

Philips
Quad shield cable

100 ft

RG6 Compression F connectors

SDW5215W

Enjoy the best connection

for satellite and digital TV

Enjoy premium picture quality with virtually no signal loss. Connects satellite, antenna and digital cable sources to components.

Enjoy the best reception quality

- 3X faster than standard RG6 coax
- 18 AWG copper-coated steel center conductor

Enjoy extended durability

- Heavy-duty pliable jacket
- Corrosion-resistant connectors

Protects against signal loss

- Dielectric insulation
- Aluminum braided shield
- Aluminum foil shield

Product highlights

3X faster than RG6 coax

Transferring the signal at a far greater speed than standard coaxial cable minimizes signal loss, so you enjoy optimum picture quality and data transfer.

18 AWG copper-coated conductor

The highly conductive composition of this signal conduit maximizes signal transfer for optimum picture quality and data transfer.

Heavy-duty pliable jacket

Pliable PVC sheathing surrounds the cable, protecting it from wear and tear and ensuring long-term durability.

Dielectric insulation

Superior insulation material separates the center conductor from the braided shield. By isolating the conductors, it maintains signal integrity, ensuring the best picture quality and optimum data transfer.

Aluminum braided shield

In concert with the aluminum foil shield, this shield works as a barrier to keep the signal inside the conductors and keep interference out.

Aluminum foil shield

In concert with the aluminum braided shield, this shield works as a barrier to keep the signal inside the conductors and keep interference out.
