DESCRIPTION

The WBI Wraparound Series offers a low profile housing and one-piece injection molded refractor with a concealed metal latch/hinge assembly. This energy efficient luminaire features an IMA refractor designed for optimum brightness control while maintaining architectural appeal and aesthetics in a surface mounted luminaire. The WBI Series has been designed to meet any specification requirement when a surface or pendant mounted luminaire is needed. The WBI is ideal for such applications as commercial office spaces, schools, hospitals and merchandising areas.
