If your original remote uses one/two digit input switching (-/-- symbol), this function can be obtained by pressing the -/-- key. If your original remote has an 10 key, this function can also be found under the -/-- key. If your original remote has an 20 key, this function can also be found under the AV key.

10 Teletext and Fastext Keys

The text keys are used to access the Teletext functions of your television. Of course, your television must have Teletext capability.

TEXT ON: Puts the television in the Teletext mode.

TEXT OFF: Switches the television back to regular viewing mode. On some televisions, this may be done by pressing the TEXT ON key several times.

EXPAND: Shows the top half of the Teletext page in larger letters. By pressing again, you can see the bottom half of the Teletext page enlarged. To return to regular Teletext viewing, press the EXPAND key again, or press the TEXT ON key, depending on your television.

HOLD/STOP: Stops changing pages.

16:9: The 16:9 key allows you to have wide screen view (if available on your original remote).

MIX: Shows teletext and regular television simultaneously. You may also use this key for subtitling. On some televisions this function is accessed by pressing the text key twice.

Important note: For a more detailed explanation of Teletext and Fastext, please refer to the manual of your television. Remember, different televisions control Teletext and Fastext features in different ways. Not all of the Teletext functions may be available for your particular model.

After accessing the text mode, the bottom row of the keys marked **red**, **green**, **yellow** and **blue**, allow you to access the Fastext functions of your television. **If on your original remote control these keys are used for Menu navigation, the ONE FOR ALL Fastext keys may operate in the same way.**

Setting up the ONE FOR ALL

Before you start, please read these instructions carefully

Direct code set up

To set up the ONE FOR ALL for your television:

-  Find the code for your device in the Code list (page 9 - 17). Codes are listed by brand name. The most popular code is listed first. **Make sure your device is switched on (not on standby).**
-  **Press and hold the MAGIC key until the POWER key (LED) blinks twice** (the red light (LED) underneath the POWER key will blink once then twice).
-  Enter your **(four-digit device code)** using the number keys. The red light will blink twice.
-  Now, aim the ONE FOR ALL at your device and **press POWER. If your device switches off, the ONE FOR ALL is ready to operate your device.**
- Turn your device back on and try all the remote's functions to ensure they are working properly. If the functions do not work properly, repeat steps 1-4 using another code listed under your brand.
- If your device does not respond, follow steps 1 to 4 with each code listed for your brand. If none of the codes listed for your brand operate your device, or if your brand is not listed at all, try the search method described on page 7.**
- Write your code in the four boxes provided in the battery compartment and on page 8 for easy future reference.**

Important notes:

- Most TV's do not switch on pressing the POWER key. Please try pressing a "number" key or the "TV-text off" key to switch your TV back on.
- Some codes are quite similar. If your device does not respond or is not functioning properly with one of the codes, try another code listed under your brand.

Search Method

If your device does not respond to the ONE FOR ALL after you have tried all the codes listed for your brand, try searching for your code. The Search Method allows you to find the code for your device by scanning through all the codes contained in the memory of the ONE FOR ALL. The Search Method may also work if your brand is not listed at all.

To search for your TV code:

- 1 Switch your television on (not on standby).
- 2  **Press and hold the MAGIC key until the POWER key (LED) blinks twice** (the red light (LED) underneath the POWER key will blink once then twice).
- 3  Press **9 9 1**. The red light will blink twice.
- 4  Next, press **POWER**.
- 5  Aim the ONE FOR ALL at your Television. Now press **CH+** over and over, until your Television turns off (everytime you press the CH+ key the ONE FOR ALL will send out a POWER signal from the next code contained in the memory). You may have to press this key many times (up to 150 times) so please be patient. If you skip past a code, you can go to the previous code(s) by pressing the CH- key. Remember to keep pointing the ONE FOR ALL at your Television while pressing this key.
- 6  As soon as your television turns off, press **MAGIC** to store the code.

Important note:

- Most TV's do not switch on pressing the POWER key. Please try pressing a "number" key or the "TV-text off" key to switch your TV back on.

Once you have Set-Up your ONE FOR ALL, you can blink back your SET-UP CODE for future reference.

Example: To blink out your Television code:

- 1  **Press and hold the MAGIC key until the POWER key (LED) blinks twice** (the red light (LED) underneath the POWER key will blink once then twice).
- 2  Press **9 9 0**. The red light will blink twice.
- 3  For the first digit **of your four-digit code**, press **1** and count all the red blinks. If there are no blinks, the digit is "0".
- 4  For the second digit, press **2** and count all the red blinks. If there are no blinks, the digit is "0".
- 5  For the third digit, press **3** and count all the red blinks. If there are no blinks, the digit is "0".
- 6  For the fourth digit, press **4** and count all the red blinks. If there are no blinks, the digit is "0".
Now you have your four-digit code.

Colour and Brightness

Depending on the functions of your original remote control, the ONE FOR ALL may operate the colour and brightness settings of your television.

Colour (+) = Press and release MAGIC then hold Volume (+)

Colour (-) = Press and release MAGIC then hold Volume (-)

Brightness (+) = Press and release MAGIC then hold Channel (+)

Brightness (-) = Press and release MAGIC then hold Channel (-)

Note: You have 5 seconds to press the Volume or Channel keys for colour or brightness adjustment after pressing MAGIC.
