- Name and Caller ID
- Caller ID on call waiting

Memory Capacity

- Call log entries: 20
- Phonebook: 30 names and numbers
- Number of SMS Boxes: 1
- SMS storage capacity: 10

Highlights

Caller name & number display

The name of the person or company calling is shown on the telephone display. The names of first-time callers can be displayed as well as those that are programmed into the telephone beforehand.

Keep in touch by SMS texting

The SMS is a simple way to exchange information over the telephone line. You first type your text off-line and when you are ready, you send it to as many people as you like.

Speakerphone - Talk handsfree

Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.
