- 2 OptiBin™ Humidity Crispers
- CustomCube™ Automatic Ice Maker
- IcePlus™ Accelerated Freezing Function
- Door Alarm
- LoDecibel™ Quiet Operation
- BioShield™ Anti-Bacterial Seal

ENERGYSTAR® qualified models use at least 15% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

# PANORAMA™ FRENCH DOOR

## Wide Open Spaces

Open all three doors and take a step back. The Side by Side style gives you a panoramic view of all your fresh food, while the gallon size bins, slide-out shelves, and OptiBin™ drawers give you plenty of organizational options. Look down below, and the Bottom Freezer offers an extra-large capacity that can even hold a large frozen turkey.

## SmoothTouch Digital Temperature Controls

Ensure precise temperature control in the refrigerator and freezer compartments. Located on the outside of the refrigerator, the touch-sensitive digital controls also allow you to use the IcePlus™ function, monitor room temperature, and reset the water filter.

## External Water Dispenser

Fresh cold filtered water is dispensed on the exterior of the refrigerator to provide convenience and save energy by not opening the door.

## Tilt-A-Drawer™

The freezer door tilts downward approximately 45 degrees for easy access to the entire freezer compartment.

## Glide N' Serve™ Drawer

Full width drawer with an OptiBin™ opening allows for easy storage of platters, cans and wines.

## Multi-Air Flow Cooling

Vents are located on every shelf for even air distribution and longer lasting food freshness.

## OptiBin™ Crisper

Optimizes humidity, extending life of most fruits and vegetables with the innovative Magic Crisper grid. The crisper lid automatically lifts out of the way when the door is opened.

## BioShield™ Anti-Bacterial Seal

Unique feature prevents mold and mildew from building up on the door seal.
