The cable allows a video monitor to be connected to a mini dome or camera so that the picture can be adjusted at the location of the mini dome or camera.

To connect the cable:

1. Plug the male connector on the service cable into the female connector located on the mini dome or camera. For the location of connector on the mini dome or camera, refer to the manual supplied with the equipment.
2. Connect the BNC connector on the service cable to any standard BNC (video input) connector on a monitor.

**NOTE:** For the CC3610UH, CC3710UH, CC3770UH, and CC3710S Series cameras, only the monitor that is connected to the service cable will display video. All other monitor viewing will be interrupted.
