

## Description

For those who desire the ultimate performance and maximum flexibility from their home theater, the RSP-1570 is the surround preamp/processor to own. All of Rotel's renowned audio experience has been poured into this design to provide you with the very best in audio and video reproduction. The RSP-1570 features HDMI 1.3 connections with 1080p / 24 Hertz compliance and processing for the new "Deep Color" and xvYCC options. This superbly designed component is easy to set up and use and is a custom installer's friend with rear panel bi-directional RS-232 ports, assignable 12-volt triggers and multiple IR connections. The RSP-1570 can also be used as a "whole house" audio system with its additional multiroom audio outputs.
