Cautions on Using this Player

When using with car power cable in cars

Please turn on the engine and then connect with the car power cable for using.

Cleaning the player

Normally clean the player using a soft, dry cloth. For tough dirt, apply some neutral detergent diluted in
5 to 6 parts water to a soft cloth, wring out thoroughly, wipe off the dirt, then wipe the player with a dry cloth.
Note that alcohol, thinner, benzene, insecticides, etc., may cause the print or coating to peel off. Also avoid
leaving rubber or plastic products in contact with the player for long periods of time, as this may damage the
cabinet. When using chemically treated cloths, read the cloth's instructions carefully. Always unplug the
power cord from the power outlet before cleaning the player.

To clean dirt off the liquid crystal display, wipe the display gently with a soft, dry cloth(such as an eyeglass
cleaning cloth). Note that leaving water droplets on the display for long periods of time may result in
discoloration or stains. For tough dirt,
use a commercially available liquid crystal display cleaner.
