CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

THE LIGHTNING FLASH AND ARROWHEAD WITHIN THE TRIANGLE IS A WARNING SIGN ALERTING YOU OF "DANGEROUS VOLTAGE" INSIDE THE PRODUCT.

THE EXCLAMATION POINT WITHIN THE TRIANGLE IS A WARNING SIGN ALERTING YOU OF IMPORTANT INSTRUCTIONS ACCOMPANYING THE PRODUCT.

Portable Cart Warning

SEE MARKING ON BOTTOM / BACK OF PRODUCT

WARNING: TO PREVENT FIRE OR ELECTRICAL SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

Some of the following information may not apply to your particular product; however, as with any electronic product, precautions should be observed during handling and use.
• Read these instructions.
• Keep these instructions.
• Heed all warnings.
• Follow all instructions.
• Do not use this apparatus near water.
• Clean only with dry cloth.
• Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
• Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
• Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
• Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
• Only use attachments/accessories specified by the manufacturer.
• Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/ apparatus combination to avoid injury from tip-over.
• Unplug this apparatus during lightning storms or when unused for long periods of time.
• Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

• **ADDITIONAL SAFETY INFORMATION**
• The AC/DC adapter supplied with this product is intended to be correctly oriented in a vertical or floor mount position.
• Do not use unauthorized chargers or power adapters. Use only chargers or power adapters that came with your product or that is listed in the user's guide.
• Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
• Always leave sufficient space around the product for ventilation. Do not place product in or on a bed, rug, in a bookcase or cabinet that may prevent air flow through vent openings.
• Do not place lighted candles, cigarettes, cigars, etc. on the product.
• Connect power cord only to AC power source as marked on the product.
• Care should be taken so that objects do not fall into the product.
• Do not attempt to disassemble the cabinet. This product does not contain customer serviceable components.
• The marking information is located at the bottom of apparatus.
• Caution marking is located at bottom of apparatus.
• To be completely disconnect the power input, the AC/DC adaptor of apparatus shall be disconnected from the mains.
• AC/DC adaptor is a disconnect device. The AC/DC adaptor should not be obstructed OR should be easily accessed during intended use.
• Battery shall not be exposed to excessive heat such as sunshine, fire or the like.
• The ventilation should not be impeded by covering the ventilation openings with items such as newspaper, table-cloths, curtains etc.
• No naked flame sources such as lighted candled should be placed on the apparatus.
• Attention should be drawn to the environmental aspects of battery disposal.
• The use of apparatus in moderate climates.

☐ This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

Plugging in for power
AC OUTLET POWER SUPPLY:
100-240 V ~ 50/60 Hz

Important battery precautions
• Any battery may present a risk of fire, explosion, or chemical burn if abused. Do not try to charge a battery that is not intended to be recharged, do not incinerate, and do not puncture.
• Non-rechargeable batteries, such as alkaline batteries, may leak if left in your product for a long period of time. Remove the batteries from the product if you are not going to use it for a month or more.
• If your product uses more than one battery, do not mix types and make sure they are inserted correctly. Mixing types or inserting incorrectly may cause them to leak.
• Discard any leaky or deformed battery immediately. They may cause skin burns or other personal injury.
• Please help to protect the environment by recycling or disposing of batteries according to federal, state, and local regulations.

Ecology
Help protect the environment - we recommend that you dispose of used batteries by putting them into specially designed receptacles.

FCC Information

iPhone is a trademark of Apple Inc.

iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

"Made for iPod" means that an electronic accessory has been designed to connect specifically to iPod and has been certified by the developer to meet Apple performance standards.

"Works with iPhone" means that an electronic accessory has been designed to connect specifically to iPhone and has been certified by the developer to meet Apple performance standards.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la class B est conforme à la norme NMB-003 du Canada.

Before you begin

Dear RCA customers,
Thank you for puchasing the RCA Photo Clock Radio. This product includes a 7" (16:9 Aspect Ratio) TFT Liquid Crystal Display (LCD) monitor with radio, clock, music player and photo functions. Also it supports the use of SD/MMC/ MS memory cards or USB flash drives for your music and photo content. This product will play mp3 and Windows Media™ audio (WMA) content.

To start using your iPod/iPhone photo clock radio, please follow the instructions in the following pages.

Card sizes supported:
MMC card: up to 4GB;
SD card: up to 32GB;
Memory Stick: up to 16GB

Unpacking the unit
You should find the following items in the box:
• 7" photo clock radio
• AC/DC power adapter
• AM antenna loop
• User manual

Connect the main unit power
• Connect the supplied AC/DC power adapter to the product's DC jack, and connect to a convenient wall outlet.

• Once connected with power, "Press OPTION to set the clock time" appears after the RCA logo screen. Refer to the following pages for more information on setting up date, time, alarm, listening to radio and viewing photos.

Battery back-up operation
This clock radio is equipped with a memory holding system that can be powered with 2 "AAA" batteries (not included). The power failure protection circuit will not operate unless battery is installed. When normal household power is interrupted, or AC/DC power adapter is unplugged, the batteries will power the clock radio to keep track of time and alarm settings programmed into memory. When the battery backup functions, the digital display will not light, however, the function of alarm still occurs during the power interruption if remaining battery power

Windows Media is trademarks of Microsoft Corporation in the United States and other countries.

is adequate. Normal operation will resume after AC power is restored so you will not have to reset the time or the alarm.

When the battery backup functions, the alarm duration is five minutes only. When AC power is connected, the alarm duration is one hour.

To install or replace the batteries:
1. Remove battery compartment door (located at the rear of the unit) by applying thumb pressure to the tab on battery door and then lift the door out and off the cabinet.

2. Insert or replace 2 AAA batteries.

3. Replace the compartment door.

• It is recommended that you replace the batteries every year.
• It is recommended to plug the unit for AC power while replacing batteries to avoid the loss of clock and wake time/mode settings.

Power failure indicator
When AC power is interrupted (disconnected) for a short period of time, both time and alarm settings will change (unless batteries are installed). After AC power is restored (reconnected), the Digital Display will blink to indicate that power was interrupted and you should readjust the time and alarm settings.

5. Press ⏻ to exit the alarm setting menu or the menu will exit automatically if no button is pressed for a while.

6. Press **ALARM 1 ON/OFF** or **ALARM 2 ON/OFF** to turn on/off the alarm.
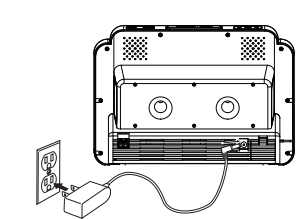

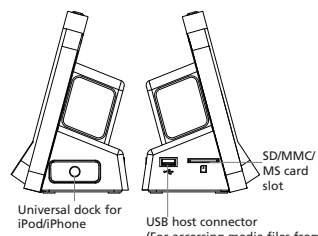

Music

Playing music
1. Insert an SD, MMC or MS card into the SD/MMC/MS card slot or insert a USB flash drive into the USB connector.

2. Press ♪ and then press ◄◄ or ►► to select the source of music and press **OK**.

3. Press ▲ or ▼ to highlight the file you want to play.

4. Press **OK** to start playback.

5. To pause the playback, press **OK**. Press **OK** again to resume playback.

6. Press ◄◄ or ►► to select the previous/next file or press and hold to search backward or forward the current song.

Settings
1. When a music file is highlighted, press **OPTION**.

2. A pop-up menu shows **Play mode** and **Delete**.

3. Press ▲ or ▼ to highlight **Play mode** and press **OK**.

4. Press ▲ or ▼ to select among Normal, Repeat one, Repeat all and Shuffle.

5. Press **OK** to save and exit settings. The setting menu will also exit automatically if no button is pressed for a while.

Delete a file
1. When a music file is highlighted, press **OPTION**.

2. A pop-up menu shows **Play mode** and **Delete**.

3. Press ▲ or ▼ to highlight **Delete** and press **OK**.

4. Press ◄◄ or ►► to select **Yes** and press **OK** to confirm.

• The total number of files or folders supported is 6000 (maximum).
• The unit can only support USB flash drive and memory card which formatted in file system of FAT or FAT32.
• The supported music file formats include mp3, WMA & WAV.

Photo

Viewing photo
1. Insert an SD, MMC or MS card into the SD/MMC/MS card slot or insert a USB flash drive into the USB connector.

2. Press 🖼 and then press ◄◄ or ►► to select the source of photo and press **OK**.

3. Press ▲, ▼, ◄◄ or ►► to highlight the desired file.

4. Press **OK** to start photo slideshow.

5. To pause the slideshow playback, press **OK**. Press **OK** again to resume playback.

6. Press ◄◄ or ►► to select the previous/next file.

Settings
1. During slideshow playback, press **OPTION**.

2. A pop-up menu shows:
• **Rotate** – to rotate the photo
• **Slideshow interval** – to set the playback duration of each photo
• **Display mode** – to select display mode
• **Wallpaper** – to select wallpaper
• **Slideshow Transition** – to select different ways of transition

JPEG is the only supported photo file format.

Radio

Listening to the radio
1. Press **RADIO** to switch on the radio or select AM or FM.

2. Press and hold ◄◄ or ►► to automatically tune to the next available station. You can also press ◄◄ or ►► to change the frequency by one step.

• Extend and adjust the pigtail antenna at the back of the radio for optimum reception.

3. If you wish to turn off the radio, press **OFF**.

Station presets
To store a station as preset:
1. Tune to a radio station.

2. Press **OPTION** and press ▲ or ▼ to select Add to Preset. Then press **OK**.

3. All preset locations (e.g. P01) show on the display. Press ▲ or ▼ to select an available one and press **OK**. You can save up to 20 preset stations.

To recall a preset station:
1. In radio mode, press **OPTION** and then press ▲ or ▼ to select Load Preset. Then press **OK**.

2. All preset locations show on the display.

Radio

3. Press ▲ or ▼ to select a preset station and press **OK** to confirm.

Radio step frequency change
In FM/AM radio mode, press **OPTION** and ▲ or ▼ to access "FM step" or "AM step" items (depends on what the current radio band is). Select the desired step frequency and press **OK** for confirmation.

• The default FM step frequency is 200kHz and AM step frequency is 10kHz.
• All radio preset stations will be reset when the step frequency is confirmed to change.

Antenna
Built-in AFC
The Built-in Automatic Frequency Control (AFC) works only on FM. It helps reducing drift on FM reception and keeping the radio locked in on the FM station to which it is tuned.

AM Antenna
For AM reception, connect the AM antenna loop to the back of the radio. Stretch out the antenna cord to its fullest length and rotate the antenna for better reception.

iPod/iPhone

Listening to iPod/iPhone
To connect iPod/iPhone:
1. Press **PUSH** on the right side of the unit to open the universal dock for iPod/iPhone.

2. Place the appropriate adapter provided with your iPod/iPhone and then place your iPod/iPhone on the universal dock for iPod/iPhone.

To select iPod mode:
• Press **iPod/iPhone** on the front of the unit to select the iPod mode.
• Press ◄◄ or ►► to select **Music** or **Photo/Video** and then press **OK**.
• Playback of music file from the iPod/iPhone starts automatically.
• Start playback of photo or video files on your iPod/iPhone manually first. The iPod/iPhone cannot play video automatically.
• If no iPod/iPhone is connected in the iPod mode, the unit will show "No iPod/iPhone connected!".

Works with:
• iPhone 3GS 16GB, 32GB
• iPhone 3G 8GB, 16GB

Made for:
• iPod touch 2nd generation 8GB, 16GB, 32GB, 64GB
• iPod touch 1st generation 8GB, 16GB, 32GB
• iPod nano 5th generation 8GB or 16GB
• iPod nano 4th generation (video) 8GB, 16GB
• iPod nano 3rd generation (video) 4GB, 8GB
• iPod classic 80GB, 120GB, 160GB
• iPod nano 2nd generation (aluminum) 2GB, 4GB, 8GB
• iPod nano 1GB, 2GB or 4GB
• iPod 5th generation (video) 30GB, 60GB, 80GB
• iPod mini 4GB, 6GB
• iPod 4th generation 20GB, 40GB
• iPod 4th generation (color display) 20GB, 30GB, 40GB, 60GB

To control the playback:
1. During playback, press **OK** to pause the playback and press again to resume.

2. Press ◄◄ or ►► to skip to the previous or next music file. Press and hold ◄◄ or ►► to search backward or forward for a music file.

3. Use the controls on iPod/iPhone for photo and video files playback.

To charge the iPod/iPhone:
• You may charge the battery of your iPod/iPhone through the universal dock for iPod/iPhone while the unit is turned off (standby mode) or in the Music, Photo, Clock, Radio or iPod/iPhone mode. Charging control should be operated on the iPod/iPhone. It is not necessary to charge in iPod mode, unless you are listening to the iPod.

Sleep function

Sleep timer
The unit has a built-in sleep timer which enables the unit to automatically turn off after a set period of time.

Press **SLEEP** repeatedly until the sleep time (Off, 15, 30, 60, 90 Mins) you desire displays.

1. Press **SLEEP** to activate the sleep timer function and the sleep icon will be turned on.

2. When the sleep timer function is activated, press **SLEEP** to show the remaining sleep time.

3. Press **SLEEP** again will show a pop-up menu. To change sleep time (90, 60, 30, 15 mins and off), press ▲ or ▼ to highlight different sleep time and press **OK**.

You can also change the sleep setting from the clock setting menu.
1. Press **OPTION** to enter clock setting menu. This menu can be recalled under in clock display mode screen.

2. Press ▲ or ▼ to highlight Sleep Time and then press **OK**.

3. Press ▲ or ▼ to select the sleep time and then press **OK** to confirm. The default sleep time is 90 mins.

4. Press ▲ or ▼ to highlight Sleep Mode and then press **OK**.

5. Press ▲ or ▼ to select the sleep mode from radio, music (USB or memory card) and iPod/iPhone. The default sleep mode is radio.

6. To turn off the sleep timer, press **OFF** or **SNOOZE**. It can also be turned off by pressing **SLEEP** twice, then select Off in the pop-up menu.

The display will automatically dimmed so that it will not disturb you while you are sleeping.

Wallpaper

Setting wallpaper
Follow the below two options to set the wallpaper:
Option 1:
1. Press ⏻ to enter Clock mode if you are in other modes.

2. Press **OPTION** to enter clock setting menu and then press ▲ or ▼ to select Wallpaper.

3. Press **OK**.

4. Select below options by pressing ▲ or ▼ and then **OK**.
• Default: To use the built-in photo as wallpaper
• External: To select a desired photo as wallpaper from USB device or memory card
• Off: To turn off the wallpaper option and use a black background instead

5. If you select External, press ◄◄ or ►► to select the source of wallpaper and then press **OK**.

6. Press ▲, ▼, ◄◄ or ►► to select desired wallpaper.

7. Press **OK** to confirm.

If the "Slideshow" item in the clock setting menu is set to "ON" and "Wallpaper" item is set to "Default" or "Off", the built-in photos will be used for slideshow in clock display mode. Otherwise, the photos in the memory card or USB flash drive will be used for slideshow in clock display mode.

Option 2:
1. Press 🖼 and then press ◄◄ or ►► to select the source of photo and press **OK**.

2. Press ▲, ▼, ◄◄ or ►► to select the desired photo from the thumbnails.

3. Press **OPTION** to enter photo setting menu and then press ▲ or ▼ select Wallpaper.

4. Press ▲ or ▼ to select **ON** and press **OK**.

Display brightness

Press **SNOOZE/BRIGHTNESS** to select the brightness level among High, Middle and Low.

System settings

1. Press **SYSTEM** to show system menu.

2. Press ▲ or ▼ to highlight the option and then press **OK**.

3. In **Language** sub-menu, press ▲ or ▼ to change the values and then press **OK** to confirm.
• In **Reset all setting** sub-menu, press **OK**. Then press ◄◄ or ►► to select **Yes** and press **OK** to confirm.

4. Press ⏻ or **SYSTEM** to exit the system menu.

All user defined settings (e.g. radio presets, clock time format and date format) will be lost after reset.
