## Product highlights

### 12V car plug

The charger has a special adapter that fits into the cigarette lighter socket of your car. This means that next to charging from the mains you can also do it when you are on the move.

### Exclusive compact design

The exclusive stylish and compact design makes it easier for you to travel with the charger and even more fun to use.

### Charge in pairs

The charger is designed to charge 2 or 4 batteries at the same time.

### Ready for worldwide use

An AC/DC adapter that can handle input voltages of 100 to 240V. By simply adding a plug converter for the desired country the charger can be used worldwide.

### Smart charge protection

The special sensor detects when the batteries are fully charged and switches over to trickle charge to keep your batteries full and ready for use. The overcharge protection prolongs the life of your batteries by preventing the damage caused by overcharging.

### Trickle charge

Rechargeable batteries all suffer from self-discharge over time. The automatically started trickle charge keeps your batteries full and ready for use when they are kept inside the charger and in the power outlet.
