Simplifies connecting other components such as a game system, digital camera, DVD, etc. Switchable outputs offer maximum flexibility when connecting audio components.

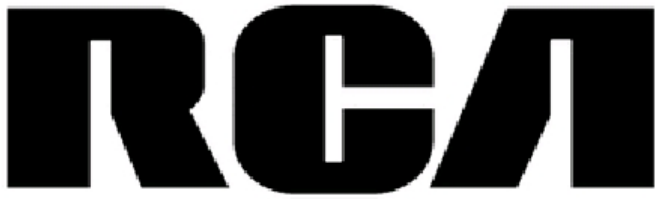

Advanced circuitry delivers outstanding picture performance.

Dark glass picture tube delivers outstanding picture contrast for blacker blacks, brilliant whites, and deep rich colors even in bright room conditions.

Eliminates the annoying "blast" of sound during commercial breaks. Also amplifies soft sounds maintaining a constant volume level.

Improves the clarity and fidelity of stereo broadcasts. Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.

TV can be programmed to turn on or turn off at preselected time periods for added convenience. Wake up to your favorite morning show.
