# LIMITED WARRANTY (U.S. Only)

Sony Electronics Inc. ("Sony") warrants this product against defects in material or workmanship for the time periods and as set forth below. Pursuant to this Limited Warranty, Sony will, at its option, (i) repair the product using new or refurbished parts or (ii) replace the product with a new or refurbished product. For purposes of this Limited Warranty, "refurbished" means a product or part that has been returned to its original specifications. In the event of a defect, these are your exclusive remedies.

Labor: For a period of one (1) year from the original date of purchase of the product ("Labor Warranty"), Sony will, at its option, repair or replace with new or refurbished product, product determined to be defective. If Sony elects to replace the product after this Labor Warranty has expired but while the Parts Warranty below is still in effect, it will do so for the applicable labor charge.

Parts: For a period of one (1) year from the original date of purchase of product ("Parts Warranty"), Sony will supply new or refurbished replacement parts in exchange for parts determined to be defective.

This Limited Warranty covers only the hardware components packaged with the Product. It does not cover technical assistance for hardware or software usage and it does not cover any software products whether or not contained in the Product; any such software is provided "AS IS" unless expressly provided for in any enclosed software Limited Warranty. Please refer to the End User License Agreements included with the Product for your rights and obligations with respect to the software.

Instructions: To obtain warranty service, you must deliver the product, freight prepaid, in either its original packaging or packaging affording an equal degree of protection to the Sony authorized service facility specified. packaging or packaging attoruling an equal degree of protection to the Sorry authorized sorrise classified by the sound sorry authorized sorrise and sorry and sorry authorized sorry and sorry and

Repair / Replacement Warranty: This Limited Warranty shall apply to any repair, replacement part or replacement product for the remainder of the original Limited Warranty period or for ninety (90) days, whichever is longer. Any parts or product replaced under this Limited Warranty will become the property of Sony.

This Limited Warranty only covers product issues caused by defects in material or workmanship during ording consumer use; it does not cover product issues caused by any other reason, including but not limited to prosisues due to commercial use, acts of God, misuse, limitations of technology, or modification of or to any page. the Sony product. This Limited Warranty does not cover Sony products sold AS IS or WITH ALL FAULTS or consumables (such as fuses or batteries). This Limited Warranty is invalid if the factory-applied serial number has been altered or removed from the product. This Limited Warranty is valid only in the United States.

**LIMITATION ON DAMAGES:** SONY SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR BREACH OF ANY EXPRESS OR IMPLIED WARRANTY ON THIS PRODUCT.

**DURATION OF IMPLIED WARRANTIES:** EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ON THIS PRODUCT IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This Limited Warranty gives you specific legal rights and you may have other rights which vary from state to state.

## WARNING

#### To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

To reduce the risk of fire, do not cover the ventilation of the apparatus with newspapers, tablecloths, curtains, etc. And do not place lighted candles on the apparatus.

To reduce the risk of fire or electric shock, do not expose this apparatus to dripping or splashing, and do not place objects filled with liquids, such as vases, on the apparatus.

Do not install the appliance in a confined space, such as a bookcase or built-in cabinet.

Do not expose the batteries (battery pack or batteries installed) to excessive heat such as sunshine, fire or the like for a long time.

As the main plug is used to disconnect the unit from the mains, connect the unit to an easily accessible AC outlet. Should you notice an abnormality in the unit, disconnect the main plug from the AC outlet immediately.

The unit is not disconnected from the AC power source (mains) as long as it is connected to the wall outlet, even if the unit itself has been turned

The nameplate and important information concerning safety are located on the bottom

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this

Danger of explosion if battery is incorrectly replaced. Replace only with the same type.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is
- Consult the dealer or an experienced radio/TV

### WARNING

- Replace the battery for the clock backup with a Sony CR2032 lithium battery, and the battery for the remote commander with a Sony CR2025 lithium battery. Use of another battery may present a risk of fire or explosion.
- Battery may explode if mistreated. Do not recharge, disassemble or dispose of in fire.
- · Dispose of used battery promptly. Keep away from children

## Setting the clock for the first time

This unit is preset to the current EST (Eastern Standard Time) at the factory, and is powered by a backup battery. All you need to do the first time is just plug it in and select your time zone.

- 1 Plug in the unit. The current EST (Eastern Standard Time) appears in the display.
- 2 Press and hold TIME ZONE for at least 2 seconds.
- Area number "2" flashes in the display.
- **3** Press **TIME SET** + or repeatedly to select the number as follows:

Area number	Time zone
1	Atlantic standard Time
2	Eastern standard Time
(default setting)	
3	Central standard Time
4	Mountain standard Time
5	Pacific standard Time
6	Yukon standard Time
7	Hawaiian standard Time

### **4** Press • TIME ZONE to set.

Though the clock is correctly set at the factory, discrepancies may arise during transport or storage. If necessary, set the clock to the correct time by referring to "Setting the clock manually."

- To activate Automatic DST/Summer Time adjustment again, press and hold CLOCK and **SNOOZE/DATE/SLEEP OFF** at the same time
  - "and "On" appear in the display to show that Automatic DST/Summer Time adjustment has been activated. The display returns to the clock.

## Setting the clock manually

- 1 Plug in the unit
- **2** Press and hold **CLOCK** until the year flashes in the display.
- **3** Press **TIME SET +** or repeatedly to set the vear
- 4 Press CLOCK.
- 5 Repeat steps 3 and 4 to set the month, day, hour and minute, and then press CLOCK.

The seconds start incrementing from zero.

- If you do not press any button for about 1 minute while setting the clock, the clock setting will be canceled.
- A calendar is installed in this unit. When the date is set, the day of the week is automatically displayed.

MON = Monday, TUE = Tuesday, WED = Wednesday, THU = Thursday, FRI = Friday, SAT = Saturday, SUN = Sunday

## To display the year and date

Press SNOOZE/DATE/SLEEP OFF (SNOOZE on the remote) once for the date, and press it again

After a few seconds, the display will change back to the current time automatically.

## **Setting the brightness** of the display

Three levels of brightness are available by pressing BRIGHTNESS.

High (default) → Middle → Low

Even if you set the level of brightness to Low, it will be changed to Middle, while ALARM is occurring.

# Playing the radio

## -Manual tuning

- **1** Press **RADIO BAND** to turn on the radio.
- **2** Press **RADIO BAND** repeatedly to select the desired band.

Each press changes the band as follows:  $\rightarrow$  FM1  $\rightarrow$  FM2  $\rightarrow$  AM  $\neg$ 

FM1 and FM2 are the same frequency bands. 3 Press TUNING + or - (TUNE + or - on

the remote) to tune into the desired station

**4** Adjust volume using **VOLUME** + or – (**VOL** + or – on the remote) To turn off the radio, press OFF

### Tuning in to a station

The unit automatically scans AM or FM stations. 1 Follow steps 1 to 2 in "Manual tuning"

and select the AM or FM band

2 Press and hold TUNING + or - (TUNE + or - on the remote).

+ : scans upward through the frequency bands. -: scans downwards through the frequency bands.

Scanning starts from the currently-tuned frequency. When a station is received, scanning stops.

**3** Adjust the volume using **VOLUME +** or **-**(**VOL** + or – on the remote).

## -Preset tuning

You can preset up to 10 stations in FM (5 stations in FM1, 5 stations in FM2), and 5 stations in AM.

- Presetting a station **1** Follow steps **1** to **4** in "Manual tuning" and manually tune into the station you
- wish to preset. **2** Press and hold the desired **STATION** • **SELECT - PRESET 1** to **5** buttons until the preset number display changes from flashing to fully lit.

**Example:** To preset FM 89.8 MHz onto the preset 1 button.

After a while, the display will return to the current time

To preset another station, repeat these steps To change the preset station, tune into the desired station and hold down the STATION **SELECT ● PRESET 1** to **5** button. The new station will replace the previous station on the preset button

## Tuning in to a preset station

- 1 Follow steps 1 to 2 in "Manual tuning" and select the AM or FM band.
- 2 Press one of the STATION SELECT PRESET buttons where the desired.
- station is stored. The preset station can also be selected by **PRESET** + or – on the remote
- **3** Adjust the volume using **VOLUME +** or **-**(**VOL** + or – on the remote).

## -Auto preset tuning

- 1 Follow steps 1 to 2 in "Manual tuning" and select the AM or FM band.
- **2** Press and hold **RADIO BAND** until "AP" flashes in the display.
- 3 Press DISPLAY/MEMORY. The unit automatically presets the available

channels in order. To stop auto preset tuning, press  $\ensuremath{\mathsf{OFF/ALARM}}$ 

## To display the preset number and frequency of the current station

Press DISPLAY/MEMORY once for the preset number, and press it again for the frequency. If you press **DISPLAY/MEMORY** once only, the display shows the preset number for about 2 seconds, then changes to the frequency After a few moments, the display returns to the current time.

# Improving the reception

FM: Extend the FM wire antenna fully to increase reception sensitivity.

AM: Connect the supplied AM loop antenna to the unit. Rotate the antenna horizontally for optimum reception.

## Notes on radio reception

- Keep digital music players or mobile phones away from the AM loop antenna or the FM antenna, as this may lead to reception interference.
- When you are listening to the radio with an iPhone connected to the unit, interference with radio reception may occur.
- When you are listening to the radio while charging an iPod, interference with radio reception may occur.

If the FM broadcast is noisy, press **MODE** until "MONO" appears in the display, the radio will play in monaural and the sound will become

# Playing an iPod

You can enjoy iPod audio by connecting to this unit. To use an iPod, refer to the user's guide of vour iPod.

If you are using an iPhone or iPhone 3G, attach the supplied universal dock adapter for iPhone or iPhone 3G before inserting into the connector. The adapter number, (12) or (15), is shown on the bottom-rear of the supplied universal dock adapters. (2) is for the iPhone, and (15) is for the iPhone 3G. Check the adapter number before use.

#### Press • ALARM ON/OFF A or B to turn off the alarm A or B indicator from the display

To activate the alarm Press • ALARM ON/OFF A or B to turn on the alarm A or B indicator in the display

- With the alarm mode is set to iPod, when the alarm time met, if iPod is not attached to the unit, the alarm sound will be the buzzer.
- The alarm function works as usual on the first and last day of Daylight Saving Time (summer time). As a result, if the Automatic DST/ Summer Time adjustment is set and the alarm is set at a time skipped when the Daylight Saving Time begins, the alarm is skipped; if the alarm is set to a time that overlaps when Daylight Saving Time ends, the alarm will sound twice.
- If the same alarm time is set for both alarm A and B, alarm A takes priority.
- If there is no operation while the alarm is occurring, the alarm will stop after about 60 minutes

## Note on the alarm in the event of a power interruption

In the event of a power interruption, the alarm will work until the battery is totally discharged However, certain functions will be affected as • The backlight will not light up.

- If the alarm mode is set to iPod or radio, it will change to buzzer automatically.
- If a power interruption occurs while the alarm is sounding, the alarm will stop. • If OFF/ALARM RESET (OFF on the remote) is not pressed, the alarm will sound for about
- $\bullet$  If " $\hookrightarrow$ " appears in the display, the alarm will not sound in the event of a power interruption. Replace the battery if "\sqrt appears.
- The snooze function cannot be set during a power interruption. If the snooze function has already been set and a power interruption

occurs, the snooze function will not work

• During a power interruption, each alarm will sound at the set time only once.

# Setting the sleep timer
