2.4 WHEN TO CHARGE
GETTING STARTED
Before you can use your headset, you need to charge its self-contained battery for a minimum of two hours.

RECHARGING
When the red indicator light on the headset flashes and you hear high tones through the headset speaker, the headset battery needs to be recharged.

BATTERY USEAGE
A fully charged headset battery provides approximately:
Talk time – 4.5 hours
Standby time – up to 200 hours

2.5 PAIRING THE HEADSET WITH A PHONE
You must first pair the headset with your phone by adding it to a list of paired devices within the phone. The two devices can then recognize each other when they connect. Once you have paired your headset with your phone. You do not need to pair it again, or if you choose to use it with another device.
The BTH-808 can store pairing information for up to eight different Bluetooth devices.

TO PAIR THE HEADSET WITH A BLUETOOTH ENABLED PHONE
1. Prepare your phone according it's User Manual instructions for paring Bluetooth devices.
2. Press the multifunction button on the BTH-808 for about 10 seconds until the blue and red indicator lights on the headset flash alternately. The headset is now ready for pairing.
3. Continue according to the instructions in the phone's user documentation.
    NOTE: The headset Passkey is 1234.

2.6 WEARING ON THE HEADSET
1. Make sure the ear hook forms an angle of 90°.
2. Place the ear hook behind your ear.
4.   Make sure the microphone is pointing forward towards your mouth.

2.7 HOW TO TURN ON/OFF HEADSET
To turn the headset on
Press and hold the Multifunction button until the headset indicator flashes the
BLUE LED four times.

To turn the headset off
Press and hold the Multifunction button until the headset LED indicator flashes the **RED** LED four times .

2.8 MAKING AND ANSWERING CALLS
Phone functionality is still available when the headset is powered On and Paired with your phone. You can make and answer calls using the buttons on the headset. or the keys on the phone, as usual.

www.rayming.com

To make a call using voice dialing
1. Make sure the phone and the headset are on and within range of each other and then press the multifunction button.
2. It may take a second to establish the wireless connection between the phone and the headset. During this time, you might hear a repeated tone in the headset, but after the beep, you can begin to dial as you normally would.
3. End the call by pressing the multifunction button.

To answer a call using the multifunction button
1. When the headset rings, press the multifunction button to answer.
2. End the call by pressing the multifunction button.

To reject a call
When the headset rings, press and hold the multifunction button until you hear a long beep.

USING VOICE COMMANDS
Voice commands are especially useful when you are using the headset. Examples of voice commands are dialing, re-dialing, answering and rejecting calls. For more information on voice commands, refer to your phone's User Guide.

ADJUSTING THE VOLUME
You can adjust the headset speaker volume during a call, or the ring volume when you are not engaged in a call.

To adjust the volume
To increase the volume, press (+) .
To decrease the volume, press (-).

To turn off the microphone (mute mode)
During a call, press and release both (+) and (-) at the same time to turn off the microphone. A repeated beep is heard while the microphone is turn off.
Press and release both (+) and (-) again to resume the conversation.

TRANSFERRING AUDIO FROM PHONE TO HEADSET
If you make a call with using your phone, you can transfer the audio to the headset if the headset is on, paired with the phone and within range.

To transfer audio to the headset
During a call, press the multifunction button to transfer the sound to the headset. The headset beeps until the sound has been transferred.
Note: To transfer the sound from the headset to the phone, refer to the phone's User Guide.

LOST CONNECTION TO HEADSET
If the connection to the headset is lost during an ongoing call, press the YES key on the phone to transfer the call to the phone, otherwise the call is disconnected after 30 seconds.

3. TROUBLESHOOTING

3.1 No audio between headset and phone

    a.) The headset and the phone you are using must be paired to recognize each other before you can use the BTH-808. Follow the instruction for paring Bluetooth devices as stated in your phone's User Guide.

    b.) The BTH-808 needs to be charged for 2 hours before initial use.

    c.) Both the BTH-808 and your phone need to be within range of each other typically within 30'.

3.2 The indicator light flashes red

    a.) This indicates that the headset battery is low and there is only limited talk and standby time left. Charge the headset battery for approximately 1 to 1.5 hours.

3.3 The headset automatically switches off

    a.) There are two reasons why the headset might be switched off automatically:

        i.   The battery is too low.
               The red LED indicator on the headset flashes and you hear high tones through the headset speaker . Charge the headset battery for approximately 2 ~ 3 hours.

        ii.   The headset has been in pairing mode for more than 1 minute. Exit paring mode and verify if the BTH-808 was properly paired with your phone. If not, power off both the phone and BTH-808, wait 1 minute and then power both devices back on and repeat the paring process again.

SAFETY AND LEGAL NOTICES
<u>PLEASE READ THIS SECTION CAREFULLY BEFORE USING TRIPNAV</u>

Rayming Corporation will not accept any responsibility whatsoever for accidents resulting from failure to observe common sense precautions. Your personal judgement, traffic regulations, and common sense must always take precedence over any use of this product.
