# Seamless Flow of Entertainment — No Missing Link Here

Pioneer proudly presents a range of components that reaches out with significantly enhanced connections. The VSX-1018AH A/V receiver offers the equivalent of the original sound track with Dolby TrueHD and DTS-HD Master Audio — the highest quality audio formats available — to complement the high definition videos provided by Blu-ray discs. The A/V receiver lineup includes 1080p transfer feature via HDMI output, and enhanced USB connection for digital audio transfer from iPod and USB devices. By connection with DV-610AV or DV-410V DVD player and a flat screen TV, HDMI direct digital transfer ensures lossless, high-resolution picture from source to screen. The DVR-660H/DVR-560H DVD recorders even let you enjoy DivX and other audio and video files from your PC, by a simple USB connection. Feel the new world of digital entertainment at your fingertips.

# Feature Highlights of the New A/V Receivers

Pioneer presents an advanced lineup of A/V receivers for creating the next generation home theatre. High-definition Blu-ray has brought a new dimension to audio as well as visual potentials. With Pioneer's new A/V receivers, you can enjoy the benefits of the new generation audio formats, such as DTS-HD Master Audio and Dolby TrueHD, or play music from iPod and other portable digital devices with improved connectivity via USB.

## Innovations for Superior Sound

### Phase Control — An Innovation for Multi-Channel Sound Compensation (VSX-1018AH, VSX-918V, VSX-818V, VSX-518)

When amplifying multi-channel audio signals, receivers use Low Pass Filter (LPF) for processing low-frequency signals for subwoofer output. This extra process causes "phase lag", or approximately 5 msec delay of low-frequency signals with respect to those of main channels. The delayed bass affects the quality of main-channel sound and makes the sound lack synchronisation.

Pioneer's latest A/V receivers incorporate original Phase Control technologies, which apply a new bass management system to effectively compensate for the phase lag between subwoofer channel and the main channels. This significantly improves the multi-channel sound without any extra operation.

The "Phase Control" Compensates for the Delay of Low-Frequency Sound

### USB Connection for iPod and USB Devices (VSX-1018AH, VSX-918V, VSX-818V)

You can easily enjoy music from iPod and other USB devices by plugging the cable into the front USB terminal. The lossless digital transfer provides high-quality sound for your music. Your iPod or USB device can be operated with the remote control and OSD display.

\* iPod is a trademark of Apple Computer, Inc., registered in the U.S. and other countries.

### Auto Level Control Volume Management System (VSX-1018AH, VSX-918V, VSX-818V, VSX-518)

The new feature equalises volume level differences between tracks when playing from iPod or other portable audio players. The playback volume is maintained at a consistent level, so there is no need to make adjustments for each song.

### Create an Ideal Acoustic Environment with Ease — with MCACC (Multi-Channel Acoustic Calibration System) (VSX-1018AH, VSX-918V, VSX-818V)

MCACC allows you to duplicate the acoustic environment of the mixing studio, where recordings and soundtracks are mixed and mastered. With the Pioneer A/V receivers, the system — complete with a microphone — compensates for differences in speaker size, speaker level, and speaker distance, and equalises response with 9-Band (VSX-1018AH) or 5-Band (VSX-918V, VSX-818V) EQ, all automatically.

### Acoustic Calibration by MCACC

Before Calibration

Speaker distance, sound pressure level, and frequency response are all uneven.

After Calibration

Speaker distance, sound pressure level, and frequency response are all equalised.

The sound field is automatically measured using the supplied mic.

Calibration

Speaker sizes and number of speakers are automatically detected.

Moreover, the VSX-1018AH has a double expanded range for acoustic measurements from 0 to 160 msec including the direct sound area. You can make automatic or manual selection of the equalisation point for more precise acoustic adjustments suited to your room environment.

**VSX-1018AH-S** A THX Select2 Plus certified 7.1-channel A/V receiver featuring DTS-HD/Dolby TrueHD new generation audio formats, 180 W x 7ch power, Phase Control, Advanced Sound Retriever, Advanced MCACC, HDMI repeater, USB Memory Audio Ready, and iPod® Digital Playback (Made for iPod)

## New Generation Audio Formats

► DTS-HD/Dolby TrueHD decoders

## Pioneer-Exclusive Innovations

► Phase Control (Bass management system ensures precision low frequency output)

► Advanced MCACC setup with 9-band EQ

► Advanced Sound Retriever (for enhanced PC and portable audio)

► Standing Wave Control

► Front Stage Surround Advance

► Auto Level Control

• Advanced Direct Energy Power Amplifier

## Features for Superior Sound Quality

► Maximum power (6 ohms): 180 W x 7ch

• Digital Core Engine with Freescale 400MIPS Processing DSP

• 192 kHz/24-bit DAC

## Surround Sound Technologies

► THX Select2 Plus certified

• DTS-ES/DTS 96/24/Dolby Digital EX/Dolby Digital Plus decoders

• WMA9 Pro decoder

• Audio delay for adjusting Lip Sync (0-200 ms)

• Dialogue Enhancement

• Stream Direct (for pure and unprocessed digital sound)

## Enhanced Convenience

► HDMI repeater (2 in/1 out), x.v.Colour, Deep Colour compatible

► iPod player digital direct via USB

► USB memory audio ready (USB Host function)

► Digital video converter (up to HDMI)

► KURO LINK

• SR+ terminal (Control your A/V receiver via Pioneer plasma TV remote sensor)

\* x.v.Colour is a trademark of Sony Corporation.

### HDMI with Deep Colour (VSX-1018AH)

The VSX-1018AH supports Deep Colour with ultra-high colour depth of up to 36 bit, allowing smooth colour transitions, finest colour gradation steps, and a dramatically improved contrast ratio.

Rear Panel

### Digital Video Converter with HDMI Output (VSX-1018AH)

## New Generation Audio Formats

### DTS-HD Master Audio (VSX-1018AH)

The VSX-1018AH features DTS-HD Master Audio decoder for playing the highest quality audio format. With DTS-HD Master Audio, you can enjoy sound that is bit-for-bit identical to the studio master. DTS-HD Master Audio delivers audio at extremely high variable bit rates of 24.5 Mbps, which far exceeds standard DVDs. DTS-HD Master Audio offers movies and music in the pure, original state as intended by the artists.

\* DTS is a registered trademark & the DTS logo and Symbol are trademarks of DTS, Inc.

### Dolby TrueHD (VSX-1018AH)

The VSX-1018AH comes with Dolby TrueHD decoders. This new audio format delivers sound that is on par with the original soundtrack, letting you experience the world of true high-definition entertainment from Blu-ray Discs. With lossless encoding in up to 18 Mbps bit rate, Dolby TrueHD creates a synergy with high-definition video to offer you a home theatre experience like never before.

\* Dolby, Dolby TrueHD, Pro Logic II, Dolby Digital EX, and the double-D symbol are registered trademarks of Dolby Laboratories.

## Home Theatre Sound

### THX Select2 Plus Certified (VSX-1018AH)

THX is a Lucasfilm Ltd. programme created to achieve maximum accuracy in the reproduction of movie sound. The VSX-1018AH has adhered to rigorous guidelines for sound purity, power output and processing capabilities required for the certification. The latest THX Select2 Plus certification offers a wide array of listening modes for enhanced entertainment, delivering sounds just as they were mixed in the studio, regardless of volume level.

\* The THX logo is a trademark of THX Ltd., which may be registered in some jurisdictions.

## VSX-918V-S

A 5-channel A/V receiver featuring 160 W x 5ch power, Phase Control, Advanced Sound Retriever, Auto MCACC with 5-band EQ, Front Stage Surround Advance, HDMI repeater, and iPod® Digital Playback (Made for iPod)

## VSX-818V-K(-S)

A 5-channel A/V receiver featuring 160 W x 5ch power, Phase Control, Advanced Sound Retriever, Auto MCACC with 5-band EQ, Front Stage Surround Advance, HDMI switching, and iPod® Digital Playback (Made for iPod)

### Pioneer-Exclusive Innovations

- ▶ **Phase Control** (Bass management system ensures precision low frequency output)
- ▶ **Auto MCACC setup with 5-band EQ**
- ▶ **Advanced Sound Retriever** (for enhanced PC and portable audio)
- ▶ **Front Stage Surround Advance**
- ▶ **Auto Level Control**
- New Pioneer Hybrid Amplifier Design II (for audiophile sound reproduction)

### Features for Superior Sound Quality

- ▶ **Maximum power (8 ohms): 160 W x 5ch**
- Advanced Digital Core Engine with Freescale 180MIPS 48-bit Processing DSP
- 192 kHz/24-bit DAC

### Surround Sound Technologies

- DTS/DTS 96/24/Dolby Digital/Dolby Pro Logic II decoders
- WMA9 Pro decoder
- Audio delay for adjusting Lip Sync (0-160 ms) (VSX-918V-S)
- Dialogue Enhancement
- Stream Direct (for pure and unprocessed digital sound)

### Enhanced Convenience

- ▶ **HDMI repeater (1080p, x.v.Colour compatible) (VSX-918V-S)**
- ▶ **HDMI switching (1080p compatible) (VSX-818V-K(-S))**
- ▶ **iPod player digital direct via USB**
- ▶ **USB memory audio ready (USB Host function)**
- Portable audio player ready (analogue connection via front audio jack)
- SR+ terminal (Control your A/V receiver via Pioneer plasma TV remote Sensor) (VSX-918V-S)

VSX-918V-S

VSX-818V-K  
Silver Finish Also Available (VSX-818V-S)

Rear Panel of VSX-918V (Same for VSX-818V, except it does not have SR+ terminals)

### Portable Audio Player Ready (VSX-918V, VSX-818V)

A USB and a 3.5 mm mini audio jack are located on the front panel, for easy connection with a portable audio player. The music you usually listen to on the headphones can be shared with your friends and family in the living room via the A/V system.

### Pioneer Hybrid Amplifier Design II — for Audiophile Sound Reproduction (VSX-918V, VSX-818V, VSX-518)

Pioneer Hybrid Amplifier Design II uses a newly selected module, for improved sound quality and total harmonic distortion (THD). The output transistors feature lower base capacitors than the previous model, realising wider range of current drive stage. The module has also decreased in size, and the smaller feedback loop minimises influences from the noise. Parts have been carefully selected, such as the power amplifier capacitors chosen by listening tests, and the pre-amp IC which minimises the signal path in Direct mode.

### HDMI Repeater (VSX-918V)

The VSX-918V comes with the HDMI repeater feature, allowing full-digital transfer of high-quality audio as well as up to 1080p video signals. It also supports x.v.Colour, which can display rich textures and three-dimensional images for enhanced visual entertainment.

### HDMI Switching (VSX-818V)

The HDMI switching feature on the VSX-818V provides full-digital transfer of up to 1080p high-definition video signals.

\* Analogue and/or digital connections necessary to hear audio from an HDMI component.

## VSX-518-S(-K)

A 5-channel A/V receiver featuring 160 W x 5ch power, Phase Control, Advanced Sound Retriever, and Front Stage Surround Advance

### Pioneer-Exclusive Innovations

- ▶ **Phase Control** (Bass management system ensures precision low frequency output)
- ▶ **Advanced Sound Retriever** (for enhanced PC and portable audio)
- ▶ **Front Stage Surround Advance**
- ▶ **Auto Level Control**
- New Pioneer Hybrid Amplifier Design II (for audiophile sound reproduction)

### Features for Superior Sound Quality

- ▶ **Maximum power (8 ohms): 160 W x 5ch**
- Digital Core Engine with Freescale 180MIPS 48-bit Processing DSP
- 192 kHz/24-bit DAC

### Surround Sound Technologies

- DTS/DTS 96/24/Dolby Digital/Dolby Pro Logic II decoders
- WMA9 Pro decoder
- Dialogue Enhancement
- Auto Surround
- Stream Direct (for pure and unprocessed digital sound)

### Enhanced Convenience

- Quick setup
- Portable audio player ready (analogue connection via front audio jack)
- SR remote control

Black Finish Also Available (VSX-518-K)

Rear Panel (VSX-518-S)

## HTP-4900

**Audio Receiver + 5.1-Channel Speaker System**  
A package designed to complement your TV, with slim floor standing speakers and a powerful subwoofer for full surround sound

### SX-217-S Audio Receiver

- ▶ **Maximum power (8 ohms): 130 W x 6ch**
- ▶ **Sound Retriever** (Restores the quality of compressed audio)
- ▶ **WMA9 Pro decoder**
- DTS 96/24/Dolby Digital/Dolby Pro Logic II decoders
- ▶ **Portable audio player ready** (analogue connection via front audio jack)

### S-FCR4700 Multi-Channel Surround Sound Speaker System

- Dimensions (W x H x D)
  - Front/Surround: 260 x 1096.5 x 260 mm, Centre: 270 x 96 x 90 mm
- Weight
  - Front/Surround: 4.2 kg, Centre: 0.78 kg
- Impedance: 8 ohms

### S-W3700 Subwoofer

- Dimensions (W x H x D): 190 x 360 x 320 mm
- Weight: 4.0 kg

A 3.5 mm audio jack input on the front panel permits analogue connection with portable audio players at ease.

## HTP-2900

**Audio Receiver + 5.1-Channel Speaker System**  
A package including compact speakers and a powerful subwoofer for dynamic multi-channel entertainment

### SX-217-S Audio Receiver

- ▶ **Maximum power (8 ohms): 130 W x 6ch**
- ▶ **Sound Retriever** (Restores the quality of compressed audio)
- ▶ **WMA9 Pro decoder**
- DTS 96/24/Dolby Digital/Dolby Pro Logic II decoders
- ▶ **Portable audio player ready** (analogue connection via front audio jack)

### S-FCRW2900-S Multi-Channel Surround Sound Speaker System

- Dimensions (W x H x D)
  - Front/Surround: 100 x 136 x 80 mm, Centre: 270 x 96 x 90 mm, Subwoofer: 190 x 360 x 320 mm
- Weight
  - Front/Surround: 0.55 kg, Centre: 0.78 kg, Subwoofer: 4.0 kg
- Impedance: 8 ohms

Optional iPod Dock for Pioneer A/V Receivers

IDK-01

Universal iPod Dock for A/V Receivers

Remote control and AC adaptor included.

- Enjoy iPod music through your Pioneer A/V receiver and home theater speakers
- View iPod video and photos on your TV
- TV on-screen menu display of your music, photo, and video library
- Automatically charges iPod

Feature Highlights of the New DVD Players

Since introducing the world's first Laser Disc player in 1980, Pioneer has remained at the forefront of optical disc innovations. As the leader in home entertainment products, we have taken advantage of our extensive engineering expertise to offer DVD players featuring the best of optical disc technologies. This year, our lineup is further enhanced with high resolution HDMI output to a flat screen TV, and close linkage with the latest PC file formats — deserving to be called the ultimate multimedia player.

HDMI Interface (DV-610AV, DV-410V)

These Pioneer DVD players feature HDMI (High Definition Multimedia Interface), an industry-supported, uncompressed, all-digital audio/video interface. For example, combine the DVD player with our VSX-1018AH A/V receiver and a flat screen TV, and HDMI's all-digital signal processing gives you superior pictures and sound — with no loss. It does this by allowing transmission of both audio and video signals with no D/A or A/D conversion, through a single-cable connection. The units are even capable of 1080p upscaling.

\* The above DVD players allow output of Linear PCM (2-channel) and compressed audio (Dolby Digital, DTS, and MPEG). The DV-610AV also allows 5.1-channel Linear PCM and 2-channel/5.1-channel DSD output. 24 Hz is not supported with HDMI 1080p output.

Versatile Parameters for Video Control

All Pioneer DVD players feature the Video Adjust function which allows versatile image control for customised picture quality. You can adjust Sharpness, Brightness, Contrast, Gamma, Hue, and Chroma Level. The DV-610AV also has the Block Noise Reduction and Ringing Noise Reduction functions.

DivX<sup>®</sup> Video Playback

The DVD players allow playback of DivX<sup>®</sup> videos from CD-R/-RW and DVD-R/-RW discs, and from USB memory with DV-610AV, DV-510K, DV-410V, and DV-310. DivX<sup>®</sup> is a popular media technology including digital video, which ensures a high compression rate and fast transfer speed without appreciably compromising the picture quality. Create a DivX<sup>®</sup> movie on your PC, burn it to a disc, and play it on the Pioneer DVD players.

What's more, the DV-610AV is an official DivX<sup>®</sup> Ultra Certified product. This means the unit lets you enjoy DivX<sup>®</sup> media files with interactive features like DVD Video — including menus, selectable subtitle languages/audio tracks, and so on.

\* DivX, DivX Ultra Certified, and associated logos are trademarks of DivX, Inc. and are used under license.

WMV Playback (DV-610AV, DV-410V)

These DVD players are compatible with WMV 9 (Windows Media<sup>®</sup> Video), the latest high-resolution high-compression video format used by Windows Media<sup>®</sup> Encoder 9 Series. Enjoy your own compilation of videos downloaded from websites.

\* Windows Media, and the Windows logo are trademarks, or registered trademarks, of Microsoft Corporation in the United States and/or other countries.

WMA/MPEG-4 AAC/MP3 Playback

All Pioneer DVD players can playback WMA and MP3 compressed audio files, as well as the latest MPEG-4 AAC format.

USB Terminal (DV-610AV, DV-510K, DV-410V, DV-310)

The USB terminal on these units allow connection with USB mass storage class devices, for easy playback of WMA/MPEG-4 AAC/MP3 music files, JPEG photo files, and DivX video files. The DV-610AV and DV-410V can also play WMV files.

DV-610AV-S

A high-performance DVD Audio/Video & SACD player featuring HDMI 1080p upscaling, USB, WMV playback, and DivX<sup>®</sup> Ultra playback

192 kHz/24-bit D/A Converter (DV-610AV)

The DV-610AV features 192 kHz/24-bit DACs, to reproduce 192 kHz/24-bit 2-channel stereo, or 96 kHz/24-bit 5.1-channel surround sound. By connecting to a 5.1-channel A/V receiver, you can enjoy multi-channel playback of high-quality SACD or DVD-Audio sound.

CD -> USB Recording (DV-610AV)

The DV-610AV lets you directly record songs from CDs on to USB devices. The data is stored in MP3 format, letting you can choose the bit rate from 128/192/320 kbps. You can copy the whole album, or select tracks.

# DV-510K-S

An advanced DVD player featuring karaoke echo and digital key control, USB, JPEG Slideshow with Music, and DivX® playback

# DV-410V-S(-K)

A multi-format DVD player featuring HDMI 1080p upscaling, USB, and DivX®/WMV playback

# DV-310-S

A slim multi-format DVD player featuring Dual PureCinema Progressive Scan, USB, and DivX® playback

# DV-210K-K

A slim multi-format DVD player featuring karaoke echo and digital key control, JPEG Slideshow with Music, and DivX® playback

# Pioneer High Performance DVD Recorders with Built-in HDD

Since introducing the world's first DVD recorder in 1999, Pioneer has been leading the digital revolution in home entertainment. Now, the highest resolution DVD recorder and HDD are combined into one — becoming a universal archive for audio as well as visual entertainment. These state-of-the-art systems will open a new world to your home entertainment.

## DVD Multi Disc Recording and Playback

In addition to DVD-RAM\* and DVD+R/RW, Pioneer DVD recorders are compatible with Dual Layer DVD-R and Double Layer DVD+R, letting you record and playback a wide selection of discs. No need to worry whether your discs are usable on the DVD recorder.

\* For DVD-RAM playback, please take the disc out of the cartridge before use.

## HDMI Interface (DVR-660H, DVR-560H)

These Pioneer DVD recorders feature HDMI (High Definition Multimedia Interface), an industry-supported, uncompressed, all-digital audio/video interface. Connect the DVD recorder with our A/V receiver and flat screen TV, for example, and HDMI's all-digital signal processing gives you superior pictures and sound — with no loss. It does this by allowing transmission of both audio and video signals with no D/A or A/D conversion, through easy single-cable connection. The DVR-660H and DVR-560H feature 1080 digital output, to deliver pictures in the highest resolution.

## KURO LINK (DVR-660H, DVR-560H)

By connecting these DVD recorders with a compatible Pioneer flat screen TV, KURO LINK lets you operate the basic functions such as power on/off, playback, and recording, with only the flat screen TV's remote control.

## Connect Your Digital Camcorder (DVR-660H, DVR-560H)

Connect your digital video camcorder through the DV-In terminal, and discover how simple it is to view and organize your home movies. When you import video, Auto Chapter can automatically divide footage into chapters for quick access to your favourite scenes. You can edit footage any way you like using the easy-to-follow GUI — changing sequences or selecting only desired scenes — and copy the results to DVD. The remote control is all you need to navigate through functions on both the camcorder and the DVD recorder.

\* i.LINK™ and i.LINK™ logo are trademarks. Can be connected to video DV decks and DV camcorders (some models are not compatible).

## On-screen Help

Operating a DVD recorder has never been this easy. When you are not sure what to do, just press the HELP button on the new user-friendly remote control. A pop-up message will appear on your screen to guide you through the next steps of the menu.

## Large Capacity in Various Recording Modes

### Recording Time

Recording Mode	HDD			DVD+R	Double Layer DVD+R	DVD+RW	DVD-RAM <sup>1</sup>	DVD-R	Dual Layer DVD-R	DVD-RW
	DVR-660H	DVR-560H	DVR-340H							
XP+	36 H	23 H								
XP	53 H	34 H	17 H	1 H	1.8 H	1 H	1 H	1 H	1.8 H	1 H
SP	106 H	68 H	34 H	2 H	3.5 H	2 H	2 H	2 H	3.5 H	2 H
LP	212 H	136 H	68 H	4 H	7.1 H	4 H	4 H	4 H	7.1 H	4 H
EP	319 H	204 H	102 H	6 H	10.7 H	6 H	6 H	6 H	10.7 H	6 H
SLP	425 H	272 H	136 H	8 H	14 H	8 H	8 H	8 H	14.3 H	8 H
SEP	532 H	340 H	170 H	—	—	—	10 H	10 H	17.9 H	10 H
MN1	711 H	455 H	227 H	8 H*	14 H*	8 H*	13 H	13 H	24 H	13 H

These figures are approximations.

Up to 999 titles can be recorded on HDD. Up to 99 titles can be recorded on a DVD-R/RW/-RAM disc. Up to 49 titles can be recorded on a DVD+R/+RW disc.

<sup>1</sup> For DVD-RAM playback, please take disc out of the cartridge before use.

\* These figures are for MN4 recording mode

## Disc Navigator

Finding recorded programmes is easier than ever. Just scroll through the thumbnails (with sound) of the videos. Choose between 4 titles or 8 titles display mode.

\* Not available after finalization of DVD-R/RW discs (Video mode).

## Quick Preview

You can select programmes recorded on the hard disk drive (HDD) from the Disc Navigator, to see a one minute preview. See digests of recorded programmes at your fingertips.

## 3D Noise Reduction (Component Frame DNR)

Independent noise reductions are applied to Y, Pb, Pa signals to create noise-free high-quality pictures.

## PAL/NTSC 3D Y/C Separation Circuit

The DVR-660H and DVR-560H carry the world's first PAL 3D Y/C separation circuit. It eliminates cross-colour artefacts and dot crawls to deliver superior picture quality.

# DVR-660H-S

## 250 GB Hard Disk Drive + DVD Recorder

### Video Recording Features

- ▶ Maximum 711 hours of recording (MN1) on 250 GB HDD
- ▶ DVD multi format compatible
  - Advanced Variable Bit Rate Recording for optimum picture quality
  - High-speed copy (HDD to DVD, DVD to HDD)

### Video Playback Features

- 108 MHz/12-bit D/A converter
- Dual PureCinema Progressive Scan (PAL/NTSC)
- ▶ 1080p upscaling with HDMI output
- ▶ Official DivX Certified product<sup>†</sup>

### PAL/NTSC 3D Y/C Separation

- Dual System
- NTSC on PAL TV

### Audio Features

- ▶ 192 kHz/24-bit audio D/A converter
- ▶ WMA/MP3 playback
- ▶ Digital Jukebox
- ▶ Connect PC via USB (DivX, JPEG, MP3, WMA)

### Conveniences

- ▶ Home Media Gallery
- Disc Navigator
- Quick Preview

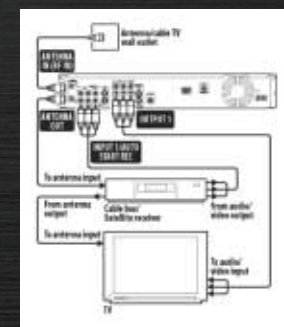

- Help function
- ▶ PHOTO + MUSIC MIX (JPEG Slideshow with Music)
- ▶ USB terminal
- ▶ i.LINK (DV) terminal
- HDD sleep mode for reduced noise during DVD/CD playback

<sup>†</sup> Plays all versions of DivX® video (including DivX® 6) with standard playback of DivX® media files.

## Auto Start Recording Function for External Input

Pioneer DVD recorders come with the Auto Start Recording Function which links with the timer of the connected set top box. The DVD recorders can automatically start and stop recording by detecting the signals from the set top box such as a satellite tuner.

## Super High Quality XP+ Recording Mode (DVR-660H, DVR-560H)

The DVR-660H and DVR-560H feature XP+ recording mode, which can make high-grade recordings to the HDD with a transfer rate of around 15 Mbps. The mode lets you store programmes from external components in superb quality.

## USB Connections (DVR-660H, DVR-560H)

These DVD recorders offer various input and output options via USB connection. You can connect to HDD camcorders, digital cameras, printers, keyboards, and PCs through the USB port on the front panel. Two types (A & B) of terminals are available depending on your device.

## PHOTO + MUSIC MIX (DVR-660H, DVR-560H)

With Pioneer's PHOTO + MUSIC MIX, you can enjoy JPEG slide shows on your display accompanied by your favourite music from files stored on the HDD. An ideal function for parties and various other occasions.

## DivX® Video Playback

Pioneer DVD recorders play DivX® videos burned on a CD-R/RW/ROM disc. DivX® is a popular media technology including digital video, which ensures a high compression rate and fast transfer speed without appreciably compromising the picture quality. Create a DivX® movie on your PC, burn it to a disc, and play it on the Pioneer DVD recorders.

\* DivX, DivX Certified, and associated logos are trademarks of DivX, inc. and are used under license.

## Connect PC via USB (DVR-660H, DVR-560H)

Using a USB connection, you can easily copy WMA, MP3, JPEG, and even DivX files from your PC archive to the DVD recorder's HDD. You can play the stored files by the Home Media Gallery function.

\* File transfer available with Windows Media Player 11 installed PCs.

## Home Media Gallery (DVR-660H, DVR-560H)

With the Home Media Gallery function, you can easily playback files stored on the HDD. Direct keys for the Home Media Gallery are available, providing easy access to most recently recorded DivX file, JPEG files, and Linear PCM/MP3/WMA files.

Key	File Formats
PC VIDEO	DivX
MUSIC	Linear PCM/MP3/WMA and JPEG
PHOTO	JPEG and Linear PCM/MP3/WMA

# DVR-560H-S

## 160 GB Hard Disk Drive + DVD Recorder

### Video Recording Features

- ▶ Maximum 455 hours of recording (MN1) on 160 GB HDD
- ▶ DVD multi format compatible
- Advanced Variable Bit Rate Recording for optimum picture quality
- High-speed copy (HDD to DVD, DVD to HDD)

### Video Playback Features

- 108 MHz/12-bit D/A converter
- Dual PureCinema Progressive Scan (PAL/NTSC)
- ▶ 1080p upscaling with HDMI output
- ▶ Official DivX Certified product\*

### ▶ PAL/NTSC 3D Y/C Separation

- Dual System
- NTSC on PAL TV

### Audio Features

- ▶ 192 kHz/24-bit audio D/A converter
- ▶ WMA/MP3 playback
- ▶ Digital Jukebox
- ▶ Connect PC via USB (DivX, JPEG, MP3, WMA)

### Conveniences

- ▶ Home Media Gallery
- Disc Navigator
- Quick Preview

- Help function
- ▶ PHOTO + MUSIC MIX (JPEG Slideshow with Music)
- ▶ USB terminal
- ▶ i.LINK (DV) terminal
- HDD sleep mode for reduced noise during DVD/CD playback

**HDMI™ 1080p UPSCALING**

### HTP-330

A package (receiver subwoofer + speakers) to complement your home theatre with DVD recorder as the centre of your A/V entertainment. For details, please refer to the Pioneer "DVD Home Theatre Systems 2008-2009" Catalogue.

\* DVD recorder not included

# DVR-340H-S

## 80 GB Hard Disk Drive + DVD Recorder

### Video Recording Features

- ▶ Maximum 227 hours of recording (MN1) on 80 GB HDD
- ▶ DVD multi format compatible
- Advanced Variable Bit Rate Recording for optimum picture quality
- High-speed copy (HDD to DVD, DVD to HDD)

### Video Playback Features

- 108 MHz/10-bit D/A converter (Progressive Mode only)

### • Dual PureCinema Progressive Scan (PAL/NTSC)

- ▶ Official DivX Certified product\*
- Dual System
- NTSC on PAL TV

### Audio Features

- ▶ 192 kHz/24-bit audio D/A converter
- ▶ WMA/MP3 playback
- ▶ Digital Jukebox

### Conveniences

- Disc Navigator
- Quick Preview
- Help function

\*1 Sound is output with Dolby Digital and Linear PCM audio only. Dialogue may not be clearly reproduced depending on recording conditions.  
 \*2 For DVD-R discs, remaining volume is not increased after titles are erased. For DVD-RW discs, remaining volume is increased when the last title is erased.  
 \*3 With high-speed copy in "Video Mode", editing point might be moved.  
 \*4 Recording format should be in accordance with ISO9660 level 2 CD-ROM file system. Both Romeo and Juliet file systems are playable. CD physical format: Mode1, Mode2XA Form 1. Chinese characters cannot be displayed, although files featuring such names can be played.  
 \*5 JPEG file compatibility: This recorder is compatible with FUJICOLOR CD, as well as CD-R/RW/ROM discs containing JPEG files. Baseline JPEG and EXIF files up to 19 megapixels are supported (max. vertical resolution is 3840 pixels and max. horizontal resolution is 5120 pixels).  
 \*6 Compatible with MPEG1 Audio Layer3 32 kHz and 44.1 kHz and 48 kHz formats. MP3 file name requires MP3 or mp3 as an extension. Up to 99 folders and 999 tracks (MP3 and WMA) in total can be played. (DVR-660H-S/  
 \*7 WMA content can be encoded by using Windows Media Player for Windows Vista or Windows XP, Windows Media Player 9, 10, or 11 series. Compatible with sampling rate of 32 or 44.1 or 48 kHz. Not compatible with loss-less-encoding or variable-bit-rate (VBR) WMA files. WMA files encoded with DRM (Digital Rights Management) copy protection\*\* will not be played back. \* DRM copy protection : DRM (Digital Rights Management) copy protection is a technology designed to prevent unauthorized copying by restricting playback, etc. of material on devices other than the PC (or other WMA recording equipment) used to record it. For detailed information, please see the instruction manuals or help files of your PC (or other WMA recording equipment) and/or software. Up to 99 folders and 999 tracks (MP3 and WMA) in total can be played. (DVR-660H-S/DVR-560H-S only: If there are more files/folders than this on the disc, then more can be reloaded)  
 \*8 Can be connected to video DV decks and DV camcorders (some models are not compatible). CANNOT be connected to DVD players and A/V receivers.

DVR-660H-S / DVR-560H-S

DVR-340H-S

## Pure Audio Components — Re-Awaken Your Sound Instincts

The pure audio components are based on "quick response" and "open sound" — the essential elements required in professional recording studios. AIR Studios — home of some of the sharpest ears in the world — contributed to the final tuning. The overall design is based on rigorous simplicity, for sound that is truer to the original source than ever.

### A9 A-A9-S

#### Integrated Amplifier

- AIR Studios sound tuning • Continuous power output: 70 W + 70 W (20 Hz-20 kHz, 4 ohms, 0.2 % THD), 55 W + 55 W (20 Hz-20 kHz, 8 ohms, 0.2 % THD)
- Twin large toroidal transformers • USB input for PC (Type B) • Direct mode
- Input sensitivity/impedance - Line level: 200 mV/47 kohms, Phono (MM): 2.8 mV/47 kohms, Phono (MC): 0.3 mV/100 ohms • Frequency response - Line: 5 Hz - 100 kHz (+0 dB - 3 dB), Phono (MM): 20 Hz - 20 kHz (±0.2 dB), Phono (MC): 20 Hz - 20 kHz (±0.3 dB) • S/N ratio (Direct mode) - Line: 103 dB, Phono (MM): 80 dB (at 2.8 mV), Phono (MC): 70 dB (at 0.3 mV) • Tone control - Bass: 100 Hz ±10 dB, Treble: 10 kHz ±10 dB • Audio input: 6 (CD/PHONO/TAPE/AUX/TUNER/USB for PC) • Audio out: 2 (TAPE/PREOUT)
- Power requirement: AC 220-240 V, 50 Hz • Power consumption: 200 W
- Dimensions (W x H x D): 420 x 113 x 369 mm • Weight: 10.8 kg

### A6 A-A6-S

#### Integrated Amplifier

- AIR Studios sound tuning • Continuous power output: 60 W + 60 W (20 Hz-20 kHz, 4 ohms, 0.2 % THD), 45 W + 45 W (20 Hz-20 kHz, 8 ohms, 0.2 % THD)
- Twin transformers • Direct mode • Input sensitivity/impedance - Line level: 200 mV/47 kohms, Phono (MM): 2.8 mV/47 kohms • Frequency response - Line: 5 Hz - 100 kHz (+0 dB - 3 dB), Phono (MM): 20 Hz - 20 kHz (±0.2 dB) • S/N ratio (Direct mode) - Line: 103 dB, Phono (MM): 80 dB (at 2.8 mV)
- Tone control - Bass: 100 Hz ±10 dB, Treble: 10 kHz ±10 dB • Audio input: 5 (CD/PHONO/TAPE/AUX/TUNER) • Audio out: 1 (TAPE) • Power requirement: AC 220-240 V, 50 Hz • Power consumption: 170 W • Dimensions (W x H x D): 420 x 100 x 359 mm • Weight: 10.0 kg

## Hi-Fi Components — for Your Audio Bliss

Hi-Fi components from the leader in quality audio — Pioneer. Our product line is extensive, the variety is diverse, and the combination possibilities are immense. Whatever your musical taste or technical sophistication, you'll find Pioneer components that meet your needs.

### PD-217

#### CD Player

- Full-function remote control • Numeric keypad on unit • 1-bit DLC (Direct Linear Conversion) D/A Converter • Digital level control (on remote)
- Design for low noise: Display off switch • Compu-PGM Edit and Auto programme editing • Hi-Lite Scan • Memory hold • Talk-back input
- Headphone output with volume control

### PD-117

#### CD Player

- 1-bit DLC (Direct Linear Conversion) D/A Converter • Design for low noise: Display off switch • Compu-PGM Edit and Auto programme editing
- Hi-Lite Scan • Memory hold • Talk-back input • Pioneer SR (System Remote) terminal

\* The PD-117 does not come with a remote control, but it can be controlled with a Pioneer remote using the SR (System Remote) terminal on the rear.

### CT-W208R

#### Cassette Deck

- 2 auto-reverse cassette transports: one plays, and the other plays and records in both directions • Dolby B/C Noise Reduction with built-in MPX filter • Normal/high-speed tape dubbing • Relay play • Music/Skip Search
- Auto space rec mute • Auto tape selector

### CT-W106

#### Cassette Deck

- Normal/high-speed tape dubbing • Dolby B Noise Reduction with built-in MPX filter • Auto record level controller • Anti-resonance and anti-vibration design: Large insulators • Two cassette transports • Relay play
- LED level indicator • Auto tape selector (Type I/Type II)

### A-209

#### Integrated Amplifier

- Continuous power output: 60 W + 60 W (DIN, 4 ohms) • Wide-Range Linear Circuit • Advanced Direct Energy MOS FET Power Amp • 6 inputs: PHONO, CD, TUNER, LINE, TAPE 1/CD-R/MD, TAPE 2/MONITOR • Low power consumption design • Local circuits off • Complementary capacitor pair • "DIRECT" switch • Bass/treble tone controls • Loudness switch
- 2-way tape dubbing • Headphone output • Connections for 2 pairs of speaker systems

### F-208

#### Quartz-PLL Synthesizer Tuner

- Random presets for 30 FM/AM stations • 4-letter station name memory: You can conveniently give 4-character names to your favourite preset stations — "ROCK" and "HITS", for example. • Memory scan: all 30 preset stations are automatically sampled in sequence for you to select a station to listen to.

### GR-333

#### 7-Band Graphic Equalizer

- 7-band equalisation: permits boost and cut up to 10 dB • LEDs in slider tips: depict the "shape" of response, channel by channel • Equalizer on/off switch

### SE-M280

#### Stereo Headphone

- Type: closed
- Frequency response: 5 Hz-25 kHz
- Soft oval ear pads and baffle board structure for comfortable fit
- Self adjusting headband
- Large diameter (40 mm) driver units
- Gold-plated 2-way mini-plug
- Weight: 225 g (without cord)

### DM-DV5

#### Microphone

- Type: dynamic
- Micro mic unit featuring high sound quality
- Talk switch for remote on/off
- 2-way adaptor plug

\* Available in certain Asian countries only

## Speaker Systems — the Keys to Satisfying Home Entertainment

After 70 years since the first hi-fi speaker was made by our founder, Pioneer continues to take advantage of the expertise accumulated over the years. Our comprehensive products come in stylish forms to match your room décor, with dynamic sound for the ultimate home theatre experience.

### S-EU8 Series

#### S-EU8TB

A sleek 4-way tall-boy front speaker system featuring European design and superior sound ensured by advanced materials and constructions

- Magnetically-shielded 4-way tall-boy speakers
- Kevlar® brand fiber cone woofers
- ABD (Acoustic Balanced Driver) Technology for higher clarity with minimum standing waves inside the enclosure
- Maximum power: 130 W
- Dimensions (W x H x D): 250 x 1190 x 300 mm
- Weight: 25 kg
- Impedance: 6 ohms

### S-EU5 Series

#### S-EU5TB

A stylish 2-way tall-boy front speaker system featuring natural ambience, European design, and sleek wooden enclosures

- Magnetically-shielded 2-way tall-boy speakers
- Twin woofers placed vertically on the same axis for superior sound localisation
- LDMC (Linear Drive Magnetic Circuit) technology for superior linearity
- Maximum power: 130 W
- Dimensions (W x H x D): 195 x 1032 x 289 mm
- Weight: 13.4 kg
- Impedance: 8 ohms

#### S-EU8C

A stylish 3-way centre speaker featuring European design and advanced materials and constructions

- Magnetically-shielded 3-way centre speaker
- Kevlar® brand fiber cone woofers
- Maximum power: 130 W
- Dimensions (W x H x D): 560 x 190 x 300 mm
- Weight: 15.6 kg
- Impedance : 6 ohms

#### S-EU5CR

2-way centre/rear speaker system featuring sophisticated European design

- Magnetically-shielded 2-way centre and rear speakers
- Maximum power: 130 W
- Dimensions (W x H x D): 381 x 130 x 153 mm (centre)/130 x 203 x 153 mm (rear)
- Weight: 3.4 kg (centre)/1.9 kg (rear)
- Impedance: 8 ohms

#### S-EU8BS-LR

A sleek 2-way speaker system featuring sophisticated European design and highly-rigid wooden enclosures

- Magnetically-shielded 2-way speakers
- Kevlar® brand fiber cone woofers
- Maximum power: 130 W
- Dimensions (W x H x D): 190 x 350 x 300 mm
- Weight: 7.3 kg
- Impedance: 6 ohms

#### S-EU5BS-LR

2-way bookshelf speaker system featuring sophisticated European design

- Magnetically-shielded 2-way speakers
- Lightweight, high-rigidity glass-fiber cone
- Maximum power: 130 W
- Dimensions (W x H x D): 130 x 203 x 153 mm
- Weight: 1.9 kg
- Impedance: 8 ohms

#### CP-EU8

##### Speaker Stands

- Designed especially for the S-EU8BS-LR speaker system

#### CP-EU5

##### Speaker Stands

- Designed especially for the S-EU5BS-LR speaker system

### S-EU2 Series

#### S-EU2TB-LR

Stylish 3-way tall-boy front speaker system featuring European design

- Magnetically-shielded 3-way tall-boy speakers
- 14 cm cone woofer
- 7 cm cone midrange
- 2.5 cm dome tweeter
- Maximum power: 80 W
- Dimensions (W x H x D): 183 x 909 x 233 mm
- Weight: 8.1 kg
- Impedance: 8 ohms

#### S-EU2CR

Compact, full-range centre/rear speakers featuring sophisticated European design

- Full-range centre and rear speakers
- 8.3 cm cone speaker
- Magnetically shielded (centre)
- Maximum power: 80W
- Dimensions (W x H x D): 220 x 110 x 82 mm (centre)/110 x 110 x 82 mm (rear)
- Weight: 1.0 kg (centre)/0.56 kg (rear)
- Impedance: 8 ohms

### Multi-Channel Surround Package

#### S-MS700

High power surround package including 3-way tall-boy speakers and full-range centre/rear & rear centre speakers

- 3-way bass-reflex floor-standing front speakers with:
  - 20 cm cone woofer
  - 8 cm cone midrange
  - 4 cm cone tweeter
- Full-range 10 cm cone centre and rear speakers
- Magnetically-shielded
- Maximum power: 150 W (front), 120 W (centre/rear & rear centre)
- Dimensions (W x H x D): 240 x 1000 x 250 mm (front) 350 x 130 x 140 mm (centre) 180 x 130 x 140 mm (rear & rear centre)
- Weight: 12.7 kg (front), 2.5 kg (centre), 1.3 kg (rear & rear centre)
- Impedance: 8 ohms

Speaker Terminals (Front Speakers)

\* Available in certain Asian countries only

#### S-MS500 MKII

High-power surround package including 3-way bass-reflex floor-standing front speakers and full-range centre/rear speakers

- 3-way bass-reflex floor-standing front speakers with:
  - 20 cm cone woofer
  - 8 cm cone midrange
  - 4 cm cone tweeter
- Full-range 10 cm cone centre and rear speakers
- Magnetically-shielded
- Maximum power: 150 W (front), 120 W (centre/rear)
- Dimensions (W x H x D): 240 x 900 x 250 mm (front) 350 x 130 x 140 mm (centre) 180 x 130 x 140 mm (rear)
- Weight: 10.7 kg (front), 2.5 kg (centre), 1.3 kg (rear)
- Impedance: 8 ohms

Speaker Terminals (Front Speakers)

\* Available in certain Asian countries only

### European Design Powered Subwoofers

#### S-EW2

Down-firing powered subwoofer featuring elegant European design and even deeper bass

- Maximum power: 85 W
- 16 cm woofer for reproducing even deeper bass
- Magnetically-shielded speaker system
- Dimensions (W x H x D): 300 x 375 x 380 mm
- Weight: 11.5 kg

EURO

EURO

#### S-EW5

Down-firing powered subwoofer featuring elegant European design and superior sound

- Maximum power: 100 W
- 20 cm woofer for reproducing deep bass
- Special signal-processing method for faithful reproduction of sound without phase lag
- Cone-shaped diffuser for delivering high-quality sound in all horizontal directions
- Magnetically-shielded speaker system
- Front controls for enhanced ease of use
- Auto power on/off
- Dimensions (W x H x D): 350 x 410 x 397 mm
- Weight: 17.9 kg

EURO

### Pioneer Pure Malt Speakers

An environmentally-friendly 2-way speaker system featuring enclosures made of recycled white oak whiskey barrels

#### S-A4SPT-VP

#### S-A4SPT-PM

S-A4SPT-VP

S-A4SPT-PM

- Magnetically-shielded 2-way speaker system
- Environmentally-friendly enclosures made of recycled white oak whiskey barrels
- 10 cm cone woofer
- 2 cm dome tweeter
- 2.5 m OFC (oxygen-free copper) speaker cable included
- Maximum power: 100 W
- Frequency range: 50 Hz-40 kHz (S-A4SPT-VP), 60 Hz-40 kHz (S-A4SPT-PM)
- Dimensions (W x H x D): 154 x 246 x 213 mm
- Weight: 3.7 kg
- Impedance: 6 ohms

10 cm TAD Pulp Cone Woofer (S-A4SPT-VP)

High-Grade Speaker Terminals
