Dear Ultimate Ears Customer,

Thank you for selecting Ultimate Ears (UE) Super.fi Earphones for your discriminating listening pleasure. UE has been providing custom designed ear monitors to many of your favorite recording artists for more than a decade. Now we have applied our years of expertise to develop revolutionary new technologies which allow you to hear music the way it was meant to be heard.

We have taken all that we have learned about professional ear monitors and applied it to what we believe are the best consumer earphone products available on the market today: our UE5Pro and the UE5EB.

We hope that you will enjoy your Super.fi Earphones and the professional sounding audio experience. In our industry, where listening is key, we are committed to providing the ultimate listening experience. We welcome your feedback and invite you to contact us with your thoughts and suggestions.

Thank you.

Mindy Harvey, Co-Founder
UE President

Jerry Harvey, Co-Founder
UE Chief Technology Officer

We recommend that you visit our website at www.ultimateears.com and complete the on-line registration. In addition to establishing your warranty, we will also keep you informed of any new products and of developments in the sound industry.

WARNINGS

Be sure to read all warnings and instructions before using your Super.fi Earphones.

△ Always turn music volume down on your listening device before inserting Super.fi Earphones into your ears. Once earphones are inserted, gradually increase the volume to a moderate listening level.

△ Using earphones at high volumes can permanently damage your ears. Ringing in your ears or other discomfort can indicate that music volume is too high. Please review the following guidelines for the maximum time exposure to sound pressure levels before hearing damage occurs.

LISTEN RESPONSIBLY!

Hearing health is critical to the enjoyment and to the quality of life. Protect your hearing by listening to your music in a responsible manner that protects your long term hearing health. According to OSHA (Occupational Safety Health Administration 29CFR1910.95) the following Sound Pressure Levels (SPL's) are recommended and deemed to be Permissible Noise Exposures:

<u>Sound Pressure Level dB(A)</u>	<u>Permissible Noise Exposure Duration(Per Day)</u>
90	8 Hours
95	4 Hours
100	2 Hours
105	1 Hour
110	30 Minutes

To avoid hearing damage, you should not be exposed to Sound Pressure Levels above 115 dB(A). For more information visit the OSHA website at www.osha.gov.

Download from www.SomaManuals.com. All Manuals Search And Download.

⚠ Do not use these earphones in any environment where a failure to hear surrounding sounds could be dangerous. In no way should these earphones be used while driving a car, biking, walking or operating machinery.

⚠ Do not submerge or expose the earphones to water (see page 14 for *Earphone Care and Maintenance*).

⚠ When using your earphones with an unfamiliar or unstable sound system (airplane, public access ports, etc...) make sure volume is low and is kept at a moderate level to prevent “break-in” bursts of loud sounds. For these environments, we recommend use of the sound level attenuator to aid in buffering unusually high sound output (see page 15 for *Sound Level Attenuator*).

⚠ Keep the Super.fi Earphones away from young children. This product includes small parts and cables that may create a choking hazard.

SAFE LISTENING AND PROPER USE

⚠ Remove earphones if they cause any ear discomfort or you have difficulty inserting the ear tips (see page 10 for *Fitting Ear Tips* or page 16 for *Suggestions for Using Ear Tips*). Remember, ears are sensitive and you should never force anything into the ear canal.

⚠ Consult regularly with a physician or audiologist if you have problems hearing, excessive wax build-up, or any or discomfort after use.

⚠ These Super.fi Earphones are intended for your personal use. If you are sharing your earphones, remove your ear tips, clean your earphones with antiseptic wipes before and after sharing.

EARPHONE DESCRIPTION

Super.fi Earphones block external sound to offer you the best listening experience possible.

Super.fi 5 Pro Earphones

Delivers professional quality sound by combining two precision balanced armatures in each earphone: one for lows and one for mids and highs. The dual armature technology provides exceptional frequency response and extended headroom delivering a rich, full-range, distortion-free personal audio experience. Ideal for all types of music optimizing the output from high fidelity CD, MP3 and other recorded music.

Super.fi 5 EB Earphones

Delivers superior full-range sound with extended bass and excellent mid and high range response by combining two drivers in each earphone: one high output diaphragm for lows and one precision balanced armature for mids and highs. Ideal for all types of music. Provides extended bass response for those who prefer bass rich output.

SPECIAL FEATURES OF THE SUPER.FI 5 PRODUCTS

Feature	Benefit
Durable Construction	Small form factor, lightweight, durable design ideal for active lifestyles.
Stylish Earphone Design	Intuitive form and stylish design available in selected colors.
Noise Isolating Components	In-ear fit and customizable ear tips maximize noise isolation from the environment for the ultimate listening experience.
Flexible Ear Loops with Low Friction Cables	Flexible ear loops secure earphones in place and guide cables behind ears: offers maximum comfort and eliminates tangled cables.
Ear Tips	6 single flange silicone tips (2 small, 2 medium, 2 large), 2 double flange silicone tips, 2 disposable foam tips.
Crush-Proof Metallic Storage Case Black Leather Travel Case	Crush-Proof metallic storage case with cable management system protects earphones. The compact black leather travel case conveniently fits into your pocket or purse.
Additional Accessories Included	Sound level attenuator and 1/4 inch gold plated adapter jack make earphones compatible with almost any listening device.
Limited Warranty	2 year limited warranty from purchase date.

INCLUDED WITH YOUR PURCHASE OF THE SUPER.FI 5 PRO AND 5 EB:

- Earphone User Guide
- Earphones (*46 inch cord, cable adjuster and gold plated 1/8 inch input plug*)
- Ear Tips Kit: 6 single flange silicone ear tips (*2 small, 2 medium, 2 large*), 2 double flange silicone tips, 2 disposable foam tips
- 1/4 Inch Gold Plated Adapter Jack
- Sound Level Attenuator
- Cleaning Tool
- Metallic Storage Case with Cable Management System
- Black Leather Travel Case
- Warranty

EARPHONE COMPONENTS

1. Earphones (*1a. Super.fi 5EB*) (*1b. Super.fi 5Pro*)
2. Ear Tips (*medium single flange silicone ear tip shown*)
3. Ear Conductor (*visible only when ear tips is removed*)
4. Ear Loops
5. 1/4 Inch Gold Plated Adapter Jack
6. Sound Level Attenuator
7. Cleaning Tool
8. 1/8 Inch Input Plug (*not shown*)
9. Cable Adjuster – Y-Junction (*see page 13*)

Accessories

FITTING THE EAR TIPS

Super.Fi has included a variety of ear tips for you to choose from to ensure a good earphone seal for your ears. All ears are unique and you will need to determine which tips are most comfortable for you.

Most users find that the single flange silicone ear tips provide a good fit for their ears and are the easiest to use. However those customers who prefer the “ultimate fit” often select the foam tips for the best seal and more secure fit (*see page 16 for Suggestions for Using Ear Tips*).

Your Super.Fi Earphones come with medium single flange silicone ear tips already attached. Also included with your earphones are the following additional ear tips:

1. Single Flange Silicone Ear Tips – 2 small, 2 medium and 2 large
2. Double Flange Silicone Ear Tips
3. Disposable Foam Ear Tips

ATTACHING THE EAR TIPS

The ear tips can be attached or removed by using a gentle grasping and twisting motion. The ear tip should fit securely over the ear conductor and once the ear tip is in place, the ear conductor should not be exposed.

CARE AND CLEANING OF FLANGED SILICONE EAR TIPS

The silicone ear flanges are reusable and need to be cleaned with an antiseptic wipe after each use. They should also be removed and cleaned regularly with mild soap and water. The ear tip should be completely dry before placing on the ear conductor.

CARE OF FOAM EAR TIPS

The foam ear tips are designed to be used only a few times then should be disposed of when they appear discolored.

CONNECTING TO A LISTENING DEVICE

Super.fi Earphones come with a 1/8 inch input plug that is compatible with most personal listening devices. In addition, a 1/4 inch adapter has been included which allows you to connect to a variety of other consumer electronic equipment.

EARPHONE INSERTION - "ROCK N' ROLL"

It is important to get a good ear fit when inserting these earphones to maximize comfort and optimize the listening experience. A correct seal will help eliminate background noise and offer the best frequency response when listening to music.

△ Be sure that the volume is turned down to a minimum on the device that you will be using. Next, plug your earphones into the output. (Note: if you are using an unstable sound device please see page 15 for Using the Sound Level Attenuator).

STEP 1

Identify the left earphone (marked with an "L") and the right earphone (marked with an "R"). Holding each earphone with the cord pointing straight up and against your head, gently glide the ear tip into the ear canal.

Step 1

STEP 2

Keeping your earphones in the same position, rock your hands slightly forward to slide the ear tip comfortably into the ear canal.

Step 2

STEP 3

Now, gently roll your earphones back to create the seal desired. (Note: if you are having difficulty please see page 16 for Suggestions for Using Ear Tips).

STEP 4

Wrap the ear loops around the top of the ear to secure the earphones. The cables will hang behind the ears and either down your back, or in front of your chest. Use the adjustment slider located near the Y-junction to change the length of the cables.

Step 4

Now you are ready to gradually increase the volume on your listening device and to begin your Ultimate Ears experience.

PROPER EARPHONE REMOVAL - REVERSE "ROCK N' ROLL"

To remove, grasp the earphone and gradually rock forward to break the seal. Once the seal is broken gently slide the earphones out of the canal, clean them for your next use and store them in either the leather travel case or metallic storage case.

Remember: never pull on the cables to remove the earphones.

EARPHONE CARE AND MAINTENANCE

- Keep earphones clean by using a moistened antiseptic wipe after each use.
- Do not expose your earphones to water or extreme temperatures.
- Use the cleaning tool regularly to keep the ear conductor clear and unobstructed.
- Clean and change the ear tips regularly.
- Avoid physical abuse of earphones. Dropping or striking the earphones may damage components.
- Do not pull on the cables to remove earphone from your ear.
- Do not pull the cables to remove the input plug from a listening device.
- Store your earphones in the hard metallic case when not in use for safe storage.

USING THE CLEANING TOOL

1. Remove ear tip and wipe the exterior of the ear conductor with an antiseptic wipe.
2. Using the cleaning tool, angle into the ear conductor and use a gentle upward and outward sweeping motion to remove any build-up.
3. Clean the ear conductor again with an antiseptic wipe and attach a new and clean ear tip.

SOUND LEVEL ATTENUATOR

When using your earphones with an unfamiliar or unstable sound system (airplane, public access ports, etc...) make sure volume is low and is kept at a moderate level to prevent "break-in" bursts of loud sounds. For these environments, we recommend use of the sound level attenuator to aid in buffering unusually high sound output.

To use the sound level attenuator, insert the 1/8 inch input plug at the end of your earphone cable into the sound level attenuator and then plug the attenuator into the listening device.

Sound Level Attenuator

SUGGESTIONS FOR USING EAR TIPS

If the ear tips on the earphones don't seal well or are uncomfortable, try some alternate ear tips until the best fit for your ear is achieved.

If you are using a flanged silicone ear tip then try using a disposable foam tip for the "ultimate fit".

FLANGED SILICONE EAR TIP NOT SEALING WELL

For best results, moisten the external surface of the flanged silicone ear tip before insertion into ear canal. This will allow the ear tip to slide more easily into place and create a good seal.

DIFFICULTY INSERTING INTO THE EAR CANAL

Identify the left earphone (marked with an "L") and the right earphone (marked with an "R"). Inserting one earphone at a time, gently grasp the top ridge of your ear and extend the ear upward and outward to open up the ear canal while you rock the earphone forward and then roll it back into your ear canal.

DISPOSABLE FOAM EAR TIPS

Compress the foam at the end of the earphone by pressing it between your thumb and forefinger before inserting it into the ear canal. Hold the earphone in place for five seconds while the foam expands to create a tight seal in the ear canal.

TROUBLESHOOTING

DIMINISHED SOUND OVER TIME

If you experience lower performance over time, use the cleaning tool to make certain that the ear conductor is unobstructed.

NO SOUND

If you are not receiving any sound, make certain that the jack is properly attached to your listening device and that the volume has been gradually increased. If you are still not receiving sound, confirm that the connections between the cable and your earphones are secure.

If the suggestions listed above do not solve your problem, please contact one of our customer service representatives.

LIMITED PRODUCT WARRANTY

WHAT IS COVERED BY THIS LIMITED WARRANTY

UE Consumer, LLC (the “Company”) warrants this Super.fi product (the “Product”) against defects in material or workmanship in the Product’s earphone external shell or in its earphone internal components for a period of two (2) years from the date of original retail purchase. If this Product is determined to be defective during the warranty period, the Company will, at its sole option: (1) repair the defective Product at no charge, using new or refurbished replacement parts; (2) exchange the defective Product with a Company product that is new or that has been manufactured from new or serviceable used parts and is functionally equivalent to the original Product; or (3) refund the original purchase price paid by you for the Product. When a Product or part thereof is exchanged, any replacement item becomes your property and the replaced item becomes the Company’s property. When a refund is given, your Product becomes the Company’s property. THIS PARAGRAPH SETS FORTH THE SOLE AND EXCLUSIVE REMEDY FOR BREACH OF WARRANTY WITH RESPECT TO THE PRODUCT.

WHAT IS NOT COVERED BY THIS LIMITED WARRANTY

As indicated above, only the Product’s earphone external shell and earphone internal components are covered by this limited warranty. The Product’s other components or accessories may include, among other things, an earphone cable, an adapter jack, an attenuator, a ear tip kit (additional ear tips), a cleaning tool, a hard carrying case, and a soft carrying case. No such other components or accessories to the Product are covered by this limited warranty. In addition, this limited warranty does not apply to any non-Company hardware product or any software; even if packaged or sold with the Product.

This limited warranty does not apply: (1) to damage caused by accident, abuse, misuse, negligence, acts of God, misapplication, or any non-Company product; (2) to damage caused by service performed by anyone other than the Company; (3) to a product or a part that has been modified or altered without the written permission of the Company; or (4) with respect to any defect which is attributable to any ~~Downloaded from~~ ~~www.Scribd.com~~. ~~The Manual Search And Download~~ ~~Company.~~

This limited warranty applies only to new Products purchased from Ultimate Ears or through authorized retail sellers. Warranty coverage will be provided only to the original retail purchaser. Transfer of any Product through any unauthorized distributor or retail seller renders this limited warranty null and void. Any Product sold by a private party or unauthorized distributor or retail seller is sold on an “as is” and “with all faults” basis, and as such the entire risk as to the quality and performance of such Product will be with the buyer.

MAKING A WARRANTY CLAIM AND RETURNING A PRODUCT

If you desire to make a warranty claim, you must first obtain an RMA (a return merchandise authorization number) from the Company. You must obtain an RMA before the two (2) year warranty period expires. To obtain an RMA, you must call the Company at 1-866-837-7734 (toll free in USA); during that call, you must provide the Company with all information reasonably requested pertaining to the Product for which you are seeking warranty coverage. If it appears that your Product and its claimed defect falls within this limited warranty, the Company then will provide you with an RMA.

Once you have obtained an RMA, you must return to the Company the Product for which you are seeking warranty coverage within fifteen (15) days after the date we issue or provide you with that RMA. Please return the Product in its original packaging (or affording an equal degree of protection) with all of the following: (1) RMA clearly marked on the returned package; (2) a receipt or bill of sale showing proof of purchase from an authorized retail seller; and (3) a written statement describing the Product defect and including your name, address, telephone number and the applicable RMA. You need to return the Product, prepaid and insured, with all of the above specified information and material to:

UE Consumer, LLC.
Attention: Fulfillment Center
2400 South Grand
Santa Ana, CA 92705

You are solely responsible for all shipping and insurance costs for returning the Product to the Company, and the Company will not reimburse you or compensate you for any such costs.

After you have received an RMA from the Company and you have returned the Product to the Company for warranty service, the Company will determine if the Product is defective and whether it meets the warranty requirements of this limited warranty. If the Product does not meet such requirements, then warranty service will not be provided and the Company will return such Product to you at your cost.

LIMITATIONS OF LIABILITY.

TO THE MAXIMUM EXTENT PERMITTED BY LAW, THIS LIMITED WARRANTY AND THE REMEDIES SET FORTH ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, REMEDIES AND CONDITIONS, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED. THE COMPANY AND ITS AFFILIATES, PARENTS, SUBSIDIARIES AND SUPPLIERS SPECIFICALLY DISCLAIM ANY AND ALL IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IF SUCH IMPLIED WARRANTIES CAN NOT LAWFULLY BE DISCLAIMED OR EXCLUDED UNDER APPLICABLE LAW, THEN TO THE EXTENT POSSIBLE ANY CLAIMS UNDER SUCH IMPLIED WARRANTIES SHALL EXPIRE ON EXPIRATION OF THE WARRANTY PERIOD.

NEITHER THE COMPANY NOR ANY OF ITS AFFILIATES, PARENTS, SUBSIDIARIES OR SUPPLIERS SHALL BE LIABLE FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE OR MISUSE OF, OR INABILITY TO USE, THE PRODUCT, OR ARISING FROM ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF THE COMPANY OR ANY OF ITS AFFILIATES, PARENTS, SUBSIDIARIES OR SUPPLIERS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

No person or entity, other than the Company through its authorized officers, is authorized to make any modification, extension, or addition to this warranty.
