Specifications are subject to change without notice. Trademarks are the property of Koninklijke Philips Electronics N.V or their respective owners. Philips reserves the right to change products at any time without being obliged to adjust earlier supplies accordingly. The material in this manual is believed adequate for the intended use of the system. If the product, or its individual modules or procedures, are used for purposes other than those specified herein, confirmation of their validity and suitability must be obtained. Philips warrants that the material itself does not infringe any United States patents. No further warranty is expressed or implied.

Warranty

- Risk of injury, damage to TV or void of warranty! Never attempt to repair the TV yourself.
- Use the TV and accessories only as intended by the manufacturer.
- The caution sign printed on the back of the TV indicates risk of electric shock. Never remove the TV cover. Always contact Philips Customer Support for service or repairs.

Any operation expressly prohibited in this manual, or any adjustments and assembly procedures not recommended or authorised in this manual shall void the warranty.

Pixel characteristics

This LCD product has a high number of colour pixels. Although it has effective pixels of 99.999% or more, black dots or bright points of light (red, green or blue) may appear constantly on the screen. This is a structural property of the display (within common industry standards) and is not a malfunction.

Compliance with EMF

Koninklijke Philips Electronics N.V. manufactures and sells many products targeted at consumers which, like any electronic apparatus, in general have the ability to emit and receive electromagnetic signals. One of Philips' leading Business Principles is to take all necessary health and safety measures for our products, to comply with all applicable legal requirements and to stay well within the EMF standards applicable at the time of producing the products.

Philips is committed to develop, produce and market products that cause no adverse health effects. Philips confirms that if its products are handled properly for their intended use, they are safe to use according to scientific evidence available today.

Philips plays an active role in the development of international EMF and safety standards, enabling Philips to anticipate further developments in standardisation for early integration in its products.

Mains fuse (UK only)

This TV is fitted with an approved moulded plug. Should it become necessary to replace the mains fuse, this must be replaced with a fuse of the same value as indicated on the plug (example 10A).

- 1 Remove fuse cover and fuse.
- 2 The replacement fuse must comply with BS 1362 and have the ASTA approval mark. If the fuse is lost, contact your dealer in order to verify the correct type.
- 3 Refit the fuse cover.

In order to maintain conformity to the EMC directive, the mains plug on this product must not be detached from the mains cord cable.

2 Important

Read and understand all instructions before you use your TV. If damage is caused by failure to follow instructions, the warranty does not apply.

Safety

Risk of electric shock or fire!

- Never expose the TV to rain or water. Never place liquid containers, such as vases, near the TV. If liquids are spilt on or into the TV, disconnect the TV from the power outlet immediately. Contact Philips Consumer Care to have the TV checked before use.
- Never place the TV, remote control or batteries near naked flames or other heat sources, including direct sunlight. To prevent the spread of fire, keep candles or other flames away from the TV, remote control and batteries at all times.

- Never insert objects into the ventilation slots or other openings on the TV.
- When the TV is swivelled ensure that no strain is exerted on the power cord. Strain on the power cord can loosen connections and cause arcing.

Risk of short circuit or fire!

- Never expose the remote control or batteries to rain, water or excessive heat.
- Avoid force coming onto power plugs. Loose power plugs can cause arcing or fire.

Risk of injury or damage to the TV!

- Two people are required to lift and carry a TV that weighs more than 25 kg.
- When stand mounting the TV, use only the supplied stand. Secure the stand to the TV tightly. Place the TV on a flat, level surface that can support the combined weight of the TV and the stand.
- When wall mounting the TV, use only a wall mount that can support the weight of the TV. Secure the wall mount to a wall that can support the combined weight of the TV and wall mount. Koninklijke Philips Electronics N.V. bears no responsibility for improper wall mounting that result in accident, injury or damage.

Risk of injury to children!

Follow these precautions to prevent the TV from toppling over and causing injury to children:

- Never place the TV on a surface covered by a cloth or other material that can be pulled away.
- Ensure that no part of the TV hangs over the edge of the surface.
- Never place the TV on tall furniture (such as a bookcase) without anchoring both the furniture and TV to the wall or a suitable support.
- Educate children about the dangers of climbing on furniture to reach the TV.

Risk of overheating!

- Never install the TV in a confined space. Always leave a space of at least 4 inches or 10 cm around the TV for ventilation. Ensure curtains or other objects never cover the ventilation slots on the TV.

Risk of damage to the TV!

- Before you connect the TV to the power outlet, ensure that the power voltage matches the value printed on the back of the TV. Never connect the TV to the power outlet if the voltage is different.

Risk of injury, fire or power cord damage!

- Never place the TV or any objects on the power cord.
- To disconnect the TV power cord easily from the power outlet, ensure that you have full access to the power cord at all times.
- When you disconnect the power cord, always pull the plug, never the cable.
- Disconnect the TV from the power outlet and antenna before lightning storms. During lightning storms, never touch any part of the TV, power cord or antenna cable.

Risk of hearing damage!

- Avoid using earphones or headphones at high volumes or for prolonged periods of time.

Low temperatures

- If the TV is transported in temperatures below 5°C, unpack the TV and wait until the TV temperature matches room temperature before connecting the TV to the power outlet.

Screen care

- Avoid stationary images as much as possible. Stationary images are images that remain on-screen for extended periods of time. Examples include: on-screen menus, black bars and time displays. If you must use stationary images, reduce screen contrast and brightness to avoid screen damage.
- Unplug the TV before cleaning.
- Clean the TV and frame with a soft, damp cloth. Never use substances such as alcohol, chemicals or household cleaners on the TV.
- Risk of damage to the TV screen! Never touch, push, rub or strike the screen with any object.
- To avoid deformations and colour fading, wipe off water drops as soon as possible.

ECO-Green (Available in selected models only)

- High energy efficiency
- Low standby power
- Designed to facilitate recycling

Philips continuously focuses on lowering the environmental impact of its innovative consumer products. We aim our efforts towards environmental improvements during manufacturing, reduction of harmful substances, energy-efficient use, end-of-life instructions and product recycling. Thanks to our environmental effort, this TV has been awarded the European Ecolabel –the flower– www.ecolabel.eu

You can find detailed information on standby energy consumption, warranty policy, spare parts and recycling of this TV on the Philips website for your country at www.philips.com. This TV has features that contribute to energy-efficient use. This TV was awarded the European Ecolabel for its environmental qualities.

Energy efficiency features

- **Energy saving**
The energy saving setting of the TV combines several TV settings that result in saving energy. See the smart settings in the setup menu.
- **Low standby power consumption**
The class-leading and highly advanced power circuitry brings down the power consumption of the TV to an extremely low level, without losing out on the constant standby functionality.

Power management (Available in selected models only)

The advanced power management of this TV ensures the most efficient use of its energy. You can check how your personal TV settings, the level of brightness in current onscreen pictures and the surrounding light conditions determine the relative power consumption.

End of use

To inform yourself on the correct disposal of the TV and batteries, refer to 'Disposal of your old product and batteries' in the user manual.

7 Professional mode instruction

Introduction

Included in this TV is a special functional mode that allows the TV to be configured for commercial application. This feature is called Professional mode.

This section has been designed to help install and operate this TV in Professional mode. Before reading this section, please read section 3 to 6 to set the basic functionality of this TV.

Benefits of Professional mode

This TV is specially designed to operate in Professional Mode. Professional Mode offers the following benefits:

- Access to the **[Consumer Menu]** can be blocked. This prevents users (e.g. guests) from deleting or changing channel settings and / or modifying picture and sound settings. This ensures that TVs are always set up correctly.
- A switch-on volume and channel can be selected. After switching on, the TV will always start on the specified volume level and channel.
- The maximum volume level of the TV can be limited in order to prevent disturbance to other guest.
- Channels can be blanked (Video only).
- The TV local buttons **VOLUME +/-**, **P/CH+/-** and **🏠 (Home)** can be locked.
- Screen information can be suppressed.

Professional Setup Remote control (2573 optional)

- ① **C button (OPTIONS)**
Accesses options relating to the current activity or selection. (Equals to the function of **☰ OPTIONS** on Guest remote control).
- ② **E button (OK)**
Confirms an entry or selection.
- ③ **(Enters Professional setup menu)**
 - Selects **SETUP** mode first.
 - Press **M button** to enter the Professional setup menu.

Note

- **SETUP** mode should be selected for hotel installer.

Activating the Professional mode setup menu

- 1 Switch on the TV and select a TV channel.
- 2 Press the following buttons to access Professional mode setup menu:
 - **[3, 1, 9, 7, 5, 3+ MUTE]** on Guest remote control.
 - **M button** on Professional setup remote control. (When **SETUP** mode is selected on the Professional setup remote control.)
- 3 Press **▲▼◀▶** on the remote control to select and change any of the settings.
- 4 When done, select **[Store] > [Confirm]** to save the changes.
Press **EXIT** to exit without saving.
- 5 For Professional mode settings to take effect, you must restart the TV mains power.

- **[Off]:** The background colour is set to black.
- **[On]:** The background color is set to blue.

[Digit timeout]

Defines the time interval between numeric buttons when users press digits on the remote control. The duration is from 0.5 to 9.9 seconds. When digit is pressed, the timer refreshes.

[Selectable AV]

Allows the installer to define which external sources to be displayed on the source list when pressing **AV** button on the Guest remote control.

Only the sources marked with **[X]** appear in the source list.

Speaker settings

[TV speaker enable]

- **[Off]:** Disables the TV speaker. The headphone volume functions normally.
- **[On]:** The TV speaker is enabled. (Default setting).

[Independent main speaker mute]

This option only appears when you select **[TV speaker enable] > [On]**.

- **[Off]:** Press (MUTE) or +/- on the Guest remote control will affect both the TV speaker and the headphone volume (Default setting)
- **[On]:** Press (MUTE) on the Guest remote control will affect the TV speaker volume only. The headphone volume functions normally.

Note

- If the TV speaker is muted independently, press +/- on the Guest remote control will only affect the headphone volume.

[Default main speaker volume]

Only appears when you select **[Independent main speaker mute] > [On]**. Users can set the TV speaker and headphone volume to a certain level as the default setting. This option can avoid sudden high-volume when TV speaker is turned on again from independently mute.

Installation

[Blank channel]

The Blank channel function disables the display of video on the TV, but does not affect the audio output. This function can be used for audio applications (example: music-only channels, and so on) which do not necessarily require the display of video.

- 1 Enters the **[Blank channel]**, the list of all channels appear.
- 2 Selects one or more channels and press **OK** to mark.
- 3 The channels marked with **[X]** will not display video on the TV.

[Disable auto updating]

- **[Channel]:** Disables automatic channel installation when new channels are detected.
- **[Both]:** Disables automatic update of the TV software and the channel installation.
- **[Off]:** Enables automatic update of the TV software and the channel installation.

[Skip scrambled signals]

- **[Off]:** Allows scrambled channels in the channel list.
- **[On]:** Skips the scrambled channels in the channel list.

[Multi remote control]

Guest remote control supports up to four televisions operating in one room without interference from each other's remote controls. Each TV and the Guest remote control can be set to match each others.

- 1 Enters **[Multi remote control]** and designate one colour (**Blue / Green / Yellow / Red**) to the TV. Selects **[Off]** to disable **[Multi remote control]** function.
- 2 Sets the Guest remote control to the corresponding colour by pressing **▲ MENU** and one of the **colour button** simultaneously for more than 4 seconds.
- 3 The Guest remote control can operate the TV with the corresponding colour.

Note

- **EXAMPLE:** Press **▲ MENU** and **Red button** simultaneously on the Guest remote control for more than 4 seconds to operate the TV with **[Red]** colour selected in **[Multi remote control]** menu.
- Guest remote control will be set to default **Blue colour** after replacing batteries.

[MyChoice]

- **[Off]:** Disables MyChoice function.
- **[On]:** **[MyChoice]** appears in the Guest home menu. Press **▲ MENU > [MyChoice]** and enters authorized PIN code to watch MyChoice channels.

MyChoice setup

This function allows you to customized MyChoice channel list.

- 1 Enters **[MyChoice setup]** in the Professional setup menu.
- 2 Sets MyChoice channels from the following TV channel lists:
 - **[R0]**: List of MyChoice channels and normal channels. Channels marked with **[X]** can only be watched after pressing authorized PIN code.
 - **[R1]**: List of all available channels. Unmark MyChoice channels to prevent users from watching full MyChoice channels via Guest remote control.

Note

- All non-MyChoice channels are listed in **[R1]**.
- Before pressing authorized PIN code, **[R1]** is the default channel list everytime you start the TV mains power.

Store settings

In the Professional setup menu, select **[Store]** > **[Confirm]** to save the changes.

Note

- Restarts the TV mains power for the changes to take effect.

8 Connect devices

This section describes how to connect devices with different connectors. Examples are provided in the Quick Start.

Note

- You can use different types of connectors to connect a device to your TV.

Back connector

① HDMI 1

Digital audio and video input from high-definition digital devices such as Blu-ray players.

Connections via DVI or VGA require an additional audio cable.

- ② EXT 2 (Y Pb Pr and AUDIO L/R)
Analogue audio and video input from analogue or digital devices such as DVD players or game consoles.

③ TV ANTENNA

Signal input from an antenna, cable or satellite.

④ EXT 1 (CVBS and RGB)

Analogue audio and video input from analogue or digital devices such as DVD players or game consoles.

⑤ SPDIF OUT

Digital audio output to home theatres and other digital audio systems.

⑥ PC IN (VGA and AUDIO)

Audio and video input from a computer.

⑦ SERV. U

For technical application only.

Side connector

① COMMON INTERFACE

Slot for a Conditional Access Module (CAM).

② AUDIO L/R

Audio input from analogue devices connected to **VIDEO**.

③ VIDEO

Composite video input from analogue devices such as VCRs.

④ USB

Data input from USB storage devices.

⑤ 🎧 (Headphone)

Stereo audio output to headphones or earphones.

⑥ HDMI (Available only in 26 inch TV)

Digital audio and video input from high-definition digital devices such as Blu-ray players.

Connect a computer

Before you connect a computer to the TV

- Set the screen refresh rate on your computer to 60Hz.
- Select a supported screen resolution on your computer.

Connect a computer with one of the following connectors:

Note

- Connections via DVI or VGA require an additional audio cable.

- HDMI cable

- DVI-HDMI cable

- HDMI cable and HDMI-DVI adaptor

- VGA cable

Use a Conditional Access Module

A Conditional Access Module (CAM) is provided by digital TV service operators to decode digital TV channels.

Note

- Refer to the documentation from your service operator on how to insert a smart card into the Conditional Access Module.

Insert and activate a CAM

Caution

- Be sure to follow the instructions described below. Wrong insertion of a CAM may damage both the CAM and your TV.

- 1 Switch off the TV and disconnect it from the power outlet.
- 2 Following the directions printed on the CAM, gently insert the CAM into the **COMMON INTERFACE** at the side of the TV.

- 3 Push the CAM in as far as it will go.
- 4 Reconnect the TV to the power outlet.
- 5 Turn on the TV and wait for the CAM to be activated. This may take several minutes. Do not remove the CAM from the slot when in use — removing the CAM will deactivate digital services.

Access CAM services

- 1 After inserting and activating the CAM, press **▲ MENU**.
- 2 Press **▲▼◀▶** to select **[Setup] > [Features] > [Common interface]**.
 - ↳ Applications provided by the digital TV service operator appear on the screen.

Note

- This menu option is available only if the CAM is inserted and activated correctly.

Use Philips EasyLink

Your TV supports Philips EasyLink, which uses the HDMI CEC (Consumer Electronics Control) protocol. EasyLink-compliant devices that are connected through HDMI connectors can be controlled by a single remote control.

Note

- The EasyLink-compliant device must be switched on and selected as the source.
- Philips does not guarantee 100% interoperability with all HDMI CEC devices.

EasyLink features

One-touch play

When you connect your TV to devices that support one-touch play, you can control your TV and the devices with one remote control.

One-touch standby

When you connect your TV to devices that support standby, you can use your TV remote control to put your TV and all connected HDMI devices in standby mode.

System audio control

When you connect your TV to HDMI CEC compliant devices, your TV can switch automatically to play audio from the connected device.

To use one-touch audio, you must map the audio input from the connected device to your TV.

You can use the remote control from the connected device to adjust the volume.

Enable or disable EasyLink

Note

- Do not enable Philips EasyLink if you do not intend to use it.

- 1 Press  MENU.
- 2 Press     to select [Setup] > [Installation] > [Preferences] > [EasyLink].
- 3 Select [On] or [Off].

Use one-touch play

- 1 After enabling EasyLink, press play on your device.
 - ↳ The TV automatically switches to the correct source.

Use one-touch standby

- 1 Press  (Standby-On) on the TV's or device's remote control.
 - ↳ The TV and all connected HDMI devices switch to standby.

Set TV speakers to EasyLink mode

When you play content from an EasyLink compliant home theater, the TV speakers are automatically muted.

- 1 Enable one-touch play and one-touch standby between your Easylink compliant devices by following the instructions in the previous section.
- 2 Press  MENU.
- 3 Press     to select [Setup] > [Sound] > [TV speakers] > [Auto EasyLink].
 - ↳ The TV speakers are turned off automatically when content from an Easylink compliant system is detected.
- 4 Press     to select [Setup] > [Sound] > [TV speakers] > [On] to disable system audio control and enable the TV speakers.

Note

- To mute the TV speakers, select [TV speakers] > [Off].

Use a Kensington lock

There is a Kensington security slot at the back of the TV. Prevent theft by looping a Kensington lock between the slot and a permanent object, such as a heavy table.

10 Troubleshooting

This section describes commonly encountered issues and accompanying solutions.

General TV issues

The TV does not switch on:

- Disconnect the power cable from the power outlet. Wait for one minute then reconnect it.
- Check that the power cable is securely connected.

The remote control is not working properly:

- Check that the remote control batteries are correctly inserted according to the +/- orientation.
- Replace the remote control batteries if they are flat or weak.
- Clean the remote control and TV sensor lens.

The standby light on the TV blinks red:

- Disconnect the power cable from the power outlet. Wait until the TV cools down before reconnecting the power cable. If the blinking reoccurs, contact Philips Consumer Care.

You forgot the code to unlock the TV lock feature

- Enter '8888'.

The TV menu is in the wrong language.

- Change the TV menu to your preferred language.

When turning the TV on / off / to standby, you hear a creaking sound from the TV chassis:

- No action is required. The creaking sound is normal expansion and contraction of the TV as it cools down and warms up. This does not impact performance.

TV channel issues

Previously installed channels do not appear in the channel list:

- Check that the correct channel list is selected.

No digital channels were found during the installation:

- Check that the TV supports DVB-T, DVB-T Lite or DVB-C in your country.

Some channels are not automatically installed on my TV:

- During installation, make sure that you select the country where you are installing the TV.

Picture issues

The TV is on, but there is no picture:

- Check that the antenna is properly connected to the TV.s
- Check that the correct device is selected as the TV source.

There is sound but no picture:

- Check that the picture settings are correctly set.

There is poor TV reception from an antenna connection:

- Check that the antenna is properly connected to the TV.
- Loudspeakers, unearthed audio devices, neon lights, high buildings and other large objects can influence reception quality. If possible, try to improve the reception quality by changing the antenna direction or moving devices away from the TV.
- If reception on only one channel is poor, fine tune this channel.

There is poor picture quality from connected devices:

- Check that the devices are connected properly.
- Check that the picture settings are correctly set.

The TV did not save your picture settings:

- Check that the TV location is set to the home setting. This mode offers you the flexibility to change and save settings.

The picture does not fit the screen; it is too big or too small:

- Try using a different picture format.

The picture position is incorrect:

- Picture signals from some devices may not fit the screen correctly. Check the signal output of the device.

Cannot remove 'e-sticker' banner displayed on the TV.

- To remove the logos and images, set the location of your TV to home.

1. Press **HOME** MENU.

2. Select **[Setup] > [Installation] > [Preferences] > [Location]**.

3. Select **[Home]** and press **OK**.

Sound issues

There is a picture but sound quality is poor:

Note

- If no audio signal is detected, the TV automatically switches the audio output off — this does not indicate malfunction.

- Check that all cables are properly connected.
- Check that the volume is not set to 0.
- Check that the sound is not muted.

There is a picture but the sound quality is poor:

- Check that the sound settings are correctly set.

There is a picture but sound comes from one speaker only:

- Verify that sound balance is set to the centre.

HDMI connection issues

There are problems with HDMI devices:

- Note that HDCP (High-bandwidth Digital Content Protection) support can delay the time taken for a TV to display content from a HDMI device.
- If the TV does not recognise the HDMI device and no picture is displayed, try switching the source from one device to another and back again.
- If there are intermittent sound disruptions, check that output settings from the HDMI device are correct.
- If you use an HDMI-to-DVI adapter or HDMI-to-DVI cable, check that an additional audio cable is connected to **AUDIO** (mini-jack only).

Computer connection issues

The computer display on the TV is not stable:

- Check that your PC uses the supported resolution and refresh rate.
- Set the TV picture format to unscaled.

Contact us

If you cannot resolve your problem, refer to the FAQs for this product at www.philips.com/support. If the problem remains unresolved, contact Philips Consumer Care in your country as listed in the Addendum.

Warning

- Do not attempt to repair the product yourself. This may cause severe injury, irreparable damage to your product or void your warranty.

Note

- Make a note of your TV model and serial number before you contact Philips. These numbers are printed on the back of the TV and on the packaging.
