**HT820
Bluetooth®
Stereo Headphones**

USE THE HT820

Before using this product, read the Important Safety and Legal Information pamphlet and follow its instructions.

You can use your HT820 headphones simultaneously with a Bluetooth A2DP enabled audio device and your Bluetooth cell phones!

- Listen to music, hear a beep, and transfer to take the call on the headphones. Hang up the call with a push of a button and your music automatically continues playing.

Ready to make it work?

- Charge your Headphones for 2 Hours (CHARGE)
- Pair headphones & audio device (PAIR)
- Pair phone & headphones (back side of this guide)
- Listen to music and take calls!

**The Bluetooth Enabled Audio Device must be A2DP compatible*

1 CHARGE Your Headphones' Battery

Before using your HT820 for the first time, charge the headphones for 2 hours:

- 1 Plug the Motorola charger into the headphones. The indicator light turns on when the battery is charging. When the headphones' battery is fully charged, the indicator light turns off.

- 2 Disconnect the charger.
Note: Headphones do not function while charging.

You can also use a Motorola Original™ Vehicle Power Adapter to charge your headphones while in your vehicle.

A fully charged battery provides approximately: 14 hrs of music listening, 17 hrs of talk time, or 500 hrs of standby time.

2 PAIR

Before you can use your headphones with a Bluetooth enabled product, you must pair it with that product. To pair:

- 1 Make sure your headphones are turned off (see *Turning On and Off*) and press and hold the left side Call  button for 6 seconds until the indicator light turns on and remains steadily lit.

Call Button with Indicator Light (Left Side)

- 2 Next, put your Bluetooth Enabled audio device in pairing mode so the devices can "talk" to each other.

For details about putting Bluetooth Enabled devices in pairing mode, refer to the device's User's Guide for directions.

Note: To pair the headphones with your phone, see "Pair with your Phone," on the reverse side of this guide.

③ TEST AND USE Your Headphones & Audio Device

Your headphones are successfully paired with a device and ready to use when the blue indicator lights changes from steadily lit, flashes rapidly, and then slowly flashes.

To confirm they are operating properly:

- 1 Place the headphones on your head. See *Wear the Headphones* in this guide.
- 2 Start playing music on the audio device. If your headphones are successfully paired, you will hear music in the headphones.

Note: You may need to wait several seconds before hearing music in the headphones while the devices connect.

See *Music Controls* for information about using the HT820 volume and playback controls.

After successfully pairing, you do not need to repeat these initial setup steps each time you use the headphones. Just power on both devices and they automatically connect.

TURN ON AND OFF

To turn your headphones on, press and hold the left side Call  button until the indicator light flashes 3 times (about 3 seconds). Then, release the button.

To turn your headphones off, press and hold the left side Call  button until the indicator light flashes rapidly and then turns off (about 3 seconds).

To conserve battery power, turn off the headphones when you will not be using it.

WEAR THE HEADPHONES

Your headphones are designed to be worn comfortably with the neck band positioned behind your head.

The microphone is located in the right ear-piece. Digital Signal processing is used for clear pick-up of your voice during voice calls.

CONNECT SIMULTANEOUSLY

Simultaneous connect your headphones with a music device AND your phone!

Pair the headphones to the music device (PAIR). Then pair the headset with your phone (backside of guide). Power your headphones off and then back on. After a few moments it will connect with both the music device and phone.

Any Bluetooth Enabled Audio Device*

Bluetooth Enabled Phone

Note: The remote control functions only work when the headphones are directly connected to source device, via Bluetooth.

MUSIC CONTROLS

Left Side

Right Side

To adjust the volume, press the **+** or **-** buttons on the left side of your headphones.

To Skip Back to the previous song: Press the Skip Reverse Button **⏮** on the right side of your headset.

To Skip forward to the next song: Press the Skip Forward Button **⏭**

To Play, Pause, or Stop music: Press the Music Button **⏸** to play, pause, or stop the music.

To connect non-Bluetooth Devices to your headphones: Use the headphone jack and the included cable.

TROUBLESHOOTING

Are you having sound interruption or connection issues?

- Bluetooth as a wireless technology could be subject to interference of other wireless traffic existing in your environment. Try turning your headphone off and back on. This automatically resets the connection.
- If you experience audio interruptions while the headphone is connected to both music source and a Bluetooth phone, disconnecting the phone will eliminate the audio interruptions.

Features and Functions Guide

HT820 Bluetooth® Stereo Headphones

IMPORTANT:

Be sure to first follow the

MOTOSTART

Quick Start Guide

on the reverse side of this guide to complete initial setup of your HT820.

1

PAIR with YOUR PHONE

START BLUETOOTH Feature

Your phone's Bluetooth feature is off by default. So, to use your headset, you must turn on the Bluetooth feature in your phone.

For most Motorola phones:

- 1 Select **☰ (Menu) > Settings > Connection > Bluetooth Link > Setup.**
- 2 Scroll to **Power.**
- 3 Press **Change.**
- 4 Scroll to **On.**
- 5 Press **Select** to turn on the Bluetooth feature. Bluetooth feature remains on until you turn it off.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

Step **A**

PUT HEADPHONES IN PAIRING

Make sure your headphones are turned off. If your headset is on, turn it off by pressing and holding the left side Call  button until the indicator light flashes 3 times (about 3 seconds).

Music Button with
Indicator Light
(Right Side)

Call Button with
Indicator Light
(Left Side)

Note: For more details, see "Pair," Step 1 on the reverse side of this guide.

Step **B**

SET THE PHONE TO LOOK FOR YOUR HEADPHONES

For most Motorola phones:

- 1 Select  (Menu) > **Settings** > **Connection** > **Bluetooth Link** > **Handsfree** > **Look for Devices**.

The phone lists all Bluetooth devices it finds.

- 2 Select **Motorola HT820**.
- 3 Press **OK** or **Yes** to pair (link) the handsfree device.
- 4 Enter the passkey **0000** and press **OK**.

Note: Passkey cannot be changed from 0000.

When your headphones are successfully paired with your phone, the blue indicator light rapidly flashes and then resumes regular flashing.

Note: These steps are for most Motorola phones. For other phones, see your phone's user's guide.

2 TEST AND USE

Your Headphones & Phone

Your phone and headphones are now paired and ready to make and receive calls. To confirm they are operating properly, make a call:

- 1 Place the headphones over your ear. See *Wear the Headset* on the reverse side of this guide.
- 2 On your phone, dial the number you want to call and press the Send key.
- 3 If your phone and headphones are successfully paired, you will hear ringing in the headphones.

See *Make Calls* for details regarding answering and ending calls using the headset.

After you have successfully paired your phone and headphones, you do not need to repeat these initial setup steps each time you use the headphones. Just turn the power on and they will automatically connect.

SUPPORT

If you need more help, contact us at **1-877-MOTOBLU**.

This symbol on a Motorola product means the product should not be disposed of with household waste. Please do not dispose of mobile telephones or electric accessories, such as chargers or headsets, with your household waste.

MAKE CALLS

Function	Action
Make a voice dial call	Short press left  button & speak the name after the tone
End a call	Short press left  button
Receive a call	Short press left  button
Reject a call	Long press left  button until ringing stops. Call ignored.
Redial last call	Long press left  button
Answer a second incoming call	Press and hold the Call button (places first call on hold)

Note: Your HT820 supports both Handsfree and Headset Profiles. Accessing call functions depends upon which profile your phone supports. See your phone's user's guide for more information.

MAKE CALLS *CONTINUED*

Function	Action
Use Call Waiting	Long press left  button, 1st call put on hold. 2nd call becomes active.
Join a 3-way call (Note: Feature is phone/network dependent.)	Press both volume buttons   for approx. 2 seconds at the same time. Both calls become active.
Put an active call on hold or resume a call on hold	Long press left  button
Mute a call	Press the volume buttons   at the same time.
Unmute a call	Press the volume buttons   at the same time.

INDICATOR LIGHTS

The indicator light provides information about your headphone status.

With the Charger Plugged In

Headphone Indicator	Status
On (steady)	Charging
Off	Charging complete

With No Charger Plugged In

Headphone Indicator	Status
Off	Power off
On (steady)	Pairing mode
10 rapid flashes	Pairing successful
Slow pulse	Connected

To turn off the indicator lights, press both  and  at the same time. To turn the indicator lights back on, press both  and  at the same time.

AUDIO TONES

The audio tones provide information about your headphone status.

Audio Tone	Headphone Status
Single high tone when pressing volume button	Volume at minimum or maximum
Five rapid high tones repeated every 60 sec.	Low battery
No audio indications; deteriorating quality	Out of range
Ring tone	Incoming call
Single high tone	Pairing confirmation
Single low tone	Voice activation
Dual high/low tone	Voice tag not recognized
Single high tone	End call
Low to high tone	Phone network not available
Two tones	Mute on / off
Single tone	Power on / off
