ALVIN® CraftMaster III™ Split-Top Drafting, Drawing and Art Table

New

A larger and more robust version of the popular CraftMaster™ series of tables, the CraftMaster III™ Split-Top was designed for those who prefer two independent work surfaces: one that tilts for drawing and one that's fixed for holding a laptop, books, tools, or beverage. Serious students, artists, and professionals will find this table unmatched in function, performance, and value. It is truly drafting-height and features an enlarged leg frame design, readily accepts standard parallel straightedges, and maintains an attractive color scheme that fits well in most homes, offices, and studios.

- Tilt-adjustable 30" x 42" section on the left and fixed 30" x 18" section on the right. Total work area is 30" x 60"
- Height adjusts from 35-39½" with top in flat position using casters and 33½"-38" using floor glides
- One hand tilt-angle mechanism adjusts tabletop from 0° to 30°
- Built-in storage shelf is 11" deep x 40" long, with backstop
- Set of four drawers 7" w x 9" h x 10" d for storage
- Casters and floor glides both included for you to choose from
- Metal pencil ledge and plastic instrument tray both included
- Sturdy tubular steel construction, 1½" diameter with powder-coated finish
- Footrest crossbar with rubber tread and 40" of leg room
- Tabletop and base packed securely in one carton

Onyx

ALVIN® Onyx

One of our most popular items, this contemporary fold-away drafting-height table is perfect for home, office, and dormitory. The sturdy, 1½" diameter tubular steel frame, is easy to set up and is available in either black or white powder-coated finish that will provide years of service. The four telescoping legs allow the tabletop surface to easily adjust from 29" to 44" in the horizontal position and tilt from 0° to 45°. Fold-away gate hinges permit base to fold flat in seconds to 5" for convenient storage. Base and board ship in separate cartons except for ONX40-4.

Ranger®

ALVIN® DesignMaster 4-Post Steel Drawing Tables

Compared to any other drawing table on the market this is, without a doubt, a table of superior strength and durability with a lifetime guarantee. The DesignMaster is made of 18-gauge steel tubing (not pre-fab sheet steel) and table height is 37" that can adjust from 0° to 45°. The legs are welded together to form a 3" x 2" post for maximum strength, stability, and rigidity. All metal parts are scratch resistant, electro-static powder coated. Tabletop board and supporting panels are made of 3/4" therma-fuse Melamine®. Tabletop sizes are 37½"w x 60"l x 3/4" thick and 37½"w x 72"l x 3/4" thick. Surface is smooth, durable, white matte Melamine®, trimmed with bonded black vinyl edges.

The table is offered with or without tool and reference drawers. Tool drawer size is 23"l x 8"w x 3½"d and reference drawer size is 23"l x 31"w x 1½"d. Tool drawer is supplied with lock and equipped with ball-bearing slides. All bases are equipped with built-in fittings for the purchase of the two drawers if not bought originally.

SMI Oak Taborets

It's easy to keep these natural oak taborets next to you for maximum convenience with their heavy-duty dual-wheel casters and manageable size. Constructed with the highest quality oak and oak veneers, all drawers are made with superior drawer material, and smooth, two-sided tempered hardboard bottoms. Drawers slide smoothly on oak drawer guides and are fitted with solid brass pulls. Taborets are finished with multiple coats of furniture-grade lacquer. Solid oak raised edges on the top are 1/2" high to help control equipment and supplies. Available in four styles. 3-Drawer style has three shallow drawers and an adjustable shelf. 5-Drawer has three shallow drawers (1 $\frac{3}{4}$ "), one deeper (4 $\frac{1}{2}$ "") and one extra deep (7 $\frac{1}{2}$ ""). 5-Drawer is also available with vertical side storage area. 7-Drawer style is the taller version with three shallow drawers (1 $\frac{3}{4}$ ""), three deeper (3 $\frac{1}{2}$ "") and one extra deep (7 $\frac{1}{2}$ "").

Drawing Boards, Trays

DB and LB boards have T-metal edges

ALVIN® Drawing Boards/Tabletops

DB Boards – Unfinished natural wood veneer surfaces, metal side edges. Solid-core construction.

LB Boards – Ultra light boards, unfinished wood veneer surfaces, aluminum side edges, hollow honeycomb interior. Solid wood edges and center cross frame for strength and rigidity.

VB Boards – Unfinished natural wood veneer surfaces, woodgrain vinyl edges all around. Solid-core construction.

XB Boards – Smooth, satin-finish, white Melamine® surfaces, black vinyl edges. Solid core construction.

SBR Boards – Shaped boards allow you to sit closer to your work. White Melamine® on one side, cherry woodgrain Melamine® on the other. Rounded corners. Solid core construction. Suitable for use with WorkMaster, WorkMaster Jr., Onyx, Opal, Professional, and Vista tables.

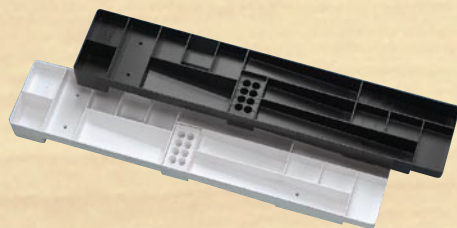

WBR Boards – Rounded corners, smooth, Melamine® surfaces, cherry woodgrain one side, white on the other, black vinyl edges. Solid core construction. 3/4" radius.

WB Boards – Square corners, smooth walnut woodgrain Melamine® surfaces, black vinyl edges. Solid core construction.

XBR Boards (not shown) – Rounded corners, smooth, satin-finish, white Melamine® surfaces, black vinyl edges. Solid core construction. 3/4" radius.

ALVIN® VYCO Board Cover

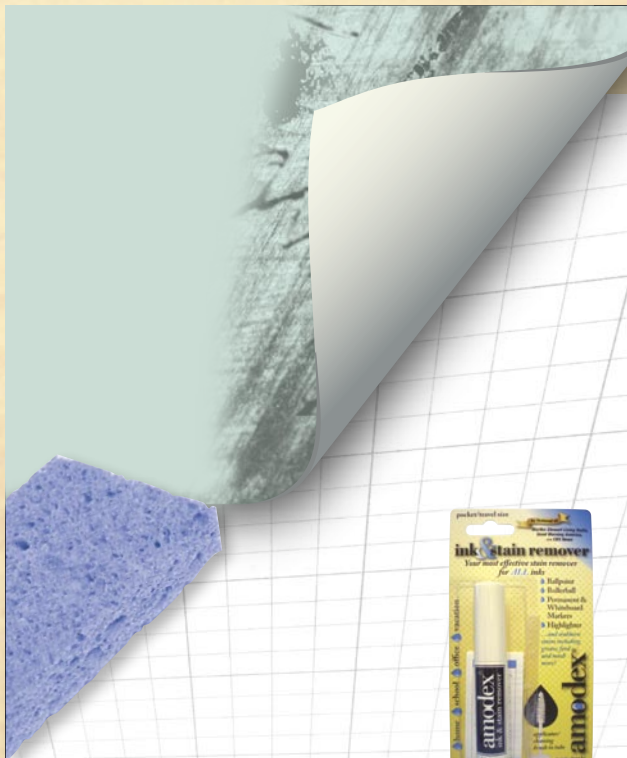

Durable, versatile, easy-to-install, 5-ply, VYCO vinyl board cover is manufactured specifically for the protection of heavily used surfaces.

- The perfect, smooth, stain-resistant working surface for all drawing boards, tables, desks, filing cabinets, counter tops, and shelving.
- Compass points, tacks, and hard pencil impressions will not mar VYCO-protected surfaces – self-sealing surface recovers almost immediately.
- The translucent VBC55 is ideal for use with lightboxes or protecting fine wood and glass-topped furniture. Also useful over graph paper.
- Preserves and protects expensive furniture against mars, scars, cuts, dents, and prolongs the life of new boards.
- Will not deteriorate, discolor, or crack.
- Easy to clean with a damp cloth or sponge.
- Easy to install – VYCO board cover cuts to size easily with ordinary scissors, then attaches with double-sided tape.

amodex® CLEANS VYCO

New

AMODEX Ink and Stain Remover

Use this specially formulated cleaner to remove deep-down dirt, grease, and stains from VYCO board covers. Works on all kinds of inks and is recommended by Sanford to remove marks from Sharpie® and Expo® markers. Also cleans oils, grease, and food stains.

Amodex works on all kinds of surfaces including plastics, linoleum, clothing, carpeting, furniture, DVDs, and CDs.

Use an ordinary dusting brush to wipe away surface dirt, then wash with Amodex and a damp sponge. Unique, non-toxic cream formula is available in convenient 1-oz., .5-oz. travel, and 4-oz. economy size.

Drawing Boards

Aluminum Straightedge

ALVIN® PXB Portable Parallel Straightedge Board

Alvin's PXB boards provide the convenience of a studio work surface in a compact, portable unit. Each PXB is made from a smooth, warp-free white Melamine® laminated board and is equipped with a convenient carrying handle, non-slip tractor feet designed to grip the table edge at the perfect drawing angle, foldaway legs, and an acrylic straightedge whose height can accommodate material thicknesses up to 3/16". Shipped fully assembled.

Features include:

- Precision-made aluminum straightedge with rubberized grip eliminates the need for a T-square and includes an inking edge for clean, smudge-free results with pens, pencils, and markers. Underwire system keeps the blade parallel no matter where it is moved. Metal side brackets accommodate material thicknesses up to 3/16" beneath. Twin braking system locks blade securely in any position.
- Non-slip rubber "Grip-Track" feet on the underside of the board allow the PXB to overhang the table edge at the perfect drawing angle bringing the work surface closer to you.
- Foldaway back legs with rubber feet are unbreakable and enable you to use the board in either the flat or angled position.
- Warp-free white Melamine® laminated board offers a smooth drawing surface that wipes clean with a damp cloth.
- Comfortable carrying handle for portability.
- Compact for out of the way storage.

Aluminum Straightedge

ALVIN® PLB Lightweight Parallel Straightedge Board

Alvin's PLB boards provide all the features of the PXB boards but in a lightweight, easy-to-carry version. Made from lightweight LB series boards that have unfinished wood veneer surfaces top and bottom, aluminum side edges and hollow honeycomb interior. Solid wood edges and center cross frames provide strength and rigidity and are strategically placed to support the handle and legs.

ALVIN® Deluxe Board with Straightedge

Durable Phenolic blade keeps parallel by gliding up and down on guide wires. Nylon bearings under straightedge assure smooth running action. Features include an elevated acrylic inking edge for smudge-free results, a twin braking system to lock straightedge securely in any position, rubber grip tracks that allow board to overhang a table edge for a comfortable working angle, and foldaway legs with non-slip rubber feet. Portable, with convenient carry handle, the 30" x 42" size includes a second handle mounted in the middle of the back for extra convenience. Compact design is fully assembled and ready to use. VYCO VBC77 gray/white vinyl board cover included for a soft, protective work surface. Precision made in the USA.

ALVIN® Track Drafting Machines

Smooth and effortless tracking is accomplished by 14 uniquely designed flat face bearing rollers strategically placed for precise vertical and horizontal movement at any board angle. A comfortably designed palm rest and thumb release allows easy rotation of the protractor head with convenient 15° auto index settings and intermediate lockable fine line adjustment. The 360° protractor head with built-in magnifier is divided into single degrees with five-minute double vernier permitting angular accuracy to 1/12 of a degree. A double action hinge system allows the head and scales to be tilted vertically from the board surface for a clear working view and also allows the head to sit flat on the board compensating for any board irregularities. A floating head mechanism positions the protractor above the surface to protect against accidental smearing or tearing of drawing media. An exclusive feature is the positive double shoe braking system with dual-lever fingertip operation precisely controlling and locking both horizontal and vertical movement, thus always ensuring complete straight lines. Additional features include a one-touch lever to install or dismount the vertical track and an adjustable vertical track support roller to accommodate both varying board depths and thicknesses. Each machine comes with a full protective plastic dust cover large enough for both machine and drawing surface.

ALVIN® TOM Drafting Machine

Track-type drafting machine complete with drawing board that features a modern and compact, precision design. Functional drawing board with precision ball bearing, vertical sliding track drafting system, and break lever on vertical sliding track offers three positions. 150° double-hinged drawing head with two sets of plexiglas scales included, one set metric, the other is in full and half inch graduations. Complete system weighs 20 lbs. with a work surface area of 19 1/2" h x 22" w. Adjustable stand allows board angle at 0°, 20°, and 45°. Can be used along with CAD furniture set up. Carrying case protects parallel straightedge and provides convenient portability. Shipping weight 22 lbs.

No. TOM SRP \$975.00 ea

ALVIN® Paral-Liner Mobile Parallel Straightedge

Rigid phenolic construction with a black satin finish. Mobile straightedge affords frictionless operation through the floating action of the nylon rollers mounted on the blade. The rollers retract at a touch, securing the blade for accurate drawing. Acrylic edges are elevated to prevent ink smears and steel ball-bearing pulleys provide smooth movement. Comes with all mounting hardware and installation instructions.

MAYLINE® Mobile Parallel Ruling Straightedges

Perfect for engineering and construction applications. Every Mayline parallel ruling straightedge begins with a durable, black phenolic laminate base where we inset a transparent blade for see-through registration and fine line quality. For those who work with a variety of surfaces, we designed a straightedge with retractile ball-bearing rollers of metal or Delrin built right into its base. They literally float over any surface whether it's paper or film. The rollers come in chrome-plated brass or plastic. We recommend the plastic rollers for use with drafting films. Above-board mounting hardware included.

MAYLINE® Mobile Parallel Ruling Straightedges with Armoredge

These models have the same features as all of our other Mayline® straightedges. The Armoredge is a nearly invisible protective strip of 8 mil stainless steel that is applied to the leading edge of the Mayline® straightedge to resist nicks and dents from drawing tools.

Flat Files

MAYLINE® C-FILES

Self-contained steel files have integrated caps and can be bolted together for stacking. Drawers have front metal plan depressor and rearhood to keep documents flat and orderly. The drawer fronts are a double-wall construction. Whether the need is for active or archival storage of drawings, C-Files are perfect for the requirement and structurally provide the greatest protection of any plan file on the market. Available in Black, Sand, White, or Gray. Other colors available for special order. Please note that these are not stock items. They are drop shipped from the manufacturer only!

SAFCO® Steel Flat Files

Classic modular files featuring electrically welded heavy-gauge steel construction, double-thick wraparound corners, integral cap, and sturdy inner frames. Five-drawer files store up to 500 sheets per unit active filing, 750 sheets semi-active, and 1000 sheets inactive. Ten-drawer files allow for easy retrieval of materials with ten separate 1" deep drawers. All files stack securely up to five units high with anti-slip pads between units to eliminate shifting. Available in three sizes and four colors. Additional features include museum/archival-quality paint finish, steel side roller assembly with case hardened ball-bearing rollers for smooth drawer operation, rear bumper pads, drawer safety stops, heavy duty drawer rails for precision alignment, rear drawer hoods, and hinged front depressors. Please note that these are not stock items. They are drop shipped from the manufacturer only!

WARRANTY

All ALVIN® Chairs have a 2-year warranty on gas cylinders and a 3-year warranty against defects in material and construction (except fabric). All fabric and foam meet strict California and BIFMA codes.

SALAMBRO Mesh Fabric Manager's Chair

Sleek and stylish, this inviting chair will provide years of compliments and comfort. Finely crafted, it comes complete with width-adjustable padded arm rests, pneumatic height adjustment from 18" to 22" and a 24" diameter reinforced nylon base with hooded casters. The extra-thick seat cushion is 20" w x 19" d x 3" thick and has a spring-adjusted tilt mechanism. The vented mesh backrest is 19" wide, rises 21" above the seat, and has a spring-adjusted rocking mechanism that can be locked into the upright position if you choose. A padded lumbar support can be adjusted up and down for comfort. Black only.

SALAMBRO JR. Drafting Chair

This drafting version of the popular Salambro Jr. chair is distinguishable mainly by its extra height. It comes complete with arm rests, pneumatic height adjustment from 24" to 28", and a 24" diameter reinforced nylon base with hooded casters and a 21" black foot ring. The extra-thick molded foam seat cushion is 18" w x 18" d x 3" thick. The vented mesh backrest is 18" wide, rises 18" above the seat and is depth adjustable. A padded lumbar support can be adjusted up and down for comfort. This model has no tilt or rock function. Black only.

SALAMBRO JR. Mesh Back Chair

Extremely comfortable and stylish like its big brother, the Salambro, this finely crafted chair comes complete with arm rests, pneumatic height adjustment from 18" to 22" and a 24" diameter reinforced nylon base with hooded casters. The extra-thick molded foam seat cushion is 18" w x 18" d x 3½" thick and has a 2-to-1 synchro tilt mechanism. For every 2° that the back reclines, the seat automatically tilts 1°. The vented mesh backrest is 18" wide, rises 18" above the seat, and has a spring-adjusted rocking mechanism that can be locked into the upright position if you choose. A padded lumbar support can be adjusted up and down for comfort. Black only.

Universal Foot Ring

Designed to fit most standard diameter gas cylinders (48mm and 50mm), this unique foot ring can be added easily at any time without taking the chair apart. Left and right halves fit firmly together and can be set at any height. Made from durable reinforced nylon. 18" in diameter.

No.	Color	Weight	SRP
CK52	Black	5 lbs.	\$25.00 ea

Height Extension Kits

These convenient height extension kits easily convert Alvin's office-height chairs into drafting-height models. Each kit includes a strong cylindrical steel shaft with tapered end to lock into the chair base. Adds approximately 7½" to the height of the chair. Foot ring models can be adjusted vertically and then locked at the desired height. It is recommended that extension kits be attached when the chair is first assembled. All three extension kits fit the following chair models: CH277, CH290, CH444, CH555, DC205, and DC207B. Only CK38 fits models CH112 and CH222.

No.	Description	SRP
CK38	18" dia. chrome w/black spokes	\$32.00 ea
CK49	21" dia. black ring and spokes	35.00 ea
CK55	Teardrop style, black	35.00 ea

Note: Conversion kits must be attached when chair is first assembled. It is not recommended to add at later time.

Chair Casters and Plastic Foot Glides

Foot glides replace casters where rolling action is not desired. Fit all Alvin chairs and stools except DC204. Sold as a set of five.

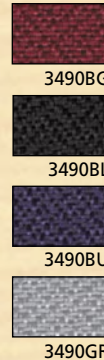

No.	Description	SRP
Casters
