HEADPHONES WITH WIRELESS DOCK FOR iPod®

XVTHP200 – QUICK START GUIDE

IMPORTANT SAFETY INFORMATION

Long-term exposure to loud music may cause hearing damage. Avoid extreme volume when using headphones, especially for extended periods.

Do not use headphones while operating a motor vehicle or a bicycle. Doing so is dangerous and may violate local laws and regulations.

Sounds that you rely on as reminders or warnings may have an unfamiliar character when using headphones. Be aware of how these sounds may vary in character so you can recognize them as needed.

Do not drop, sit on, or allow the headphones to be immersed in water. Do not wear headphones in the rain.

Do not use headphones if the inability to hear outside sounds may present a danger to you or others.

For important information on listening guidelines, see *Information on Hearing Damage* on page 16.

Quick Start Guide

Power Adapter for Wireless Dock

iPod Trays (3)

3.5mm Audio Cable

Travel Charger for Headphones

Carrying Case

RCA Audio Cable

CONTROLS AND CONNECTIONS

Headphones

- Charging Contacts:** Must touch dock contacts to charge
- Adjustable Headband:** Extend headband to fit
- Next:** Go to next track on iPod/iPhone
- Mini USB Port:** Connect to travel charger
- Input:** Change audio source
- Play/Pause:** Play or pause audio
- Previous:** Go to previous track on iPod/iPhone

- Volume Up:** Increase volume
- Active Noise Reduction:** Activate to block background noise
- SRS:** Activate SRS sound processing when listening to the wireless dock
- Power:** Press and hold for **2 seconds** to turn on or off
- Volume Down:** Decrease volume
- 3.5mm Port:** Connect portable device

Wireless Dock - Rear

Front

Charging Contacts: Must touch headphone contacts to charge

Charging Light: Turns on when headphones are charging

Input: Change audio source

iPod Dock: Connect iPod to use as audio source

Audio In: Connect analog audio device

SPDIF: Connect digital audio device

Audio Out: Connect analog receiver or powered speakers

DC In: Connect power adapter

Hub/Client: Change Hub/Client mode

Pair: Connect dock to headphones wirelessly

Power: Press to turn on/off

Input Lights: The light corresponds to the input currently selected

SRS Lights: When SRS TruVolume or SRS TruSurround HD is on, the corresponding light is on

Dolby Digital Light: When playing a Dolby Digital source, the light is on (SPDIF only)

FIRST-TIME SETUP

1

Connect the power adapter to the **DC IN** port on the wireless dock.

2

Connect the other end of the power adapter to an electrical outlet.

Do not connect the travel charger to the dock.

3

Charge the headphones by placing them on the top of the wireless dock. Ensure the charging contacts are touching.

When the headphones are charging, the charging light is **on** and the power button on the headphones is **red**.

4

Allow the headphones to fully charge.

The headphones are fully charged when the charging light is **off** and the power button on the headphones is **off**.

5

Ensure the **HUB/CLIENT** switch is in the **HUB** position.

Turn on the wireless dock by pressing the **Power** button.

The wireless dock is on when the lights on the front are **on**.

6

Remove the headphones from the wireless dock. Turn on the headphones. Press and hold the **Power** button for **2 seconds**, then release.

When the headphones are on, the Power button is **green**.

7

The wireless dock and headphones are ready to use.

See *Listening to Your iPod* on page 6 or *Listening to Your Devices* on page 8.

LISTENING TO YOUR iPod

Complete *First-Time Setup* on page 4.

Locate the tray that fits your iPod/iPhone, then place it in the wireless dock. Trays can be removed by lifting from the fingernail slot.

Place your iPod/iPhone in the wireless dock. Ensure your iPod/iPhone is inserted completely.

Turn on the wireless dock by pressing the **Power** button.

The wireless dock is on when the front lights are on.

Remove the headphones from the wireless dock. Turn on the headphones. Press and hold the **Power** button for **2 seconds**, then release.

The headphones are on when the Power button is **green**.

5

OR

Press the **INPUT** button on the wireless dock or the **INP** button on the headphones until the input light on the wireless dock displays **iPod**.

6

You can also use the controls on your iPod/iPhone.

To play or pause your music, press the **Play/Pause** button on the headphones.

7

You can also use the controls on your iPod/iPhone.

To play the next track, press the **Next** button on the headphones.

To play the previous track, press the **Previous** button on the headphones.

8

To increase or decrease the volume, press the **Volume Up** or **Volume Down** buttons on the headphones.

When the headphones are at maximum or minimum volume, you will hear a tone.

LISTENING TO YOUR DEVICES

1

Complete *First-Time Setup* on page 4, then choose the best connection to the wireless dock. Connect a SPDIF/optical or RCA audio cable from your device to the wireless dock as shown.

Remember, you can connect two devices - one device to each port.

2

Turn on the wireless dock by pressing the **Power** button.

The wireless dock is on when the lights on the front are on.

3

Turn on the device you connected to the wireless dock.

4

Remove the headphones from the wireless dock. Turn on the headphones. Press and hold the **Power** button for **2 seconds**, then release.

The headphones are on when the Power button is **green**.

5

OR

Press the **INPUT** button on the wireless dock or the **INP** button on the headphones until the input light on the wireless dock displays **SPDIF** or **AUX (AUDIO IN)**.

6

You can now listen to your devices wirelessly using the headphones—up to 60 feet away!

USING THE DOCK TO PLAY YOUR iPod ON YOUR HOME STEREO

1

Complete *First-Time Setup* on page 4.

Connect your home stereo to the wireless dock using an RCA audio cable as shown.
(Devices differ—see your home stereo's user manual for details.)

2

Turn on the wireless dock by pressing the **Power** button.

The wireless dock is on when the lights on the front are on.

3

Turn on your home stereo.

Set your home stereo input to the port to which the wireless dock is connected.

4

Place your iPod/iPhone in the iPod dock.
Ensure your iPod/iPhone is inserted completely.

5

Press the INPUT button on the wireless dock until the input light
on the wireless dock displays **iPod**.

6

You can now share your iPod/iPhone music on your home stereo.
Use the controls on your iPod/iPhone to play, pause, or change tracks.
Use the volume controls on your home stereo to increase or decrease volume.

TRAVELING WITH YOUR HEADPHONES

Your headphones are comfortable, portable, and feature Noise Cancellation, all of which make them the perfect travel companion.

And because they feature a 3.5mm audio port, you can connect them to an in-flight entertainment system or your favorite media device.

Your headphones include the following travel accessories:

- 3.5mm Audio Cable
- Travel Charger
- Charging Cable
- Travel Case

For the best travel experience with your headphones, follow the tips on this page.

To charge the headphones, gently lift the rubber cover on the right side of the headphones and connect the charging cable.

Connect the other end of the charging cable to the travel charger, then plug the travel charger into an electrical outlet. You can also connect the charging cable to a USB port on your laptop.

Connect the 3.5mm cable to your iPod, iPhone, or other device. Connect the other end to the 3.5mm audio port on the headphones.

Only the Volume Up/Down, ANR, and Power buttons function when the headphones are connected with the 3.5mm cable.

When transporting the headphones, fold them as shown and place them in the travel case.

The travel case also has room for the 3.5mm cable, charging cable, and travel charger. Don't forget to bring them with you!

USING SRS TRUVOLUME AND SRS TRUSURROUND HD

What is SRS TruVolume?

SRS TruVolume eliminates volume spikes, enabling you to enjoy your music, television, movies, and other media at a comfortable and consistent volume level.

What is SRS TruSurround HD?

SRS TruSurround HD provides an enhanced listening experience for your music, movies, games, and other media. SRS technology creates “phantom” speakers that seem to extend all around the listener, producing an amazing surround sound effect. TruSurround HD includes the functionality of SRS WOW HD to present an expansive three dimensional sound field.

Can I use TruVolume and TruSurround HD at the same time?

Yes.

To turn SRS TruVolume on or off, press the **SRS** button on the left side of the headphones. When TruVolume is on, the SRS TruVolume light is **on**.

To turn SRS TruSurround HD on or off, press and hold the **SRS** button for **2 seconds**. When TruSurround is on, the SRS TruVolume light is **on**.

USING ACTIVE NOISE CANCELLATION

What is Active Noise Cancellation?

Active Noise Cancellation (ANR) reduces unwanted background noise so you can enjoy your music and media.

How does Active Noise Cancellation work?

Your headphones incorporate technology that detects loud, continuous noises. The headphones then generate a signal that interferes with the unwanted noise. Now you can listen to music or media without distractions.

Where does Active Noise Cancellation work best?

ANR works best when reducing continuous humming sounds, like vacuum cleaners, lawn mowers, or airplane and bus engines. This makes your headphones an ideal travel accessory!

To use active noise cancellation, press the **ANR** button on the left side of the headphones.

When active noise cancellation is on, the **ANR** button light is **on**.

WIRELESS HD AUDIO (WHDA)

UNWIRE YOUR HOME THEATER

Break the constraints of unsightly cables and wires. Free your sound systems from the limitations of their cords. Unleash your audio and bring a whole new listening experience to your HDTV system. Introducing VIZIO's intelligent, Wireless HD Audio (WHDA) featuring Dolby Digital, SRS TruSurround™ and SRS TruVolume™.

CRYSTAL CLEAR AUDIO

Never before has sound been like this. Our new Wireless HD Audio Technology allows you to hear even the most minute sounds the way they were intended to be heard—with accuracy and clarity. After all, sound is one of the most important parts of the picture. Don't miss it.

WHOLE HOME AUDIO

Picture this. A home audio system that truly encompasses every room of your house. Plug in your Wireless Dock for iPod and listen to your favorite tunes as you move from room to room. Hear the lines from your favorite movie as you go from the living room to the back porch. Never miss the play-by-play as you pile the goodies on your mammoth burger during the big game. That's the beauty of Wireless Audio from VIZIO.

**Your new wireless headphones work with other WHDA products!
For more information on Wireless HD Audio, visit www.VIZIO.com.**

There is no power.

- Fully charge the battery each time you charge the headphones. See *First-Time Setup* on page 4.
- Press the Power button on the rear of the wireless dock. Ensure the lights on the front of the dock are on.
- Press and hold the **Power** button for **2 seconds** to turn the headphones on.
- Ensure the power adapter for the wireless dock, not the travel charger, is securely connected to the DC IN port.

There is no sound.

- Increase the volume. Press **Volume Up** on the headphones and/or on your device.
- Ensure the headphones are on and within range of the wireless dock (up to 60 feet).
- If connected with the 3.5mm cable, ensure the cable is securely connected to your device and to the headphones. You may need to increase the volume on both your device and the headphones.
- Ensure the HUB/CLIENT switch is in the HUB position.
- Press the INPUT button until the light on the front of the wireless dock matches the input to which you want to listen.

The buttons on the headphones do not control my music player.

- The buttons on the headphones only control iPod/iPhone.
- The iPod/iPhone must be connected to the wireless dock. See *Listening to the iPod Dock* on page 6.

The Power button on the headphones is blinking green and there is no sound.

- Pair the headphones to the wireless dock:
 1. Turn off the headphones and wireless dock.
 2. Turn on the wireless dock. Press and hold the **PAIR** button for **7 seconds**. The lights on the dock begin to blink.
 3. Press and hold the **Power** button on the headphones for **7 seconds**.
When the pairing is complete, the lights on the dock and headphones stop blinking.

The headphones do not charge when placed on the wireless dock.

- Ensure the dock is plugged into a working electrical outlet with the power adapter for the wireless dock.
- Ensure the metal contacts on the headphones are touching the metal pins on the wireless dock. When the headphones are charging, the charging light on the top of the wireless dock is on.
- Try charging the headphones using the travel charger and cable. See *Traveling with Your Headphones* on page 12.

When I connect my device with an RCA audio cable, there is low or no volume

- Ensure the RCA audio cable is connected to the AUDIO OUT port on your device and the AUDIO IN port on the dock.
- Some devices, such as TVs, support variable audio out over RCA audio cables. Set your device to “fixed” or “line level” audio out. (Devices differ—see your device’s user manual for details.)
- If your device does not support the “fixed” or “line level” setting, increase the volume on the device.

I hear static, the sound quality is low, or my music drops out.

- Ensure you are in range of the wireless dock (up to 60 feet). Range is affected by obstructions (walls, furniture) between the headphones and the dock.
- You may be hearing interference from other wireless devices. Try repositioning the dock away from other devices or adjusting the wireless settings on your other devices. (See your device’s user manual.)

I hear beeping in the headphones.

- When the headphones need charging, you will hear a beep every few minutes. Charge the headphones. See *First-Time Setup* on page 4 or *Traveling with Your Headphones* on page 12.
- When the headphone volume is at maximum or minimum, you will hear a beep. This is normal.

When I connect my device with a SPDIF/optical cable, there is no sound.

- Your device may be sending audio in an unsupported format. Change your device to output PCM or Dolby Digital Bitstream. Other audio formats, such as DTS, are not supported. (Devices differ—see your device’s user manual for details.)

ONE-YEAR LIMITED WARRANTY

ON PARTS AND LABOR

Covers units purchased as new in United States and Puerto Rico Only

VIZIO provides a warranty to the original purchaser of a new Product against defects in materials and workmanship for a period of one year of non-commercial usage and ninety (90) days of commercial use. If a Product covered by this warranty is determined to be defective within the warranty period, VIZIO will either repair or replace the Product at its sole option and discretion.

To obtain warranty service, contact VIZIO Technical Support via email: TechSupport@VIZIO.com or via phone at 877 MY VIZIO (877.698.4946) from 6:00AM to 9:00PM Monday through Friday and 8:00AM to 4:00PM Saturday and Sunday, Pacific Time, or visit www.VIZIO.com. PRE-AUTHORIZATION MUST BE OBTAINED BEFORE SENDING ANY PRODUCT TO A VIZIO SERVICE CENTER. Proof of purchase in the form of a purchase receipt or copy thereof is required to show that a Product is within the warranty period.

Parts and Labor

There will be no charge for parts or labor during the warranty period. Replacement parts and Products may be new or recertified at VIZIO's option and sole discretion. Replacement parts and Products are warranted for the remaining portion of the original warranty or for ninety (90) days from warranty service or replacement, whichever is greater.

Type of Service

Defective Products must be sent to a VIZIO service center to obtain warranty service. VIZIO is not responsible for transportation costs to the service center, but VIZIO will cover return shipping to the customer. PRE-AUTHORIZATION IS REQUIRED BEFORE SENDING ANY PRODUCT TO A VIZIO SERVICE CENTER FOR WARRANTY SERVICE. Product returns to VIZIO's service centers must utilize either the original carton box and shipping material or packaging that affords an equal degree of protection. VIZIO

Technical Support will provide instructions for packing and shipping the covered Product to the VIZIO service center.

Limitations and Exclusions

VIZIO's one-year limited warranty only covers defects in materials and workmanship. This warranty does not cover, for example: cosmetic damage, normal wear and tear, improper operation, improper voltage supply or power surges, signal issues, damages from shipping, acts of God, any type of customer misuse, modifications or adjustments, as well as installation and set-up issues or any repairs attempted by anyone other than by a VIZIO authorized service center. Products with unreadable or removed serial numbers, or requiring routine maintenance are not covered. This one year limited warranty does not cover Products sold "AS IS", "FACTORY RECERTIFIED", or by a non-authorized reseller.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED OR DESCRIBED ABOVE. ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED IN DURATION TO THE PERIOD OF TIME SET FORTH ABOVE. VIZIO'S TOTAL LIABILITY FOR ANY AND ALL LOSSES AND DAMAGES RESULTING FROM ANY CAUSE WHATSOEVER INCLUDING VIZIO'S NEGLIGENCE, ALLEGED DAMAGE, OR DEFECTIVE GOODS, WHETHER SUCH DEFECTS ARE DISCOVERABLE OR LATENT, SHALL IN NO EVENT EXCEED THE PURCHASE PRICE OF THE PRODUCT. VIZIO SHALL NOT BE RESPONSIBLE FOR LOSS OF USE, LOSS OF INFORMATION OR DATA, COMMERCIAL LOSS, LOST REVENUE OR LOST PROFITS, OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE. THIS WARRANTY IS SUBJECT TO CHANGE WITHOUT NOTICE. CHECK www.VIZIO.com FOR THE MOST CURRENT VERSION.

INFORMATION ON HEARING DAMAGE

Understanding Noise Induced Hearing Loss

Exposure to loud sounds can damage your hearing, causing hearing loss and tinnitus (ringing or buzzing in the ears). While a variety of things can lead to hearing loss, including aging and side effects of certain medications, the most common cause of non-age-related hearing damage is loud noise. Extremely loud sounds, such as gun shots or firecrackers at close range, can cause immediate hearing damage. Hearing damage can also occur over time due to repeated exposure to loud sounds such as industrial noise or loud music. With continued exposure to loud noises, ears may become accustomed to the sound level, which may result in permanent damage to hearing without any noticeable discomfort.

Temporary and Permanent Hearing Loss

Noise induced hearing loss and tinnitus may be temporary or permanent. Ears typically recover from temporary hearing damage in a short time. However, ears may not recover completely, and some damage may be permanent. Repeated exposure to loud sound can cause more and more damage, and eventually lead to serious hearing problems. Scientists generally agree that, over time, exposure to harmful levels of noise can lead to permanent noise induced hearing loss by damaging and/or destroying the inner ear's sensory hair cells.

Loud Sounds + Time = Hearing Loss

The more time you spend exposed to loud sounds, the more likely you are to damage your hearing. All of the loud sounds that you are exposed to during a day add up - continued exposure to loud sounds can prevent your ears from recovering and also cause additional damage.

Symptoms of Hearing Loss

While not all noise induced hearing loss is noticeable, symptoms may include a sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech. If you experience these symptoms or believe you may have experienced noise induced hearing loss, you should have your hearing checked by an ear doctor or audiologist.

CARE & MAINTENANCE

Do not use volatile solvents (such as toluene, rosin, or alcohol) to clean this product. Such chemicals may damage it. Do not spray cleaners directly on the product. To clean the wireless dock or headphones, gently wipe them with a clean, dry, soft cloth.

LEGAL & COMPLIANCE

FCC Class B Radio Interference Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Notice:

1. The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
2. Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.
3. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification to this equipment. It is the responsibilities of the user to correct such interference.

TECHNICAL SUPPORT

Products are often returned due to a technical problem rather than a defective product that may result in unnecessary shipping charges billed to you. Our trained support personnel can often resolve the problem over the phone. For more information on warranty service or repair, after the warranty period, please contact our Support Department at the number below.

Customer support and quality service are integral parts of VIZIO's commitment to service excellence. For technical assistance contact our VIZIO Technical Support Department via email or phone. Please have your VIZIO model number, serial number, and date of purchase available before your call.

Address: 39 Tesla
Irvine, CA 92618, USA
Phone: (877) 698-4946
Fax: (949) 585-9563
Email: techsupport@vizio.com
Web: www.vizio.com

Hours of operation:
Monday - Friday: 6 am to 9 pm (PST)
Saturday - Sunday: 8 am to 4pm (PST)

RF Exposure Information

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. This device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

IC Statement

Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

IC Radiation Exposure Statement

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Disposal and Recycling

You must dispose of this product properly, according to local laws and regulations. Because this product contains electronic components and a battery, it must be disposed of separately from household waste. Contact local authorities to learn about disposal and recycling options.

Made for iPod and Made for iPhone

"Made for iPod" and "Made for iPhone" mean that an electronic accessory has been designed to connect specifically to iPod or iPhone, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod or iPhone may affect wireless performance.

SPECIFICATIONS

Speakers: 40mm Neodymium Drivers
Sensitivity 96±3 dB 1mW at 1.5mm
Distortion: 1KHz < 10%
Impedance: 32 Ohm ± 20% at 1KHz
SPL: 110 dB SPL per 1mW
Battery Power: Battery - 940mAh
Voltage: Adapter - 100V~240V
Dimensions: Headphones - 7.38" x 7.33" x 2.88" (187.55 x 186.11 x 73.13mm)
Dock - 8.64" x 7.82" x 3.58" (219.45 x 198.60 x 90.75mm)
Certifications: SRS Circle Surround, SRS TruVolume, Dolby Digital,
Made for iPod
Compliances: FCC, IC
