Benefits

Reduces peripheral screen reflections & glare by over 60% compared to standard tubes. Offers a wider effective viewing area from any angle. Detail clarity adds realism.

Separates black-and-white detail from color information to virtually eliminate edge crawls and rainbow effects while enhancing picture resolution.

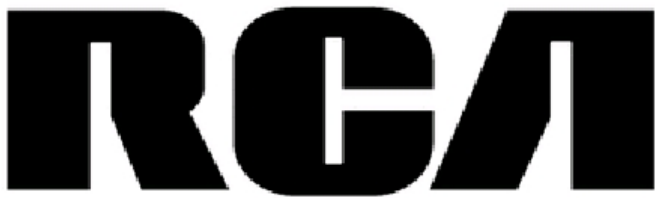

Find out What's On! The Guide Plus+ GOLD¹ feature is a free, built-in service that provides instant listings of all your TV shows at the touch of a button.

Watch two programs at the same time - both in color.

Simplifies connecting other components such as a game system, digital camera, DVD, etc. Switchable outputs offer maximum flexibility when connecting audio components.

Eliminates the annoying "blast" of sound during commercial breaks. Also amplifies soft sounds maintaining a constant volume level.

Improves the clarity and fidelity of stereo broadcasts. Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.
