

Philips AVENT  
Feeding Bottle

**4 oz x 2**  
Newborn Flow Teat

SCF660

## Helps settle your baby, especially at night\*

### Less colic

Unsettled and irritable behaviour, known as fussing, is by far the most commonly known crying behaviour in babies. Clinical studies show that the AVENT Bottle significantly reduces colic and fussing. Fussing is especially reduced at night\*

#### Helps settle your baby

- Clinically proven to help settle your baby, especially at night\*

#### One-piece anti-colic valve system

- Allows air into the bottle instead of your baby's tummy

#### Highly durable

- Honey-coloured BPA-Free PES material for extra durability

#### Easy to clean

- Only three components for ease of cleaning

#### To fit your baby's growing needs

- Five different teat flow rates are available

**PHILIPS**  
**AVENT**  
sense and simplicity
