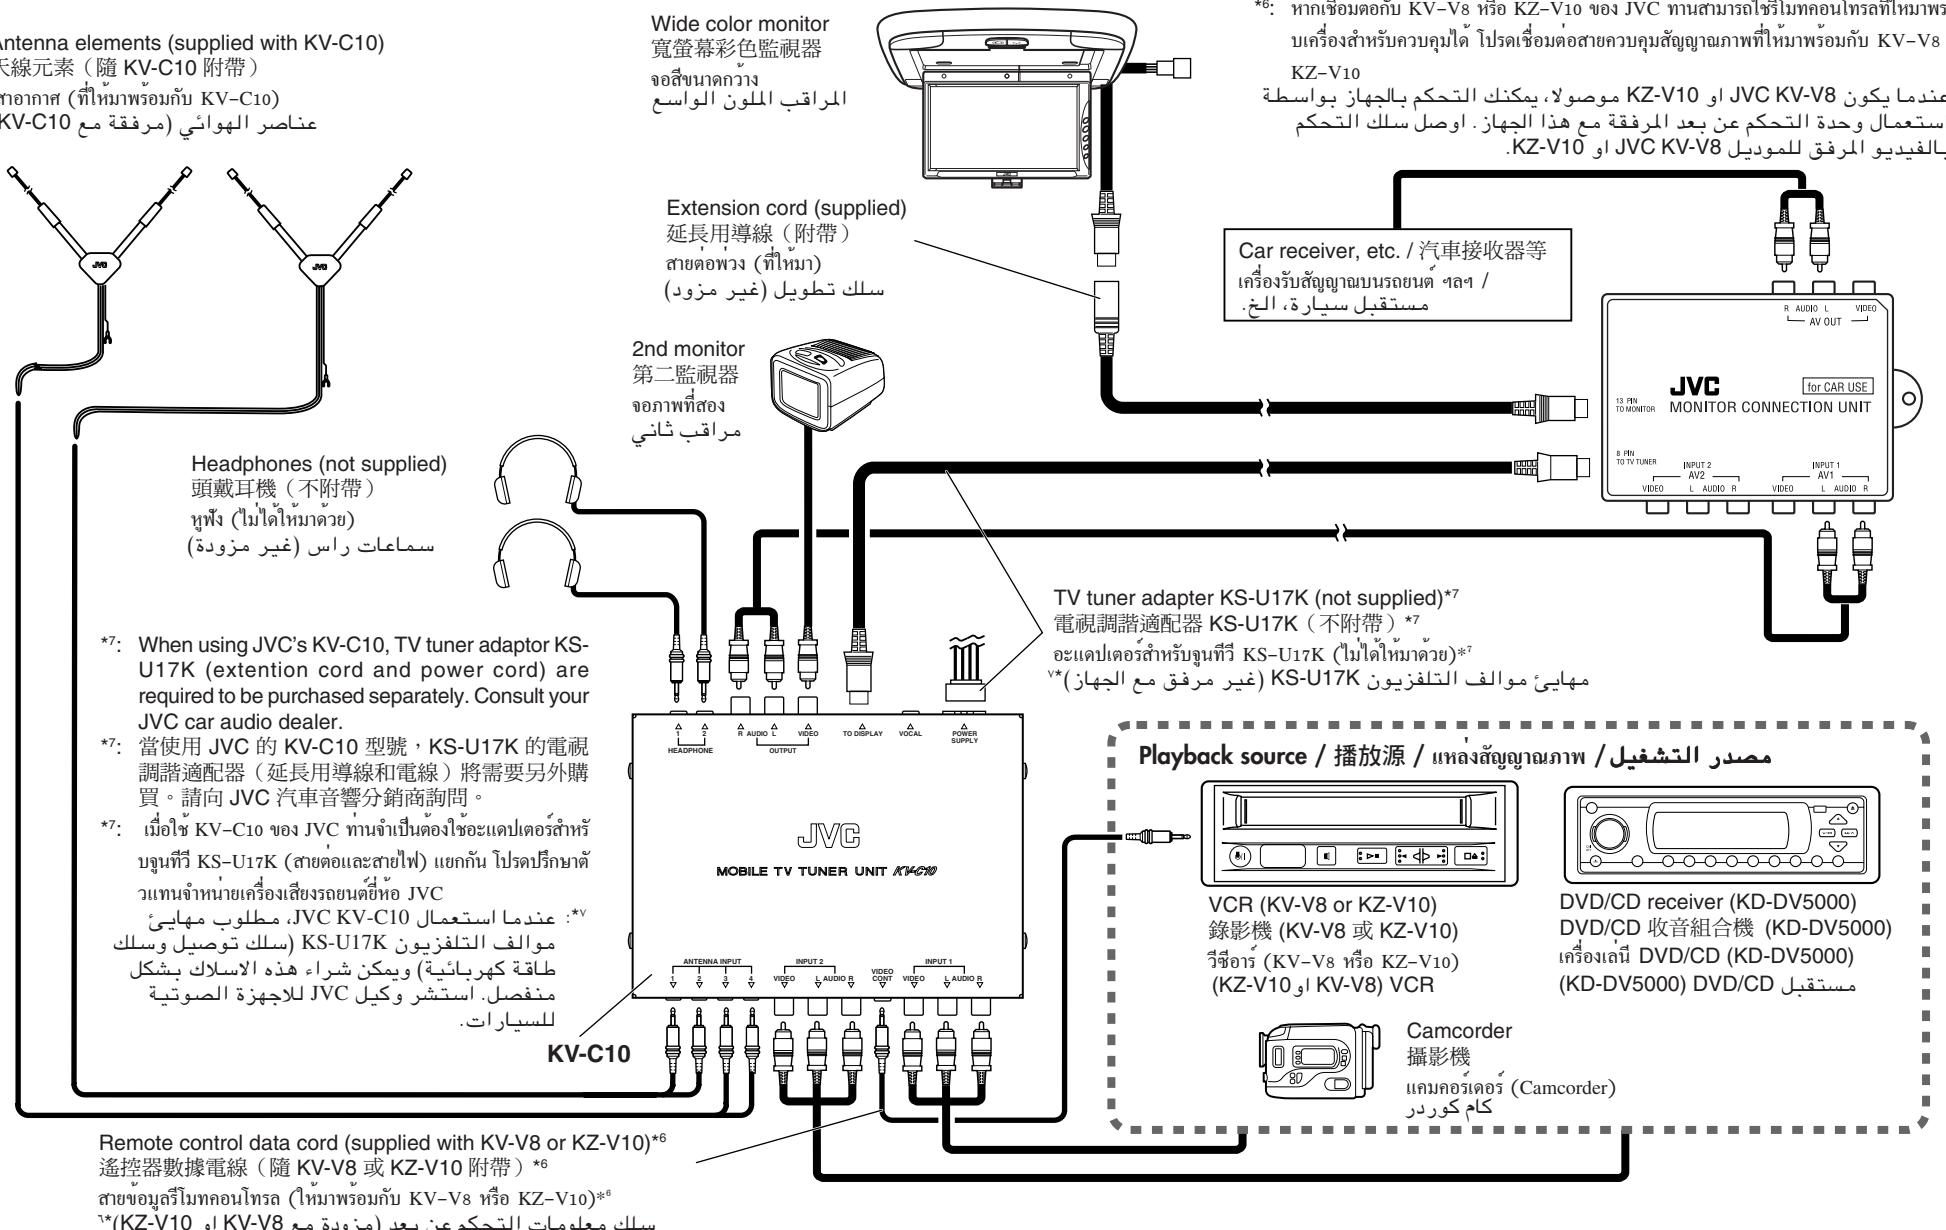

- When using the mobile TV tuner system KV-C10 / 當使用流動電視調諧器系統 KV-C10 時 /  
عند استعمال جهاز موالف التلفزيون المتحرك، مثل KV-C10 / KV-C10

\*6: When JVC's KV-V8 or KZ-V10 is connected, you can control it by using the remote controller supplied with the system. Connect the video control cord supplied for KV-V8 or KZ-V10.

\*6: 當連接 JVC 的 KV-V8 或 KZ-V10，您可用隨機附帶的遙控器來操控。連接埠請參見第 14 頁。

\*6: หากเชื่อมต่อกับ KV-V8 หรือ KZ-V10 ของ JVC ท่านสามารถใช้รีโมทคอนโทรลที่ให้มาพร้อมกับเครื่องสำหรับควบคุมได้ โปรดเชื่อมต่อสายควบคุมสัญญาณภาพที่ให้มาพร้อมกับ KV-V8 หรือ KZ-V10

\*7: عندما يكون KV-V8 أو KZ-V10 موصولاً، يمكنك التحكم بالجهاز بواسطة استعمال وحدة التحكم عن بعد المرفقة مع هذا الجهاز. اوصل سلك التحكم
