Connection

Power Connection

1. Connect the power adapter to the DC IN 5V jack on the DPA
2. Plug the AC Adapter to a power jack to supply power to the DPA and charge for the built-in battery.

Note: If there is power in the built-in battery, you can use the player directly.

Don't unplug the power adaptor when the duration of charge is less than 30 minutes, or it may cause a white screen.

Use the supplied USB cable to connect your DPA to your PC.
Note: The ASSP is a software developed by Sungale to manage the files in the Internal Memory to optimize the utilization of the source of the memory.

Start ASSP

On your computer, click "My computer", then, click "StorageDevice Disk", then, double click Fileconverter.exe, you will enter into ASSP interface.

Tip :1. If your PC has set as auto-run, you will enter into the ASSP interface directly, no operation needed.
2. The PC installed the anti-virus software or other hold-up software will make the "autorun.inf" invalid. In this situation, the file is set as hidden file. If you want to autorun the ASSP, you can set your PC to display hidden files.

14

Use ASSP

1. Click "AddFile", your computer's files and folders will appear, double click the file or photo to add them to your DPA.

2. Hold on "Shift" or "Ctrl", you can download multi files or photos to your DPA.

   In this way, the photos downloaded will be stored at 640X480 to suit your DPA's screen and the MP3 files will be transferred into WMA file.

When you finish the operation, safely remove the USB cable from your PC.

Tip: You also can take the DPA as a regular storage device, select the photos from your computer, then paste them in the DPA's internal memory. In this way , the photos will be stored without compression. If you want to optimize your internal memory, you can select the photos, then click the "Convert".

Attention: Once you format the internal memory of your DPA, the ASSP software will be deleted.
In this situation, you can still use the DPA as a regular storage device, and copy, paste, delete files after connecting your DPA to the PC,
