SETTING THE PREMIUM STANDARD FOR SUB-COMPACT BACKHOES.

The Sc2450 is the sub-compact tractor that performs in big ways, from performance to comfort. Innovative Shift-On-The-Go® technology lets you shift from high to low without stopping. Plus, its specially designed frame, curved boom attachments, powerful hydraulics and efficient engine deliver an all-around superior performance. And when you get an open, comfortable operator station with swivel seat and backhoe boom float control, you also get an experience way beyond the expected.

INNOVATIVE FEATURES FOR AN INCREDIBLE EXPERIENCE IS THE **CUB CADET YANMAR ADVANTAGE.**

CURVED BOOM LOADER AND BACKHOE

Designed to get the most out of your tractor, the innovative backhoe with float control will take on any challenge. Plus, the curved boom loader offers the highest lift capacity in its class with greater visibility from behind the wheel. When you can dig deeper with more precision, you can effortlessly tackle the toughest jobs — that's a premium experience.

24 HP* DIRECT-INJECTION DIESEL ENGINE

This high-performance, 3-cylinder, liquid-cooled diesel engine burns cleaner and more efficiently. The advanced combustion chamber design allows for better fuel atomization and a longer stroke — creating better torque reserve so that you'll have power when you need it.

DUAL HYDRAULIC PUMPS

Separate hydraulic pumps deliver a more efficient flow of hydraulic fluid for a smooth hydraulic response without compromising horsepower. Whether you're using the curved boom loader or accelerating through rough terrain with power steering, you'll have the power you need to handle demanding jobs with ease.
