activating and charging your battery pack

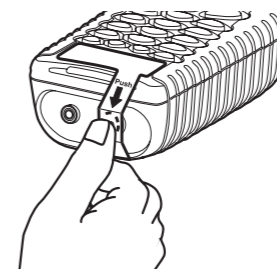

Your phone's handset comes with a rechargeable nickel metal hydride (Ni-MH) battery pack already installed.

- 1 Before charging the battery for the first time, push the pin for activation, located on the bottom of the handset (see label with instructions).
- 2 Once activated, remove the label, and then place the handset in the base unit to charge.

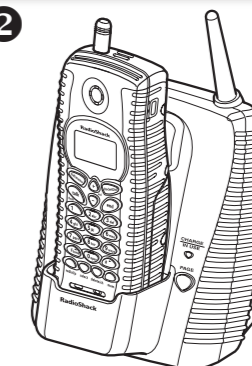

Notes

- Do not plug your phone into the phone line while charging.
- Charge your phone for 15-20 hours without interruption.
