* Caller ID, POP ID and Visual Message Waiting Features only work if you subscribe to the service provided by your telephone company. There is usually a fee for this service. Caller ID Type 2 service is currently not available in New Zealand. Please check with your telephone company. ** Also available in specially packaged models with one or more additional handsets. ^o 5.8GHz Technology will not interfere with typical wireless networks such as 802.11b, 802.11g or 802.11n. Specifications subject to change without notice. See Uniden website for any changes. **Please note:** Not all models and colours available in both Australia New Zealand.
