OPERATING INSTRUCTIONS & NUTRITIONAL INFORMATION

SALTER

Nutritional Scale

The Salter Nutritional Scale is designed for precise measuring of ingredients or portions and for the better understanding of various nutritional values (fat content, sodium content, cholesterol, carbohydrate, fiber, protein and calories) for food or ingredients in cooking, baking, or just general dietary consumption.

This scale offers a complete database on nutritional value information on over 900 foods or ingredients as listed in the USDA National Nutrient Database for Standard References release 15. This includes nutrition values for most commonly used ingredients, foods as well as liquids!

Additionally, this scale with its 99 memory entry capacity has the facility to make multiple food entries and help you keep track over an extended period of time and store it in its' memory. At the end of the day or week (or anytime in between) the total accumulated calories, fat grams or mg of sodium etc that have been entered into the scale memory can be recalled. All these features make this scale ideal for everyday and dietary purposes.

NUTRITIONAL SCALE - OPERATING INSTRUCTIONS

ASSEMBLY:

Align the screw thread on the underside of the clear platform with the screw thread socket on the top of the scale. Rotate the platform clockwise to lock the platform in place.

BATTERY:

9V (e.g. Duracell MNI604 or Energizer 6LR61)

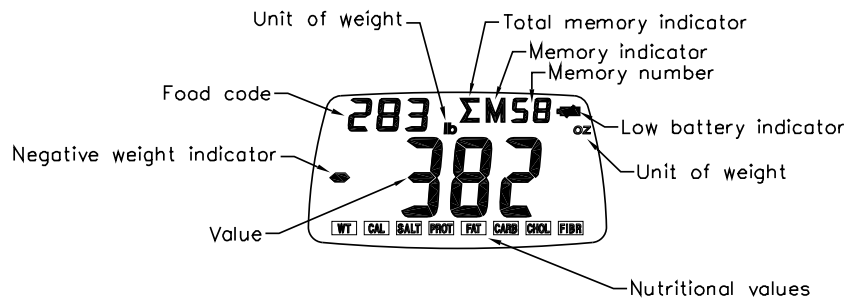

TO REPLACE BATTERY:

Ensure +/- terminals are correct way round

THE DISPLAY:

The diagram below explains the various features of the display

TO SWITCH ON:

Press and release  key

TO SWITCH OFF:

Press and release  key

NOTE: Auto switch-off occurs if display shows **0.0** or the same weight reading for approximately 2 minutes.

TIP: Using the  key to switch the scale off after use will prolong the battery life.

TO CONVERT WEIGHT UNITS:

In weighing mode press and release the **g/oz/WT** key to convert between oz, lb oz, g and kg units, at any time.

TO WEIGH:

- 1) Place metal tray on scale before switching on
- 2) Press and release  key
- 3) Wait until display shows **0.0**
- 4) Place item to be weighed on the tray
- 5) Weight is displayed

TO ADD & WEIGH:

To weigh several different ingredients in one tray, press the **ZERO** key to reset the display between each ingredient.

TO DISPLAY NUTRITIONAL READINGS:

IMPORTANT – ensure the scale is in weighing mode (**WT** is shown at the bottom of the display). If necessary press the **g/oz/WT** key to return to weighing mode.

- 1) Place food item to be weighed on the tray.
- 2) Clear the food code if necessary by pressing and releasing the **CLR/MC** key – the food code **000** is displayed.
- 3) Refer to the table in this manual and identify the 3 digit code for the food item being weighed (e.g. 755 for honey).
- 4) Using the numerical keys (**0 – 9**) enter the 3 digit code
- 5) Press the **cal, salt, prot, fat, carb, chol** or **fibr** key to display that nutritional value for the food item.
- 6) Press the **g/oz/WT** key to return to weighing mode.

NOTE: It is only possible to enter or clear the 3 digit food code when in weighing mode.

TO SAVE NUTRITIONAL VALUES TO MEMORY:

IMPORTANT – ensure the scale is in weighing mode (**WT** is shown at the bottom of the display). If necessary press the **g/oz/WT** key to return to weighing mode.

- 1) Follow steps 1 – 6 of the 'To Display Nutritional Readings' section.
- 2) Press **M+** key to add the food item being weighed to memory.
- 3) **M01** will be shown at the top of the display to indicate that one set of values has been saved to memory. To add additional food items to memory repeat the previous steps.

NOTE: It is only possible to save nutritional values to Memory when in weighing mode.

NOTE: The memory is saved permanently, even if the scale is switched off or the battery removed.

NOTE: The maximum number of food items that can be added to the memory is **99**.

When the memory number reaches 99 it will begin to flash – the memory must be cleared by following the instructions in the 'To Clear Memory' section.

TO RECALL MEMORY:

IMPORTANT – ensure the scale is in weighing mode (**WT** is shown at the bottom of the display). If necessary press the **g/oz/WT** key to return to weighing mode.

- 1) Press **MR** key to see the total calories of the food items stored to memory.
- 2) Σ is displayed next to the memory indicator to indicate that the total memory is being displayed.
- 3) Press the **cal, salt, prot, fat, carb, chol** or **fibr** key to display the total nutritional values of the food items stored to memory.
- 4) Return to weighing mode by pressing the **g/oz/WT** key.

NOTE: It is not possible to display the total weight of the food items stored to memory.

TO CLEAR MEMORY:

IMPORTANT – ensure the scale is in weighing mode (**WT** is shown at the bottom of the display). If necessary press the **g/oz/WT** key to return to weighing mode.

- 1) Press and hold the **CLR/MC** key for 2 seconds.
- 2) The memory is cleared when the memory indicator and memory number are no longer displayed.

FUNCTION KEYS:

Switch scale on/off

zero Set weight to zero

M+ Save nutritional values to memory (up to a maximum of 99 values)

MR Recall the total nutritional values stored in memory

CLR/MC Clear food code/clear memory

g/oz/WT Convert between g, kg, oz and lb oz units/return to weighing mode

NUTRITION KEYS:

cal	Calorie content (cal)	carb	Carbohydrate content (g)
salt	Salt content (mg)	chol	Cholesterol content (mg)
prot	Protein content (g)	fibr	Fiber content (g)
fat	Fat content (g)		

WARNING INDICATORS:

Replace battery

Weight overload

Nutritional value exceeds maximum limit

NOTES FOR CLEANING/CARE:

- Stainless steel tray** – Dishwasher safe
- Removable clear platform** – Rotate platform anti-clockwise to separate from scale for cleaning.
Platform is not dishwasher safe.

WARRANTY

This product is intended for domestic use only. Salter Housewares will replace the product, or any part of this product (excluding batteries), free of charge if within the warranty period it can be shown to have failed through defective workmanship or materials.

The warranty covers working parts that affect the function of the product. It does not cover cosmetic deterioration caused by fair wear and tear or damage caused by accident or misuse. Opening or taking apart the product or its components will void the warranty.

Claims under warranty must be supported by dated proof of purchase and returned postage paid to Salter Housewares with a return authorization number.

Care should be taken in packing the scale so that it is not damaged while in transit. This undertaking is in addition to a consumer's statutory rights and does not affect those rights in any way.
