- Availability : Launch in Feb. '10

The JVC original AIR FIT soft body puts JVC one step ahead in comfort with its uniquely designed secure fit shape and soft silicon rubber earpiece that contains air.

### The AIR FIT soft body realises the ideal comfort while on-the-go:

- **No “fall-out” design**

The AIR FIT soft bodies change their shape according to the contours of the ear, ensuring that the ear phones will not fall out easily

- **Soft to the touch**

Thanks to the use of soft silicon material containing air around the headphone unit

These two models are both equipped with AIR FIT soft body

# High grade in-ear canal headphones "Bi-METAL" Bi-METAL STRUCTURE

## Package Design

### Concept

**World's first headphones with wood dome diaphragms for enhanced sound quality**

### Main Features

- **Manufactured using JVC's advanced thin film processing technology, the wood dome diaphragms used in the HA-FX1000 reproduce natural sound**
- **Wood housing creates tonal characteristics similar to that of a musical instrument**
- **A high-specific gravity brass ring on a steel unit base forms the Bi-METAL structure which controls movement of the diaphragm (please refer to page 11)**
- **One pair of memory foam and three sizes of silicon eartips ensure a comfortable and customised fit**
- **Supplied with a 2.62ft (0.8m) friction noise reduction cord and a 2.30ft (0.7m) extension cord**
- **Genuine leather carrying case included**
- **Gold-plated iPhone-compatible plug**

iPod and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries.

	5 pcs / Master carton		

● Availability : Current

# Special technology for HA-NC250

## Technology to block noise

### Sound-insulating ear pads

Soft memory foam cushions with extremely smooth surface ear pads that fit exactly on your ears create a seal to block background noise.

### Dual housing structure

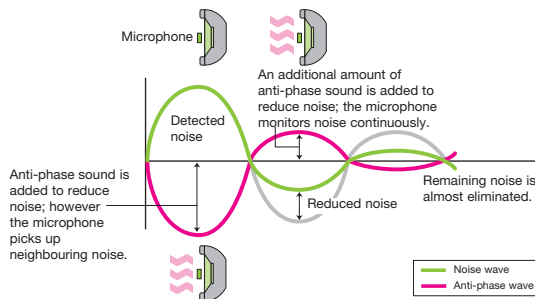

Dual acoustic wall blocks incoming background noise.

## Technology to reduce noise

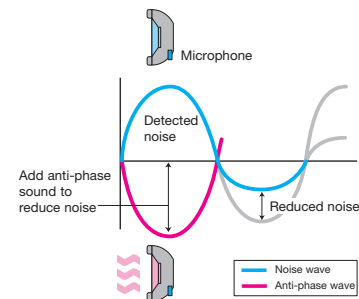

### Equipped with advanced noise cancellation technology

Even after reducing background noise, some will remain. A microphone close to the driver unit picks up such remaining noise and the feedback circuit produces the appropriate amount of additional anti-phase sound. Every nuance of audio becomes clear through this feedback technology.

### ● Advanced noise cancelling with “feedback technology”

### ● Standard noise cancelling

## Package Design

### Concept

## Noise cancelling headphones with selectable dual cancelling mode

### Main Features

- **Powerful 30mm Neodymium driver unit**
- **Noise cancelling function reduces ambient noise more than 75%**
- **Dual noise cancelling mode available according to listening environment**
- **Soft touch headband for more comfortable prolonged use**
- **Foldable, compact design**

## Package Design

### Concept

**On-the-ear lightweight headphones with dynamic sound and comfortable fit**

### Main Features

- High-quality sound reproduction with carbon compound diaphragm and 40mm Neodymium driver unit
- Ring port structure realises dynamic sound by controlling sound pressure in headphone housing (please refer to page 33)
- Excellent sound isolation due to sound-insulating ear pads
- Soft and comfortable, cushioned ear pads
- 3.94ft (1.2m) tangle-resist cord
- Flat foldable design
- Gold-plated iPhone-compatible slim plug
- Slim carrying case included

iPod and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries.

Note	EAN code	HA-S900 4975769 346453
	5 pcs / Master carton	

● Availability : Current

## Ring port structure

With the newly developed “Ring port structure”, the high sound quality available from digital audio can be fully realised, from powerful bass to the subtle high frequencies.

### RING PORT STRUCTURE

With a ring port structure's sound ports located in a circle behind the driver unit, the sound pressure in headphone housing is equalised, realising stable amplification in the unit as a whole.

### SOUND-INSULATING EAR PADS

Provide excellent sound insulation along with a comfortable fit

### OFC CORD

Minimises the transmission loss with pure copper wire

### CARBON COMPOUND DIAPHRAGM

Provides natural sound and highly realistic sensation
