

INSTRUCTION MANUAL

NVM-4370

Portable Navigation System

If you need assistance with product operation, authorized service center referral, service assistance, problem resolution, or parts and accessories availability; you may contact us by:

- A. Visiting www.sanyoservice.com on a 24hr/7 days a week basis or
- B. calling the customer support center at 1-800-421-6382
Weekdays 7:30 AM - 5:00 PM Pacific Time

FCC COMPLIANCE

* This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference,
and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC WARNING

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Industry Canada Compliance

Category I radio communication devices comply with Industry Canada Standard RSS-210. Category II radio communication devices comply with Industry Canada Standard RSS-310.

Precautions

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Sanyo is under license.

All other brand or product names mentioned in this manual are trademarks or registered trademarks of their respective companies.

Maintenance

- Keep your device away from excessive moisture and extreme temperatures.
- Avoid exposing your device to direct sunlight or strong ultraviolet light for extended periods of time.
- Do not drop your device or subject it to severe shock.
- Do not subject your device to sudden and severe temperature changes. This could cause moisture condensation inside the unit, which could damage your device. In the event of moisture condensation, allow the device to dry out completely before use.
- Do not leave your device in plain sight when you leave your vehicle. Take your device with you or remove it from view to avoid theft.
- The screen surface can be easily scratched. Sharp objects may scratch the screen. You may use non-adhesive generic screen protectors designed specifically for use on portable devices with LCD panels to help protect the screen from minor scratches.
- Never clean your device with it powered on.
- Never use organic solvents such as benzene or paint thinner to clean your device. Use of these solvents can cause deformation or discoloration.
- Use a soft, clean, lint-free cloth to clean the display screen. Moistened LCD screen wipes could also be used as required.
- Never attempt to disassemble, repair or make any modifications to your device. Disassembly, modification or any attempt at repair could cause damage to your device and even bodily injury or property damage and will void any warranty.

Storage precautions

- Do not store your device anywhere it may be exposed to water or in conditions of high humidity.
- When the device is not in use for an extended period of time, bring it indoors and store it in cool dry area.

Accessories and repair precautions

- Only authorized accessories should be use with the device. The use of incompatible accessories could result in bodily injury and/or damage to the device.
- The use of unauthorized accessories will also void your warranty.
- Never attempt to disassemble, repair or make any modification to your device.

DISCLAIMER AND LIMITATION OF LIABILITY

SANYO and its subsidiaries makes no representations or warranties, either expressed or implied, with respect to the contents hereof and specifically disclaims the implied warranties of merchantability or fitness for a particular purpose. SANYO and its subsidiaries assume no responsibility for any damage or loss resulting from the use of this SANYO Portable Navigation System.

NOTE: Record the device ID, serial number, purchase date, and place of purchase information in the space provided below. The serial number is indicated on the label affixed to your unit. All correspondence concerning your unit should include the serial number, device ID, and purchase information. Information in this manual is subject to change without notice.

WARNINGS AND NOTICES

For your safety, do not operate the controls of the product while driving.

GPS satellite signals cannot typically pass through solid materials (except glass). GPS location information is not typically available inside buildings, tunnels, or underground parking lots.

A minimum of 4 GPS satellite signals is needed to calculate your GPS position. Signal reception can be affected by weather events or overhead obstacles (e.g. dense foliage and tall buildings).

Other wireless devices in the vehicle may interfere with the reception of satellite signals and cause the reception to be unstable.

Adaptor

Do not attempt to service the unit. There are no serviceable parts inside. Replace the unit if it is damaged or exposed to excess moisture.

Do not use the adaptor if the cord becomes damaged.

Connect the adaptor to the proper power source. The voltage requirements are found on the product case and/or packaging.

Battery

This unit contains a non-replaceable internal Lithium Ion battery. The battery can burst or explode, releasing hazardous chemicals. To reduce the risk of fire or burns, do not disassemble, crush, puncture, or dispose of in fire or water.

To charge the battery, connect the Car adaptor to the main unit. Under high temperatures, however, the protection circuit may be activated and charging may not be possible.

Do not connect any accessory (Car adaptor, etc.) other than those supplied or optional.

FOR AMERICAN USERS

The following advisory is included in accordance with the laws of the State of California (USA):

WARNING: This product contains chemicals, including lead, known to the State of California to cause cancer, and birth defects or other reproductive harm. ***Wash hands after handling.***

CHECK YOUR STATE AND LOCAL TRAFFIC LAWS BEFORE MOUNTING.

Currently, some states (including, e.g., California and Minnesota) and municipalities restrict or prohibit drivers from mounting objects or other materials (a) on their windshields while operating motor vehicles or (b) that obstruct the driver's view or interfere with the operation of the vehicle. In such cases, other Sanyo mounting options should be used. SANYO does not take any responsibility for any fines, penalties, or damages that may be incurred as a result of disregarding this notice.

You are responsible for complying with applicable federal, state or local laws, regulation or ordinances regarding the disposal of your Sanyo Navigation product.

READ CAREFULLY BEFORE USE!!!

User license agreement

IMPORTANT! — BY INSTALLING, COPYING, ACCESSING, DOWNLOADING, AND/OR USING THIS THE SOFTWARE, YOU ARE CONSENTING TO BE BOUND BY AND ARE BECOMING A PARTY TO THIS AGREEMENT AS A LICENSEE. IF YOU DO NOT AGREE TO ALL OF THE TERMS OF THIS AGREEMENT, TERMINATE THIS INSTALLATION PROCESS OR, IF THE SOFTWARE IS ALREADY INSTALLED, IMMEDIATELY UNINSTALL IT.

THIS USER LICENSE AGREEMENT (“this Agreement”) shall serve as a legally binding instrument between you (as “Licensee”, whether an individual or a corporation, regardless) and SANYO Electric Co., Ltd. (“Licensor”) concerning the Licensee's use of a single SANYO SOFTWARE PRODUCT (“the Software”) under the terms and conditions set forth herein. The Software shall include, but without limitation, computer software and related media materials, printed materials (documents such as user manuals), and electronic documents whether or not retrieved by licensee “on-line”, and shall include any updates and upgrades thereof supplied by Licensor having additional features and functions.

Where a separate User License Agreement is attached to any the Software supplied by Licensor, the terms and conditions of that User License Agreement shall also apply in addition to the terms and conditions set forth in this Agreement.

If you are unable to agree to any of the terms and conditions set forth herein, Licensor is unable to grant you the license to install, use or copy the Software.

The Software covered under this Agreement is protected under the international conventions and treaties on copyright and the related laws and regulations. This license shall constitute a grant of a license to Licensee for a single use of the Software and may not be deemed under any circumstances to constitute a sale of the Software itself.

1. Grant of License

Licensor shall grant Licensee a non-exclusive, non-sublicensable, non-transferable license for the use of the Software under the terms and conditions set forth herein:

- System Software

Licensee may use the Software only in a single computer or on a computer network (“the Computer”, including without limitation, workstation, terminal, and/or other digital or electronic device) in binary executable form.

2. Other rights and limitations

- Reverse engineering, etc.

Except as expressly provided herein, Licensee shall not copy, modify reproduce, display, decompile, reverse engineer, reverse assemble, store, translate, sell, lease or otherwise transfer, distribute the Software, in whole or in part, nor may Licensee use the Software with the intent to clone any proprietary product to Licensor.

- Separation or division of the Software prohibited

This license hereby is granted for a single use only. In no circumstances shall Licensee separate, divide or compartmentalize any constituent portion(s) of the Software into multiple parts, sections, or compartments for use in multiple computers.

- Rental, lease or loan prohibited

Licensee shall not lend, lease or loan the Software to any party(ies).

- User support service by Licensor

Licensor may choose to provide user support service in accordance with the Licensor's policy set out in User Manual, On-line documents, or other printed matters made available by Licensor from time to time (the “Support Service”). All additional software code made available to Licensee as a part of the Support Service shall be deemed to constitute a part of the Software hereof to which all the terms and conditions of this Agreement shall apply. Licensor shall be entitled to use for commercial purposes or otherwise any and all technical information (the “Technical Information”) provided by Licensee to Licensor, provided, however, that Licensor shall ensure that the identity of the Licensee shall remain undisclosed in the Licensor's use of all such Technical Information.

3. Other Intellectual Proprietary Rights

Licensor or its supplier is the owner of all right, title and interest in and to the Software and its documents such as user manual and any and all copies thereof. The proprietary ownership of all data operated using this Software shall remain with the respective owner(s) and shall be protected by the international conventions and treaties and other intellectual proprietary rights. Licensee shall not be deemed, by anything contained in or done pursuant to this Agreement to acquire any right, title, or interest in any trademark, copyright, patent or other intellectual property of Licensor, and shall do nothing to prejudice the value or validity of the respective owner's rights therein or ownership thereof. Licensor shall preserve the proprietary ownership of any and all rights and titles in the Software not specifically provided herein.

4. Backup copy

After having installed a copy of the Software pursuant to this Agreement, Licensee may make a single copy of the Software for backup and archival purposes only, provided that any copy must contain all proprietary notices included in the original. If another original medium becomes necessary to use the Software on a computer under this Agreement, Licensee may make a single copy of the Software. Except as specifically provided herein, Licensee shall refrain from making copy of the Software or its incidental documents such as user manual in any manner whatsoever.

5. DISCLAIMER OF WARRANTY:

THE SOFTWARE IS DEEMED ACCEPTED BY LICENSEE UPON ITS USE BY LICENSEE. THE SOFTWARE IS PROVIDED TO LICENSEE AS IS, WITHOUT WARRANTY OF ANY KIND. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW. LICENSOR FURTHER DISCLAIMS ALL WARRANTIES, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON INFRINGEMENT. THE ENTIRE RISK ARISING OUT OF THE USE OR PERFORMANCE OF THE PRODUCT AND DOCUMENTATION REMAINS WITH LICENSEE. IN NO EVENT SHALL LICENSOR OR ITS SUPPLIERS BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, DIRECT, INDIRECT, SPECIAL, PUNITIVE OR OTHER DAMAGES WHATSOEVER (INCLUDING WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR OTHER PECUNIARY LOSS) ARISING OUT OF THIS AGREEMENT OR THE USE OF OR INABILITY TO USE THE PRODUCT, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. LICENSOR DOES NOT WARRANT THAT THE SOFTWARE DOES NOT INCLUDE ANY VIRUS OR DEFECTS, THE SOFTWARE ROUTINE OR OTHER SOFTWARE DESIGNED TO RESTRICT UNAUTHORIZED ACCESS; OR TO DISABLE, ERASE OR OTHERWISE HARM THE SOFTWARE, HARDWARE, OR DATA; OR TO PERFORM ANY OTHER SUCH ACTIONS AND LICENSOR HEREBY EXPRESSLY DISCLAIMS ANY AND ALL LIABILITIES TO RESTORE ANY SUCH DEFECTS.

6. Indemnification:

Licensor will not have any liability to Licensee for, and Licensee will defend and hold Licensor harmless against, any claim, expense, judgment, liability, or loss (including attorneys' fees and expert witnesses' expenses) based on Licensee's use of any content of the Software, arising from any intellectual property claim (including patent, trademark, copyright, or trade secret infringement), any right of publicity or privacy claim, or any defamation or unfair competition claim.

7. Termination.

Without prejudice to any other rights, Licensor may terminate this Agreement if Licensee fails to comply with the terms and conditions herein. Licensee may also terminate this Agreement at any time by destroying the Software and Documentation and all copies thereof. The provisions of sections 2, 3, 4, 5, 6 and 7 shall survive any termination of this Agreement.

1 Features and Specifications

1.1 Features

The SANYO NVM-4370 Portable Navigation System is a powerful multifunction GPS navigation and entertainment device.

- Compact size and lightweight
- Integrated GPS receiver for GPS navigation
- USA/Canada/Alaska/Hawaii/Puerto Rico map preloaded into Internal 4GB Flash
- Embedded SD/MMC card slot ensuring ample data storage
- Incorporates high-performance GPS antenna
- High-resolution color LCD
- 4.3" wide touch screen with 16:9 scale
- Bluetooth v1.2 supported with various profiles
- Multimedia functionality with high performance processor

1.2 Specifications

General Specification	
Overall dimension (w/o antenna)	4.5" x 2.9" x 0.72" (115mm x 74.5mm x 18.3mm)
Weight (incl. battery)	6.7 oz (190 g)
Certificates	FCC
Operating Temperature	32 °F to 122 °F (0 °C to 50 °C)
Storage Temperature	short period: -4 °F to 140 °F (-20 °C to 60 °C) long period: -4 °F to 95 °F (-20 °C to 35 °C)
Charging battery Temperature	32 °F to 104 °F (0 °C to 40°C)
Hardware Main unit	
Display	4.3" Touch screen, 480 x 272 pixel, TFT, 16.7M colors
Memory	NAND Flash 4GB
Indicators	Green/Red/Orange for power, Blue for Bluetooth
Speaker	1.5 W, 8 ohm
Connectors	MiniUSB (B type), SD/MMC memory slot, Camera in, Headphones
(Headphones jack)	3.5mm, stereo, More than 32 ohm
(Camera in jack)	2.5mm
Bluetooth	Bluetooth v1.2 compatible class 2
Bluetooth Profile	HFP, OPP, FTP
FM transmitter	87.7 - 108.0 MHz (0.1MHz step adjustable)
Microphone	Built-in for Bluetooth Hands-Free
USB Interface	USB ver. 2.0
Main Battery	
Type	Rechargeable Li-ion
Voltage/Capacity	3.7V, 1200 mAh
Runtime	Up to 4 hours (Display Main Menu with LCD power save mode)
Charge time	Approximately 4 hours (Charge the battery from an empty status with Car adaptor)
GPS	
Type	internal Chipset SiRF GSC3

Car Adaptor	
Input rating	10.8-30V
Output rating	5.0V, 1A
Certificates	FCC, CE, e-mark
Output plug	USB mini-B type
USB Cable	
Length	4' (120 cm)
Mini-jack to RCA conversion cable	
Length	1' (30cm)
SD Card	
Support Capacity	Maximum 8GB (SDHC Support)
MMC (Multi Media Card)	
Support Capacity	Maximum 2GB

2 Getting Started

This chapter describes the hardware interface of your unit and its peripherals. Instructions for setting up the device and some basic system operations are also discussed.

NOTE: Although your unit's rechargeable Li-ion battery comes approximately 40-80% charged, before using, it is best to connect the Car adaptor and plug to power socket and fully charge the battery. The POWER/MENU button will glow orange when charging.

2.1 Hardware overview

This section introduces your unit's external features and hardware components.

2.1.1 Packing list

The box contains all of the items listed below:

- Portable Navigation System unit
- Dashboard Mounting Disc
- Windshield & Dashboard Car Mounting kit
- Car Adaptor
- USB cable
- Quick Start Guide
- CD Instruction Manual
- Warranty
- DVD Map Software
- Mini-jack to RCA conversion cable

2.1.2 External features

Figure 1: Front Panel View

Table 1: Front panel controls

No.	Function	Description
1	Bluetooth LED	Glows blue when Bluetooth connected

Figure 2: Top and Bottom view

Table 2: Top and Bottom controls

No.	Function	Description
1	Power / Menu button	Normal ON/OFF power button and change menu
2	Volume Control	Adjust the sound volume.
3	Battery switch	The main power/battery cut off switch.
4	Reset	Restarts your device

NOTE: Power / Menu button : Press and hold the button for 2 seconds to turn power off.
While unit power is on, press and immediately release the button to display Main Menu.

Figure 3: Left and Right side view

Table 3: Left and Right panel controls

No.	Function	Description
1	Microphone	nondirectional Microphone
2	SD/MMC slot	Accepts a SD (Secure Digital) or MMC (MultiMediaCard) for data storage.
3	Headphones	Standard stereo headphones jack.
4	CAMERA-IN	Rear view camera input (mini-jack)
5	USB	Car adaptor, PC (with USB cable) or TMC unit connector

NOTE: Your unit can charge by USB Interface.

- Make sure that the battery switch is ON.
- Make sure that your device is OFF state. (If your device is ON state, press Power / Menu button for long interval.)
- Connect your device to your PC with USB cable, then USB charging starts.

Figure 4: Rear view

Table 4: Rear controls

No.	Function	Description
1	GPS antenna	GPS antenna
2	Speaker	Speaker
3	Car mounting kit slots	Slots for Windshield & Dashboard Car Mounting kit

2.2 Mounting your unit in your vehicle

WARNING: Do not use the car mount kit under low temperatures. The cradle may come off because of insufficient suction power.

WARNING: Make sure that the car mount kit does not obstruct the driver's view, or interfere with the operation of vehicle airbags and safety devices.

Your unit comes with a car Mounting kit and a car adaptor to help install your device in your vehicle. The car Mounting kit uses a suction cup on the windshield/dashboard to offer flexible mounting options for your unit.

NOTE: Do not attach the Car Adaptor to your device when you use it in vehicle. Rechargeable batteries may sometimes not be chargeable in the vehicle.

This section shows how to install the car mount kit in your vehicle's windshield/dashboard using the suction cup.

Figure 5: Windshield & Dashboard Car Mounting kit

Table 5: The components of Windshield & Dashboard Car Mounting kit

No.	Function	Description
1	Adjustable 2 prong ratching plate	Connects the device to the ratching plate which can be adjustable horizontally and vertically.
2	Tower unit	Allows the device to be adjusted in 360°
3	Suction cup locking lever	Secures the vacuum seal of the car mount.
4	Suction cup	Fixes the car mount to the selected mounting area.
5	Suction cup release tab	Pull to release the vacuum seal of the suction cup.
6	Dashboard Mounting Disc	For Dashboard mounting usage

Using the car Mounting kit

1. Clean and dry the mounting surface with a clean cotton cloth.
2. If the ambient temperature is below +60°F (15°C), you can warm the mounting area and the suction cup (e.g. with a hair dryer) to ensure a strong suction bond.
3. Install the car mount on the selected area.

On the Windshield

- a. Fix the suction cup to the selected area with the locking lever facing up for easier access.
- b. Flip the locking lever away from you to create a vacuum between the suction cup and the window surface.

On the Dashboard

Warning: The permanent mounting adhesive is extremely difficult to remove after it is installed.

- a. Remove the backing from the permanent mounting adhesive on the bottom of the disc and place the mounting disc on the dashboard.
- b. Fix the suction cup to top of the mounting disc with the locking lever facing up for easier access.
- c. Flip the locking lever away from you to create a vacuum between the suction cup and the mounting disc.

Make sure that the suction is strong and stable before proceeding to the next step.

4. After you are sure the mounting bracket is safe and secure, attach and slide your unit into its ratcheting plate. It snaps in easily with the quick release connectors.
5. Adjust the car mount for the best viewing angle.
6. Connect the car adaptor into the cigarette lighter receptacle.
7. The car adaptor LED indicator will glow when powered.
8. Plug the car adaptor into the side of your unit and position the cord to an appropriate location.
9. Flip the GPS antenna and set it to a level position.

NOTE: Your car may be required to switch the vehicle ignition into the accessories position to power the cigarette lighter. Your unit will not charge with the ignition off.

Figure 6: Mounting on the windshield

Figure 7: Mounting on the dashboard

10. Detach your unit from the Car mounting kit (ratching plate)

Figure 8: Mounting on the dashboard

Press lock button
on ratching plate

2.3 Set up TMC antenna unit in your vehicle (Option)

Figure 9: TMC unit and TMC antenna

No.	Component	Description
1	TMC antenna jack	Connects to the TMC antenna
2	USB terminal	Connects to the USB slot of the device
3	USB slot	Connects to the USB terminal of the car adaptor
4	TMC antenna terminal	Connects to the antenna jack of the TMC unit
5	Suction cup	Fixes the windshield

Figure 10: TMC antenna recommended connection method

Using the TMC antenna unit

1. Clean and dry the suction cup surface with a clean cotton cloth.
2. Fix TMC antenna unit on Windshield as recommended connection method
3. Connect the TMC antenna to the TMC unit.
4. Connect the TMC unit to the device.
5. Connect the car adaptor to the USB slot of the TMC unit.

WARNING: Make sure that the TMC antenna does not obstruct the driver's view, or interfere with the operation of vehicle airbags and safety devices.

NOTE: SANYO is not responsible for the availability or quality of traffic information provided by TMC.

3 System

3.1 Initial settings

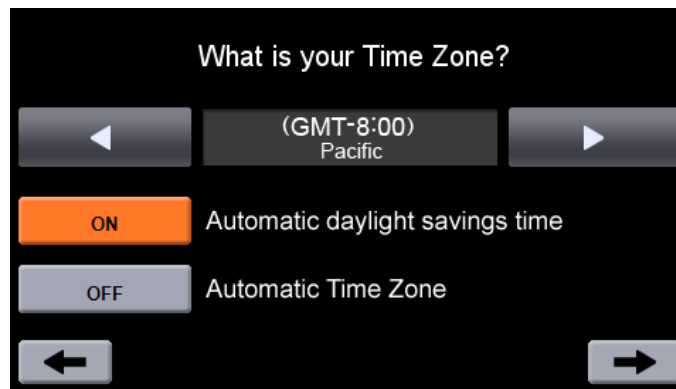

1. Turn on the Battery ON / OFF switch.

2. Select the desired language English/Español/Français.

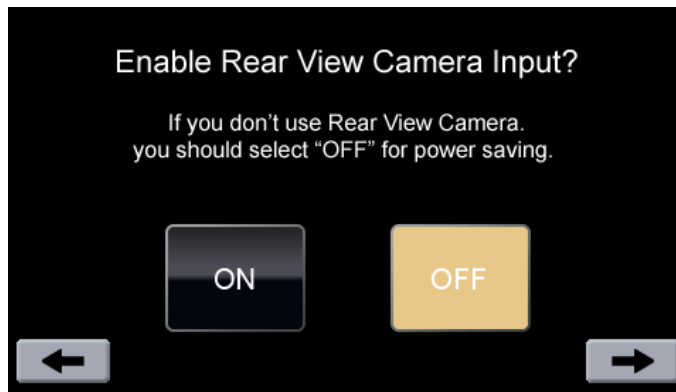

3. Set the time zone.

NOTE: The time displayed by the navigation software is set automatically when the GPS receives a signal. If you would also like the time zone to be set automatically, set "Automatic Time Zone" to "ON".

4. Set the rear view camera input. To use the rear view camera select "ON", if you don't use the rear view camera select "OFF". When set to "ON", the screen will switch automatically when camera images are input.

NOTE: If you don't use the rear view camera input you should select "OFF" for power saving.

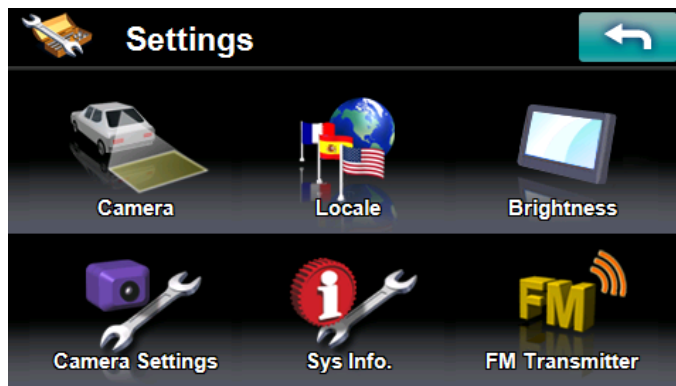

5. The Main Menu screen is displayed after the Warning screen.

No.	Description
1	Battery Status
2	Bluetooth Status  : Bluetooth is "ON". Mobile phone is not connected.  : Mobile phone is connected.
3	The name of the connected mobile phone

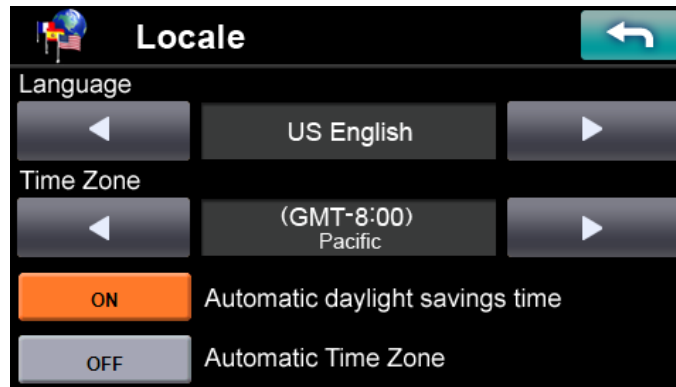

3.2 System settings

System setting can be used to view and adjust your device current preferences. Navigate from the "Settings" menu.

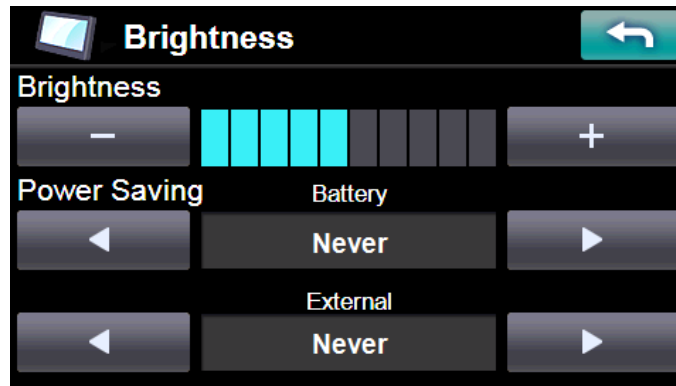

3.2.1 Locale

1. Tap the “Locale” icon in the “Settings” menu.
2. Tap the forward or backward arrow until the language and the Time Zone you want appears.
3. If you set “Automatic daylight savings time” to “ON”, your unit adjusts clock for daylight saving automatically. And if you set “Automatic Time Zone” to “ON”, the navigation software automatically sets the system Time Zone after receiving GPS.
4. Tap  to set the language and the Time Zone and return to the “Settings” menu.

3.2.2 Brightness

1. Tap the “Brightness” icon in the “Settings” menu.
2. Tap “+” or “-” to set the Backlight brightness.
3. Tap the left or right arrow to set the LCD power-save of battery and external power drive modes.
4. Tap  to return to the “Settings” menu.

3.2.3 Camera / Camera settings

This device can be used as a monitor for rear view cameras such as those manufactured by Sanyo CCA-BC200. If you use the rear view camera connect the “mini-Jack to RCA conversion cable” provided to the video output terminal of the rear view camera and insert it into the CAMERA-IN of the device.

NOTE: See Rear View Camera Instruction Manual for details about how to fix the rear view camera to the car.

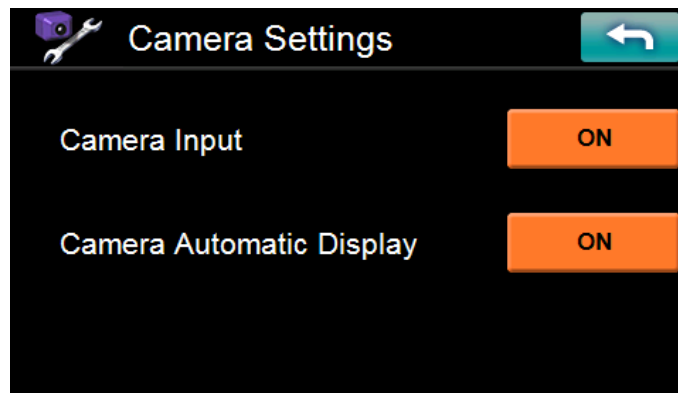

NOTE: The unit is not equipped with an image reverse function, to obtain a mirror image similar to that of the back mirror use a camera equipped with an image reverse function.

The procedure to display the rear view camera image is the following:

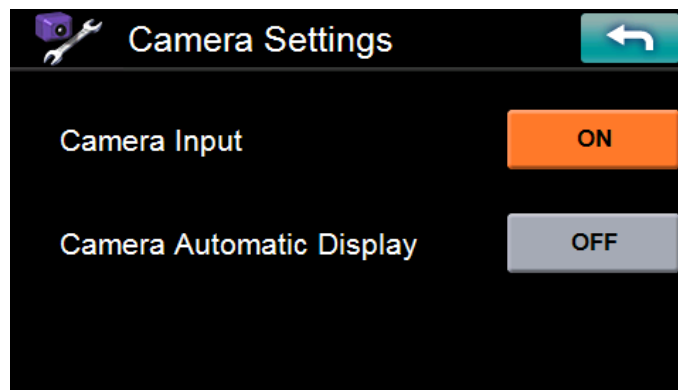

1. Tap the “Camera Settings” icon in the “Settings” menu.
2. Tap the “Camera Input ON/OFF” button in “Camera Settings” and set the button to “ON”.

NOTE: If you don't use the rear view camera input you should select “OFF” for power saving.

- When “Camera Automatic Display” is set to “ON”, the screen will switch automatically when a camera image is input.

If you would like to switch the camera image manually, set “Camera Automatic Display” to “OFF”. At such times, tap the “Camera” icon in the “Settings” menu, the camera image is displayed.

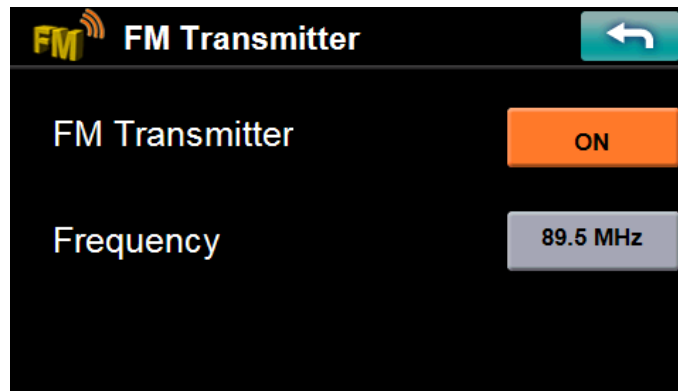

- When the input of the camera image stops, the screen will automatically return to the original screen.
- If you keep pressing the “MENU” button on the top of the device for a few seconds, the camera image disappears and the “Main Menu” is displayed. To redisplay the camera image at this time, tap the “Camera” icon in the “Settings” menu.

NOTE: If the “Navigation”, “Music Player” or “Video Player” were in operation, they are temporarily suspended when the camera image is displayed.

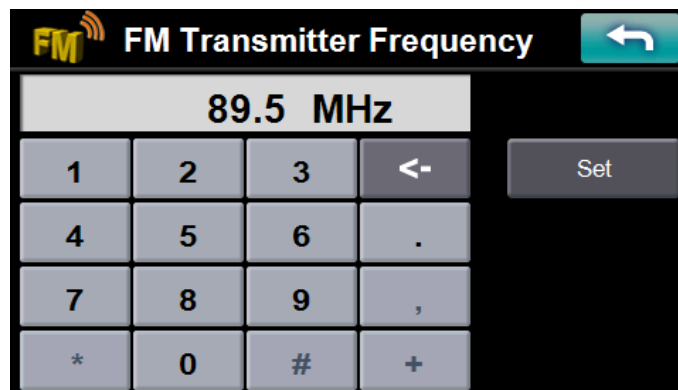

WARNING: When a camera image is displayed the hands free Bluetooth signal is not available.

3.2.4 FM transmitter

1. Tap the “FM Transmitter” icon in the “Settings” menu.
2. When pressing the “FM Transmitter ON / OFF” button and setting it to “ON” , the FM Transmitter is set to “ON” and the speaker output is turned OFF.

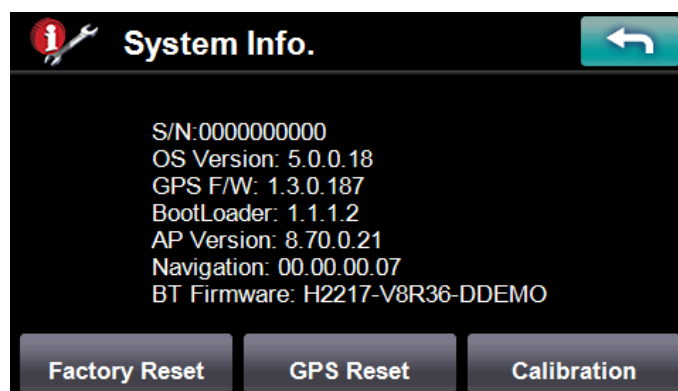

3. Tap the “XX.X MHz” button.
4. Input frequency using “FM Transmitter Frequency” screen and then tap the “Set” button.

5. When pressing the “FM Transmitter ON / OFF” button and setting it to “OFF” , the FM Transmitter is set to “OFF”.

3.2.5 System information

1. Tap the “Sys Info.” icon in the “Settings” Menu.
2. You can view the OS version, GPS firmware version and other system information.

3. Tap the “Calibration” button to open the Calibration screen of the touch panel.
Tap the center of the target as it moves around the screen.

Tap on the center of the target.
Repeat as the target moves around the
screen.

4. Tap the “Factory Reset” button to open a dialog box to select whether to reset the settings. Tap the “YES” button to reset the settings and the “NO” button not to reset the settings.

Load factory default settings?
**Warning: Communications' data including
Contacts will be deleted after device is reset.**

YES

NO

2. Your unit becomes the external mass storage disk of your PC.
3. You can see files on your unit.

You can copy multimedia files (mp3, wma, jpeg and mp4) from PC to your unit.

NOTE: Operating system of your PC should be Windows XP or later.

6 Troubleshooting

6.1 Your device does not turn on.

- Check that the battery switch is ON.
- Check that the Car adaptor is connected to your device.
- Check that the battery power of your device is enough.

6.2 The internal battery cannot be charged or charging time is long.

- Check that the battery switch is ON.
- Check that the Car adaptor or PC by USB cable is connected to your device.
- In case of USB charging, make sure that your device is OFF state and the USB interface of your PC supports 500 mA at 5 Volts (Bus Powered).
- In comparison with Car adaptor, USB charging takes long time.

6.3 System stops responding; is “frozen” or “locked up.”

- To reset your device, take a sharp object like a pen and depress the reset button on the bottom of the device.
- If your device still does not respond after performing “reset”, disconnect all cables, including the Car adaptor, from your device. Slide the battery ON/OFF switch on the bottom of the device to the OFF (left) position. Then slide it to the ON position again.

6.4 Users can also perform a “system reset.”

- To do a “system reset” in the Main Menu, tap the Settings, then tap the Sys Info. This will allow you to do a factory reset (restore to default settings), reset the GPS and recalibrate the touchscreen interface.

6.5 Screen is not displayed normally.

- Make sure that brightness setting is appropriate.
- There is the case that LCD does not work normally at a high temperature and low temperature. Make sure that the temperature is in the normal operating range.

6.6 The touch screen does not respond well.

- Calibrate the screen of your device.

6.7 Connection problems with PC.

- Make sure that the cable is securely plugged into the USB port on your computer and on the device.
- Connect the USB cable directly to your computer - do not run the cable through a USB hub.
- Reset your device before connecting the cable. Always disconnect your device before you restart your computer.

6.8 No GPS connection

- Make sure that your device has a clear view of the sky.
- Note that the GPS reception can be affected by:
 - Bad weather
 - Dense overhead obstacles (e.g. trees and tall buildings)
 - Other wireless devices in the car
 - GPS signal may not be received if a window is coated with film.

6.9 No sound coming from the device.

- Make sure that volume setting is not too low.
- The built-in speaker turns off when the headphones jack is being used.
- The built-in speaker also turns off when the FM transmitter is ON.

6.10 Getting a GPS fix takes longer time than normal.

- If the previous GPS fix position was more than 500 km or 12 hours apart from your current position and time, it will take significantly longer than the standard TTFF time to get a GPS fix. This is due to the nature of the GPS algorithm and rotational velocity between the satellites and planet Earth, and deemed normal.
- Perform a GPS reset in the Main/Settings/Sys Info. menu to get a faster GPS fix.

6.11 Factory reset does not mean a GPS reset.

- The Factory Reset function only resets the OS settings to their default factory values; it will not reset the GPS settings.

6.12 Bluetooth functions do not work.

- Make sure that Bluetooth setting of your phone is ON and Visible.
 - If the connected mobile phone has the Bluetooth auto-accept function, set this function to "ON".
(For more detailed information, see your phone's manual.)
- Make sure that your phone is located within 30 feet (10meters) from your device.
 - The following Bluetooth functions are usable or unusable depending on a model of mobile phone.
 - "File Transfer"
 - "Import Phonebook"
 - The SMS sending and receiving functions are usable or unusable depending on a model of mobile phone.
 - For the "Import Phonebook", depending on a model of mobile phone, one contact on your phone is divided into multiple entries on your device.

6.13 Unavailable functions

- When "Navigation" is running as the background process (When the "MENU" button is pushed briefly and exit from "Navigation"), it is impossible to enter to "Photo", "Video" and "Locale" menus.
- When "Music" is running as the background process (When the "MENU" button is pushed briefly and exit from "Music"), it is impossible to enter to "Video" menu.

6.14 The rear view camera image is not displayed

- Make sure that the rear view camera is connected to the device.
- Make sure that the contents of the "Camera Settings" have been properly configured. (See "3.2.3 Camera / Camera settings")
