T25608
TV/VCR
COMBO

T25608

Specifications

- **Cabinet**
Eastern Metallic Silver.
- **Dimensions:** 23³/₁₂" H, 24¹/₁₂" W, 19²/₁₂" D
- **Approx. Shipping Weight:** 68.3 Lbs.

Remote

- **CRK76TY1**

Picture

- **Dark-Tint, High-Contrast Picture Tube**
Dark glass picture tube delivers outstanding picture contrast for blacker blacks, brilliant whites and deep rich colors even in bright room conditions.
- **181-Channel Tuning Capability¹**
Digitally controlled frequency tuning system "locks on" to cable and standard signals with unsurpassed accuracy.

Sound

- **Two Stereo Front-Fired Speakers**
Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.
- **Second Audio Program (SAP)**
Decodes the second audio program available on some broadcasts.
- **MTS Broadcast Stereo Reception**
Receive and record stereo sound from MTS (Multichannel Television Sound) stereo TV broadcasts, where available.

Convenience

- **Trilingual On-Screen Display**
Allows the on-screen menu system to be displayed in one of three languages (English, French, or Spanish).
- **On-Screen Menu System**
On-screen displays make it easy to adjust most picture, sound, and convenience features from the remote control.
- **Caption Vision  Closed Caption Capability²**
Assists the hearing impaired, helps children learn to read, and aids in the teaching of English as a second language. Built-in Closed Caption Decoder displays the audio portion of a program as text on the TV screen (when program is aired with the encoded signal).
- **Programmable Timer System**
Convenient scheduling system can be used in a variety of ways:
 - **Sleep Timer**
Automatically turns off the TV after a preset time period—for those times when you drift off to sleep in front of the television.
 - **Alarm Timer**
Wake up to your favorite morning show or turn on your television automatically to catch your favorite program.

- **Auto Clock Set³**
The Auto Clock Set³ circuitry reads the XDS broadcast signal containing time of day and date information, automatically setting the clock during initial setup as well as after most power interruptions.
- **V-Chip Parental Control**
Puts control back into the hands of the viewer by blocking unwanted television broadcasts with U.S. Government required circuitry. Blocks three types of programs: regular television programs, broadcast movies and unrated programs.
Program rating information is sent by the broadcaster continuously during the program. The television will match program rating to user preference and block the entire program (when program is aired with the encoded signal). User preference is secured using a four-digit password.

VCR Capabilities

- **6-Head System**
Four video recording and pick-up heads on a single head drum provide improved special effect performance. With the new SFX design, you can visually pause on the tape at any speed, and slow-motion effects are clearer and more jitter-free. Two additional AFM audio heads allow Stereo Hi-Fi recording and playback. The combination of six heads allows full theatre video and audio, and allows full stereo performance copying from all high-level consumer and professional camcorders. Using a T-160 tape, up to eight hours of stereophonic audio can be recorded for extended playback, or six hours with any standard T-120 VHS tape.
- **8-Event/1-Month Programmable Timer**
The built-in timer memory can be preset up to one month in advance to record as many as eight different programs automatically.
- **Digital Auto Tracking Plus**
Combines the best performance of an automatic digital tracking scan system, which automatically "locks" on the best signal, with the added convenience of manual override. Manual up/down tracking is sometimes preferred when rental tapes have been damaged or recorded on older recorders with tracking out of adjustment.
- **Auto Repeat**
Automatically rewinds at the end of the tape and then begins replay.

- **Auto Power On, Auto Play, Auto Rewind**
Simply inserting a cassette in the VCR turns it on (Auto Power On). When a prerecorded cassette is inserted in the VCR, it automatically starts to play (Auto Play). When the end of the tape is reached, Auto Rewind automatically rewinds the tape.
- **Clear Quality Slow Motion**

Connections

- **Front and Rear Audio/Video Inputs**
Allows quick, easy access for direct audio and video connections for additional VCR, video game or video source.
- **Fixed Audio Outputs**
Connect TV to an external AV receiver or power amplifier to create a true home theater setup.
- **Front Panel**

- **Back Panel**

- **Stereo Headphone Jack**
Listen privately with optional headphone.

Plus

- **Limited Warranty**
 - 90 days for labor charges.
 - One year for parts.
 - Two years for picture tube.
 - See RCA dealer or visit www.rca.com for complete details.

¹ Check your cable company's compatibility requirements.
² This television receiver provides display of television closed captioning in accordance with §15.119 of the FCC rules. This television receiver does not support color attributes of television closed captioning.
³ Subject to availability based on local off-air and cable broadcasts.
