

AIR CONDITIONERS

GL6000ER LP6000ER

- 6,000 BTUs
- 4-Way Air Deflection
- Digital Timer Up to 12 Hours
- Auto Restart
- 3 Cooling and Fan Only Speeds
- Remote Control
- Energy Star

AIR CONDITIONER

Low Profile Design

Does your décor call for something different than the traditional box-shaped unit? LG designers have created a completely new and contemporary look. Our low profile line will take up less of your window, leaving you more of a view.

12 Hour Timer

Program the air conditioner to turn on right before you arrive home or turn off shortly after you leave for added convenience and energy efficiency.

Auto Restart

The summer is the most frequent time for power failures due to high heat, storms and increased electricity. Auto Restart will turn the unit back on automatically when the power returns.

Energy Saver Function

The fan and compressor turn off when the desired temperature setting is reached. The fan will cycle on every 3 minutes to check that the thermostat matches the desired temperature.

Energy Star

Room air conditioners with the Energy Star logo use at least 10% less energy.
