every detail of
your original with
amazing results.*

Simplicity@work

Looking for a compact, feature-rich digital copier that's easy-to-use, economical, and reliable? Looking for a robust printer with expanded capabilities and low running costs? Look no further than the Kyocera Mita KM-1530.

It's the ideal digital copier-printer for smaller companies and workgroups with demanding business needs.

- Space-saving design and quiet operation lets you place the unit comfortably within any work area, enhancing the convenience of everyone at work.

- Output onto a variety of paper sizes and stock, including 11" x 17", with 600 dpi clarity from the standard 250 sheet Paper Drawer and 50 sheet Bypass.

- Thanks to a short paper path, you'll receive your first copy in a brisk 5.5 Seconds, terrific for short runs! The base model outputs 15 Letter Size Copies Per Minute. Add the optional Memory Board and increase speed by twenty percent to 18 Letter Size Copies Per Minute.

- Six imaging modes assures your optimum results whether you're reproducing text, photos, or a combination of text and photos. Use the ECO Toner Save Mode to help reduce your toner costs.

- Optional Auto Image Rotation allows you to reduce oversize originals to Letter size copies without any slowdown.

- Optional Electronic and Rotate Sorting enables you to collate copy sets electronically, eliminating the expense of a mechanical add-on sorting device.

- Add the optional 70 sheet Document Processor and reproduce your Invoice to Ledger size originals without operator involvement.

- Increase online convenience, versatility and capacity by adding up to three more 250 sheet Paper Drawers.

- Long-life consumables reduces scheduled maintenance. You'll make more copies and prints with fewer interruptions.

Though the KM-1530 does a lot, its clearly marked Control Panel makes feature selections error-free.

Connectivity@work

Placing the KM-1530 on your network expands the benefits of multiple set printing to all users from the convenience of their desktop.

- PCL, PostScript and Mac printing are supported with outstanding 600 x 600 dpi output quality. Edge Smoothing enhances resolution to 2400 x 600 dpi for amazing life-like results.

- With Transmit and RIP Once* technology and a high performance processor, network traffic is reduced while turnaround time is improved.
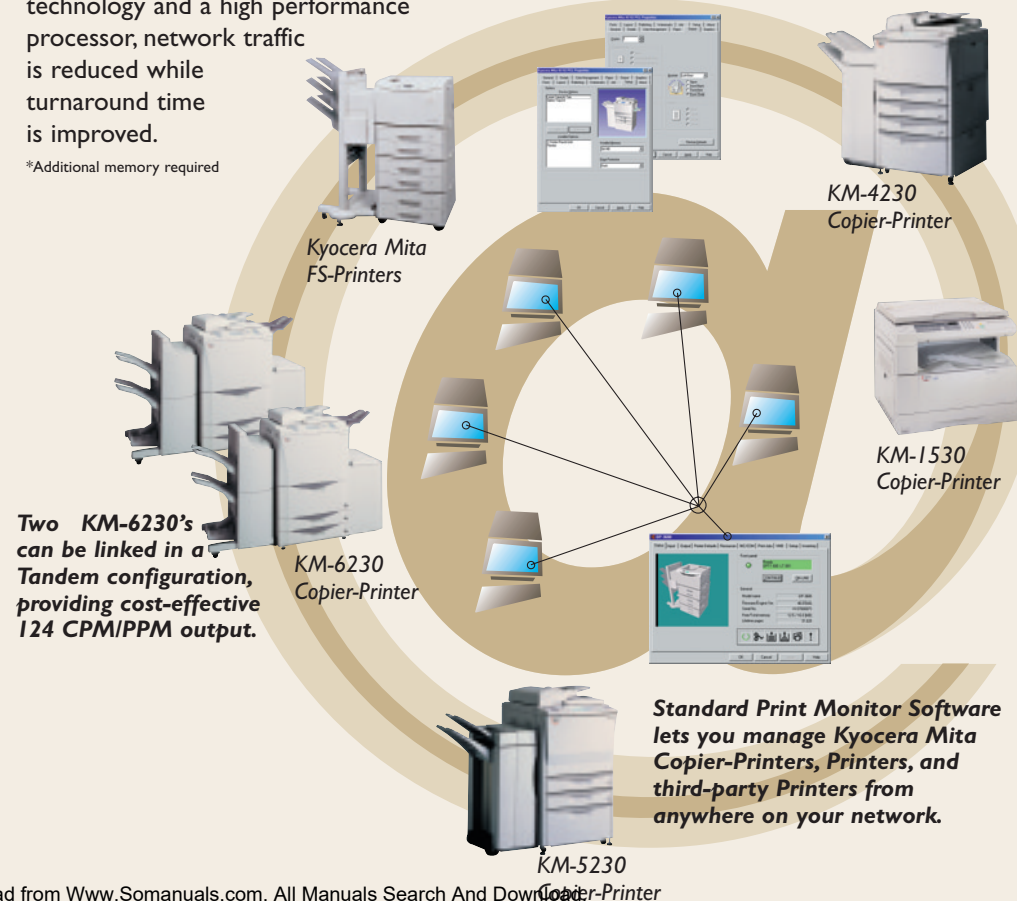

*Additional memory required

The optional Network Interface Card provides seamless integration onto your TCP/IP, IPX/SPX, and Mac OS Network.

Moreover, our standard Print Monitoring Software lets you manage all of our Copier-Printers and Printers on your Network. You can set-up, check status, and receive detailed feedback from each device, including online Paper Sizes and Supply, Toner levels and more.

Best of all, since there aren't any expensive all-in-one cartridges to replace, you'll significantly lower your printing expenses. The more prints you make, the more you'll save.

Our KM Series Copier-Printers and FS Series Printers share a similar User Interface to simplify set-up and delivery in mixed device environments.
