TECRA M5

The ideal notebook for the demanding professional

The Tecra M5 series offers the ideal mix of technology, performance and quality, for success on the move and enhanced real-time communication

intel Centrino® Duo

RoHS

ToshibaEasyGuard
CarefreeMobileComputing

IMPRESSIVE PERFORMANCE

- Intel® Centrino® Duo Mobile Technology with its impressive dual-core architecture delivers the best business power to succeed on the move

- Powered by the nVIDIA® Quadro® NVS graphics chipset for professional multi-display graphics, the 14.1" XGA or SXGA+ TFT display ensures sharper, brighter and more vivid images

- Mobile performance gets a boost courtesy of the high-capacity, high-speed Serial ATA hard disk drive and support for up to 4GB* of DDR2 667MHz Dual Channel memory

MORE RELIABLE MOBILE COMPUTING WITH TOSHIBA EASYGUARD

- The new chassis integrates Toshiba's Shock Protection Design to better protect critical components such as the HDD, LCD and inverter against potential damage and data loss resulting from accidents or falls

- Safeguard data with HDD Protection, including anti-shock features and full 3-axis motion monitoring

- Spill-resistant Keyboard provides ample time for users to save their work and shut down the system in the event of a spill

ADVANCED DATA SECURITY WITH TOSHIBA EASYGUARD

- The Fingerprint Reader combines secure system and data access control with the convenience of single sign-on for the simplified management of BIOS, HDD and operating system passwords

- The Anti-theft Protection Timer enables the user to set a timed BIOS password for enhanced data security in the event of notebook theft

- With the Trusted Platform Module (TPM) 1.2 onboard, companies and users are assured of state-of-the-art security for confidential and sensitive company information

BEST MOBILE TECHNOLOGY FOR BUSINESS

- With SelectBay modularity, which supports the DVD-SuperMulti (DL) drive and/or a second HDD

- Innovative, new optional high-capacity battery offers extended battery operating times to meet the demands of the mobile professional

- Meets today's business IT requirements for an easy-to-deploy, consistent software image as well as longer product lifecycles

SIMPLIFIED CONNECTIVITY FOR ANY ENVIRONMENT

- Integrated Wireless LAN 802.11a/b/g, Bluetooth™ version 2.0 with EDR, v.92 modem and Gigabit Ethernet LAN

- Mobile working is simplified thanks to Toshiba ConfigFree™ for seamless LAN, WLAN and WWAN connectivity

- Easy docking and less cable management with the optional Advanced Port Replicator III Plus

- Integrated microphone, stereo speakers and audio-out – ideal for VoIP calls

- The Toshiba Wireless Key Log-on function offers the added convenience and security of automatic password authentication via a Bluetooth™ phone

Services	
Warranty Extension from 3 to 4 years	SE5104I-PDB
First two Years EMEA On-Site Repair, Next Business Day Response Uplift for 3 year notebooks	SE5452E

*CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modelling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design configuration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba website: computers.toshiba-europe.com and/or contact Toshiba Technical Support. For PC's configured with 4 GB of system memory, the full system memory space for computing activities will be considerably less and will vary by model and system configuration. One GB means one billion bytes. Battery life may vary depending on applications, power management settings and features utilised. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit the Toshiba websites at computers.toshiba. nl or computers.toshiba.be. Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors (TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. Intel, Intel logo, Intel Inside, Intel Inside logo, Intel Centrino, Intel Centrino logo, Celeron, and Pentium are trademarks or registered trademarks of Intel Corporation or its subsidiaries in the United States and other countries.
