Safety Precautions

- To ensure proper usage, be sure to read the Safety Precautions thoroughly before using your handset. Always keep this manual available for future reference.
- Be sure to follow the safety information contained in the instruction manuals and indicated on the product to prevent injury to the user and other persons, as well as damage to property.
- When a child uses the handset, it is recommended that a parent or guardian reads the instruction manuals thoroughly and provides proper instructions to the child.
- The following describes the meaning of safety symbols and signal words. Be sure to understand their meanings before proceeding to read this manual.

Pictograph Descriptions

Pictograph	Meaning
Danger	Indicates an imminently hazardous operation that could result in death or serious injury[1] of the user.
Warning	Indicates a potentially hazardous operation that could result in death or serious injury[1] of the user.
Caution	Indicates a potentially hazardous operation that could result in minor or moderate injury[2] to the user or damage to property[3].

1 Serious injury includes loss of sight, wounds, high temperature burns, low temperature burns (burns causing reddish areas, blistering and other damage to the skin as a result of heat exceeding the body temperature contacting your skin for a prolonged time), electric shock, fractures and poisoning requiring hospitalization or long-term medical treatment.

2 Injury includes wounds, burns and electric shock not requiring hospitalization or long-term medical treatment.

3 Damage to property includes extensive damage to homes and household property, as well as livestock and pets.

Symbol Descriptions

Symbol	Meaning
Prohibited	⃠ indicates a prohibited action. The prohibited action is indicated graphically or described in text in or near the symbol.
Compulsory	❗ indicates a compulsory action that must be carried out. The compulsory action is indicated graphically or described in text in or near the symbol.

Limitation of Liability

- Vodafone and Toshiba accept no liability whatsoever for any damages arising from natural disasters such as earthquakes, lightning, storms and floods, as well as fires through no fault of Vodafone and Toshiba, acts by third parties, other accidents, improper use by the user, whether intentionally or negligently, or use under other abnormal conditions.
- Vodafone and Toshiba accept no liability whatsoever for incidental damages arising out of the use or inability to use the product, including, but not limited to, corruption or loss of data, lost business revenue or suspension of business operations.
- Vodafone and Toshiba accept no liability whatsoever for any damages arising from improper use not conforming to the instructions in the instruction manuals.
- Vodafone and Toshiba accept no liability whatsoever for any damages arising from malfunctions caused by use in combination with connection equipment or software that is not authorized for use by Vodafone and Toshiba.
- Image data recorded with the camera, downloaded data and other data may be corrupted or lost due to malfunction, repair or other improper handling of the product. Vodafone and Toshiba accept no liability whatsoever for the restoration of corrupted or lost data, as well as any damages or lost revenue and profits.
- Vodafone and Toshiba accept no liability whatsoever for corruption or loss of stored data resulting from failures or malfunctions of the product, regardless of the cause. Be sure to keep a separate memo of important data to limit damage caused by data corruption or loss to a minimum.

⚠ Danger

Do not disassemble, modify or repair the handset, battery pack, charger or Stereo Handsfree Headset
Doing so may cause overheating, rupturing, fire, electric shock, injury or malfunction. Modification of the handset is prohibited by Japanese Radio Law. For repair, contact your nearest Vodafone Shop or Vodafone Customer Assistance (page 315).

Do not dispose of the handset, battery pack, charger or Stereo Handsfree Headset in a fire or expose it to heat
If the handset or battery pack is exposed to water, do not dry it artificially in heating equipment (microwave oven, etc.)
Doing so may cause overheating, rupturing, fire or malfunction.

Do not charge, use or leave the handset, battery pack, charger or Stereo Handsfree Headset in hot places such as near a fire or heater
Doing so may cause overheating, rupturing, fire or malfunction.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Danger

Keep water away

Do not expose the handset, charger, battery pack or Stereo Handsfree Headset to fluids such as water, perspiration or seawater

Doing so may cause overheating, rupturing, fire, electric shock or malfunction. If the handset is dropped accidentally in water or any other fluid, immediately turn off the handset and contact your nearest Vodafone Shop or Vodafone Customer Assistance (page 315).

Keep water away

Do not leave the handset, charger, battery pack or Stereo Handsfree Headset outdoors, in a bathroom or wherever water or any other fluid is used

Do not place the handset, charger or battery pack near cups, vases or other containers of fluids

Exposure to water or other fluids may cause electric shock, overheating, rupturing or fire.

Prohibited

Do not use excessive force when inserting the battery pack into the handset or connecting the handset to the charger

Do not connect any cords with reverse polarity

Doing so may cause the battery pack to leak, rupture, overheat or catch fire, as well as cause electric shock or malfunction.

Prohibited

Do not touch the battery pack connectors (metal parts) with any metal objects (necklace, hairpin, etc.)

Doing so may cause the battery pack to overheat, rupture or catch fire, as well as the metal object to overheat.

Compulsory

Do not use a battery pack other than one supplied with or designated for the handset

Do not use the battery pack for any other handset

Doing so may cause overheating, rupturing, fire or malfunction.

Compulsory

Do not use a charger other than one supplied with or designated for the handset to charge the battery pack

Do not use the charger for any other handset

Doing so may cause overheating, rupturing, fire or malfunction.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Warning

Prohibited

Do not charge the battery pack while it is wet or damp

Doing so may cause overheating, rupturing, fire, electric shock or short circuit. If the battery pack is exposed to fluids such as water, unplug the rapid charger immediately.

Prohibited

Do not use the handset while driving

Do not make or receive a call and do not use other functions (messaging, game, camera, video, music, mobile light, etc.)

Doing so may cause a traffic accident. Use of the handset while driving is prohibited by law. Before using the handset, stop the vehicle in a safe area where parking is permitted.

Prohibited

Do not use the phone wherever there is the risk of a fire or explosion such as in a petrol station

Doing so may ignite the gases and start a fire or explosion. Turn off the handset and do not charge it wherever gases may be present (petrol station, etc.).

Prohibited

Do not swing the handset by its strap, a video output cable or the Stereo Handsfree Headset

Doing so may cause an injury, accident or damage.

Compulsory

Turn off the handset while you are near any precision electronic equipment

Radio waves may adversely affect the operation of electronic equipment. Examples of such equipment: medical electronic equipment such as cardiac pacemakers and hearing aids or fire alarms and automatic doors. If you use medical electronic equipment, consult with the equipment manufacturer or distributor about the influence of radio waves.

Unplug power cable

Remove the power plug from the outlet if the rapid charger is not to be used for a long period of time or before cleaning

Failing to do so may cause an electric shock, fire or malfunction.

Compulsory

Turn off the handset wherever its use is prohibited such as on an aircraft

Cancel schedule and alarm settings before turning handset power off

Use of the handset on an aircraft is prohibited by law.

Compulsory

Check your surroundings to confirm that it is safe to make/receive calls, send/receive messages, take pictures or record videos

Failing to do so may cause you to trip over or cause a traffic accident.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Warning

Compulsory

Do not use the handset with any power voltage other than the specified voltage

Doing so may cause a fire. The power voltages are 100 to 240 V AC for the rapid charger and 12 or 24 V DC (for a negative ground car only) for a cigarette lighter charger.

Compulsory

Wipe away any dust on the plug of the rapid charger with a dry cloth after removing the plug from the outlet

Dust on the plug or outlet may cause a fire.

Compulsory

Follow the instructions below when installing and wiring in-vehicle devices

- **Make sure that devices do not interfere with driving and safety equipment such as airbags**
- **Make sure that wires are not caught in seatbelt buckles, doors or other moving parts**

Any wire caught around a foot, brake pedal, accelerator pedal, etc. may interfere with driving and cause a traffic accident. If any part of an in-vehicle device drops onto the floor, it may startle you into abrupt braking or steering, leading to a traffic accident.

Compulsory

If electrolyte fluid leaking from the battery pack gets into your eyes, wash your eyes immediately with clean water and have your eyes treated by an ophthalmologist

Failing to receive treatment for your eyes may result in eye injury.

Compulsory

When thunder is heard outside, stop using the handset immediately

Turn off the handset and do not touch it

Failing to do so may attract lightning and cause electric shock. When thunder is heard, stop using the handset and move to a safe place such as inside a building.

Compulsory

If the battery pack fails to charge in the specified time, stop charging immediately

Failing to do so may cause overheating, rupturing or fire. Contact your nearest Vodafone Shop or Vodafone Customer Assistance (page 315).

Compulsory

When inserting the rapid charger plug into an AC household outlet, make sure that a metal strap or any other metal object does not touch the plug

Failing to do so may cause electric shock, short circuit or fire.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Warning

Compulsory

If something unusual happens to the handset, battery pack or charger; for example, it emits smoke or an unusual odour or is damaged, perform the following steps immediately

1. If the battery pack is charging, unplug the rapid charger from the AC household outlet or unplug the cigarette lighter charger from the cigarette lighter socket.
2. Make sure that the handset is not hot, then turn it off and remove the battery pack.

Failing to do so and continuing use (charging) may cause the battery pack to overheat, rupture or catch fire or the handset to overheat. If something unusual happens, contact your nearest Vodafone Shop or Vodafone Customer Assistance (page 315).

Prohibited

Do not drop the handset or battery pack or subject it to excessive shock

Doing so may cause overheating, rupturing, fire or malfunction.

Prohibited

Do not sit down with the handset in your trousers pocket

Excess weight may damage the display, battery pack or other parts resulting in overheating, fire or injury.

Compulsory

If the handset is used near an implanted cardiac pacemaker, defibrillator or other electronic medical equipment, radio waves may interfere with such a device or equipment

Observe the following guidelines

1. If you have an implanted cardiac pacemaker or defibrillator, carry and use the handset at a distance of at least 22 centimetres away from the implanted device.
2. Turn off the handset in crowded places such as packed trains because a person with an implanted cardiac pacemaker or defibrillator may be nearby. Radio waves can interfere with the operation of a cardiac pacemaker or other medical device.
3. Follow the precautions below in medical institutions.
   - Do not bring the handset into an operating room, intensive care unit or coronary care unit.
   - Turn off the handset in a hospital ward.
   - Turn off the handset in a lobby or other location close to medical equipment.
   - Observe the instructions of individual medical institutions and do not use the handset in or bring it into prohibited areas.
   - Turn off the handset after cancelling any settings such as schedule and alarm settings that turn on the handset automatically.

Download from Www.Somanuals.com. All Manuals Search And Download.

4. When using electronic medical devices other than an implanted cardiac pacemaker or defibrillator outside of medical institutions (such as at home), consult with the individual medical device manufacturer about the possible influence of radio waves.

The above information conforms to "The Guidelines on Use of Mobile Phones and Other Devices to Prevent Electromagnetic Wave Interference with Electronic Medical Equipment" (Electromagnetic Compatibility Conference Japan, April 1997), as well as refers to "The Investigative Research Report on the Influence of Electromagnetic Waves on Medical Equipment" (Association of Radio Industries and Businesses, March 2001).

Do not use the rapid charger with any power supply other than a 100 to 240 V AC household power supply

Doing so may result in a fire, as well as cause the charger to overheat, catch fire or malfunction.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Caution

Prohibited

Do not use or leave the handset or battery pack in places where it will be exposed to direct sunlight or in hot places such as inside a car in the sun

Doing so may cause overheating, fire or malfunction.

Prohibited

Keep the handset, battery pack, macro lens and charger away from infants and small children

Failing to do so may result in the battery pack, macro lens or memory card being accidentally swallowed or cause an injury.

Prohibited

Make sure that the charger terminals (metal parts) do not come into contact with wires or other metal objects

Failing to do so may cause overheating or burns.

Prohibited

Do not pull the cord when unplugging the rapid charger or cigarette lighter charger from an AC household outlet or socket

Damage to the cord may cause electric shock, overheating or fire.

Hold the plug when unplugging the rapid charger or cigarette lighter charger.

Prohibited

Do not pull, bend with excessive force or twist the cords of the rapid charger and cigarette lighter charger

Do not damage or modify them

Do not place objects on them

Do not apply heat and keep them away from heaters

Damage to a cord may cause electric shock, overheating or fire.

No wet hands

Do not plug or unplug the rapid charger with wet hands

Doing so may cause electric shock or malfunction.

Prohibited

Keep magnetic cards away from the handset and macro lens and make sure that a magnetic card is not trapped when closing the handset

Failing to do so may cause the magnetic data on a cash card, credit card, telephone card or floppy disk to be lost.

Prohibited

Do not use the handset in a vehicle if it affects in-vehicle electronic devices

Use of the handset in some types of vehicles may, in some rare cases, affect in-vehicle electronic devices and interfere with safe driving.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Caution

Prohibited

Do not place the handset on an unstable or unlevel surface

Doing so may result in the handset falling and causing injury or malfunction. Be particularly careful when vibration is set.

Prohibited

Do not dispose of the used battery pack with ordinary garbage

Insulate the connectors with tape and then dispose of the used battery pack separately from ordinary garbage or take it to your nearest Vodafone Shop. Be sure to observe local regulations on the separate collection of used batteries, wherever applicable.

Prohibited

Do not touch the handset with sweaty hands or place it into a pocket of sweaty clothes

Sweat and humidity may erode the internal components of the handset and cause overheating or malfunction.

Prohibited

Do not use the cigarette lighter charger when the car engine is not running

Doing so may result in a flat battery.

Compulsory

If the fuse for the cigarette lighter charger blows, replace it with a designated fuse

Replacing the fuse with other than a designated fuse may cause overheating and fire.
For details on replacing the fuse, refer to the instruction manual of the cigarette lighter charger.

Compulsory

If fluid leaking from the battery pack comes into contact with skin or clothing, wash it away immediately with clean water

Failing to do so may cause skin irritation.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Caution

If your skin becomes irritated, immediately stop using the handset and consult with a dermatologist

Compulsory

The following materials and surface treatments have been used for the handset. Some of these materials may cause itching, irritation, eczema, etc. in some rare cases depending on the individual's constitution and physical condition.

Part	Material (Surface Treatment)
Outer housing (keypad, main display side, external display side, battery compartment, camera section (screw cover))	PC resin (UV cured acrylic coating)
Front key section	PC resin/Silicone rubber (UV cured coating)
Main display panel, external display panel	Tempered glass (polyester film)
Keypad	PC resin
Keys other than keypad	PC resin (UV cured acrylic coating)
Earpiece	Polyester elastomer resin (urethane coating)
External light LED lamp, charging LED lamp	Acrylic resin
Flash panel	Acrylic resin
Logo badge	UV cured acrylic resin
Earphone microphone jack cap, memory card slot cap	Polyester elastomer resin (urethane coating)
Cable connector cap	Polyester elastomer resin (urethane coating)
Screws	Steel (nickel coating, copper undercoat)
Speaker hole mesh	Stainless steel (acrylic baking coating)
Stereo Handsfree Headset	TPE/ABS resin
Camera panel	Tempered glass
Macro lens	PC resin/Sintered neodymium alloy (epoxy resin coating)
Hinge side cap	PC resin

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Caution

Compulsory

Before using the handset, make sure that no metal objects (such as pins) are stuck to the earpiece

Failing to do so may result in a metal object causing an ear injury, etc.

Compulsory

If you have a weak heart, be careful with the call vibration and ringtone volume settings

Failing to do so may startle you and may be harmful to your heart.

Compulsory

Be careful not to trap your fingers or objects when closing the handset and not to trap your fingers in the hinge when opening the handset

Failing to do so may cause injury or damage to the LCD display.

Prohibited

Do not use the mobile light and flashlight for purposes other than taking pictures, recording videos or lighting

Doing so may dazzle the eyes and cause impaired vision or other injury.

Prohibited

Make sure things like paper, cloth and bedding are not placed on the handset during charging using a USB connection, AC adapter, etc.

Failing to do so may cause overheating, fire, burns or malfunction.

Compulsory

Do not turn the volume up too high while using the Stereo Handsfree Headset

Do not use Stereo Handsfree Headset continuously for long periods of time

Exposure to high sound levels may impair hearing and prolonged use may cause hearing defect regardless of the volume level. Sound leakage may annoy other people and surrounding sounds may not be heard clearly resulting in an accident.

Prohibited

Do not insert objects other than the memory card into the memory card slot

Doing so may cause overheating, electric shock or malfunction.

Cover the slot with the cap at times other than when you are inserting or removing the memory card.

Download from Www.Somanuals.com. All Manuals Search And Download.

⚠ Caution

Keep your face away from the memory card slot when inserting or removing the memory card
Keep a memory card out of the reach of small children
If the memory card is let go of suddenly, it may fly out and hit your face resulting in injury.

Do not subject the memory card to vibration or shock or remove it from the slot or turn off the handset while data is being written to or read from the memory card
Doing so may cause data loss or malfunction.

Use only the memory card supported by the handset
Failing to do so may cause data loss or malfunction. The handset supports memory cards with a storage capacity of up to 1GB (as of March 2006).

Do not let children use cables such as a video output cable or the Stereo Handsfree Headset unsupervised and keep cables out of infant's reach
An injury may be caused if, for instance, the cable is wrapped around a neck.

Do not use the mobile light close to eyes
Doing so may cause eye damage. Be especially careful not to take pictures or record videos with the mobile light too close to the eyes of infants.

Do not use excessive force when inserting or removing the USIM card
Doing so may cause a malfunction. Be careful not to injure a hand or finger when removing the card.

Use only a USIM card designated for the handset
Failing to do so may cause data loss or malfunction.

Do not remove the polyester film from the external display
Using the handset without the polyester film to protect against shattering of the reinforced glass may result in an injury if the external display is damaged.

Do not look through the macro lens at the sun or other objects emitting a strong light
Doing so may damage your eyesight due to the light-collecting property of the macro lens.

General Notes

Using Your Handset

- The handset employs radio waves. Signals may be disrupted even within service areas if you are indoors, underground, inside a tunnel or inside a vehicle. If you move to a location with poor signal reception, a call may be suddenly cut off.
- When using the handset in public places, take care not to annoy other people around you. Use of the handset is prohibited in some public places such as in theatres or on buses and trains.
- The handset is a radio transceiver under Japanese Radio Law. You may be requested to submit the handset for inspection based on this law.
- Use of the handset near a landline phone, TV or radio may affect the image and sound quality of the equipment.
- The handset employs a digital system to maintain a high level of communication quality even at very low signal levels. However, calls may be suddenly cut off when the signal strength becomes too weak.
- The digital system provides a high level of privacy protection. However, the possibility of someone eavesdropping on your conversation cannot be ruled out as long as radio waves are used.
- Data stored on the handset may be corrupted or lost on the following occasions.
  - The handset is used improperly.
  - The handset is exposed to static electricity or electric noise.
  - The handset is turned off during operation.
  - The battery pack is completely discharged.
  - The handset malfunctions or is sent for repairs.

  Vodafone and Toshiba accept no liability whatsoever for the corruption or loss of stored data. Be sure to keep a separate memo of important data to limit damage caused by data corruption or loss to a minimum.
- Be sure to charge the battery pack before using the handset for the first time or if the handset has not been used for a long time. When the battery pack is stored for a long time, it discharges over time even if it is not used.
- Before using a memory card, read the instruction manual of the memory card thoroughly to ensure safe and proper operation.
- When the handset is used for extended periods of time, especially in high temperature conditions, the handset surface could become hot. Please use caution when touching the handset under such conditions.
- When certain items are taken out of the country, documentation may be required to certify that the export of the items is not controlled, prohibited, or restricted by the Export Trade Control Order and Foreign Exchange Order. Basically, no such documentation is required if you take the handset out of the country and bring it back for the purpose of personal use when going on vacations or short business trips. In some cases, however, an export permit may be required if the handset is to be used by or transferred to anyone else.
  Furthermore, a US government export permit may be required when taking the handset to countries for which the US government has imposed export restrictions (Cuba, Libya, North Korea, Iran, Sudan, Syria).

Download from Www.Somanuals.com. All Manuals Search And Download.

For details on export laws, regulations and procedures, refer to the Web page of the Security Export Control Policy Division of the Ministry of Economy, Trade and Industry.

- If you have hearing aids, use of the handset may interfere with some operations of the hearing aids. If there is any interference, consult with the manufacturer or distributor of the hearing aids.

Inside Vehicles

- Do not use the handset while driving. Use of the handset while driving is prohibited by law.
- Before using the handset, stop the vehicle in a safe area where parking or stopping is permitted.

Aboard Aircraft

- Do not use the handset on an aircraft. Turn off the handset after cancelling any settings such as schedule and alarm settings that turn on the handset automatically. Do not turn the handset back on while you are on the aircraft. Use of the handset on an aircraft is prohibited by law.

Electromagnetic Waves

- For body worn operation, this phone has been tested and meets RF exposure guidelines when used with an accessory that contains no metal and that positions the handset a minimum of 15 mm from the body. Use of other accessories may not ensure compliance with RF exposure guidelines.

Handling Basics

- Do not use the handset in extreme temperatures, direct sunlight and humid or dusty places.
- Do not drop the handset or subject it to excessive shock.
- To clean the handset, wipe it with a dry soft cloth. Do not use alcohol, thinner, benzene or other solvents. Doing so may cause discoloration and remove the printed logo.
- To clean the macro lens, wipe it with a dry soft cloth. Do not use alcohol, thinner, benzene or other solvents. Doing so may cause discoloration.
- Avoid exposing the handset to rain, snow or high humidity. The handset, battery pack, charger, Stereo Handsfree Headset and other optional accessories are not waterproof.
- Do not remove the battery pack while handset power is on to avoid malfunction.
- If the battery pack has been removed from the handset or the handset has not been charged for a long time, stored data and settings may be lost or altered. Vodafone and Toshiba accept no liability whatsoever for any damage or loss resulting from such negligence.
- The battery pack is a consumable item employing lithium ions. Replace the battery pack with a new one if the operation time becomes extremely short after it is fully charged. Buy a new battery pack designated for the handset.
- When disposing of a used battery pack after battery pack replacement or discontinued use of the handset, insulate the connectors with tape or place the battery pack into a plastic bag and then take it to your nearest Vodafone Shop or battery pack recycling cooperative store.

Download from Www.Somanuals.com. All Manuals Search And Download.

Be sure to observe local regulations on the separate collection of used batteries, wherever applicable.

- Some handset display pixels may be missing or remain lit. This is not a defect or malfunction. If the display is left on for a long period of time, pictures may be permanently burned into it.
- Make sure the Stereo Handsfree Headset is securely plugged into the earphone microphone jack. Failing to do so may generate noise on the other party's phone during calls.
- Do not turn the volume up too high while using the Stereo Handsfree Headset. Exposure to high sound levels may impair hearing and prolonged use may cause hearing damage regardless of the volume level. Sound leakage may annoy other people and surrounding sounds may not be heard clearly when walking, resulting in an accident.
- When earphone microphone jack and external connector are not in use, make sure to replace the caps. Otherwise dust or water may enter the handset causing handset malfunction.
- Hold the plug and do not pull the cord when unplugging the Stereo Handsfree Headset or a video output cable. Pulling the cord may cause damage or malfunction.
- Do not close the handset with the strap, macro lens, USB cable, Stereo Handsfree Headset or a video output cable inside. Doing so may cause malfunction or damage.
- The antenna of the handset is built into the body and does not protrude. Signal sensitivity may be reduced if you touch or cover the portion of the body containing the internal antenna (pages 31, 32). In particular, do not affix things like stickers onto this portion of the body.
- The handset's open/close status is detected by a magnetic sensor. Therefore, take care not to place the macro lens or other magnetic objects close to the microphone (mouthpiece) to prevent a malfunction.
- When you replace the handset or send it for repair, messages and other data stored in the handset cannot be transferred to another handset.
- Do not drop the USIM card or subject it to excessive shock. Doing so may cause a malfunction.
- Do not bend the USIM card or place a heavy object on it. Doing so may cause a malfunction.
- Do not allow the USIM card to get wet or leave it in places of high humidity. Doing so may cause a malfunction.
- Do not use or leave the USIM card in hot places such as near a fire or heater. Doing so may cause a malfunction.
- Avoid storing the USIM card in direct sunlight or hot and humid places. Failing to do so may cause a malfunction.
- Keep the USIM card out of infants' reach. Failing to do so may result in the USIM card being accidentally swallowed or cause an injury.
- Before using the USIM card, read the instruction manual of the USIM card thoroughly to ensure safe and proper operation.

Mobile Camera

- Be sure to observe proper etiquette when using the camera.
- Do not expose the camera lens to direct sunlight. Concentrated sunlight through the lens may cause the handset to malfunction.
- Be sure to try taking and previewing pictures before using the camera on important occasions like wedding ceremonies.

- Do not commercially use or transfer pictures taken with the camera without the permission of the copyright holder (photographer), except for personal use.
- Do not use the camera in locations where taking photos and recording videos are prohibited.

Mobile Light & External Light

- Do not use the mobile light in hot, cold or humid places. Doing so may shorten its life.
- The mobile light and external light have a limited life. Repeated use will decrease the light intensity.

Copyrights

- Copyrighted materials, such as music, images, computer programs and databases, and their respective holders are protected by copyright laws. Duplication of copyrighted materials is permitted only for individual or home use. Making copies (including data conversion), modifications, transfers or network distributions of copies for purposes other than stated above without proper authorization constitutes an infringement of copyrights and moral rights, potentially resulting in claims for reparations or criminal punishment. If you use the handset to make copies, observe the copyright laws. Furthermore, recording materials using the camera is also subject to the same laws.

Right of Portrait

- Portrait right is the right of an individual to refuse to be photographed by others and protects from the unauthorized publication or use of an individual's photograph by others. Right of personality is a portrait right applicable to all citizens and right of publicity is a portrait right (property right) designed to protect celebrities' interests. Be careful when taking pictures with the handset camera. Photographing, publicizing and distributing photographs of citizens and celebrities without permission are illegal.

TOSHIBA CORPORATION

IMPORTANT NOTE: PLEASE READ BEFORE USING YOUR HANDSET

BY ATTEMPTING TO USE ANY SOFTWARE ON THE SUPPLIED HANDSET THIS CONSTITUTES YOUR ACCEPTANCE OF THESE EULA TERMS. IF YOU REJECT OR DO NOT AGREE WITH ALL THE TERMS OF THIS EULA, PLEASE DO NOT ATTEMPT TO ACCESS OR USE THE SUPPLIED SOFTWARE.

End User License Agreement

This End User License Agreement ("EULA") is a legal agreement between you (as the user) and TOSHIBA CORPORATION ("Toshiba") with regard to the copyrighted software as installed in a Toshiba 3G handset supplied to you (the "Handset").

Use or disposal of any software installed in the Handset and related documentations (the "Software") will constitute your acceptance of these terms, unless separate terms are provided by the Software supplier on the Handset, in which case certain additional or different terms may apply. If you do not agree with the terms of this EULA, do not use or dispose the Software.

1. License Grant. Toshiba grants to you a personal, non-transferable and non-exclusive right to use the Software as set out in this EULA. Modifying, adapting, translating, renting, copying, making available, transferring or assigning all or part of the Software, or any rights granted hereunder, to any other persons and removing any proprietary notices, labels or marks from the Software is strictly prohibited, except as expressly permitted in this EULA. Furthermore, you hereby agree not to create derivative works based on the Software.
2. Copyright. The Software is licensed, not sold. You acknowledge that no title to the intellectual property in the Software is or will be transferred to you. You further acknowledge that title and full ownership rights to the Software will remain the exclusive property of Toshiba, Toshiba's affiliates, and/or their suppliers, and you will not acquire any rights to the Software, except as expressly set out in this EULA. You may keep a back-up copy of the Software only so far as necessary for its lawful use. All copies of the Software must contain the same proprietary notices as contained in or on the Software and are subject to the terms of this EULA. All rights not expressly granted under this EULA are reserved to Toshiba, Toshiba's affiliates and/or their suppliers.
3. Reverse Engineering. You agree that you will not attempt, and if you are a business organisation, you will use your best efforts to prevent your employees, servants and contractors from attempting to reverse engineer, decompile, modify, translate or disassemble the Software in whole or in part except to the extent that such actions cannot be excluded by mandatory applicable law and only if those actions are taken in accordance with such applicable law. Any failure to comply with the above or any other terms and conditions contained herein will result in the automatic termination of this license and the reversion of the rights granted hereunder to Toshiba.
4. **DISCLAIMER OF WARRANTY.** The Software is provided "AS IS" without warranty of any kind. **TOSHIBA, TOSHIBA'S AFFILIATES, AND THEIR SUPPLIERS DISCLAIM ALL**

YOU ACCEPT THAT SOFTWARE MAY NOT MEET YOUR REQUIREMENTS AND NO WARRANTY CAN BE GIVEN THAT OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR-FREE.

5. **LIMITATION OF LIABILITY. TO THE FULLEST EXTENT LEGALLY PERMITTED, IN NO EVENT SHALL TOSHIBA, TOSHIBA'S AFFILIATES OR THEIR SUPPLIERS BE LIABLE TO YOU FOR ANY DAMAGES FOR (A) LOST BUSINESS OR REVENUE, BUSINESS INTERRUPTION, LOSS OF BUSINESS DATA; OR (B) CONSEQUENTIAL, SPECIAL, INCIDENTAL OR INDIRECT DAMAGES OF ANY KIND (WHETHER UNDER CONTRACT, TORT OR OTHERWISE) ARISING OUT OF: (I) THE USE OR INABILITY TO USE THE SOFTWARE, EVEN IF TOSHIBA, TOSHIBA'S AFFILIATES OR THEIR SUPPLIER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES; OR (II) ANY CLAIM BY A THIRD PARTY. SAVE AS SET OUT IN THIS SECTION, TOSHIBA'S ENTIRE LIABILITY UNDER THIS EULA SHALL NOT EXCEED THE PRICE PAID FOR THE SOFTWARE, IF ANY.**
PLEASE MAKE AND RETAIN A COPY OF ALL DATA YOU HAVE INSERTED INTO YOUR PRODUCT, FOR EXAMPLE NAMES, ADDRESSES, PHONE NUMBERS, PICTURES, RINGTONES ETC, BEFORE SUBMITTING YOUR PRODUCT FOR A WARRANTY SERVICE, AS SUCH DATA MAY BE DELETED OR ERASED AS PART OF THE REPAIR OR SERVICE PROCESS.
6. Laws. This EULA will be governed by the laws of Japan. All disputes arising out of this EULA shall be subject to the exclusive jurisdiction of the Tokyo District Court.
7. Export Laws. Any use, duplication or disposal of the Software involves products and/or technical data that may be controlled under the export laws of applicable countries or region and may be subject to the approval of the applicable governmental authorities prior to export. Any export, directly or indirectly, in contravention of the export laws of applicable countries or region is prohibited.
8. Third Party Beneficiary. You agree that certain suppliers of the Software to Toshiba have a right as a third party beneficiary to enforce the terms of this EULA against you as a user.

FCC Notice

The handset may cause TV or radio interference if used in close proximity to receiving equipment. The FCC can require you to stop using the handset if such interference cannot be eliminated.

Information to User

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient/relocate the receiving aerial.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The guidelines are based on standards that were developed by independent scientific organisations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.

The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model handset when tested for use at the ear is 0.346 W/kg and when worn on the body, as described in this user guide, is 0.618 W/kg. Body-worn Operation; This device was tested for typical body-worn operations with the back of the handset kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5 cm separation distance between the user's body and the back of the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Download from Www.Somanuals.com. All Manuals Search And Download.

The FCC has granted an Equipment Authorisation for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/fccid after searching on SP2-CC4-J01.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) website at http://www.phonefacts.net.

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was 0.630 W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide**. In this case, the highest tested SAR value is 0.838 W/kg.

As SAR is measured utilizing the devices highest transmitting power the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the network.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a 'hands-free' device to keep the mobile phone away from the head and body. Additional Information can be found on the websites of the World Health Organization (http://www.who.int/emf).

* The tests are carried out in accordance with international guidelines for testing.

** Please see the <FCC RF Exposure Information> section about body worn operation.

USIM Card

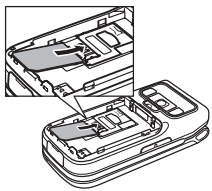
Before using your handset, be sure to do the following.

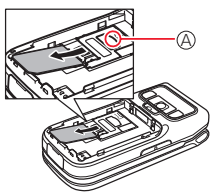
- ◆ Insert the USIM card in your handset.
- ◆ Insert the battery pack in your handset (page 42).

About the USIM Card

The USIM card contains customer information such as your phone number. Only insert the USIM card in a USIM card compatible handset. If the USIM card is not inserted, the handset cannot be used. Do not touch or damage the IC when handling the USIM card.

Inserting & Removing the USIM Card





Before inserting or removing the USIM card, remove the battery pack. For details on removing the battery pack, see page 42.

1. Open the battery cover and remove the battery pack.
2. Insert USIM card straight, making sure the IC portion is facing down (as shown in the illustration to the left).

   To remove the USIM card, press down on point Ⓐ (shown in the diagram to the left) and slide it out.

Download from Www.Somanuals.com. All Manuals Search And Download.

USIM PINs

For security, the USIM card has two security codes: PIN 1 and PIN 2. Do not forget these codes and do not reveal them to others.

PIN1

This is a four to eight digit security code to prevent others from using your handset. The default setting is “9999.”

PIN2

This is the four to eight digit security code required for operations such as resetting Call Costs and setting Fixed Dialling Numbers. The default setting is “9999.”

PUK (Personal Unblocking Key) Codes

PUK codes are required to cancel PIN1 lock and PIN2 lock. PIN1/PIN2 lock is set when an incorrect PIN1 or PIN2 is entered three times consecutively. To obtain the PUK1/PUK2 code, contact Vodafone General Information (page 315). If the PUK1/PUK2 code is incorrectly entered ten times in a row, the USIM card is locked. There is no way to cancel the USIM card lock. Contact Vodafone General Information (page 315).

About Emergency Calls

Emergency calls (110, 119 and 118) are available, even when the following restrictions are set.

- Offline Mode (page 229).
- Phone Lock (page 242).
- Fixed Dialling Numbers (page 246).
- Call Barring (page 67).

Note

- If System Mode is set to **UMTS Only** or **GSM Only**, you cannot make or receive any calls, including emergency calls (110, 119 and 118), when the selected network is unavailable. Functions that use a network connection are also unavailable. Change the System Mode setting to use the function.
- During global roaming, use the phone numbers of the emergency services of the country you are in. Confirm the phone numbers beforehand. A connection cannot be guaranteed in every country and area because operation differs depending on the wireless network, wireless signal and function settings of your handset.
- If a video call is made to an emergency service, the call becomes a voice call.
- An emergency call cannot be made while you are performing data communication in an area with GSM coverage.

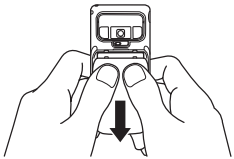
Battery Pack



Before using your handset for the first time, charge the battery.

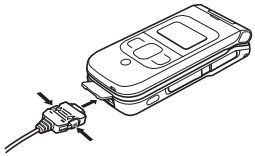
Inserting & Removing the Battery Pack

1. Press down on the battery cover lightly and slide it towards the bottom of your handset.
2. Lift up battery cover.
3. Insert battery pack. Make sure to align bottom of the battery pack with the connector when inserting battery pack.

   To remove the battery pack, insert a fingernail beneath the side or bottom tab and lift out the battery pack.
4. Place the battery cover on your handset and slide it until it clicks into place.

Download from Www.Somanuals.com. All Manuals Search And Download.

Charging the Battery Pack



The charging time is approximately 140 minutes.

1. Open the external connector cover of your handset and insert the connector of the rapid charger.
2. Insert the AC adapter plug into an AC outlet.

   The charging indicator illuminates and charging begins.
3. After the charging indicator goes out, remove the AC adapter plug from the outlet.
4. Press release buttons (on both sides of the connector) to remove the connector from your handset.

Note

- The rapid charger supports a power supply of 100 to 240 V AC.

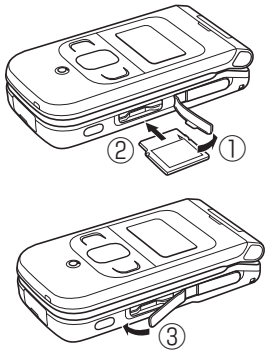
Memory Cards



Note

- Do not use excessive force to open the memory card slot cover. Doing so may damage the cover.
- The memory card may pop out abruptly when removing it from your handset. Be cautious when ejecting the memory card.

About Memory Cards

You can save the pictures you take, videos you record and various downloaded files to a memory card.

- This manual refers to a miniSD™ memory card as a “memory card.”
- For details on saving files to a memory card, see the corresponding explanation for each function.
- Your handset supports memory cards with a storage capacity of up to 1GB (as of March 2006). There is no guarantee that all memory cards will work with your handset because an operation check has not been performed for all memory cards.
- If a memory card is removed while reading or writing data, the data may be lost or the memory card may be damaged.

Inserting & Removing a Memory Card

1. Open the memory card slot cover.
2. Gently push a memory card into the slot until it clicks into position.

   Gently push and release the memory card to eject it.
3. Close the memory card slot cover.

About Video Calls

Note

- A video call is only possible in areas with 3G-network coverage.
- The video call function of your handset complies with the 3G-324M international standard for 3G mobile videophones.
- The 705T does not allow parties to look at the face of the other party while talking.

Video Call Window

A video call enables two parties with video call compatible handsets to send images to each other while they talk.

Indicators

The following indicators appear during video calls.

- 3G Area
- Video Call
- Mute
  - Mute My Voice
  - Mute All
- Image Quality
  - Motion Prioritised
  - Standard Mode
  - Macro Mode
- Handsfree On
  - Handsfree

Using vObjects

About vObjects

vObject is a collective name for file formats that enable your handset and other vObject compatible handsets, PCs and other devices to exchange and mutually use data such as Contacts list entries and Calendar data.

You can send and receive vObjects as mail attachments (page 148) or transfer them by Bluetooth™ or via a USB cable. Received files can be used on your handset. If you save vObjects to a memory card, you can use them directly from other memory card compatible handsets, PCs and other devices. Similarly, vObjects saved to a memory card from other handsets, PCs and other devices can be used on your phone.

- vObject compatible software is required to use the data of vObjects on a PC or other device.
- Depending on the software used, vObjects may not be displayed properly.
- Depending on the contents of vObjects, the import of vObjects received from another Vodafone handset, PC or other device may not be possible.
- Depending on the contents of vObjects, the exchange of vObjects between a vObject compatible handset and PC or other device may not be possible.
- When vObjects include many characters, all vObject may not be able to be sent or received.

Calendar

Month View Window

Note

- If you change the Main City setting (page 52) in the clock settings, the start and end dates and times of appointments are automatically changed to those in the time zone of the city. Also, when DST (Daylight Saving Time) is set to **On**, the start and end dates and times are automatically changed for summer time.
- When the mode settings (page 209) is set to Silent or Meeting and the alarm is set to **Off**, the alarm does not play.

Calendar allows you to save your appointments and use your handset as a scheduler.

Adding a New Appointment

You can save up to 100 appointments.

1. In standby mode, press ●, select **Tools** and press [-] (Select).
2. Select **Calendar** and press [-] (Select).
3. Press [-] (Options).
4. Select **New Appointment** and press [-] (Select).
5. Select an item and press ●.
   - **Title:** Enter the title (up to 16 characters) of the appointment.
   - **Start Date&Time:** Set the start date and time for the appointment. To set both the date and time, select **Date&Time**. To select only the date, select **Date only**.
   - **End Date&Time:** Set the end date and time for the appointment.
   - **No Repeat/Daily/Weekly/Monthly/Yearly/End of Month:** Set a repeat interval and period for the appointment. If you set **Monthly** for the 29th, 30th or 31st, the repeat is only set for months that include that date. If you set the start date to the last day of the month, you can set the setting to **End of Month**.
   - **Memo:** Enter the contents (up to 128 characters) of the appointment.

File Transfer

You can use Bluetooth™ or a USB cable to transfer data between your handset and other handsets, PCs and other devices.

In This Chapter

- ❍ **Bluetooth™**
- ❍ **USB Cable**

Download from Www.Somanuals.com. All Manuals Search And Download.

Bluetooth™

Note

The USB functions cannot be started or set during Bluetooth ™ communication. If a USB cable is connected, Bluetooth™ communication ends.

Transfer the data of the Contacts List, Calendar and Data Folder between your handset and Bluetooth™ compatible PCs and handsets. Bluetooth™ also allows you to use a wireless headset or an in-car device for handsfree calls. We recommend using Bluetooth ™ while your handset and the other device are within 10 metres of each other. For details on the operating procedures of the other device, refer to the instruction manual for that device.

About Bluetooth™

Bluetooth™ is a technology that facilitates wireless communication between PCs and devices such as handsfree compatible devices.

About the Authentication PIN Code

The authentication PIN code (any 4 to 16 digits) is for connecting to other Bluetooth™ compatible devices. When registering a device, the same authentication PIN code needs to be entered for both the sending and receiving devices.

Activating Bluetooth™

1. In standby mode, press ●, select **Settings** and press [-] (Select).
2. Select **Connectivity** and press [-] (Select).
3. Select **Bluetooth** and press [-] (Select).
4. Select **Switch On/Off** and press [-] (Select).
5. Select **On** and press [-] (Select).

   The ᛒ indicator appears at the top of the display.

Download from Www.Somanuals.com. All Manuals Search And Download.

Registering a Bluetooth™ Enabled Device

Note

A PIN code (4 to 16 digits) needs to be entered within approximately 30 seconds for security reasons.

Before establishing a Bluetooth™ connection, you need to search then register the Bluetooth™ enabled device. You can register up to 20 detected Bluetooth™ devices.

1. After Step 3 of "Activating Bluetooth™" (page 281), select **Paired Devices** and press [-] (Select).
2. Select **Search** and press [-] (Select).
3. Select a Bluetooth™ enabled device from the detected devices and press [-] (Select).
4. Enter a PIN code (4 to 16 digits) and press [-] (OK).

   When the same PIN code is entered in the Bluetooth™ enabled device, that device is registered.

Setting a Bluetooth™ Compatible Device as a Trusted Device

Tip

To cancel this setting for a device you no longer want to trust, select **Off** in Step 4.

If you set a registered Bluetooth™ compatible device as a trusted device, a confirmation window is not displayed and a connection is established when a connection request is received from that device.

1. After Step 3 of "Activating Bluetooth™" (page 281), select **Paired Devices** and press [-] (Select).
2. Select a Bluetooth™ compatible device and press [-] (Select).
3. Select **Trust Device** and press [-] (Select).
4. Select **On** and press [-] (Select).

Using Bluetooth™ for Receiving Data

When Bluetooth™ is activated (page 281), you can receive data.

1. Press [-] (Yes) when a confirmation window appears after a connection request is received from a Bluetooth™ compatible device in the vicinity.

   Your handset is in offline mode while receiving data.

2. Select **Save** and press [-] (Select).

   To reject the file, select **Reject**.

3. Select **To Phone Memory** or **To Memory Card** and press [-] (Select).

Tip

Files are saved to their appropriate locations by extensions.

Connecting to a Handsfree Compatible Device

1. After Step 3 of "Activating Bluetooth™" (page 281), select **Paired Devices** and press [-] (Select).
2. Select the handsfree compatible device and press [-] (Select).
3. Select **Connect** and press [-] (Select).

Note

If a call is received while a handsfree compatible device is connected, the ringtone for handsfree calls plays. When some Bluetooth™ compatible devices are used, the ringtone for handsfree calls may be heard from both your handset and the handsfree compatible device.

Tip

To perform handsfree communication, the handsfree compatible device needs to be registered. For details, see "Registering a Bluetooth™ Enabled Device" (page 282).

Setting Handsfree

You can set the mode for making and receiving calls while a handsfree compatible device is connected.

1. After Step 3 of "Activating Bluetooth™" (page 281), select **My Phone ID** and press [-] (Select).
2. Select **Handsfree Setting** and press [-] (Select).
3. Select a mode and press [-] (Select).
   - **Handsfree Mode:** Make and receive handsfree calls from your handset.
   - **Private Mode:** Make and receive regular calls from your handset.

Using Bluetooth™ for Dial-up Connections

When Bluetooth™ is enabled, you can establish a dial-up connection.

1. Press [-] (Yes) when a confirmation window appears after a connection request is received from a Bluetooth™ compatible device in the vicinity.
2. Enter a PIN code (4 to 16 digits) and press [-] (OK).

Tip

Depending on the settings of the Bluetooth™ compatible device, a window for entering the authentication PIN code (any 4 to 16 digits) appears. Enter the same authentication PIN code on your handset and the Bluetooth™ compatible device.

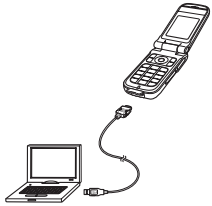
USB Cable



Use a USB cable to connect your handset to a PC and then exchange Contacts list, Calendar and Data Folder files. You can also use the supplied music transfer software to transfer music files and playlists from a PC to the memory card of your handset. Before connecting the USB cable, install the USB host driver and My Mobile (included in the supplied CD-ROM) on your PC. This function supports USB 1.1 and USB 2.0. For details on the PC operating environment required to use this function, refer to My Mobile Quick Guide (included in the supplied CD-ROM).

Note

- When using a USB cable to connect your handset to a PC, be sure to directly insert the plug of the USB cable into the USB port of the PC.
- The Bluetooth™ communication cannot be started or set during USB functions.

Transferring Music from a PC to a Memory Card

Transfer music files and playlists from a PC to a memory card. Before connecting the USB cable, install the music transfer software (included in the supplied CD-ROM) on your PC. All music files transferred to your handset using the music transfer software are stored in the Beat Engine Box of the memory card. You can access the Beat Engine Box from the Music tab (page 96) of the Media Player menu.

Using Music Transfer Mode to Connect to a PC

To transfer music files from a PC to your handset, you need to use music transfer mode to establish a connection between the PC and your handset.

1. Open your handset, display the standby window and use the USB cable to connect your handset to the PC.

   A confirmation window for switching to music transfer mode appears.

2. Press [-] (Yes).

   Your handset switches to music transfer mode, then connects to the PC. You are now ready to transfer music files.

Note

- Offline mode (page 229) is set while your handset is in music transfer mode.
- In the following cases, your handset does not switch to music transfer mode when you connect it to a PC via a USB cable.
  - The phone lock is activated.
  - Your handset is closed.
  - The display setting of the confirmation window (page 291) is set to **Do not Display**.
- You can also switch to music transfer mode from the main menu (page 290).

Switching to Music Transfer Mode from the Main Menu

Switch to music transfer mode from the main menu.

1. In standby mode, press ●, select **Settings** and press [-] (select).
2. Select **Connectivity** and press [-] (Select).
3. Select **USB** and press [-] (Select).
4. Select **Music Transfer** [-] (Select).

   Your handset switches to music transfer mode.

Note

- Connect the PC and your handset by USB cable before you switch to music transfer mode.
- Offline mode (page 229) is set while your handset is in music transfer mode.

Transferring Music Files

After you use music transfer mode to establish a connection between the PC and your handset (page 289), use the music transfer software to transfer music files. When the transfer is complete, disconnect your handset from the PC. For details on operating the PC or the music transfer software, refer to the corresponding manual.

Updating Music File Information

Update the file management information of music files transferred from a PC.

1. Display the Music tab (page 96) of the Media Player menu, select **Beat Engine Box** and press [-] (Select).
2. Select **Update List** and press [-] (Select).
3. Press [-] (Yes).

   The music file information is updated.

Note

- Offline mode (page 229) is set during updating.
- This function cannot be used if the battery level is low, except during charging.

Setting Display of the Music Transfer Mode Confirmation Window

Set whether to display the confirmation window for switching to music transfer mode (page 289).

1. In standby mode, press ●, select **Settings** and press [-] (Select).
2. Select **Connectivity** and press [-] (Select).
3. Select **USB** and press [-] (Select).
4. Select **Confirmation** and press [-] (Select).
5. Select **Display** or **Do not Display** and press [-] (Select).

Note

If **Do not Display** is set for the display setting of the confirmation window for switching to music transfer mode, the window does not appear even if a USB cable is connected to your handset from standby mode. You can also switch to music transfer mode from the main menu (page 290).

Using a USB Cable for Sending Data

Send the data of the Contacts list, Calendar and Data Folder.

1. Follow the procedure below to connect your handset and a PC with a USB cable.
   1) Open the external connector cover of your handset.
   2) Insert the plug of the USB cable into the external connector.
   3) Connect the USB cable to the USB port of the PC.
2. In standby mode, press ●, select **Settings** and press [-] (Select).
3. Select **Connectivity** and press [-] (Select).
4. Select **USB** and press [-] (Select).
5. Select **Data Transfer** and press [-] (Select).
6. Enter your security code (page 54).
   Offline mode is set. Your handset is ready to send data.
7. Follow the instructions on the PC.
   You may need to enter your security code (page 54) on your handset.

Note

The following files cannot be sent.

Using a USB Cable for Receiving Data

Receive data to the Contacts list, Calendar and Data Folder.

1. After Step 6 of “Using a USB Cable for Sending Data” (page 291), follow the instructions on the PC to send data from the PC to your handset.

Using a USB Cable for Backing Up Data

Note

Files that cannot be transferred are not backed up.

Back up files and folders in Pictures, Videos, Melody&Music and Other Files of Data Folder.

1. After Step 6 of “Using a USB Cable for Sending Data” (page 291), follow the instructions on the PC to back up data from your handset to the PC.

   You may need to enter your security code (page 54) on your handset.

Using a USB Cable for Restoring Data

Note

- All the data may not be able to be restored from some backup files.
- All the data of the restore destination is overwritten.

Restore Pictures, Videos, Melody&Music and Other Files of Data Folder saved on a PC to your handset.

1. After Step 6 of “Using a USB Cable for Sending Data” (page 291), follow the instructions on the PC to restore data from the PC to your handset.

   You may need to enter your security code (page 54) on your handset.

Using a USB Cable for Dial-up Connections

Use a USB cable to connect your handset to a PC and then access the Internet, etc. For details on the configuration/operation of the PC modem, refer to the instruction manual for the PC.

Troubleshooting

Problem	Possible Causes and Remedies
Cannot turn the power on.	• Is the battery pack inserted properly (page 42)? • Is the battery charged (pages 35, 37, 43)?
Cannot charge the battery.	• Is there dust on the connections and contacts of the rapid charger, handset or battery pack? Clean the connections and contacts with a dry cotton swab, etc.
Cannot operate the handset normally after turning it on.	• Does the PIN1 Entry window appear? PIN1 Code Request (page 240) is set to **On**. Enter your PIN1 code. • Does the indicator or “Phone Lock” appear on the display? The phone lock (page 242) is activated. Enter your security code. • Does “Please insert valid USIM card.” appear on the display? The USIM card was not read properly. Turn the power off and make sure the USIM card is inserted properly.
Cannot establish a connection for voice and video calls or use mail and Web functions.	• Does the Out indicator appear on the display? Are you out of the service area or in a location where a signal cannot reach your handset? Move to a location where a signal can reach your handset. • Does the Out indicator appear on the display? Are you using the handset overseas? To use the handset overseas, you need to change the Select Network and System Mode settings (page 48). • Is your hand or another object covering the internal antenna part (pages 31, 32) of your handset? • Does the indicator or “Offline Mode” appear on the display? Cancel offline mode (page 229).
Cannot make voice and video calls.	• Did you dial the whole phone number starting from the area code? • Is Fixed Dialling Numbers (page 246) set? • Is Call Barring (page 67) set?

: Video call Approx. 90 min.
: Within GSM area Approx. 300 min.

Continuous Standby Time : Within 3G/UMTS area Approx. 370 hrs.
: Within GSM area Approx. 250 hrs.

Charging Time : Approx. 140 min.

Dimensions when closed (W×H×D) : Approx.47×98×23 mm (excluding the camera)

Maximum Output : 3G/UMTS 2100 Class 3 0.25 W
: GSM 900 Class 4 2 W
: DCS 1800 Class 1 1 W
: PCS 1900 Class 1 1 W

Weight : Approx. 121 g (when the battery pack is attached)

- The values above were calculated with the battery pack attached.
- The continuous talk time refers to the average length of time a signal can be received normally when the handset is in a stationary state and a new fully charged battery pack is attached.
- The continuous standby time refers to the average length of time a signal can be received normally when the handset is closed, the handset is in a stationary state, a new fully charged battery pack is attached and there are no calls made/received or operations performed. If the handset is in a location outside the service area or where it is difficult to receive a signal (in a building, vehicle, bag, etc.), this time may be reduced to half or less. This time may also be affected by other factors such as the operating environment (battery state, temperature, etc.). The value for continuous standby time is when the system mode was set to **UMTS Only**.
- The operating time of the battery was calculated when a stable signal was received constantly. However, this time may be reduced to half or less if the handset is used in a location where the signal is weak or the handset is left in standby mode when it is outside the service area.
  Repeated charging and discharging a battery shortens the operating time. If the operating time becomes too short, purchase a new battery pack.
- If the mobile light is used frequently for taking pictures and recording videos or as a flashlight, the continuous talk time and continuous standby time become shorter.
- When a V-appli is activated, the continuous talk time and continuous standby time become significantly shorter.
- If the handset is used with the main display and external display illuminated frequently (for Vodafone live! use, etc.), the continuous talk time and continuous standby time become shorter.
- Note that the LCD display may have defective pixels (dead or stuck pixels).

Glossary

Term	Definition
3G/UMTS	A third generation (3G) mobile communication system. UMTS is the 3G mobile communication system of Europe.
GSM	A wireless system for digital handsets. GSM is the predominant system in Europe and Asia, and is the world's most widely used system.
GPRS	A data transmission technique used for GSM mobile phone networks. It enables the high-speed transfer of data in the form of packets.
USIM Card	Use the handset with this card inserted. The card stores subscriber information such as your phone number and handset data. You can also save Contacts list entries and other data to the card. When you replace your handset, use of the same USIM card in the new handset enables you to continue using the data stored on the card.
USIM PIN	A number required for using the USIM card with your handset. This number allows you to prevent others from using your handset in the event that your handset is lost or stolen.
MMS	A service that allows long text messages with picture, video and melody attachments to be exchanged.
SMS	A service that allows short text messages to be exchanged between handsets.
WAP Push Message	The latest information sent automatically as a WAP Push message (server initiated rather than user requested) when you have registered with an auto delivery service.
SSL	A communication method for transmitting data in an encrypted form over the Internet. It enables data such as information related to privacy and credit card numbers to be sent and received safely and protects against dangers on the Internet such as eavesdropping, tampering and spoofing. SSL communication uses server certificates.

Warranty & After Sales Service

Warranty

A warranty card is included with the handset. Carefully read the card and check that the store name and purchase date sections have been filled in correctly. Then, store it in a safe place.

Note

Vodafone and Toshiba assumes no responsibility for damages to you or third parties as a result of a failure, malfunction or faulty operation of the product.

Download from Www.Somanuals.com. All Manuals Search And Download.

After Sales Service

Be sure to refer to “Troubleshooting” (page 302) before submitting your handset for repair. If you are still having problems with your handset, contact your nearest Vodafone Shop or Vodafone General Information (page 315).

Repair within warranty period

Repair is carried out in accordance with the conditions of the warranty.

Repair after warranty period

Repair is carried out if possible and the handset owner is responsible for any repair costs.

◆ During repair, parts may be replaced with used parts that meet our quality standards.

Note

- Data and settings may be lost or altered as a result of failure or repair of your handset. It is, therefore, recommended that you keep a backup copy of important data such as Contacts list data. Vodafone and Toshiba assumes no responsibility for any damages due to the loss or alteration of handset data (contents of the Contacts list, Data Folder, etc.) and settings as a result of failure or repair of your handset.
- Disassembling or modifying the handset is in violation of Radio Law. Your handset will not be accepted for repairs if it has been modified.

Tip

If you have any inquiries with regards to the after sales service, contact your nearest Vodafone Shop or Vodafone General Information (page 315).
