

## Vizia-RF™ Scene Capable Plug-in Appliance and Lamp Dimming Modules

The Vizia-RF Scene Capable Plug-in Appliance and Lamp Dimming Modules are part of Leviton's Vizia-RF Wireless Home Control System. These devices combine the popular Vizia family of lighting devices with Z-Wave® award-winning RF-based home control technology to deliver the first line of truly dependable, scalable and practical wireless home control devices that will set the standard for residential control system performance for decades to come.

The Vizia-RF Wireless Home Control System provides scalable, easy-to-install, retrofit ready, remote control of appliances and lighting as well as one-button scene and zone lighting control that lets you instantly create the perfect ambiance for any occasion. And, best of all, Vizia-RF does all of this without any of the interference and less-than-consistent performance of previous home control systems.

### APPLICATION

The Vizia-RF Scene Capable Plug-in Appliance Module is ideal for any residential setting where remote ON/OFF switching of appliances, motor loads up to 1/2 HP, or free-standing lights, including Incandescent, Magnetic Low-Voltage, Fluorescent and Compact Fluorescent loads is needed. Typical applications include switching of fluorescent lamps, fans, kitchen appliances, holiday lighting, decorations, indoor fountains, electric tools and more. The RZP15-1LW Module also allows users to remotely turn ON/OFF free-standing lamps and incorporate them into scene and zone lighting control applications.

The Vizia-RF Scene Capable Plug-in Lamp Dimming Module is ideal for any residential setting where remote dimming of Incandescent loads up to 300W is needed. Typical applications include dimming of table lamps and standing floor lamps. The RZP03-1LW Module also allows users to remotely control free-standing lamps individually or as part of a scene or zone grouping of lights through scene commands.
