### **Precautions**

- Discs that this unit CAN play • Audio CD
- CD-R/CD-RW (CD-DA\*/MP3/WMA files) \* CD-DA is the abbreviation for Compact Disc Digital Audio. It is a recording standard used for Audio CDs.

#### Discs that this unit CANNOT play

- CD-R/CD-RW other than those recorded in music CD format, WMA format and MP3 format conforming to
- ISO9660 Level 1/Level 2 or Joliet • CD-R/CD-RW of poor recording quality, CD-R/CD-RW that has scratches or is dirty, or CD-R/CD-RW recorded
- CD-R/CD-RW which is incorrectly finalized

with an incompatible recording device

### Notes on discs

• Before playing, clean the CD with a cleaning cloth. Wipe the CD from the center out. If there is a scratch, dirt or fingerprints on the CD, it may cause a tracking

- Do not use solvents such as benzine, thinner, commercially available cleaners or anti-static spray intended for vinvl LPs.
- Do not expose the CD to direct sunlight or heat sources such as hot air ducts, nor leave it in a car parked in • Replace all the batteries with new ones if they are weak. direct sunlight as there can be a considerable rise in
- Do not stick paper or stickers on the CD, nor scratch the surface of the CD.
- $\bullet$  After playing, store the CD in its case.

temperature inside the car.

#### On safety

- As the laser beam used in the CD player is harmful to the eyes, do not attempt to disassemble the casing. Refer servicing to qualified personnel only.
- Should any solid object or liquid fall into the unit, unplug the unit, and have it checked by qualified personnel before operating it any further.
- Discs with non-standard shapes (e.g., heart, square, star) cannot be played on this unit. Attempting to do so may damage the unit. Do not use such discs.

- For AC operation, check that the unit's operating voltage is identical with your local power supply (see 'Specifications") and use the supplied AC power cord; do not use any other type.
- The unit is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet, even if the unit itself has been turned off.
- Unplug the unit from the wall outlet when it is not used for an extended period of time. • When the batteries are not to be used, remove them to avoid damage that can be caused by battery leakage or
- The nameplate and important information concerning safety are located on the bottom exterior.

- On placement • Do not leave the unit in a location near heat sources, in a place subject to direct sunlight, excessive dust or mechanical shock, or in a car subject to the direct rays of the sun.
- Do not place the unit on an inclined or unstable place. • Do not place anything within 10 mm of the side of the cabinet. The ventilation holes must be unobstructed for the unit to operate properly and prolong the life of its
- Since a strong magnet is used for the speakers, keep personal credit cards using magnetic coding or springwound watches away from the unit to prevent possible damage from the magnet.

# On operation

• If the unit is brought directly from a cold to a warm location, or is placed in a very damp room, moisture may condense on the lens inside the CD player. Should this occur, the unit will not operate properly. In this case, remove the CD and wait about an hour for the moisture to evaporate.

### Cleaning the cabinet

• Clean the cabinet, panel and controls with a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder, or solvent, such as alcohol or benzine

If you have any questions or problems concerning your unit, please consult your nearest Sony dealer.

# **Troubleshooting**

# General

- The power is not on.
- Connect the AC power cord to the wall outlet securely.
- Make sure the batteries are inserted correctly.
- Replace all the batteries with new ones if they are weak. • You cannot turn on the unit with the remote when you operate the unit on batteries.

#### There is no audio.

• Unplug the headphones when listening through speakers.

#### Noise is heard.

 Someone is using a portable telephone or other equipment that emits radio waves near the unit. → Move the portable telephone, etc., away from the

### CD/MP3/WMA plaver

#### The CD does not play or "NO DISC" is displayed even when a CD is in place.

- Place the CD with the label surface up.
- Clean the CD. • Take out the CD and leave the CD compartment open
- for about an hour to dry moisture condensation. • The CD-R/CD-RW is blank.
- There is a problem with the quality of the CD-R/ CD-RW, recording device or application software.

## The sound drops out.

- Reduce the volume.
- Clean the CD, or replace it if the CD is badly damaged. • Place the unit in a location free from vibration.
- Clean the lens with a commercially available blower. • The sound may drop out or noise may be heard when using poor quality CD-Rs/CD-RWs or if there is a problem with the recording device or application

### Starting playback takes more time than usual.

- The following discs take a longer time to start playback.
- a disc recorded with a complicated tree structure. - a disc that has not been finalized (a disc to which data
- can be added) - a disc that has many folders or non-MP3/WMA files.

# Radio

software.

# Reception is poor.

• Reorient the antenna to improve FM reception.

Reorient the unit itself to improve AM reception.

• Move the unit away from the TV.

- The audio is weak or has poor quality. · Replace all the batteries with new ones if they are weak.
