DVD DIGITAL THEATER SYSTEM

TH-D70
**Consists of XV-THD70, SP-THD7W,
SP-THD7F, SP-THD7C and SP-THD7S**

TH-D50

**Consists of XV-THD50, SP-THD5W,
SP-THD5F, SP-THD5C and SP-THD5S**
DVD AUDIO/VIDEO™ · COMPACT disc SUPER VIDEO · dts™ Digital Surround · DOLBY DIGITAL PRO LOGIC II · DivX · DivX ULTRA

HDMI · (((XM))) READY (TH-D70 only) · Made for iPod · MPEG-4 ASF PLAYBACK · *Digital Direct Progressive Scan*

INSTRUCTIONS

Warnings, Cautions and Others

CAUTION — ⏻/| button!

Disconnect the mains plug to shut the power off completely (the STANDBY lamp goes off). When installing the apparatus, ensure that the plug is easily accessible.

The ⏻/| button in any position does not disconnect the mains line.

• When the system is on standby, the STANDBY lamp lights red.
• When the system is turned on, the STANDBY lamp goes off.

The power can be remote controlled.

CAUTION

To reduce the risk of electrical shocks, fire, etc.:
1. Do not remove screws, covers or cabinet.
2. Do not expose this appliance to rain or moisture.

CAUTION

• Do not block the ventilation openings or holes. (If the ventilation openings or holes are blocked by a newspaper or cloth, etc., the heat may not be able to get out.)
• Do not place any naked flame sources, such as lighted candles, on the apparatus.
• When discarding batteries, environmental problems must be considered and local rules or laws governing the disposal of these batteries must be followed strictly.
• Do not expose this apparatus to rain, moisture, dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

CAUTION:

Excessive sound pressure from earphones or headphones can cause hearing loss.

IMPORTANT FOR LASER PRODUCTS

1. CLASS 1 LASER PRODUCT
2. **CAUTION:** Do not open the top cover or cabinet. There are no user serviceable parts inside the unit; leave all servicing to qualified service personnel.
3. **CAUTION:**
   Visible and/or invisible class 1M laser radiation when open. Do not view directly with optical instruments.
4. REPRODUCTION OF LABEL: CAUTION LABEL, PLACED INSIDE THE UNIT.

| CAUTION	ATTENTION	AVISO	VARNING	注意	CAUTION
VISIBLE AND/OR INVISIBLE CLASS 1M LASER RADIATION WHEN OPEN. DO NOT VIEW DIRECTLY WITH OPTICAL INSTRUMENTS. CAUTION!

To avoid personal injury or accidentally dropping the unit, have two persons unpack, carry, and install the unit.

TH-D70: 46 kg
TH-D50: 23.7 kg

Caution: Proper Ventilation

To avoid risk of electric shock and fire and to protect from damage, place the apparatus on a level surface. The minimal clearances are shown below:

Ⓐ ↓ Ⓑ	Press button Ⓐ, then press button Ⓑ.
↓Hold Ⓐ + Ⓑ	Press button Ⓑ while holding button Ⓐ.

Table of contents

1

Before using this System

There are no user-serviceable parts inside. If anything goes wrong, unplug the power cord and consult your dealer.

Notes on installing the System

- Select a location which is level, dry and neither too hot nor too cold between 5°C and 35°C.
- Do not install the System in a location subject to vibrations.
- Do not put heavy objects on the System.

Avoid moisture, water, dust, and high temperatures

- Do not install the System in moist or dusty locations.
- If water gets inside the System, turn off the power and remove the plug from the wall outlet, then consult your dealer. Using the System in this state may cause a fire or electrical shock.
- Do not expose the System to direct sunlight or place it near a heating device.

To prevent malfunctions or damage to the System

- Do not insert any metallic objects, such as wires, hairpins, coins, etc. into the System.
- Do not block the vents.

Notes on the power cord

- When you are away on travel or otherwise for an extended period of time, remove the plug from the wall outlet. A small amount of power is always consumed while the power cord is connected to the wall outlet.
- When unplugging the System from the wall outlet, always pull the plug, not the power cord.
- Disconnect the power cord before cleaning or moving the System.
- Do not modify, twist or pull the power cord, or put anything heavy on it. Doing so may cause fire, electric shock, or other accidents.

About copyright laws

Observe the copyright laws in your country before recording from original sources. Recording of copyrighted material may infringe copyright laws.

About the copyguard system

The discs are protected by the copyguard system. When connecting the System to a TV via a VCR, or to a TV with a built-in VCR, the copyguard system activates and distortion of the picture may occur.

Notes on installing and using the speakers

- Place the speakers and subwoofer on a flat and level surface.
- The speakers are magnetically shielded to avoid color distortions on TVs. If the color on a TV is distorted, perform the following procedure:
  – Turn off the TV's main power switch or unplug it before installing the speakers. Then wait at least 30 minutes before turning on the TV's main power switch again.
  Some TVs may still be affected even though you have followed the above procedure. If this happens, move the speakers away from the TV.
- The subwoofer is not magnetically shielded. To avoid color distortion, do not place it near the TV or monitor.
- When moving the speakers and subwoofer, do not pull the speaker cords. Doing so may cause the speakers and/or subwoofer to fall over, causing damage or injury.
- When installing the speakers on a wall, be sure to have them installed by qualified personnel. DO NOT install the speakers on a wall by yourself.
- Do not lean against the speakers, as they could fall down or break, possibly causing an injury. Be especially careful that children do not lean against them.

About the adjustment of volume

Always set the volume to the minimum level before starting any source. If the volume is set at a high level, the sudden blast of sound could permanently damage your hearing and/or blow out the speakers.

To clean the System

- Use a soft cloth. Follow the relevant instructions on the use of chemically-coated cloths.
- If the System is heavily stained, apply a small amount of water or neutral detergent to the cloth and wipe clean, then wipe with a dry cloth.
- Do not use benzene, thinner or other organic solvents and disinfectants. These may cause deformation or discoloring.

2

Playable discs/devices/files

> ⏺ Some discs/files may require operations that differ from those explained in this manual.
>
> ⏺ Some discs/devices/files may not be recognized or played back correctly due to their characteristics.

Playable disc types

Type of disc	Types of media
DVD Video	• Discs on the market • DVD-R/-R DL/-RW • +R/+RW • DualDisc* (DVD side only)
DVD Audio	• Discs on the market • DVD-R/-R DL/-RW • +R/+RW
Super Video CD (SVCD)/Video CD (VCD)	• Discs on the market • CD-R/-RW
Audio CD	• Discs on the market • CD Text (Audio part only) • CD-R/-RW
A disc recorded in the DVD VR format	• DVD-R/-RW
Audio/video files on a disc (☞🕮 4)	• DVD-R/-R DL/-RW in UDF Bridge format • CD-R/-RW in ISO 9660 format

⏺ This System accommodates the NTSC and PAL system.

⏺ It is possible to play back finalized +R/+RW (DVD Video format only) discs. "DVD" lights on the display when a +R/+RW disc is loaded.

⏺ DVD-R/-RW: This System does not support "multi-border" discs.

⏺ CD-R/-RW:
   – This System supports "multi-session" discs (up to 20 sessions).
   – This System cannot play "packet write" discs.

Region code of DVD Video

DVD Video players and DVD Video discs have their own Region Code numbers. This System can play back DVD Video discs whose Region Code numbers include "1."

Ex.:

ALL 1 1 2 1 2 3 4

■ Unplayable discs—unwarranted

Playing back the following discs generates noise and damages the speakers.
• DVD-ROM, DVD-RAM, DualDisc* (non-DVD side)
• CD-ROM, CD-I (CD-I Ready), Photo CD, SACD
• Unfinalized discs (except DVD VR)
• Discs with an irregular shape or discs with tape, stickers or paste on either the label side or playback side
• Warped, dirty, or scratched discs

* *The Non-DVD side of a "DualDisc" does not comply with the "Compact Disc Digital Audio" standard. Therefore, the use of Non-DVD side of a DualDisc on this product may not be recommended.*

Playable digital devices

> **JVC bears no responsibility for any loss of data in an iPod and/or USB mass storage class device while using this System.**

■ iPod

See "Compatible iPod types" (☞🕮 19).

■ USB mass storage class device

A USB flash memory device, hard disk drive, multimedia card reader, digital camera, etc. can be used with this System through a USB connection.

⏺ This System is compatible with USB 2.0 Full Speed.

⏺ This System cannot recognize a USB mass storage class device whose rating exceeds 5 V/500 mA.

3

Playable file types

The following files in a disc or a USB mass storage class device can be played back.

Type of file	Playable files	Extensions
Audio	MP3	<.mp3>
	WMA	<.wma>
	WAV	<.wav>
Picture	JPEG	<.jpg>, <.jpeg>
Movie	ASF	<.asf>
	MPEG-1	<.mpg>, <.mpeg>
	MPEG-2	<.mpg>, <.mpeg>, <.mod>
	DivX (6.x, 5.x, 4.x and 3.11)	<.divx>, <.div>, <.avi>

- If a file on a USB mass storage class device exceeds the following conditions, it may not be played back correctly:
  – Maximum data transfer rate: 2 Mbps
  – Maximum frame rate: 30 fps for progressive
  – Maximum file size: 2 GB
- The System recognizes up to 150 tracks (files) per group, and 99 groups per disc/device. The total number of tracks (files) that the System can detect is 4000.

Information about the recording conditions for the files on a disc/device

MP3/WMA files

- The System supports MP3/WMA files recorded at a bit rate of 32 – 320 kbps and a sampling frequency of 16 kHz, 22.05 kHz, 24 kHz*, 32 kHz, 44.1 kHz or 48 kHz.
- It is recommended to record each file at a sample rate of 44.1 kHz and at a data transfer rate of 128 (96*) kbps.

* *For WMA only*

WAV files

- The System supports WAV files recorded at a quantization rate of 8 bit or 16 bit and a sampling frequency of 8 kHz, 11.025 kHz, 12 kHz, 16 kHz, 22.05 kHz, 24 kHz, 32 kHz, 44.1 kHz or 48 kHz.
- It is recommended to record each file at a sample rate of 44.1 kHz and at a quantization rate of 16 bit Linear PCM.

JPEG files

- It is recommended to record a file at 640 x 480 resolution. (If a file has been recorded at a resolution of more than 640 x 480, it will take a longer time to be displayed.)
- This System can only play baseline JPEG files.

ASF files

- The System supports MPEG-4 files with the following conditions:
  File format: ASF
  Visual profile: MPEG-4 SP (Simple Profile)
  Audio CODEC: G.726
  Max. picture size: 352 x 288 (CIF)
  Max. bit rate: 384 kbps

MPEG1/MPEG2 files

- The stream format should conform to the MPEG system/program stream.
- 720 x 576 pixels (25 fps)/720 x 480 pixels (30 fps) is recommended for the highest resolution.
- This System also supports resolutions of 352 x 576/480 x 576/352 x 288 pixels (25 fps) and 352 x 480/480 x 480/352 x 240 pixels (30 fps).
- The file format should be MP@ML (Main Profile at Main Level)/SP@ML (Simple Profile at Main Level)/MP@LL (Main Profile at Low Level).
- Audio streams should conform to MPEG1 Audio Layer-2 or MPEG2 Audio Layer-2.

DivX files

- The System supports DivX files whose resolution is 720 x 480 pixels or less (30 fps), and 720 x 576 pixels or less (25 fps).
- Audio stream should conform to Dolby Digital (including multi-channel) or MPEG1 Audio Layer-3 (MP3).
- The System does not support GMC (Global Motion Compression).
- Files encoded in the interlaced scanning mode may not be played back correctly.

4

Getting started

Checking the supplied accessories

If anything is missing, contact your dealer immediately.
- Remote control (x 1)
- Batteries (x 2)
- FM antenna (x 1)
- AM loop antenna (x 1)
- Composite video cord (x 1)
- AC plug adapter (x 1)
- Docking station for iPod (x 1)
- Speaker cords
  – TH-D70: 4 m (x 4), 10 m (x 2)
  – TH-D50: 3 m (x 4), 8 m (x 2)
- Feet
  – TH-D70: For surround speakers (x 8)
  – TH-D50: For front and surround speakers (x 16)
- Screws (TH-D70 only): M5 x 115 mm (x 6), M4 x 25 mm (x 4)

Putting batteries into the remote control

R03 (UM-4)/AAA (24F) type
dry-cell batteries (supplied)
- Do not expose batteries to heat or flame.
- If the range or effectiveness of the remote control decreases, replace both batteries.

Setting the voltage selector

Before plugging in, set the correct voltage for your area with the voltage selector switch on the rear of the center unit.

VOLTAGE SELECTOR
- 110V
- 127V
- 220V - 240V
Ex.: When setting to "220V-240V"

Connecting the speakers and subwoofer
Center unit

Connecting the speakers and the subwoofer to the System

To center speaker (SP-THD7C/SP-THD5C)

CENTER

To front right speaker (SP-THD7F/SP-THD5F)

To front left speaker (SP-THD7F/SP-THD5F)

FRONT RIGHT

FRONT LEFT

SPEAKERS

SUBWOOFER

To subwoofer (SP-THD7W/ SP-THD5W)

SURROUND RIGHT

SURROUND LEFT

To surround right speaker (SP-THD7S/SP-THD5S)

To surround left speaker (SP-THD7S/SP-THD5S)
Connecting the speaker cords

Connect the speaker cords both to the center unit and to each speaker.

On the center unit:

Speaker cord
On the speaker:
Speaker cord

- Connect the black cords to the ⊖ terminals.
- Connect the white cords to the ⊕ terminals.

5

● If you connect speakers other than those supplied for the System, use speakers of the same speaker impedance (SPEAKER IMPEDANCE) indicated on the rear of the center unit.

● DO NOT connect more than one speaker to one speaker terminal.

◐ TH-D70 only:
  – You can install the front speakers on the wall. When installing them on the wall, do not attach the stands and base plates.
  – When installing the front speakers on the floor, they are to be assembled before use (see below).

▦ Assembling the front speakers —TH-D70 only

Front speaker (SP-THD7F) (2)   Stand (2)   Base plate (2)
Assembled speakers:

You can assemble the front speakers either with or without stands.

or
Before assembling:

● Take care not to drop any component part while assembling; otherwise, it may cause an injury or damage to the floor.

◐ Prepare a Phillips screwdriver (not supplied).

1 When assembling a speaker with stand:

Speaker

②

Screws M4 x 25 mm (supplied)

①
Stand

When assembling a speaker without stand:

①

Stand

Speaker

②

Bottom cover

③
Detach the bottom cover and the screws (M4 x 30 mm) from the stand, then attach them to the bottom of the speaker.

2

④ Connect the speaker cord. (☞▢ 5)

Base plate   ①

②

Stand or speaker directly

③

Screws M5 x 115 mm (supplied)
● When holding a speaker, always grasp the lower portion.

6

Getting started

Speaker layout

You can enjoy surround sound by placing the speakers as illustrated (Speaker layout A or B).

■ Speaker layout A

◉ Select "S.SPK R" as the speaker position mode for this layout. (☞ 13)

Center (C)

Front left (L) ── Front right (R)

Subwoofer (SW)

Surround left (SL)

Surround right (SR)
◉ To obtain the best possible surround sound from this System, place all the speakers except the subwoofer at the same distance from the listening position. If it is impossible, adjust the delay time from DELAY menu. (☞ 31)

■ Speaker layout B

◉ Select "S.SPK F" as the speaker position mode for this layout. (☞ 13)

Subwoofer (SW)

Surround left (SL)   Surround right (SR)

Front left (L)   Center (C)   Front right (R)
◉ Place the surround speakers close to the center speaker.
◉ It is recommended to place the surround speakers horizontally (see the right column).

When placing the speakers horizontally

Lay the speakers horizontally so that the JVC logos are positioned as illustrated below.

Ex.:

TV

L   SL   SR   R
TH-D50 only: you can also lay the front speakers as illustrated below.

TV

L   SL   SR   R
● TH-D70: Do not lay down the front speakers horizontally.
◉ You can turn the JVC logos to make them legible.

Attaching the feet

When placing the speakers horizontally, attach the feet to the bottom of the speakers as illustrated.

Peel off

7
Connecting the antennas
■ XM Mini-Tuner system—TH-D70 only

XM Mini-Tuner Home Dock antenna (not supplied)

XM Mini-Tuner (not supplied)

XM
⊘ For better reception, install the XM Mini-Tuner Home Dock antenna in the following location:
– Near a south-facing window with aiming the antenna at the sky directly
– Where "Channel 1" can be heard clearly
– Where the Antenna Aiming display shows a value higher than 0 for either satellite or terrestrial signal strength (☞ 17)

■ AM and FM antennas

⊘ Make sure the antenna conductors do not touch any other terminals, connecting cords or power cords.

AM LOOP

AM loop antenna (supplied)

ANTENNA

FM 75Ω COAXIAL

FM antenna (supplied)

Turn it until the best reception is obtained.

Extend it horizontally.

For better FM reception

FM 75Ω COAXIAL

FM outdoor antenna (not supplied)

Standard type (75 Ω coaxial) connector

FM outdoor antenna cord (not supplied)
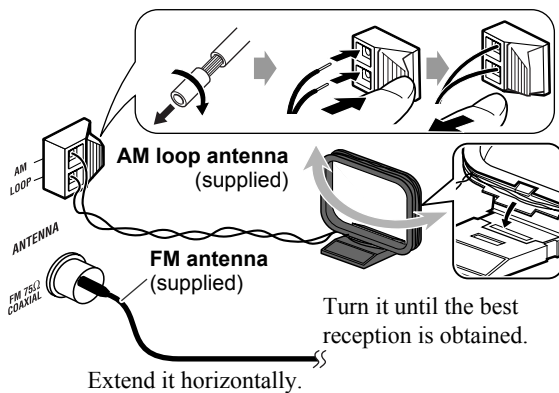

Connecting a TV

Connect the TV to the appropriate video out jacks to view the playback picture.

⊘ The picture quality order is as follows:
HDMI > Component video > S-video > Composite video
⊘ Make the following settings after connecting the TV:
– Color system and scanning mode (☞ 15)
– MONITOR TYPE (☞ 30)

■ Connection using the HDMI terminal

TV

From HDMI input terminal

HDMI cable (not supplied)

MONITOR OUT HDMI
⊘ You can make the following settings for the TV when the HDMI connection is used:
– HDMI DVI COLOR (☞ 30)
– HDMI OUT (☞ 30)
– HDMI AUDIO OUT (☞ 30)
– DOWN MIX (☞ 30)*
⊘ Use a certified HDMI cable, which has the HDMI logo.
⊘ You can use a monitor with a DVI terminal by connecting with a DVI-HDMI conversion cable.
⊘ When you play HDCP (High-Bandwidth Digital Content Protection) source, it takes a few seconds for the sound and picture to be transmitted to the speakers and TV while the confirmation process is completed.
⊘ On some TVs, no sound may come out during playback of sources such as DVD Audio even when the HDMI AUDIO OUT setting is "ON" (☞ 30).

* *This setting is available only when the speaker position mode is set to "S.SPK F" (☞ 13).*

Sound settings and adjustments

■ Selecting the speaker position mode

Select the speaker position mode according to your speaker layout (☞ 7).

1 Turn off the System. (☞ 12)

2 ↓Hold
SETTING

```
S . S P K  R
```

3 Select the appropriate speaker position mode according to your speaker layout (☞ 7).

SETTING

	For speaker layout A
S.SPK R (Surround speaker: Rear)	[L] [C] [R] [SW] [SL] [SR] • The S.SPK R indicator lights on the display.
	For speaker layout B
S.SPK F (Surround speaker: Front)	[L] [SL] [C] [SR] [R] [SW] • The S.SPK F indicator lights on the display.

◢ As the speaker position mode is changed, the following settings are also changed automatically:
– The output level settings of the speakers and of subwoofer (see below) are initialized.
– The surround mode (☞ 14) is set to "AUTO SUR."

■ Adjusting the output level of the speakers and subwoofer

1 SPK LEVEL
The items you can adjust differ depending on the selected speaker position mode (see the left column).

• **When the speaker position mode is "S.SPK R":**

   FRNT L → FRNT R → CENTER → SURR L → SURR R → SUBWFR → (back to the beginning)

• **When the speaker position mode is "S.SPK F":**

   CENTER → SURR → SUBWFR → (back to the beginning)

2 Adjust the output level.

LEVEL

◢ Different output level settings can be stored for the following two groups of sources:
– TH-D70:DVD, USB, IPod, VIDEO1*[1] and VIDEO2
  TH-D50:DVD, USB, IPod and VIDEO
– TH-D70:FM, AM and VIDEO1*[2]
  TH-D50:FM and AM
☼ You can also make adjustments from the LEVEL menu (☞ 31) when the speaker position mode is "S.SPK R."

*[1]*With "COAX" or "OPT" selected as the audio input setting (☞ 14)*
*[2]*With "5.1CH" selected as the audio input setting (☞ 14)*

■ Adjusting the bass and treble sounds

1 TREBLE/ BASS

TRE	Adjusts the treble sound
BASS	Adjusts the bass sound

2 Adjust the level.

LEVEL

13

Using the surround mode

Select one of the available surround modes.

The surround modes you can select depend on the playback source and the selected speaker position mode (☞ 13). For details on each surround mode, see "Available surround modes" on the right column.

- **During 2-channel playback with "S.SPK R" speaker position mode:**

> **AUTO SUR → MOVIE → MUSIC → STADIUM → ALL ST → OFF →** (back to the beginning)
>
> When the source is "FM" or "AM," you can only select "ALL ST."

- **During multi-channel playback with "S.SPK R" speaker position mode:**

> **AUTO SUR →** currently selected mode* **→ OFF →** (back to the beginning)
>
> * *When "AUTO SUR" is selected, the System automatically selects a proper multi-channel surround mode, such as "DOLBY D (Dolby Digital)" or "DTS (DTS Digital Surround)."*

- **During playback with "S.SPK F" speaker position mode:**

> **AUTO SUR → MOVIE → WIDE/2CH → SUPER W → OFF →** (back to the beginning)
>
> When the source is "FM" or "AM," the surround mode cannot be activated.

To check the surround mode currently selected, press SURROUND once.

- TH-D70 only: When the source is "VIDEO1" with "5.1CH" selected as the audio input setting (see the right column), the surround mode setting is ineffective. All incoming signals are emitted through the corresponding speakers. "MULTI CH" appears on the display.
- During playback of ASF, MPEG-2 or MPEG-1 files, the surround mode setting is ineffective.
- During playback of DivX, the surround mode setting is effective only for multi-channel files with "S.SPK R" selected as the speaker position mode.
- For DVD Audio, when "LR ONLY" appears on the display, activate the surround mode for the multi-channel reproduction.
- While the Karaoke function (☞ 32) is in use, the surround mode is canceled.

Available surround modes

Surround mode for "S.SPK R"	
AUTO SUR (Auto Surround)	Selects an appropriate surround mode according to the incoming signals
MOVIE (Dolby Pro Logic II Movie)	For movie sources
MUSIC (Dolby Pro Logic II Music)	For music sources
STADIUM	Adds clarity and spreads the sound, as if in an outdoor stadium
ALL ST (All Channel Stereo)	Reproduces a larger stereo sound field using all the activated speakers
OFF (Off)	Deactivates surround mode
Surround mode for "S.SPK F"	
AUTO SUR (Auto Surround)	Selects an appropriate surround mode according to the incoming signals
MOVIE	For movie or multi-channel music sources
WIDE/2CH	For 2-channel music sources
SUPER W (Super Wide)	Reproduces broader sound field
OFF (Off)	Deactivates surround mode

Setting the audio input for external components

Set the audio input of the external component for "VIDEO1/VIDEO2" (TH-D70) or "VIDEO" (TH-D50).

1

2 Select "AIN. (audio input)."

A I N . 2 ; 2 C H

Item*[1]   Current setting

3 TH-D70 only: Select a source you want to set the audio input for.

AIN.1:	For "VIDEO1"
AIN.2:	For "VIDEO2"

14

4 **Select an appropriate audio input according to the audio connection. (☞🕮 9)**

2CH	For connection via the AUDIO IN jacks
5.1CH	For connection via the AUDIO MULTI IN jacks
COAX	For connection via the COAXIAL jack
OPT	For connection via the OPTICAL terminal

- ◑ You can select the following settings for each source (underlined items are the initial settings for each source):
  - "VIDEO1": 5.1CH*[2], COAX*[3] and OPT*[3]
  - "VIDEO2": 2CH, COAX*[3] and OPT*[3]
  - "VIDEO": 2CH and OPT
- ◑ If your System is the TH-D70, make the audio input setting for both "VIDEO1" and "VIDEO2."

*[1] *"AIN.1:" or "AIN.2:" appears for TH-D70, and "AIN." for TH-D50.*

*[2] *TH-D70 only: When the speaker position mode is set to "S.SPK F," "5.1CH" cannot be selected.*

*[3] *TH-D70 only: It is not possible to select the same audio input setting for "VIDEO1" and "VIDEO2." For example, when "COAX" is assigned to "VIDEO1," it cannot be selected for "VIDEO2."*

Selecting the color system and scanning mode

Select the color system and scanning mode for the sources "DVD" and "USB" according to the type of TV and to connection method.

- ◑ To use the progressive scanning mode, connect a TV supporting progressive video signals to the HDMI MONITOR OUT terminal or COMPONENT jacks. (☞🕮 8)

1 **Select "DVD" or "USB" as the source. (☞🕮 12)**

2 ↓*Hold*
SCAN MODE

The number of scanning lines

NT 480 P

Color system
NT: NTSC
PAL: PAL

Scanning mode
I: Interlaced
P: Progressive
3 **Select an appropriate color system and scanning mode, then confirm the selection.**

Select ➡ Confirm

- • When connecting the TV via the HDMI MONITOR OUT terminal, the following items are selectable: **AUTO, NT 480P, NT 720P, NT 1080I, PAL 576P, PAL 720P and PAL 1080I**
  - Normally select "AUTO."
- ◑ When "AUTO" is selected, the System automatically emits the video signal to get the best picture quality on your TV.
- ◑ The HD indicator lights when the System is emitting "720P" (NT/PAL) or "1080I" (NT/PAL) video signals.

- • When connecting the TV via COMPONENT jacks, S-VIDEO or VIDEO jack, the following items are selectable: **NT 480I, NT 480P, PAL 576I and PAL 576P**
  - When connecting the TV via the S-VIDEO or VIDEO jack, selecting a progressive scanning mode does not affect the picture.
- ◑ If another TV is connected through the HDMI MONITOR OUT terminal, you cannot change the color system and scanning mode for the TV connected through the COMPONENT jacks, S-VIDEO or VIDEO jack.

- ◑ You can get better picture quality in the progressive scanning than in the interlaced scanning.
- ◑ When the color system or scanning mode does not correspond to that of the TV, the picture is not displayed normally.

15

FM/AM tuner operations
Set the remote control mode before operation.

AUDIO
TV
VCR/DBS

➡ FM/AM/XM *

- Select the desired band ("FM" or "AM") you want to listen to. (☞ 12)

* TH-D50: The FM/AM button is used instead of FM/AM/XM.
☼ You can also tune in to a station automatically. Press and hold TUNING ⊕/TUNING ⊖ until the station search starts. The system automatically tunes in the first-found station of sufficient signal strength.

☼ You can also tune in to the station by pressing cursor ▲/▼.

Preset tuning

You can preset 30 FM stations and 15 AM stations.

Storing the preset stations

1 Tune in to the station you want to preset.

2 MEMORY "_ _" flashes on the display. Perform the next step while "_ _" is flashing.

3 Select a preset number, then store the station to that number.

➡ MEMORY Store

Enter a preset number*[1]

- "STORED" appears on the display.

Tuning in to a preset station

Select a preset number.*

☼ You can also select a preset number by pressing PRESET(/CAT) UP*[2] or PRESET(/CAT) DOWN*[2].

*[1] For details on using the number buttons, see "How to use the number buttons" (☞ 11).

*[2] TH-D50: The PRESET UP or PRESET DOWN button is used instead of PRESET/CAT UP or PRESET/CAT DOWN.

Setting the AM tuner interval spacing

Some countries space AM stations 9 kHz apart, and some countries use 10 kHz spacing.

You can only change the AM tuner interval spacing while selecting "AM" as the band.

- This operation is available when the System is turned off.

To change the interval spacing into 10 kHz	To change the interval spacing into 9 kHz
↓ *Hold* TUNING + + VOLUME + (On the center unit)	↓ *Hold* − TUNING + VOLUME + (On the center unit)

About XM Satellite Radio

XM Satellite Radio offers an extraordinary variety of commercial-free music, plus the best in sports, news, talk and entertainment. XM is broadcast in superior digital audio from coast to coast. From rock to reggae, from classical to hip hop, XM has something for every music fan. XM's dedication to playing the richest selection of music is matched by its passion for live sporting events, talk radio, up-to-the-minute news, stand-up comedy, children's programming, and much more.
For U.S. customers, information about XM Satellite Radio is available online at www.xmradio.com. For Canadian customers, information about XM Canada is online at www.xmradio.ca.

⊘ For messages appearing on the display, see "Messages shown on the display while listening to the XM Satellite Radio" (☞ 36).

Preparations

Make sure that you have the following items to enable you to listen to the XM Satellite Radio stations:
• The XM Mini-Tuner system—XM Mini-Tuner and XM Mini-Tuner Home Dock antenna
• A subscription to XM Satellite Radio

◼ How to subscribe

Hardware and required monthly subscription sold separately. Other fees and taxes, including a one-time activation fee may apply. Subscription fee is consumer only. All fees and programming subject to change. Channels with frequent explicit language are indicated with an XL. Channel blocking is available for XM radio receivers by calling 1-800-XMRADIO (US residents) and 1-877-GET-XMSR (Canadian residents).
For a full listing of the XM commercial-free channels and advertising-supported channels, visit lineup.xmradio.com (US residents) and xmradio.ca (Canadian residents). Only available in the 48 contiguous United States and Canada.

To start subscribing, you need to have the XM Satellite Radio ID code. To find the ID code, see "How to find the XM Satellite Radio ID code" below.
• The following channels are available without subscription:
  – **Channel 0**: For checking the XM Satellite Radio ID code
  – **Channel 1**: "XM Preview" channel

⊘ Select "XM" as the source before starting subscription, and keep the source "XM" until subscribing is completed.

◼ How to find the XM Satellite Radio ID code

Tune in to "Channel 0" to check your XM Satellite Radio ID code.

The 8-digit (alphanumeric) ID code is displayed.
• **To cancel the ID code display,** select any channel other than "Channel 0."

◼ Finding the best position for the XM Mini-Tuner Home Dock antenna

You can place the XM Mini-Tuner Home Dock antenna optimally by checking the signal strength shown on the display.

1 ⬇ *Hold* SET UP

A . A I M I N G

Antenna Aiming display
2 **Aim the XM Mini-Tuner Home Dock antenna to the direction at where you get best signal strength value—either "S" (Satellite) or "T" (Terrestrial).**

• The signal strength value is from 0 (worst) to 4 (best).
• The most reliable reception is achieved when signal strength values are at least 3 on both Satellite and Terrestrial. Terrestrial coverage is available only in large metropolitan cities.

3 SET UP

17

Manual tuning

■ To search a channel

- ◆ While searching, the invalid and unsubscribed channels are skipped.
- ◆ TUNING ⊕/TUNING ⊖ are not used to select a XM Satellite Radio channel.

■ To select a channel within the category 🕒

1 Enter the category search mode.

2 Select the desired category name, then select the channel.

Select category   Select channel

3 Exit from the category search mode.

■ To select a channel number directly 🕒

1

2 Select the desired channel number.*

* *For details on using the number buttons, see "How to use the number buttons" (📖 11).*

Preset tuning

You can preset 30 XM Satellite Radio channels.   🕒

■ Storing the preset channels

1 Tune in to the channel you want to preset.

2 📝 "_ _" flashes on the display. Perform the next step while "_ _" is flashing.

3 Select a preset number, then store the channel to that number.

Enter a preset number*

- • "STORED" appears on the display.

■ Tuning in to a preset channel

Select a preset number.*

- ☼ You can also select a preset number by pressing PRESET(/CAT) UP or PRESET(/CAT) DOWN when the System is not in the category search mode (the CAT indicator is turned off). To exit from the category search mode, see the left column.

* *For details on using the number buttons, see "How to use the number buttons" (📖 11).*

Changing the channel information

You can change the type of channel information which appears on the display.

CH (channel number) → **CHAN** (channel name) → **NAME** (artist name/feature) → **TITLE** (song/program title) → **CAT** (category name) → (back to the beginning)

- ◆ If you turn off the power or select another source, the display is changed back to the channel name information.
- ◆ When tuning in to another channel, the channel name appears on the display temporarily.
- ◆ Some characters cannot be displayed correctly.

18

iPod playback

Set the remote control mode before operation.

AUDIO
TV
VCR/DBS

Before selecting the video source to play
Make the appropriate setting for video output on the iPod.

JVC
Compatible iPod types

| iPod model	AUDIO	VIDEO
iPod nano 1GB/2GB/4GB	√	
iPod nano (2nd Generation) 2GB/4GB/8GB	√	
iPod mini 4GB/6GB	√	
iPod (4th Generation) 20GB/40GB	√	
iPod photo (4th Generation) 20GB/30GB/40GB/60GB	√	√ *
iPod video (5th Generation) 30GB/60GB/80GB	√	√

* *Only still pictures are available.*

• If the iPod does not play correctly, update your iPod software to the latest version. For details about updating your iPod, check on the Apple web site <http://www.apple.com>.

• iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

Starting playback

• Be sure to reduce the volume on the System to the minimum level before connecting an iPod. Adjust the volume after playback has started.

1 Attach the dock adapter to the docking station.

Dock adapter (supplied for iPod or separately purchased)

Docking station for iPod (supplied)

To detach the dock adapter from the docking station: Push the slot then pull up to remove the dock adapter.

• Disconnect the docking station from the center unit when attaching/detaching the dock adapter.
• Take care not to damage the terminal on the docking station when attaching/detaching the dock adapter.

2 Connect an iPod while the System is turned off.
• Connect the plug with the arrow-mark side facing up.

3 Turn on the System, then select "IPod" as the source. (☞ 12)

"CONNECT" appears on the display. If an iPod is not connected firmly, "NO CONNE" appears.

4 Start playing the iPod.

• Press ► (play button) again if the iPod does not start playback.

19

■ Play/pause/search/skip

To do	[remote]	[unit]
Start playback	[▶]	[▶]
Pause	FM MODE [‖]	[‖]
Fast-forward/fast-reverse search within the current track	↓*Hold* ⊖TUNING⊕ [◀◀ ▶▶]	↓*Hold* − TUNING + [◀◀ ▶▶]
Skip to the next/previous item*	⊖TUNING⊕ [◀◀ ▶▶]	− TUNING + [◀◀ ▶▶]

* *Operate on your iPod to skip to the next/previous item while playing back a video.*

- The iPod enters sleep mode when you turn off the System or select another source.
- To show still pictures in the iPod, play them back in slide-show mode on the iPod.

⊘ DO NOT connect or disconnect the iPod when the System is turned on.

⊘ DO NOT touch the iPod terminal pins or the connector pins.

⊘ When the iPod is not charged through the System, the iPod may not be turned on from the System.

⊘ If the sound is distorted when audio sources with high recording levels are played, you are recommended to deactivate the equalizer on your iPod.

⊘ To view a video/picture from the iPod on the TV, connect the System to the TV via the composite or S-video jacks. (☞ 9)

⊘ You cannot send any data to your iPod from the System.

☼ The iPod battery is charged only when "IPod" is selected as the source.

If the iPod which is not listed in "Compatible iPod types" (☞ 19) is connected, the iPod may not be operated from the System. In this case, deactivate the iPod battery charge function so that the iPod may be operated, but the iPod cannot be charged through the System.

To deactivate the battery charge function
↓*Hold* SETTING   "P.OFF" appears on the display.

To use the battery charge function, perform the above procedure again. "P.ON" appears on the display.

20

Disc/file playback

The following icons show the available disc/file types for the target function:

| DVD VIDEO | DVD AUDIO | DVD VR | VCD | SVCD | CD | MP3 WMA WAV | JPEG | ASF | MPEG 1 | MPEG 2 | DivX |

6		
7		
8		
9		
10		

Program window

2 **Select the desired chapters/ tracks.**

- **For DVD Video, DVD Audio, MP3 and WMA:** Enter a title/group number, then a chapter/track number.*
- **For VCD, SVCD and CD:** Enter a track number.*

To clear the programs

One by one   All programs at once

CANCEL   ↓ *Hold*
                               CANCEL

3

To check the program contents

MEMORY ➡ ENTER

To return to normal playback

PLAY MODE   Press the button repeatedly until both the program window and RANDOM disappear from the TV.

◉ To program the tracks in the bonus group on a DVD Audio disc, perform the "Playing back a bonus group" procedure (☞ 26) before operation.

◉ You can program up to 99 steps.

* *For details on using the number buttons, see "How to use the number buttons" (☞ 11).*

▣ Playing at random—random play

1 PLAY MODE   RANDOM

2

DVD VIDEO	DVD AUDIO	DVD VR
VCD	SVCD	CD
MP3 WMA WAV	JPEG	ASF
MPEG 1	MPEG 2	DivX

To return to normal playback

PLAY MODE   Press the button repeatedly until both the program window and RANDOM disappear from the TV.

◉ To play the tracks in the bonus group on a DVD Audio disc during random play, perform the "Playing back a bonus group" procedure (☞ 26) before operation.

▣ Playing repeatedly— repeat play

REPEAT   The repeat modes you can select depend on the playback discs/files.

DVD VIDEO	DVD AUDIO	DVD VR
VCD	SVCD	CD
MP3 WMA WAV	JPEG	ASF
MPEG 1	MPEG 2	DivX

On the display	On the TV	Meaning
⟳	↻ GROUP REPEAT GROUP	Repeat current group
	↻ TITLE	Repeat current title
	↻ PG	Repeat current program
	↻ PL	Repeat current playlist
⟳ ALL	↻ ALL REPEAT ALL	Repeat all titles/ programs/tracks/files
⟳ 1	↻ TRACK , ↻ STEP REPEAT TRACK, REPEAT STEP	Repeat current track
	↻ CHAP , ↻ STEP	Repeat current chapter
No indication	↻ OFF	Repeat mode is deactivated

☼ You can repeat the desired part from the on-screen bar (A-B repeat). (☞ 27)

◉ For VCD and SVCD discs, this function is available only when PBC (☞ 23) is deactivated.

◉ This function is not available while playing back reserved songs for Karaoke (☞ 33).

* *For DVD Video and DVD VR discs, this function is not available while playback is stopped.*

24

Disc/file playback

Advanced operations

▨ Changing the language/sound/scene angle

To do	[⸺⸺)]	Disc/file
Select the subtitle language*[1] *[2] ☐ 1/3 ENGLISH • To show/hide the subtitle, press SUBTITLE.		DVD VIDEO / DVD AUDIO / DVD VR VCD / SVCD / CD MP3 WMA WAV / JPEG / ASF MPEG 1 / MPEG 2 / DivX
Select the audio language*[2]/audio channel ◯ 1/3 ENGLISH		DVD VIDEO / DVD AUDIO / DVD VR VCD / SVCD / CD MP3 WMA WAV / JPEG / ASF MPEG 1 / MPEG 2 / DivX
Select the view angle ◻ 1/3 1	↓Hold	DVD VIDEO / DVD AUDIO / DVD VR VCD / SVCD / CD MP3 WMA WAV / JPEG / ASF MPEG 1 / MPEG 2 / DivX

◉For DVD Audio, the functions take effect for the moving picture part only.

*[1]*For DVD VR and SVCD discs, the subtitle indication appears and can be changed by performing the above procedure even if no subtitles are recorded.*

*[2]*Some subtitle or audio languages are abbreviated in the pop-up window. See "Language code list" (☞ 35).*

▨ Special picture playback

To do	[⸺⸺)]	Disc/file
Play back frame by frame ❚❚		DVD VIDEO / DVD AUDIO / DVD VR VCD / SVCD / CD MP3 WMA WAV / JPEG / ASF MPEG 1 / MPEG 2 / DivX
Play back in slow-motion*[1] ❚❚		DVD VIDEO / DVD AUDIO / DVD VR VCD / SVCD / CD MP3 WMA WAV / JPEG / ASF MPEG 1 / MPEG 2 / DivX
Enlarge the picture*[2] *[3] ❚❚ ▶ • Change the scene magnification, then move the zoomed-in area.	↓Hold	DVD VIDEO / DVD AUDIO / DVD VR VCD / SVCD / CD MP3 WMA WAV / JPEG / ASF MPEG 1 / MPEG 2 / DivX

To return to normal playback

• While playing back frame by frame or in slow-motion, press ► (play button).
• While zooming in the picture, select "OFF" by pressing ZOOM repeatedly while holding SHIFT.

◉For DVD Audio, the functions take effect for the moving picture part only.

*[1]*For DVD Video and DVD Audio, reverse slow-motion is also available by pressing ● SLOW repeatedly.*

*[2]*For JPEG files, you can zoom in only during pause.*

*[3]*On some files, using cursor (►/◄/▼/▲) cannot move the zoomed-in area during playback.*

25

▣ Adjusting the picture quality (VFP)

You can adjust the picture mode.

1 SCAN MODE / VFP

NORMAL	
GAMMA	0
BRIGHTNESS	0
CONTRAST	0
SATURATION	0
TINT	0
SHARPNESS	0

DVD VIDEO | DVD AUDIO | DVD VR
VCD | SVCD | CD
MP3 WMA WAV | JPEG | ASF
MPEG 1 | MPEG 2 | DivX

2 Select the desired preset, then finish the setting.

Select ⇨ SCAN MODE / VFP Finish

NORMAL	Normally select this.
CINEMA	Suitable for movies
USER1/ USER2	You can adjust parameters that affect picture appearance. (See below.)

To adjust the picture tone

1 Select "USER1" or "USER2" (see above).

2 Select a parameter, then confirm the selection.

Select ⇨ Confirm

GAMMA	Controls the brightness of the neutral color
BRIGHTNESS	Controls the brightness of the entire picture
CONTRAST	Controls the contrast
SATURATION	Controls the color depth
TINT	Controls the tint
SHARPNESS	Controls the sharpness

3 Adjust the parameter, then confirm the selection.

Select ⇨ Confirm

4 Repeat steps 2 and 3 to adjust others.

5 SCAN MODE / VFP

◉When connecting the TV to the HDMI MONITOR OUT terminal (☞ 8), the VFP setting has no effect.

Special playback for DVD Audio

▣ Playing back a bonus group

Some DVD Audio discs have a "bonus group."
To play back a bonus group, you have to enter the specific "key number" (a password).

1 Select a bonus group.

TITLE/ GROUP ⇨ ⊖ TUNING ⊕

The key number entry screen appears.

On the TV | On the display
KEY _ _ _ _ | K E Y BONUS _ _ _ _
2 Enter the key number, then confirm the entry.

Enter the number ⇨ Confirm

When the key number is accepted, playback starts and the BONUS indicator goes off.
• If playback does not start, enter correct key number again.

To clear the key number entry

MEMORY

▣ Selecting browsable still pictures

While playing back a track linked to browsable still pictures (B.S.P), you can select the still pictures (turn the page).
• If a track is linked to browsable still pictures, they are usually shown automatically during playback.

Select the desired still picture.

Repeat this procedure until all the options have been confirmed.

To close the setup screen

SET UP

(A) Language menu (LANGUAGE)

MENU LANGUAGE	Select the language for the DVD/DivX menu.	See "Language code list" (☞🕮 35) for the code of each language, such as "AA," etc.
AUDIO LANGUAGE	Select the language for the audio language.	
SUBTITLE	Select the language for the subtitle language.	
ON SCREEN LANGUAGE	Select the language for the screen.	

29

🔲 Picture menu (PICTURE)

MONITOR TYPE	Select 16:9 wide-screen playback to fit on your monitor. For wide TV: **16:9 NORMAL/16:9 MULTI NORMAL:** For fixed 16:9 wide TV **16:9 AUTO/16:9 MULTI AUTO:** For ordinary wide TV For conventional (4:3) TV: **4:3 LB/4:3 MULTI LB** **4:3 PS/4:3 MULTI PS** • When selecting "MULTI" options as the monitor type for the multi-color system TV, the System emits PAL or NTSC video signal according to the disc/file, regardless of the color system setting (☞📖 15).
PICTURE SOURCE	Select the source type of the disc/file contents when selecting the progressive scanning mode (☞📖 15). **AUTO:** Normally select this. **FILM:** For a film source movie **VIDEO:** For a video source movie
SCREEN SAVER	Activate (**ON**) or deactivate (**OFF**) the screen saver function.
FILE TYPE	Select the file type to play when several types of files are recorded on a disc/device. **AUDIO:** For audio files **STILL PICTURE:** For picture files **VIDEO:** For movie files
HDMI DVI COLOR	Select the picture appearance for a TV with an HDMI connection. **STANDARD:** No effect applied. **ENHANCE:** Select when you need automatic picture adjustment.
HDMI OUT	Select the type of video signal output from the HDMI MONITOR OUT terminal. **AUTO:** Normally select this. **RGB:** Select this when no picture appears on the TV with "AUTO."

🔘 Audio menu (AUDIO)

DOWN MIX	This menu is available only when the speaker position mode is set to "S.SPK F" (☞📖 13). Select the audio signal output to the TV connected to the HDMI MONITOR OUT terminal. **DOLBY SURROUND:** For the TV equipped with Dolby Pro Logic decoder **STEREO:** For ordinary TV
D. RANGE COMPRESSION	You can enjoy powerful audio even at low volume level while playing Dolby Digital software. **AUTO:** Select this to apply the compression only to the multi-channel software (except 1-channel and 2-channel sources). **ON:** Select this to always apply the compression.
HDMI AUDIO OUT	This setting is effective only for the source "DVD" or "USB." Select whether the System emits the audio signal from the HDMI MONITOR OUT terminal (**ON**) or not (**OFF**). • For selecting whether the external component emits the audio signal through its HDMI terminal, make the setting on the external component.

30

⚙ Speaker setting menu (SPK.SETTING)

SPK.SETTING menu is available only when the speaker position mode is set to "S.SPK R" (☞📖 13).

LEVEL	Adjust the output level of each speaker while monitoring the test tone. **FRONT LEFT/RIGHT SPEAKER, CENTER SPEAKER, SURROUND RIGHT/LEFT SPEAKER:** Select the speaker, then adjust the output level. **TEST TONE:** Turns on/off the test tone.
DELAY	Adjust the delay time of the speakers. **FRONT LEFT/RIGHT SPEAKER, CENTER SPEAKER, SURROUND RIGHT/LEFT SPEAKER:** Select the speaker, then adjust the distance from the listening position to the speakers. • **1 ms** increase (or decrease) in delay time corresponds to about 30 cm decrease (or increase) in distance. • Set to **0 ms** for the furthest speaker from your position as the basis for the delay time setting. Ex.: Center 1 ms — Subwoofer Front left 0 ms — Front right 0 ms 3.0 m / 2.7 m / 2.4 m / 2.1 m Surround left 2 ms — Surround right 2 ms
SUBWOOFER	Make the subwoofer settings. **LEVEL:** Adjust the output level of the subwoofer. **CROSS OVER:** Select an appropriate crossover frequency according to the size of the cone speaker unit built into the small speaker connected. **120Hz:** Select this when the cone speaker unit size is 8 cm or more. **150Hz:** Select this when the cone speaker unit size is between 6 cm and 8 cm. **200Hz:** Select this when the cone speaker unit size is 5 cm or less.

🔧 Other setting menu (OTHERS)

RESUME	Activate (**ON**) or deactivate (**OFF**) the resume function.
ON SCREEN GUIDE	Activate (**ON**) or deactivate (**OFF**) the on-screen guide icons.
DivX REGISTRATION	The System has its own Registration Code for DivX playback. You can confirm the code of your System. • Once you play back a DivX file created by using the Registration Code, the System's code is overwritten by a totally different new one for copyright protection purposes.

31

Karaoke operations

AUDIO
TV
VCR/DBS

JVC
Always set MIC LEVEL to MIN when connecting or disconnecting the microphone.

Do not keep the microphones connected while they are not in use.

MIC LEVEL
MIN   MAX
MIC 1   MIC 2

Basic procedure for Karaoke

1 **Connect the microphone(s) to the MIC 1 or/and MIC 2 jack on the center unit.**

DVD VIDEO	DVD AUDIO	DVD VR
VCD	SVCD	CD
MP3 WMA WAV	JPEG	ASF
MPEG 1	MPEG 2	DivX

MIC LEVEL   MIN   MAX   MIC 1   MIC 2
2 **Select "DVD" as the source.**

3 **Activate the Karaoke function.**
KARAOKE

4 **Start playing a disc.**
- You can select the audio channel for a disc. See "Selecting the audio channel" (☞ 33).
- For the sound adjustment for Karaoke, see "Sound adjustments for Karaoke" (☞ 33).

5 **Sing into the microphone.**

6 **Adjust the microphone's volume and the System's volume.**

MIC LEVEL   (On the center unit)
MIN   MAX
- For the adjustment of the System's volume, see "Adjusting the volume" (☞ 12).
- To deactivate the Karaoke function, press KARAOKE again. The ✎ indicator goes off.

No sound through the microphone is heard from the speakers while the disc is not played back, but when the headphones are connected, the sound will come out of the headphones. (For TH-D70, the sound through the microphone will come out of the component connected through the AUDIO OUT jacks whether the disc is being played back or not.)

While the Karaoke function is in use, the surround mode is canceled.

The Karaoke function is canceled when you start playing back DVD Audio, DVD VR, JPEG, ASF, MPEG-1, MPEG-2 or DivX.

32

Karaoke operations

Selecting the audio channel

The audio channel can be selectable with most of the Karaoke discs.
Each time you press AUDIO, the audio channel changes as follows:
- Example for a VCD:
  - ST: To listen to L (left) and R (right) audio channels.
  - L: To listen to L (left) audio channel.
  - R: To listen to R (right) audio channel.

Sound adjustments for Karaoke

The following items can be adjustable when the Karaoke function is activated.

■ Reducing the voice recorded on a disc/file—voice masking

"V. MASK" appears on the display.

To restore the voice, press the button again.

⚫ The voice may not be reduced enough with some discs/files.

■ Shifting the pitch of the playback sound—key control

You can shift the pitch of the playback sound from –6 to +6.

For DVD Video/VCD/ SVCD/CD:

KEY CONT
▲
+2
▼

For MP3/WMA:

FILE   KEY CONT 0
- Select "0" to return to the normal playback.

⚫ The setting is applied only to the current title/track/ file.

⚫ Depending on the type of the recorded source (such as DTS Digital Surround software, etc.), you may not be able to shift the pitch.

■ Applying an echo to your voice—echo

ECHO 1 → ECHO 2 → ECHO 3
→ ECHO OFF (canceled) →
(back to the beginning)

- As the number increases, the effect will be emphasized.

Reserving Karaoke songs

You can reserve the songs up to 12.

1

No	Gr/Tt	Tr/Chap
1		
2		
3		
4		
5		

Reservation list

2 Select the desired chapters/ tracks/files.
- For VCD, SVCD and CD: Enter a track number.*
- For discs/files other than above:
  Enter a title/group number, then a chapter/track/file number.*

3 Repeat step 2 to reserve the rest of your selection.

To clear a reserved song

Select → Clear

To add a song

Select the position to add a song → Enter the chapter/ track/file number

4 Start playback.

The reservation list goes off when you press RESERVE. To show the list, press the button again.

☼ You can additionally reserve a song after the song currently played back. To reserve a song, stop playback and perform the procedure in step 2 above, then start playback.

⚫ When you start playing back the reserved songs, make sure the reservation list appears on the TV screen; otherwise, you cannot start playback.

* *For details on using the number buttons, see "How to use the number buttons" (☞ 11).*

Messages and icons shown on the TV

OPEN/CLOSE	Opening or closing the disc tray
NOW READING	Reading the disc/file information
READING INDEX...	Reading the DivX file
REGION CODE ERROR!	The Region Code of the DVD Video disc does not match the code the System supports. (☞🕮 3)
NO DISC	No disc or an unfinalized disc is loaded.
NO USB DEVICE	No USB mass storage class device is loaded.
CANNOT PLAY THIS DISC	An unplayable disc is loaded.
CANNOT PLAY THIS DEVICE	An unplayable USB mass storage class device is connected.
RESTRICTED DEVICE	iPod is connected to the USB MEMORY terminal.
NOT SUPPORT	The file cannot be played back.

⊘	The operation is unacceptable.
▶	Playback
❚❚	Pause
▶▶ / ◀◀	Fast-forward/fast-reverse
▶❚ / ❚◀	Forward/reverse slow-motion playback
⏻	The scene contains multi-audio languages.
▭	The scene contains multi-subtitle languages.
🎥	The scene contains multi-angle views.

☼ You can change the setting so that the on-screen guide icons do not appear on the TV. (☞🕮 31)

Messages shown on the display while listening to the XM Satellite Radio

NO SIGNL	No signal is received.
CHECK XM TUNER	The XM Mini-Tuner is not properly installed or the XM Mini-Tuner Home Dock is not properly connected.
CHECK ANTENNA	XM antenna is not properly connected.
LOADING	Loading the channel information and audio data.
OFF AIR	The selected channel is not currently broadcasting any signal.
UPDATING	Updating the latest encryption.
- - - - - Preset number and "- - - - -"	No text information for the selected channel is available.
CH- - - Preset number and "CH- - -"	The selected channel does not exist or is not subscribed yet.

Troubleshooting

Power does not come on.
➡ The power plug is not inserted securely. Plug it in securely.

Unable to operate the System from the remote control.
➡ The path between the remote control and the remote sensor on the center unit is blocked.
➡ The batteries are exhausted.

No sound is heard.
➡ The speaker connections and/or audio cord connections are incorrect or loose. (☞🕮 5, 9)
➡ Headphones are connected.

The sound is distorted.
➡ The speaker layout (☞🕮 7) does not match the speaker position mode (☞🕮 13).

No picture appears on the TV.
➡ The video cord connections are incorrect or loose. (☞🕮 8 – 10)

The picture does not fit the TV.
➡ The monitor type is not set correctly. (☞🕮 30)

No picture is displayed on the TV, the picture is blurred, or the picture is divided into two parts.
➡ Inappropriate color system and scanning mode is selected. (☞🕮 15)

36

References

No picture is displayed on the TV or no sound comes out through the HDMI connection.
➡ The connected TV is not HDCP-compatible. ("HDCP ERR" appears on the display.)
➡ Disconnect the HDMI cable and connect it again, or use a shorter cable.

Video and audio are distorted.
➡ The disc is scratched or dirty.
➡ Audio/video files have not been properly copied on to the USB mass storage class device.
➡ A VCR is connected between the center unit and the TV. Connect the center unit and TV directly. (☞🕮 8, 9)

VCD/SVCD operation cannot be performed.
➡ Some functions do not work for VCDs/SVCDs when the PBC function is used.

No sound is heard from the external components, or the video and audio do not match.
➡ The selected audio input is not appropriate. Select the audio input to match the component connected. (☞🕮 14)

The iPod does not play even though "CONNECT" appears on the display.
➡ The battery of the iPod is exhausted. Leave the iPod connected for at least 10 minutes.

The iPod cannot be operated from the System.
➡ The iPod battery charge function is deactivated. (☞🕮 20)
➡ The iPod is not compatible with the System. Check the compatibility. (☞🕮 19)

iPod is not charged.
➡ The source is not "IPod."
➡ The iPod battery charge function is deactivated. (☞🕮 20)

The broadcast is hard to hear because of noise.
➡ Antenna connections are incorrect or loose. (☞🕮 8)
➡ The AM loop antenna is too close to the System.
➡ The FM Antenna is not properly extended and positioned. (☞🕮 8)

Specifications

▮ Center unit (XV-THD70/XV-THD50)

Output power

Front:
140 W per channel, RMS at 4 Ω at 1 kHz, with 10 % total harmonic distortion.
Center:
130 W, RMS at 4 Ω at 1 kHz, with 10 % total harmonic distortion.
Surround:
130 W per channel, RMS at 4 Ω at 1 kHz, with 10 % total harmonic distortion.
Subwoofer:
140 W, RMS at 4 Ω at 100 Hz, with 10 % total harmonic distortion.

Audio section

Digital Input*
 DIGITAL IN
  OPTICAL: –21 dBm to –15 dBm (660 nm ±30 nm)
  Only for XV-THD70
  COAXIAL: 0.5 V(p-p)/75 Ω
Analog input: For XV-THD70:
                         VIDEO 2 AUDIO IN
                         For XV-THD50:
                         AUDIO IN
Analog output: Only for XV-THD70:
                         AUDIO OUT

Video section

Video System: NTSC/PAL
Horizontal Resolution: 500 lines
Signal-to-Noise Ratio: 64 dB
Video Output Level
 Composite: 1.0 V(p-p)/75 Ω
 S-video-Y: 1.0 V(p-p)/75 Ω
 S-video-C: For NTSC: 0.286 V(p-p)/75 Ω
                         For PAL: 0.3 V(p-p)/75 Ω
 Component-Y: 1.0 V(p-p)/75 Ω
 Component-P_B/P_R: 0.7 V(p-p)/75 Ω
Video Input Sensitivity/Impedance
(VIDEO IN for XV-THD50/VIDEO 2 IN for XV-THD70)
 Composite: 1.0 V(p-p)/75 Ω
 S-video-Y: 1.0 V(p-p)/75 Ω
 S-video-C: For NTSC: 0.286 V(p-p)/75 Ω
                         For PAL: 0.3 V(p-p)/75 Ω

HDMI

HDMI Input (VIDEO 1 IN) (Only for XV-THD70):
                         PASS THROUGH (up to 225 MHz)
HDMI Output (MONITOR OUT):
 For NTSC: 480p/720p/1080i
 For PAL: 576p/720p/1080i

USB storage

USB Specification: Compatible with USB 2.0 Full Speed
Compatible Device: Mass Storage Class
Compatible File System: FAT16, FAT32
Bus Power Supply: Max. 500 mA

Tuner section

Tuner Range
 FM: 87.50 MHz to 108.00 MHz
 AM:
 At 10 kHz intervals: 530 kHz to 1 710 kHz
 At 9 kHz intervals: 531 kHz to 1 710 kHz

General

Power Requirements:
        AC 110 V/127 V/220 V - 240 V ∼, 50/60 Hz
        (selectable with the voltage selector)
Power Consumption: 160 W (during operation)
                         4.0 W (in standby mode)
Dimensions (W × H × D): 435 mm × 115 mm × 270 mm
Mass: 6.8 kg

* *Corresponding to Linear PCM, Dolby Digital, and DTS Digital Surround (with sampling frequency — 32 kHz, 44.1 kHz, 48 kHz)*

▮ Subwoofer

For SP-THD7W (TH-D70)

Type: Bass-Reflex Type
Speaker: 20 cm cone × 1
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 28 Hz to 200 Hz
Sound Pressure Level: 75 dB/W•m
Dimensions (W × H × D): 353.5 mm × 351 mm × 248 mm
Mass: 8.5 kg

For SP-THD5W (TH-D50)

Type: Bass-Reflex Type
Speaker: 16 cm cone × 1
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 30 Hz to 200 Hz
Sound Pressure Level: 75 dB/W•m
Dimensions (W × H × D): 353.5 mm × 351 mm × 174 mm
Mass: 6.3 kg

References

■ Satellite speakers (For TH-D70)

Front speakers (SP-THD7F)

Type:
  2-Way 3-Speaker Bass-Reflex Type (Magnetically Shielded Type)
Speaker: 8 cm cone × 2
                              3 cm dome × 1
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 75 Hz to 20 000 Hz
Sound Pressure Level: 83 dB/W·m
Dimensions (W × H × D):
  280 mm × 1 100 mm × 280 mm (with stand)
  280 mm × 594 mm × 280 mm (without stand)
Mass: 8.9 kg each (with stand)
                              6.5 kg each (without stand)

Center speaker (SP-THD7C)

Type:
  1-Way 2-Speaker Bass-Reflex Type (Magnetically Shielded Type)
Speaker: 8 cm cone × 2
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 75 Hz to 20 000 Hz
Sound Pressure Level: 84 dB/W·m
Dimensions (W × H × D): 435 mm × 100 mm × 118 mm
Mass: 2.2 kg

Surround speakers (SP-THD7S)

Type:
  1-Way Bass-Reflex Type (Magnetically Shielded Type)
Speaker: 8 cm cone × 1
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 75 Hz to 20 000 Hz
Sound Pressure Level: 77 dB/W·m
Dimensions (W × H × D): 98.5 mm × 215 mm × 118 mm
Mass: 1.0 kg each

■ Satellite speakers (For TH-D50)

Front speakers (SP-THD5F)

Type:
  1-Way Bass-Reflex Type (Magnetically Shielded Type)
Speaker: 8 cm cone × 1
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 90 Hz to 20 000 Hz
Sound Pressure Level: 80 dB/W·m
Dimensions (W × H × D): 98.5 mm × 214.5 mm × 93.5 mm
Mass: 1.0 kg each

Center speaker (SP-THD5C)

Type:
  1-Way 2-Speaker Bass-Reflex Type (Magnetically Shielded Type)
Speaker: 8 cm cone × 2
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 90 Hz to 20 000 Hz
Sound Pressure Level: 84 dB/W·m
Dimensions (W × H × D): 435 mm × 99 mm × 93.5 mm
Mass: 2.0 kg

Surround speakers (SP-THD5S)
Type:
  1-Way Bass-Reflex Type (Magnetically Shielded Type)
Speaker: 8 cm cone × 1
Power Handling Capacity: 140 W
Impedance: 4 Ω
Frequency Range: 90 Hz to 20 000 Hz
Sound Pressure Level: 76 dB/W·m
Dimensions (W × H × D): 98.5 mm × 214.5 mm × 93.5 mm
Mass: 0.85 kg each

Mains (AC) Line Instruction

VOLTAGE SELECTOR

- **110V**
- **127V**
- **220V - 240V**

CAUTION for mains (AC) line

BEFORE PLUGGING IN, do check that your mains (AC) line voltage corresponds with the position of the voltage selector switch provided on the outside of this equipment and, if different, reset the voltage selector switch, to prevent from a damage or risk of fire/electric shock.
