Thomson multimedia pack

The Thomson Multimedia Pack is an offer that includes the MusicMatch jukebox Music Management software, to be installed on your PC.

Thanks to this software, you will enter the digital music world and benefit from numerous features :
- MusicMatch Jukebox allows to compress music files into mp3 & WMA* (Windows Media Audio) formats recorded from your audio CDs, and to keep them on your PC. You could also use other audio sources for your recordings (vynil, tape),
- It makes the search and download of internet music easier,
- It allows the management of your compressed music and the creation of your own playlists,
- The Jukebox is a true audio player installed on your PC,
- It gives access to thousands of net radios today available on the web.

You can listen and share the compressed music files played by MusicMatch jukebox directly on your Thomson audio system, and thus to enjoy the digital music with your system's rich features.
- Simply plug the 3.5mm PC-pin end of the cable into the speaker or headphone jack of your PC, and insert the twin RCA ends to the @/AUX connection of your Thomson audio system.
- Select the audio source on your system with the switch located on @ AUX.

You can download music files encoded in mp3 or WMA* from several internet sites.
Here a few sites to discover :
- www.emusic.com
- www.real.com
- www.mp3.com
- www.mpeg.org
- www.windowsmedia.com

Power supply

EN

AC outlet power supply

You can power your CD player with the supplied AC/DC Adapter. Refer to the table for details of the operating voltage of the Adapter supplied with your unit.
AC/DC Adapter is purposed for indoor use in dry rooms only. Remove the jack from the device to use it with the batteries.

Note : Power is fed to the unit even when it is not functioning. To cut the power supply off, the AC/DC Adapter must be unplugged.
The unit will turn off automatically if left idle for a while.

Model Number	AC/DC Adapter	Batteries
PDP2069	Input: 230V 50Hz	AAx2
	Output : 4.5VDC@600mA	

Recharge function

To charge Ni-Cd/Ni-MH batteries (not included):
1. Insert 2 rechargeable batteries in the main unit compartment.
2. Connect the main adapter.
3. Power on the unit , press CD•RADIO/RECHARGE to select RECHARGE MODE to start battery charging
4. An animated battery logo will be displayed when charging is in progress.
5. When the batteries are fully charged, charging will automatically stop.
6. You can also stop recharge operation by pressing **STOP** button/ removing the AC / DC adapter.
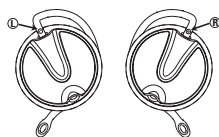

Before You Begin

Unpacking Your Unit
You should have the following:
- one main unit
- one carrying strap
- one set of clip phones
- one user's guide
- MusicMatch CD

How to Use Your Clip Phones (The e.clipz)
The right ear clip phone is labeled R

while the left ear clip phone is labeled L.
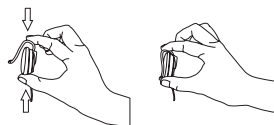

1. Pull the ear hook away from the ear

pad slightly. You will hear a click sound.

2. Slide the ear hook behind the ear with the ear pad on the front of the ear. Rotate the clip phone so the ear pad fits closely with the ear.

3. Lock the clip phone in place by pushing down on the top of the ear hook until it locks.

4. For best sound quality, make sure the earpad fits closely with your ear.

1

Main Unit
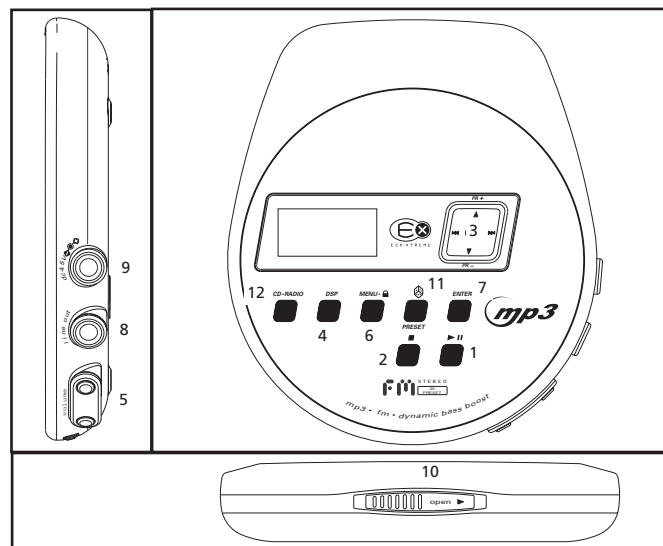

1. PLAY/PAUSE -- plays disc, or pauses during playback, power on.
2. STOP -- stops playback, return to home/ root position in stop mode (Folder mode and SmartTrax mode only), press and hold more than 2 seconds in stop mode to power off.
3. Directions key -- skips forward/backward (CD mode); songs selection (mp3 disc mode); setting preset station (radio mode).
4. DSP -- toggles dsp modes:
In CD mode - (Flat/ Bass Boost/ Rock/ Pop/ Jazz).
In Radio mode - (Flat/ Bass Boost).
5. VOL+/VOL- -- increases/decreases volume level (from 0 to 30).
6. MENU•HOLD -- accesses MENU mode; press and hold to lock keys.

7. ENTER -- confirms selection.
8. PHONES / LINE OUT -- jack for headphones and signal output.
9. DC in -- jack for external power.
10. OPEN -- slides to open the door.
11. SHUFFLE•PRESET -- press to activate Shuffle function in CD mode, or to set preset station (refer to radio section).
12. CD•RADIO/RECHARGE -- press to switch between radio, Cd and recharge mode.

2

Listening to the radio

EN

Listening to the radio
1. Press **CD•RADIO** button to toggle between CD mode and RADIO mode.
2. When in RADIO mode, You can tune to your desired radio station by pressing ⏮ or ⏭ button.
3. If you have preset radio stations, you can press **PR+** ▲ or **PR-** ▼ to choose among them.

How to program a preset station

Playing mp3/ WMA files with SmartTrax

SmartTrax is a music management system that allows for the organization of mp3 or WMA files into 7 standardized categories. The categories include My Selection, Artist, Title, Genre, Album, Year and CD Playlist.

This systematic arrangement makes the navigation easier and faster as songs are placed into categories (e.g. Artists, Album, Genre, etc.)

To enjoy SmartTrax navigation experience, please make sure your mp3 disc is burnt with SmartTrax feature switched ON. You can still go back to folder mode navigation by choosing "Browse mode" and select "folder mode" option in the menu, you may access the menu by pressing **MENU•HOLD** button.

Smart Resume Plus
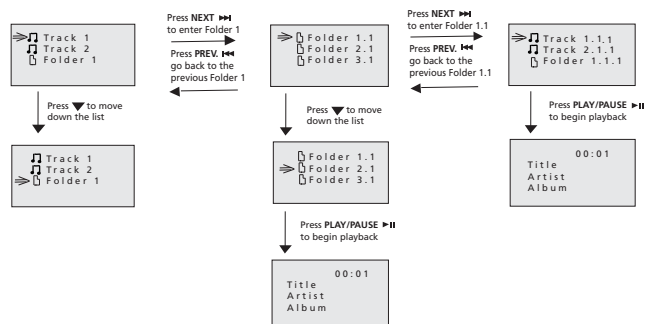

The unit is equipped with Smart resume plus features, if the newly inserted CD is considered as the same as the former one, the Smart Resume Plus feature will automatically activate. The last playback song and playmode will be restored.

NOTE: When reading a SmartTrax disc which is different from the former one, the unit will automatically enter the Artist Category.

10

Playmode

EN

Repeat and Shuffle Playback in Folder mode

You can replay the entire CD or one track as many times as you wish as well as listen to the beginning of each track for 10 seconds.
Within play mode, press **MENU•HOLD** to enter playback menu, select Play mode, then use the directions key to select among:
• Normal playback.
• Play the beginning of each files for 10 seconds. (INTRO)
• Repeat the current track.
• Repeat the current directory. (mp3 disc only)
• Repeat the entire CD
• Randomly play files in the current directory. (mp3 disc only)
• Randomly play all files.
• Randomly play all files in the current folder repeatedly. (mp3 disc only)
• Randomly play all files repeatedly.

Repeat and Shuffle Playback in SmartTrax mode

You will have different choice when playing a mp3 disc with SmartTrax.
In play mode, press **MENU•HOLD** to enter playback menu, select Play mode, then use the directions key to select among:

• Normal playback.
• Play the beginning of each files for 10 seconds. (INTRO)
• Smart Repeat - repeat files in the selected category.
• Smart shuffle - randomly play files in the selected category.
• Repeat the current file.
• Smart shuffle repeat - play random files in the selected category repeatedly.

Note: During INTRO mode, you can press **STOP** key to stop, or press **PLAY** key to play the current track. And INTRO mode will automatically cancelled when all songs are played.

Smart repeat and Smart shuffle in SmartTrax mode

Smart repeat and smart shuffle are the newly invented way, which are cursor position dependent, of repeating and shuffling songs in SmartTrax mode.
For smart shuffle, for example, if the cursor is at the middle level where all the artists are listed, then an artist is picked at random and his/her songs will be played randomly before picking another artist randomly.
For smart repeat, for example, if the cursor is at the bottom level where the first song in the POP category, then all the songs in this category will be played repeatedly, starting from the first song.

MusicMatch Jukebox

MusicMatch Jukebox

EN

Music management software - MusicMatch™ Jukebox

Upon unpacking the unit, you should find the music management software - MusicMatch Jukebox enclosed. Insert the software disc into your computer and click on "MusicMatch User's Guide" if you need assistance on installation of the software and creating mp3 discs for your enjoyment with this unit.

You need the latest MMJB Software to enjoy all the features.

To check which version of MusicMatch Jukebox you are currently using:
1. Click on Help to access help menu.
2. Select *About MUSICMATCH Jukebox*.

The software version number can be seen on the top left corner of the information window.

Update MusicMatch Jukebox

Once you have installed the MusicMatch Jukebox software included with your unit, follow the steps below to update your software version.
1. Select *Update Software* from the *Options* menu.
2. Select *Update Software to Latest Release*.
3. Click *Continue*.
It will automatically download and install the latest MusicMatch Jukebox software. Close the window that asks you to *Get your Plus Upgrade Key Now*.

Creating a CD

After placing tracks in the playlist, click **Burn** on the top menu bar.
(Included with the package is a trial version of MusicMatch burner Plus. After the trial burns are used up, you can still burn CDs, but at a slower rate and without some features. You can upgrade to MusicMatch Plus to get faster burning and additional features.)

CD-R / RW This unit is compatible with CD-RW/ CD-R discs for playback.

Notes on CD-R/RW Disc:
• Do not affix any type of labels to either side (recordable or labeled side) of a CD-R/RW disc as this may result in the unit malfunctioning.
• To avoid damages to the CD-R/RW disc, do not open the disc compartment door while the disc is being read.
• Do not load an unrecorded CD-R/RW disc into the unit. This may take a longer time to read the disc.
• **Playback capability for CD-RW discs may vary due to variations in the quality of the CD-RW disc and the recorder used to create the disc.**

Troubleshooting

Problem
Can not burn SmartTrax CD in MusicMatch Jukebox

Solution

You may have exceeded the number of burns. Upgrade to MusicMatch Jukebox Plus to get unlimited burns.

Check that MusicMatch Jukebox settings are correct.
1. Click the **BURN** button from the Main window to display Burn window.

2. Click the **mp3** button on the top of the Burn window to change to mp3 audio disc.

EN

13

14

MusicMatch Jukebox

Troubleshooting

3. Select *Options* from *Options* menu in the Burn window.

4. Select *Settings* to display Burn settings.

5. Click on the *General* folder.
Make sure "mp3 disc" is selected under *Disc type at Startup*.

6. Click on the *mp3* folder.
Make sure Add *MultiAudio Tracklist* (MAU) box is checked.

7. Click **OK** when finished.

Troubleshooting Tips

No power, does not work?
• Batteries may be inserted incorrectly.
• Batteries may be empty. Recharge (only Ni-Cd/Ni-MH battery) or replace new batteries.
• Connection may be loose if using AC/DC transformer.

Disc cannot be played?
• Disc may not be inserted correctly with label side facing upward.
• CD-RW (or CD-R) disc may not be recorded properly.

Skipping tracks or bad sound quality?
• Disc may be dirty or scratched badly.
• Disc lens may be dirty and need cleaning.
• There may be strong magnetic fields (e.g. too close to TV) near the unit.

Cannot play mp3 disc?
• Clean the disc.
• Make sure files are saved under .mp3 extension. e.g. Rocky08.mp3

• Check that the recorded bit rate is within 32kbps and 320kbps.
• Only audio CD track will be played in mixed mode disc.

Cannot play WMA songs?
• Check that the WMA bit rate is within 64 kbps and 192 kbps and sampling rate is within 44 kHz and 48kHz.
• DRM not supported.

The display shows strange characters?
• Check that file names are created using the ASCII-ISO 8859-1 (Latin - 1) Table.

More information

Useful advice
- Do not store CDs in damp areas.
- Do not expose CDs to high temperatures or direct sunlight.
- Do not put any tape or adhesives on either side of the disc.
- You should avoid leaving the CD door open. Dust is liable to impair performance of the laser optical unit.
- Do not use your set immediately after transport from a cold place to a warm place : there may be condensation problems.
- Do not touch the playing surface. Make sure that you keep your set away from water and high temperatures.
- If you do not use your set on battery power for more than one month, we advise you to take out all the batteries.
- To prevent personal injury, do not reverse any battery and do not mix battery types.
- Discard leaking batteries immediately. Leaking batteries can cause skin burns or other personal injury.
- Prolonged use of the CD player at full volume can damage the user's ear.
- The apparatus shall not be exposed to dripping and splashing.

Maintenance

Clean the player with a soft cloth, or a damp chamois leather. Never use solvents.

SPC: Sound Pressure Control at 100dB maximum (only for Thomson models)

Please respect the environment!
Before throwing any batteries away, consult your distributor who may be able to take them back for specific recycling.

Technical specifications:
* Frequency response: 20Hz to 20kHz
