

## Stiga Villa 14 HST

The Stiga Villa is small and agile.

It's unbelievably smooth and ideal even if you have a smaller garden with trees, bushes and plants to mow around. The front mounted cutting deck lets you see where you are cutting. High driver comfort is assured with an adjustable ergonomic seat.

The engine is a Briggs & Stratton producing 13.5 hp. HST means that the machine has a hydrostatic drive, i.e. the speed is infinitely variable, both forward and reverse. New high performance Combi cutting decks with 85 or 95 cm cutting width give a choice of Multiclip and rear discharge. The Multiclip system cuts and fertilises the lawn at the same time and rear discharge helps you to cut long grass after your holidays.

Stiga Villa is a year around machine. Villa is excellent for snow clearance after the night's snowfall, with a snow blade or sweeper. In the spring the sweeper removes sand from paths and clears moss and dead grass from the lawn. Stiga Villa can also tow a small cart.
