Introduction

Thank you for purchasing the Belkin Compact Surge Protector. Each year, frequent natural and man-made power disturbances corrupt the power supplied to your home and office electronics. The Compact Surge Protector provides Belkin's 'Extreme' protection level and an innovative design and cable management clip, providing a great way to organise your power cords. Please be sure to read through the Set Up Guide and Safety Information to ensure proper protection of your connected devices.

Product Features

6 Surge Protected BlockSpace sockets, positioned for maximum connection flexibility.

Auxiliary Surge Protection through BT / RJ11* cable ports providing additional surge protection for telephone and modem equipment.

Cord Management Clip - designed to neatly manage the direction of connected power cables.

Unique Compact Design - Utilising up to 50% less floor space than a standard equivalent Surge Protector.

Set Up Guide

Step 1:
Connect your equipment

Plug your equipments into the six available sockets. Please refer to the Safety Information paragraph prior to connecting the Surge Protector to a mains power supply.
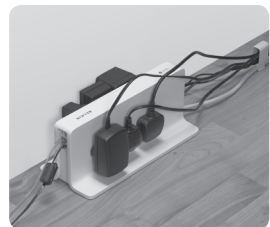

Step 2:
Connect your peripheral devices

Connect any BT / RJ11* enabled device for added surge protection.

* on Irish model BZ106200ir2M

Step 3:
Organise your cables - option 1

Route all power cables through the Cord Management Clip then attach it to the Surge Protector power cord.

Step 4:
Organise your cables - option 2

Route power cables up the back of your desk area and directly into desktop appliances. Maintaining a cable free floor area at your feet.

Advice: Why not use Belkin cable ties to further manage your connected cables?**

** Cable ties not provided.

Step 5:

Make sure the power switch is in the ON position

Step 6:
Mounting instructions (Optional)

Use the two mounting holes on the back of the Surge Protector to secure it to your wall/floor. Install two screws into your wall/floor making sure that at least 1/4 inch of the screw is still exposed. Insert the screws into the mounting holes of the base and lock into place.

NOTE: hardware not included.

Safety Information

CAUTION: The on/off switch incorporates a light indicating the presence of live mains at the surge protector. This is not an indicator of live mains availability at the socket outlets.
To prevent any risk of electrical shock, unplug the unit before cleaning.
Do not "daisy-chain" this product or use it with extension cords. The Belkin Compact Surge Protector's cord must be plugged directly into an AC power source.
Use indoors and in dry locations. Not for use with aquariums or other water-related products.
