3

### Cautions

- This unit is designed for negative earth 12 V DC operation only.
- Do not get the leads under a screw, or caught in moving parts (e.g. seat railing).
- Before making connections, turn the car ignition off to avoid short circuits.
- Connect the power connecting lead ⑦ to the unit and speakers before connecting it to the auxiliary power connector.
- Run all earth leads to a common earth point.
- Be sure to insulate any loose unconnected leads with electrical tape for safety.

#### Notes on the power supply lead (yellow)

- When connecting this unit in combination with other stereo components, the connected car circuit's rating must be higher than the sum of each component's fuse.

When no car circuits are rated high enough, connect the unit directly to the battery.

### Parts list (1)

- The numbers in the list are keyed to those in the instructions.
- The bracket ① and the protection collar ④ are attached to the unit before shipping. Before mounting the unit, use the release keys ⑤ to remove the bracket ① and the protection collar ④ from the unit. For details see "Removing the protection collar and the bracket ①" on the reverse side of the sheet.
- Keep the release keys ⑤ for future use as they are also necessary if you remove the unit from your car.

#### Caution

Handle the bracket ① carefully to avoid injuring your fingers.

### Connection example (2)

- Note (2-A)**  
Be sure to connect the earth lead before connecting the amplifier.  
If you connect an optional power amplifier and do not use the built-in amplifier, the beep sound will be deactivated.
- Tip (2-B)**  
For connecting two or more MD/CD changers, the source selector XA-C30 (optional) is necessary.

### Connection diagram (3)

- A** To AMP REMOTE IN of an optional power amplifier  
This connection is only for amplifiers. Connecting any other system may damage the unit.
- B** To the interface cable of a car telephone

**Warning**  
If you have a power aerial without a relay box, connecting this unit with the supplied power connecting lead ⑦ may damage the aerial.

**Notes on the control lead**  
• The power aerial control lead (blue) supplies +12 V DC when you turn on the tuning switch to activate the AF (Alternative Frequency) or TA (Traffic Announcement) function.  
• When your car has built-in FMMW/LW aerial in the rear-side glass, connect the power aerial control lead (blue) or the accessory power input lead (red) to the power terminal of the existing aerial booster. For details see "Notes on the power supply lead".  
• A power aerial without a relay box cannot be used with this unit.

**Memory hold connection**  
When the yellow power input lead is connected, power will always be supplied to the memory circuit even when the ignition switch is turned off.

**Note on speaker connection**  
• Before connecting the speakers, turn the unit off.

• Use speakers with an impedance of 4 to 8 ohms, and with adequate power handling capacities to avoid its damage.

• Do not connect the speaker terminals to the car chassis, or connect the terminals of the right speakers with those of the left speaker.

• Do not connect the speaker terminals to the negative (-) terminal of the speaker.

• Connect only passive speakers. Connecting active speakers (with built-in power amplifiers) to the speaker terminals will damage the unit.

• To avoid a malfunction, do not use the built-in speaker leads installed in your car if the unit shares a common negative (-) lead for the right and left speakers.

• Do not connect the unit's speaker leads to each other.

**Note on connection**  
If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

**Notes on the connection of the speaker and amplifier**  
• If speaker and amplifier are not connected correctly, "FAILURE" appears in the display. In this case, make sure the speaker and amplifier are connected correctly.

B

#### Precautions

- Choose the installation location carefully so that the unit will not interfere with normal driving operations.
- Avoid installing the unit in areas subject to dust, dirt, excessive vibration, or high temperature, such as in direct sunlight or near heater ducts.
- Use only the supplied mounting hardware for a safe and secure installation.

#### Mounting angle adjustment

Adjust the mounting angle to less than 45°.

#### Removing the protection collar and the bracket (④)

Before installing the unit, remove the protection collar (④) and the bracket (①) from the unit.

- Remove the protection collar (④).
  - Engage the release keys (⑤) together with the protection collar (④).
  - Pull out the release keys (⑤) to remove the protection collar (④).

- Remove the bracket (①).
  - Insert both release keys (⑤) together between the unit and the bracket (①) until they click.
  - Pull down the bracket (①), then pull up the unit to separate.

#### Mounting example (5)

Installation in the dashboard

- Bend these claws outward for a tight fit, if necessary (⑤-2).
- Make sure that the 4 catches on the protection collar (④) are properly engaged in the slots of the unit (⑤-3).

#### How to detach and attach the front panel (6)

Before installing the unit, detach the front panel.

#### 6-A To detach

Before detaching the front panel, be sure to press (OFF). Press (OPEN), then slide the front panel to the right side, and pull out the left side.

#### 6-B To attach

Place the hole (④) in the front panel onto the spindle (⑧) on the unit as illustrated, then push the left side in.

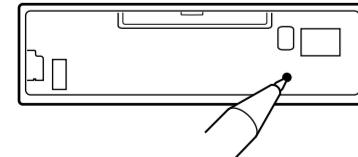

#### Warning when installing in a car without ACC (accessory) position on the ignition key switch

After turning off the ignition, be sure to press and hold (OFF) on the unit until the display disappears.

Otherwise, the display does not turn off and this causes battery drain.

#### RESET button

When the installation and connections are completed, be sure to press the RESET button with a ballpoint pen, etc., after detaching the front panel.

#### Montagebeispiel (5)

Installation dans le tableau de bord

**Hinweise**

- Falls erforderlich, biegen Sie diese Klammer für einen sicheren Halt nach oben (⑤-2).
- Achten Sie darauf, die 4 Verriegelungen an der Schutzzumrandung (④) korrekt in die Ausprägungen am Gerät einzusetzen (⑤-3).

#### Abnehmen und Anbringen der Frontplatte (6)

Nehmen Sie die Frontplatte vor dem Einbau des Geräts ab.

**6-A Abnehmen**

Schalten Sie das Gerät vor dem Abnehmen der Frontplatte unbedingt mit (OFF) aus. Drücken Sie (OPEN), und ziehen Sie sie auf sich zu herausr.

**6-B Anbringen**

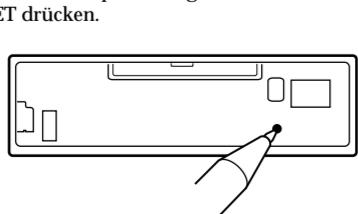

Setzen Sie Teil ④ der Frontplatte wie in der Abbildung dargestellt an Teil ⑧ des Geräts an und drücken Sie die linke Seite der Frontplatte an, bis sie mit einem Klicken einrastet.

#### Warnhinweis zur Installation des Geräts in einem Auto mit Zündschloss ohne Zubehörposition ACC oder I

Nachdem Sie die Zündung ausgeschaltet haben, halten Sie am Gerät unbedingt (OFF) gedrückt, bis die Anzeige ausgeblenkt wird. Andernfalls wird die Anzeige nicht ausgeschaltet und der Autobatterie wird Strom entzogen.

**Taste RESET**

Wenn Sie das Gerät eingebaut und alle Anschlüsse vorgenommen haben, müssen Sie die Frontplatte abnehmen und mit einem Kugelschreiber oder einem anderen spitzen Gegenstand die Taste RESET drücken.

#### Vorsichtsmaßnahmen

- Wählen Sie den Einbauort sorgfältig so aus, dass das Gerät beim Fahren nicht hinderlich ist.
- Bauen Sie das Gerät so ein, dass es keinen hohen Temperaturen (keinen direkten Sonnenlicht, keiner Warmluft von der Heizung), keinem Staub, keinem Schmutz und keinen starken Vibrationen ausgesetzt ist.
- Für eine sichere Befestigung verwenden Sie stets nur die mitgelieferten Montageteile.

**Hinweis zum Montagewinkel**

Das Gerät sollte in einem Winkel von weniger als 45° montiert werden.

#### Précautions

- Choisir soigneusement l'emplacement de l'installation afin que l'appareil ne gène pas la conduite normale du véhicule.
- éviter d'installer l'appareil dans un endroit exposé à de la poussière, de la saleté, des vibrations violentes ou à des températures élevées, comme en plein soleil ou à proximité d'une bouche d'air chaud.
- Pour garantir un montage sûr, n'utiliser que le matériel fourni.

#### Réglage de l'angle de montage

Ajuster l'inclinaison à un angle inférieur à 45°.

#### Retrait du tour de protection et du support (4)

Avant d'installer l'appareil, retirez le tour de protection (④) et le support (①) de l'appareil.

- Retirez le tour de protection (④).
  - Enclenchez les clés de déblocage (⑤) simultanément dans le tour de protection (④).
  - Tirez sur la clé de déblocage (⑤) pour retirer le tour de protection (④).

#### Retirez le support (1)

- Insérez les deux clés de déblocage (⑤) simultanément entre l'appareil et le support (①) jusqu'au déclic indiquant qu'elles sont en place.
  - Tirez le support (①) vers le bas, puis tirez l'appareil vers le haut pour les séparer.

#### Exemple de montage (5)

Installation dans le tableau de bord

**Remarques**

- Piez ces griffes pour assurer une prise correcte si nécessaire (⑤-2).
- Assurez-vous que les 4 taquets du tour de protection (④) sont correctement insérés dans les fentes de l'appareil (⑤-3).

#### Retrait et pose de la façade (6)

Avant d'installer l'appareil, déposez la façade.

#### 6-A Pour retirer

Avant de déposer la façade, ne pas oublier d'appuyer sur (OFF). Appuyez ensuite sur (OPEN), puis faire glisser la façade vers la droite et extraire le côté gauche.

#### 6-B Pour attacher

Fixez la partie (④) de la façade sur la partie (⑧) de l'appareil, comme indiqué sur l'illustration, puis appuyez sur le côté gauche.

#### Avertissement en cas d'installation dans une voiture dont le contact ne comporte pas de position ACC (accessoires)

Après avoir couplé le moteur, n'oubliez pas de maintenir (OFF) sur l'appareil enfoncée jusqu'à ce que l'affichage disparaît. Sinon, l'affichage n'est pas désactivé et la batterie se décharge.

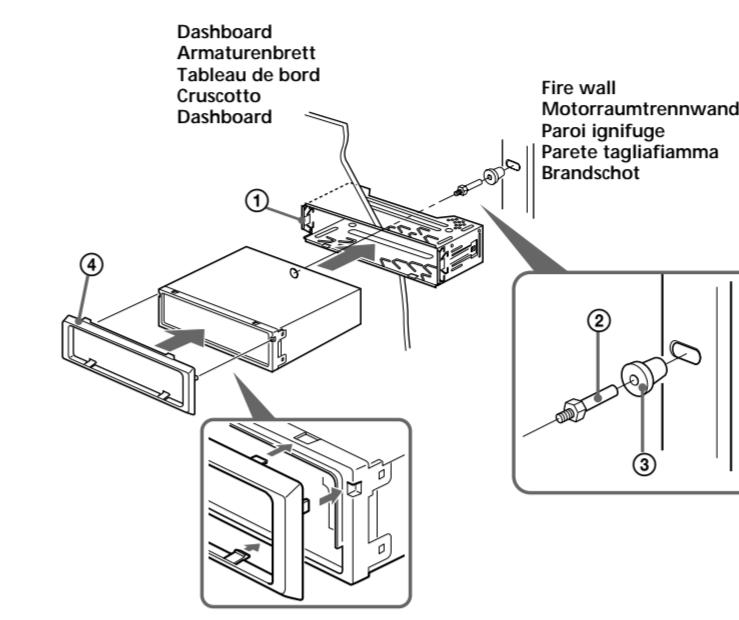

#### Touche RESET

Une fois que l'installation et les raccordements sont terminés, retirez la façade et appuyez sur le bouton RESET à l'aide d'un style à bille ou d'un autre objet pointu.

#### Tasto RESET

Una volta completeate le procedure di installazione e i collegamenti, accertarsi di premere il tasto RESET con una penna a sfera o un oggetto simile dopo avere rimosso il pannello anteriore.

#### Power connection diagram

Auxiliary power connector may vary depending on the car. Check your car's auxiliary power connector diagram to make sure the connections match correctly. There are three basic types (illustrated below). You may need to switch the positions of the red and yellow leads in the car stereo's power connector lead.

After matching the connections and switched power supply leads correctly, connect the unit to the car's power supply. If you have any questions and problems connecting your unit that are not covered in this manual, please consult the car dealer.

Il connettore di alimentazione ausiliaria può variare a seconda della macchina. Controllare il diagramma del connettore di alimentazione ausiliaria della macchina per essere sicuri che le connessioni corrispondano correttamente. Vi sono tre tipi di base (illustrati sotto). Potrà essere necessario cambiare le posizioni delle code rosse e gialle del cavo del connettore di alimentazione dello stereo della macchina. Dopo aver fatto corrispondere le connessioni e aver commutato i colori delle code, collegare l'apparecchio all'alimentazione della macchina. Se si hanno domande o se sorgono problemi che non sono stati trattati nel manuale nel collegare l'apparecchio, contattare l'autoconcessionario.

#### Stromanschlussdiagramm

Der Hilfsstromanschluss kann je nach Fahrzeugtyp unterschiedlich sein. Seien Sie im Hilfsstromanschlussdiagramm für Ihr Fahrzeug nach, wie die Verbindung ordnungsgemäß vorgenommen werden muss. Es gibt, wie unten abgebildet, drei grundlegende Typen. Sie müssen möglicherweise die rote und gelbe Leitung im Kabel des Autoradioswechsels vertauschen.

Als die angeschlagenen und geschalteten Verbindungsleiter schließen Sie die geschalteten Stromversorgungsleitungen richtig an, und verbinden Sie dann das Gerät mit der Stromversorgung Ihres Fahrzeugs. Wenn beim Anschließen des Geräts Fragen oder Probleme auftreten, wenden Sie sich bitte an den Autohändler.

Le connecteur d'alimentation auxiliaire peut varier suivant le type de voiture. Vérifiez le schéma du connecteur d'alimentation auxiliaire de votre voiture pour vous assurer que les connexions correspondent. Il en existe trois types de base (ci-dessous). Il peut être nécessaire de changer les positions des fils rouges et jaunes du câble d'alimentation de l'autoradio. Après avoir établi les connexions et commuté correctement les fils d'alimentation, raccordez l'appareil à l'alimentation de la voiture. Si vous avez des questions ou des difficultés à propos de cet appareil qui ne sont pas abordées dans le présent mode d'emploi, consultez votre revendeur automobile.

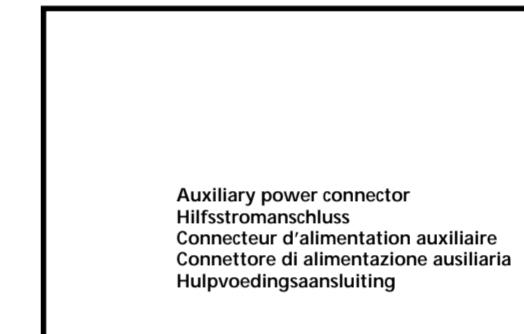

#### Voedingsaansluitschema

De hulpvoedingsaansluiting kan verschillen afhankelijk van de auto. Controleer het voedingsaansluitschema dat bij dit toestel wordt geleverd om te zien of de aansluitingen kloppen. Er zijn drie basis-types (zie illustratie hieronder). Het is mogelijk dat u de posities van de rode en gele kabels in het aansluitstuk moet verwisselen.

Als de aansluitingen en geschakelde voedingskabels sluiten, sluit u het toestel aan op de voeding van de wagen. Indien u nog vragen of problemen hebt in verband met het aansluiten moet u contact opnemen met de dealer die niet in deze handleiding vermeld staat, raadpleeg dan de autodealer.

#### Schéma de connexion d'alimentation

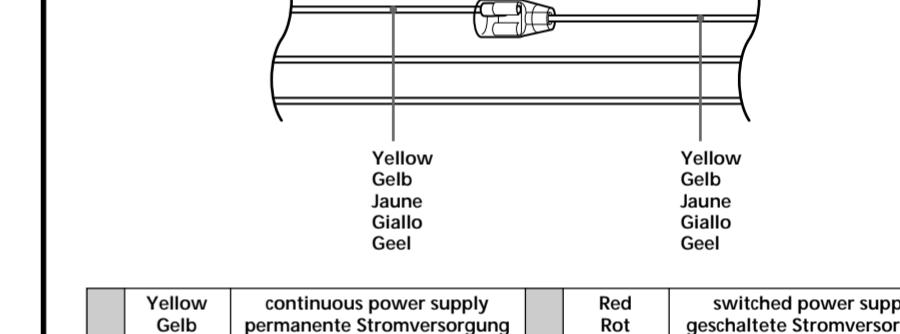

Le connecteur d'alimentation auxiliaire peut varier suivant le type de voiture. Vérifiez le schéma du connecteur d'alimentation auxiliaire de votre voiture pour vous assurer que les connexions correspondent. Il en existe trois types de base (ci-dessous). Il peut être nécessaire de changer les positions des fils d'alimentation, raccordez l'appareil à l'alimentation de la voiture. Si vous avez des questions ou des difficultés à propos de cet appareil qui ne sont pas abordées dans le présent mode d'emploi, consultez votre revendeur automobile.
