IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be followed, including the following:

1. **READ ALL INSTRUCTIONS BEFORE USING.**
2. To protect against the risk of electrical shock, do not put motor base of blender in water or other liquids.
3. This appliance should not be used by or near children or individuals with certain disabilities.
4. Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning or removing contents from blender jar or cup. **Never put hands into the blender jar or cups, or handle the blades with appliance plugged in.**
5. Avoid contact with moving parts.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Return appliance to nearest Cuisinart service facility for examination, repair, and/or mechanical or electrical adjustment.
7. The use of attachments, including canning or ordinary jars, not recommended or sold by Cuisinart may cause fire, electric shock, or risk of injury to persons.
8. Do not use outdoors.
9. Do not let cord hang over edge of counter or table or touch hot surfaces.
10. **Keep hands and utensils out of jar while blending, to reduce the risk of severe injury to persons or damage to blender itself.** A rubber or plastic spatula may be used but must be used only when the blender is turned off.
11. When blender is in Standby mode, and the LED lights are flashing or glowing, do not touch cutting assembly, interfere with blade movement, or remove blender jar cover. Accidentally touching a speed button may activate the blender.
12. **BLADES ARE SHARP. HANDLE CAREFULLY.**
13. To reduce the risk of injury, never place cutting assembly on base unless the blender jar, chopper cup or travel cups are properly attached.
14. Always operate blender jar with the cover in place.
15. Never leave your blender unattended while running.
16. Twist on vessel firmly. Injury can result if moving blades accidentally become exposed.
17. Do not use an extension cord with this unit. Doing so may result in fire, electric shock, or personal injury.

18. Wash the blender jar, chopping cup, travel cups, cutting assemblies and lids/cover before first use.
19. Keep hands and utensils away from cutting blade while chopping food to reduce the risk of severe injury to persons or damage to the food chopper. A scraper may be used but only when the food chopper is not running.
20. Do not blend hot liquids in the travel cups or chopping cup.
21. Be certain cover is securely locked in place before operating appliance.
22. Do not attempt to bypass the interlock system that powers the unit on.
23. **WARNING: TO REDUCE THE RISK OF ELECTRICAL SHOCK OR FIRE, DO NOT REMOVE THE BASE PANEL. NO USER-SERVICEABLE PARTS ARE INSIDE. REPAIR SHOULD BE DONE ONLY BY AUTHORIZED PERSONNEL.**
24. **WARNING: FLASHING LIGHT INDICATES BLENDER IS READY TO OPERATE. DO NOT TOUCH BLADES.**
25. The jar chopping cup and travel mug are not recommended for microwave use.

SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY NOTICE

This appliance has a polarized plug (one prong is wider than the other). To reduce the risk of electric shock, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plug in any way.

Maximum rating of 350 watts is based on the jar attachment that draws the greatest power. Other recommended attachments may draw significantly less power.

This appliance comes with a thermal resettable fuse feature to prevent damage to the motor in the case of extreme overload. Should the unit shut off unexpectedly, unplug it and let it cool for at least 15 minutes before continuing (see "Operating and Safety Tips," on page 5).

UNPACKING INSTRUCTIONS

1. Place the gift box containing your Cuisinart® SmartPower® Portable Compact Blender on a flat, sturdy surface before unpacking.
2. Remove instruction booklet and other printed materials from top of packaging material. Next remove top pulp tray.
3. Carefully lift blender base from box and set aside.
4. Remove blender jar, chopping cup and travel cups and set aside.

Before using for the first time: Wash all parts according to the Cleaning and Maintenance section on page 6 of this booklet to remove any dust or residue.

To assemble the blender, follow the Assembly instructions on page 4 of this instruction booklet. Replace all packaging materials in the box and save the box for repackaging.

FEATURES AND BENEFITS

1. **32-oz. BPA-free easy-grip blending jar** with cover and pour lid has a unique, sturdy design for all your blending needs. Lid fits on top with a 1-oz. measured pour lid.
2. **8-oz BPA-free chopping cup** with lid handles a variety of food preparation tasks including chopping, grinding and whipping.
3. **Four 16-oz BPA-free travel cups with lids** allow you to blend for one. Make your favorite drinks: smoothies, protein, health and diet drinks and more!
4. **Two high-quality blade assemblies** are strong enough for all blending, chopping and grinding tasks. They are self-aligning so that the cups easily fit on the base. Blade assemblies are interchangeable for desired tasks.
5. **Heavy-duty motor base with stainless steel accent** is sturdy and stable, housing a compact 350-watt motor with a safety interlock feature.
6. **3-function touchpad control with LED indicator lights** is easy to use, read and clean. The blue LED lights clearly indicate what speed you are using.
7. **Slip-proof feet (not shown)** prevent movement during use and prevent damaging marks on countertops or tables.
8. **Cord storage (not shown)** keeps countertops safe and neat by conveniently storing excess cord.

QUICK REFERENCE GUIDE

To activate blender	Place vessel fitted with blade assembly onto base
To begin blending	Press desired speed
To change speeds	Press desired speed
To pulse	In Standby mode press Pulse, then press and release desired speed button as needed.
To stop blending	Press activated speed

ASSEMBLY

After washing all parts, please see below for assembly. Place base on flat surface and plug in.

Blender Jar Assembly	Travel Cup Assembly	Chopping Cup Assembly
1. Turn blender jar (a) upside down.	1. Place cup on flat surface.	1. Place cup on flat surface.
2. Place blade assembly (b) on the round opening of the jar and turn clockwise until tightened.	2. Attach blade assembly on round opening of the cup and turn clockwise until tightened.	2. Attach blade assembly on round opening of the cup and turn clockwise until tightened.
3. Stand jar upright, place cover with pour lid in place on blender jar.	3. Place on blender base.	3. Place on blender base.
4. Place on blender base.		

BLENDER JAR OPERATION

- With the base unit on the tabletop and unit plugged in, place the blender jar assembled with the blade assembly onto the base and secure into place. The unit automatically is activated and in Standby mode with the red POWER LED light illuminated and flashing.
Note: Blade assemblies are interchangeable based on recipes and desired end results.
- Add food ingredients. Replace the cover. You may add more ingredients by lifting the measured pour lid and dropping ingredients through the fill area. Replace the pour lid after adding ingredients. Do not put hands into jar with blender in Standby mode.
Note: To remove blender jar cover, lift edge of cover upward. Do not use measured pour lid to remove cover.
- For continuous blending, press the desired speed. The blue LED light will illuminate, indicating that the blender is on and running. It is possible to switch between High and Low speeds by simply pushing the desired speed button.
- To pause the blending process, press the activated speed button. The blending process will stop. The red Standby indicator light will continue to flash to let you know that the blender is still activated. To reengage a function, choose the desired speed.
- To pulse, push the Pulse button. The blue Pulse indicator light will flash. Next, push and release the desired speed button. Repeat as needed. While pulsing, active indicator lights will be lit. The Pulse function can be used to break apart larger pieces of food. The Pulse function is also effective for starting the blending process when you do not want continuous power or processing items that do not require an extended amount of blending.
- When you have finished blending, press the activated speed to put unit in Standby mode. Then remove the blender jar from the base. Pour out ingredients. **NEVER TOUCH THE BLADE ITSELF.** Unplug the unit.

TRAVEL CUP OPERATION

1. Put food ingredients into the travel cup, and then attach blade assembly.
Note: Blade assemblies are interchangeable based on recipes and desired end results.
2. With the base unit on the tabletop and the unit plugged in, place the assembled travel cup onto the base and secure into place. The unit automatically is activated and in Standby mode with the red POWER LED illuminated and flashing.
3. For continuous blending, press the desired speed. The blue LED light will illuminate, indicating that the blender is on and running. It is possible to switch between High and Low speeds by simply pushing the desired speed button.
4. To pause the blending process, press the activated speed button. The blending process will stop. The red Standby indicator light will continue to flash to let you know that the blender is still activated. To reengage the unit, choose the desired speed.
5. When you have finished blending, press activated speed to put in Standby mode. Remove the travel cup from the base. Unplug the unit.
6. Turn cup right side up, turn blade assembly counterclockwise to remove. Attach travel cup lid by twisting clockwise.

CHOPPING CUP OPERATION

1. Put food ingredients into chopper cup filling it to a maximum of one-quarter of its capacity, then attach blade assembly.
Note: Blade assemblies are interchangeable based on recipes and desired end results.
2. With the base unit on the tabletop and the unit plugged in, place the assembled chopper cup onto the base and secure into place. The unit automatically is activated and in Standby mode with the red POWER LED illuminated and flashing.
3. To continuously chop, press High or Low speed.
4. To pulse, press Pulse and then desired High or Low speed.
5. When you have finished chopping, press activated speed to put in Standby mode. Remove the chopping cup from the base. Carefully remove food with a spatula. **NEVER TOUCH THE BLADE ITSELF.** Unplug the unit.

OPERATING AND SAFETY TIPS

- Make sure the electrical outlet is rated at the same voltage as that stated on the bottom of the blender motor base.
- Always use the blender on a clean, sturdy and dry surface.
- Always operate the blender jar with the cover on. Place cover on firmly. Keep the blender jar cover on the blender jar while blending.
- Don't put hands inside the blender jar when blender is plugged in.
- Don't remove blender jar or cups while unit is running.
- **Don't place blade assembly onto motor base without the jar or cup attached.**
- Make sure blade assembly is tightly attached to jar or cups.
- Always remove blade assembly before cleaning.
- **Don't twist blade assembly from blender jar or cups when removing from motor base. Simply lift jar or cups from motor base.**
- Use a rubber or plastic spatula as needed, only when the blender is turned off. Do not use any utensil inside the blender while motor is on.
- Never use metal utensils, as damage may occur to the jar, cup or cutting assembly.
- Don't store food or liquids in your blender jar.
- Don't overload blender jar or cups. If the motor stalls, turn the blender off immediately, unplug the unit and let it cool for at least 15 minutes. Then, remove a portion of the food and continue.
- Don't blend hot liquids or carbonated beverages in chopper and travel cups.
- Don't use any container or accessories not recommended by Cuisinart. Doing so may result in injury.
- To remove jar or cup lift straight up. Do not twist to remove.
- The jar, chopping cup and travel cups are not recommended for microwave use.

CLEANING AND MAINTENANCE

Always unplug your Cuisinart® SmartPower® Portable Compact Blender from the electrical outlet before cleaning. The base and parts are made of corrosion-resistant materials that are easy to clean. Before first use and after every use, clean each part thoroughly. Periodically check all parts before reassembly. **DO NOT USE** if any part is damaged, or if the jar or cups are chipped or cracked.

To remove blade assemblies, twist off by turning counterclockwise.

NEVER TOUCH THE BLADE ITSELF.

CAUTION: Handle the blade assemblies carefully. They are SHARP and may cause injury. DO NOT attempt to remove blades from cutting assembly.

Wash all parts in warm, soapy water; rinse and dry thoroughly. All parts are top rack dishwasher safe.

Tip: You may wish to clean your blending and chopper cutting assemblies as follows: squirt a small amount of dishwashing liquid into blender jar or cups and fill halfway with warm water. Attach blade assembly. Run on Low for 15 seconds. Repeat, using clean tap water. Carefully disassemble parts and empty blender jar or cups. Rinse and dry all parts thoroughly.

Finally, wipe the motor base clean with a damp cloth to remove any residue, and dry thoroughly. Never submerge the motor base in water or other liquids, or place in a dishwasher.

Any other servicing should be performed by an authorized service representative.

TROUBLESHOOTING

Problem:	Solution:
My blender is not turning on or going into Standby mode?	Be sure the blade assembly is on the jar or cup correctly. Be sure it is pushed all the way onto the base. A red light should come on and the unit should be in Standby mode. 1. Plug blender into an independent outlet. 2. Make sure blender is securely plugged in. as stated on page 5. 3. Check the outlet for power; try plugging into a different outlet. 4. Check your home's circuit breaker.
The blender stopped running.	The motor could have overheated. The resettable fuse, which protects the motor due to overloading, may have been tripped. When this happens, to reset the appliance unplug the unit and let it cool for a minimum of 15 minutes. Then, reduce the contents of the blender jar and/or clear any jams. Restart the unit as noted in the operating directions.
The rubber gasket won't come out from the blade assembly for cleaning.	Run under water and tap on the edge of sink upside down to loosen the gasket.
The blade assembly is hard to remove after blending.	The ingredients cause pressure, and with the air tight seal, pressure builds up creating a vacuum or a suction effect. This is normal.
Unit appears to be leaking	1. Check rubber gasket. Make sure it's flush with blender assembly. 2. Make sure rubber gasket is properly in place. 3. Make sure rubber gasket is not damaged.

WARRANTY

LIMITED THREE-YEAR WARRANTY

This warranty is available to consumers only. You are a consumer if you own a Cuisinart® SmartPower® Portable Compact Blender that was purchased at retail for personal, family, or household use. Except as otherwise required under applicable state law, this warranty is not available to retailers or other commercial purchasers or owners. We warrant that your Cuisinart® SmartPower® Portable Compact Blender will be free of defects in material or workmanship under normal home use for three years from the date of original purchase.

We recommend that you visit our website, **www.cuisinart.com** for a fast, efficient way to complete your product registration. However, product registration does not eliminate the need for the consumer to maintain the original proof of purchase in order to obtain the warranty benefits. In the event that you do not have proof of purchase date, the purchase date for purposes of this warranty will be the date of manufacture.

If your blender should prove to be defective within the warranty period, we will repair it or, if we think it necessary, replace it. To obtain warranty service, please call our Consumer Service Center toll-free at 1-800-726-0190 or write to: Cuisinart, 7811 North Glen Harbor Blvd., Glendale, AZ 85307.

To facilitate the speed and accuracy of your return, please enclose \$10.00 for shipping and handling of the product. Be sure to include a return address, daytime phone number, description of the product defect, product serial number (stamped on bottom of product base), and any other information pertinent to the product's return. Please pay by check or money order (California residents need only supply proof of purchase and should call 1-800-726-0190 for shipping instructions).

NOTE: For added protection and secure handling of any Cuisinart product that is being returned, we recommend you use a traceable, insured delivery service. Cuisinart cannot be held responsible for in-transit damage or for packages that are not delivered to us. Lost and/or damaged products are not covered under warranty.

Your Cuisinart® SmartPower® Portable Compact Blender has been manufactured to strict specifications and has been designed for use with the Cuisinart® SmartPower® Portable Compact Blender accessories and replacement parts. These warranties expressly exclude any defects or damages caused by accessories, replacement parts, or repair service other

than those that have been authorized by Cuisinart. These warranties do not cover any damage caused by accident, misuse, shipment, or other than ordinary household use. These warranties exclude all incidental or consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the foregoing limitation may not apply to you.

CALIFORNIA RESIDENTS ONLY:

California law provides that for In-Warranty Service, California residents have the option of returning a nonconforming product (A) to the store where it was purchased or (B) to another retail store which sells Cuisinart products of the same type.

The retail store shall then, at its discretion, either repair the product, refer the consumer to an independent repair facility, replace the product, or refund the purchase price less the amount directly attributable to the consumer's prior usage of the product. If the above two options do not result in the appropriate relief to the consumer, the consumer may then take the product to an independent repair facility if service or repair can be economically accomplished. Cuisinart and not the consumer will be responsible for the reasonable cost of such service, repair, replacement, or refund for nonconforming products under warranty.

California residents may also, according to their preference, return nonconforming products directly to Cuisinart for repair, or if necessary, replacement, by calling our Consumer Service Center toll-free at 1-800-726-0190.

Cuisinart will be responsible for the cost of the repair, replacement, and shipping and handling for such products under warranty.

Purée Carrots for Baby

Making baby food is so simple – isn't it comforting to know exactly what your little one is eating?

Makes about 2 cups purée

1 1/2 pound carrots, peeled and trimmed, cut into 1/2-inch slices

1. Put sliced carrots into a steamer basket and place in a saucepan filled with at least 1 inch of water. Place the pan with a tight-fitting lid over high heat. Once the water comes to a boil, reduce the heat to medium. Steam carrots for at least 45 minutes, until they are completely soft.
2. Put steamed carrots with 1 cup of steaming liquid into the blender jar fitted with the blending blade. Pulse carrots on low 5 times and then run on low for about 45 seconds. Scrape jar down with a spatula and blend for an additional 20 seconds. If a smoother consistency is desired, pulse in 1 tablespoon of cooking liquid at a time to the purée.
3. Allow mixture to cool. Fill ice cube trays or other 1-ounce containers to freeze or serve immediately. Baby food should be consumed within 2 to 3 days if not freezing.

Nutritional information per serving (1-ounce):

Garden Vegetable Sauce

This all-purpose pasta sauce is a great way to get your daily dose of vegetables.

Makes about 3 cups

1 tablespoon extra virgin olive oil

1 small onion, cut into ½-inch pieces

1 carrot, cut into ½-inch pieces

½ cup ½-inch cubed eggplant (not peeled)

1 celery stalk, cut into ½-inch pieces

2 garlic cloves, smashed

½ teaspoon sea or kosher salt, divided

½ teaspoon dried oregano

½ teaspoon dried basil

1 roasted red pepper, cut into 1-inch pieces

¼ cup dry white wine

1 tablespoon tomato paste

1 can (28-ounce) diced tomatoes with their juices

1 pinch freshly ground black pepper

1 tablespoon granulated sugar

1. Put the oil into a large saucepan set over medium heat. Once oil is hot, add the onion, carrot, eggplant, celery, garlic and ¼ teaspoon salt. Sauté ingredients together so that they gently sauté and turn slightly golden.

2. Add the oregano, basil, red pepper and wine. Cook until reduced by at least half. Add the tomato paste, tomatoes, pepper and sugar. Bring to a boil, then reduce heat and simmer for 35 to 40 minutes, loosely covered. Uncover and then simmer for an additional 15 to 20 minutes longer to thicken. Turn off heat and let sit 5 minutes.

3. Strain the solids from the liquids and put ½ cup of the liquid into the blender jar fitted with the blending blade. Add 2 cups of the cooked vegetables. Pulse on High 4 times, and then run on High for 20 seconds. Add an additional ¼ cup of liquid and the remaining vegetables. Pulse on High 3 more times, and then run for about 15 seconds, or until smooth. If you prefer a chunky sauce, do not process – rather, pulse until desired consistency.

Tahini

A vital ingredient to hummus, this sesame paste is very versatile and can be used as a base in salad dressings or sauces.

Makes about ¼ cup

½ cup sesame seeds, lightly toasted and cooled

2 tablespoons extra virgin olive oil

pinch sea salt

1. Put the sesame seeds into the chopping cup fitted with the grinding blade. Pulse 8 to 10 times on High or until finely ground. Add the olive oil and salt and pulse 4 to 5 times on High, and then process for 20 to 30 seconds on Low, or until a paste forms.

2. Store in an airtight container in the refrigerator for up to 3 months.

Nutritional information per serving (1 tablespoon):

Tahini Vinaigrette

This simple dressing is very thick, but if you prefer it thinner just blend in some water until desired consistency is achieved.

3 garlic cloves

1 tablespoon balsamic vinegar

2 tablespoons tahini (see previous recipe)

1 tablespoon fresh lemon juice

¼ teaspoon sea salt

¾ teaspoon freshly ground black pepper

3 tablespoons extra virgin olive oil

1. Put all of the ingredients, except for the olive oil, into the blender jar fitted with the blending blade. Pulse 8 to 10 times on High to chop, and then process until smooth.

2. With the blender running on Low, slowly add the olive oil through the pour lid and the process until fully emulsified, about 30 to 40 seconds.

3. If thinning with water, wait until dressing is fully blended, and then add water, 1 tablespoon at a time.

Café au Lait “Shake”

It's easy to make delicious and thick coffee beverages at home. Plan ahead, as you need to make flavored ice cubes.

Makes about 16 ounces

¾ cup heavy cream or half-and-half
1½ cups strongly brewed coffee, divided
1 tablespoon granulated sugar

1. Mix together the cream and ¾ cup of the coffee and pour into one standard (12 to 14 cube) ice cube tray. Freeze.
2. Put 3* of the frozen cubes into the travel cup with the sugar and the remaining coffee. Fit with the blending blade. Run on High until fully blended, about 20 seconds.
3. Serve immediately. It may be easier to scoop than pour.

*Keep the remaining cream/coffee ice cubes in a resealable plastic bag in the freezer for the next time.

Nutritional information per serving (16 ounces):

Triple Chocolate Shake

The ultimate chocolate lover's milkshake.

Makes about 16 ounces

½ cup reduced-fat chocolate milk (if you do not have chocolate milk on hand, you can substitute regular milk and then add an additional tablespoon of chocolate syrup)
1½ cups premium chocolate ice cream
2 tablespoons chocolate syrup

1. Put all of the ingredients into the travel cup in the order listed. Fit with the blending blade.
2. Run on High for about 30 to 45 seconds, or until homogeneous.
3. Serve immediately.

Creamy Greens Soup

This earthy, nourishing soup is so delicious! Garnish with a dollop of crème fraîche and a sprig of parsley.

Makes about 4 cups

½ tablespoon extra virgin olive oil
1 tablespoon unsalted butter
2 small shallots (about 3 ounces) finely chopped
3 garlic cloves, crushed
1 small leek (about 2 ounces) white part only, sliced
10 ounces kale, hard stems discarded and roughly chopped
1 bunch Italian parsley, stems reserved for other use and roughly chopped
½ teaspoon kosher salt
¼ teaspoon freshly ground black pepper
3 cups vegetable broth
¼ cup heavy cream

1. Put the oil and butter in a large sautépan set over medium heat. Once butter is melted add the shallots, garlic and leek. Sweat ingredients together so that they gently sauté but do not pick up any color.
2. Add the kale, parsley, salt and pepper and stir to coat. Add the vegetable broth and bring to a boil. Cover and reduce heat so that the soup is just simmering. Simmer for about 30 minutes. Add the cream and continue simmering uncovered for an additional 20 to 30 minutes.
3. Separate the solids from the liquids and put the liquids into the blender jar fitted with the blending blade, followed by half of the solids. Run on Low and blend for about 10 seconds. Add the remaining solids and increase to High to thoroughly blend, about 45 seconds. Taste and adjust seasoning accordingly.

Nutritional information per serving (1 cup):

Summertime Cooler

Refreshing and light, a perfect summertime drink.

Makes about 12 ounces

2	tablespoons packed fresh mint leaves
1½	cups 1-inch cubed honeydew and cantaloupe (chilled)
¼	cup raspberries
1½	tablespoons fresh lime juice
2	ounces pineapple juice

- Put all of the ingredients in the order listed into the travel cup. Fit with the blending blade.
- Run on High until smooth, about 15 to 20 seconds.
- Serve immediately. If not consuming out of the travel cup, pour over ice into individual cups.

Super Veggie Juice

Get your veggies for the day to-go in this quick, fresh vegetable juice.

Makes about 16 ounces

¼	cup cherry tomatoes, halved
¼	red pepper, roughly chopped (about ½ cup)
½	celery stalk, cut into ½-inch pieces
½	cup cucumber, peeled, seeded and roughly chopped
2	tablespoons fresh parsley
¾	cup vegetable juice, low-sodium
1½	teaspoons fresh lime juice (from about ½ lime)
1 to 2	dashes hot pepper sauce, or to taste

- Put all of the ingredients, in the order listed, into the travel cup. Fit with the blending blade.
- Run on High until smooth, about 25 to 30 seconds. If a thinner consistency is desired, add additional ice cubes, one at a time, through the removable pour lid.
- Adjust seasonings to taste and serve immediately.

Nutritional information per serving (16 ounces):

 • chol. 0mg • sod. 134mg • calc. 51mg • fiber 4g

Chai Tea

The chopping cup grinds the spices perfectly for this traditional milky tea beverage. While it is delicious hot, use our recipe for a tasty iced version.

Makes about 16 ounces

½	teaspoon whole black peppercorns
¼	teaspoon whole cloves
1	whole cinnamon stick
1	star anise pod
2½	cups half-and-half (for a non-dairy version, use soy milk)
¾	cup water
½	teaspoon pure vanilla extract
1	½ x ½-inch piece of fresh ginger, peeled
¼	teaspoon orange zest
6	black tea bags (Darjeeling or Ceylon is recommended)
2	tablespoons honey

- Put the peppercorns, cloves, cinnamon stick and star anise into the chopping cup fitted with the grinding blade. Pulse 2 to 3 times to chop on High, and then process on High until finely ground, about 45 seconds. Reserve.
- In a small saucepan set over medium-low heat, bring the half-and-half, water, vanilla and ground spices to a boil. Once mixture comes to a boil, stir in the ginger and orange zest. Let mixture simmer 10 to 15 minutes. Add the tea and let simmer 5 to 6 minutes. Strain the mixture, squeezing all of the liquid out of the tea bags, and then stir the honey into the strained liquid. If serving as a hot tea, serve immediately.
- If serving the chai as an iced beverage, first bring the tea to room temperature. Stir to combine and then fill (12 to 14 cube) ice cube tray with the chai. Reserve the remaining chai (about ¾ cup) in the refrigerator until chai ice cubes are frozen (at least four hours, or overnight).
- Once chai ice cubes are frozen, put half of them into the travel cup and then add the reserved chai. Fit with the blending blade. Run on High for about 25 to 30 seconds, or until homogeneous. Serve immediately.

*Keep the remaining chai ice cubes in a resealable plastic bag in the freezer for the next time.

Immune Support Smoothie

When you're feeling run-down, this smoothie is a great pick-me-up!

Makes about 16 ounces

1/4	cup frozen strawberries
1/4	cup frozen blackberries
1/3	cup mango, cut into 1-inch pieces
1/4	cup seedless grapes (red or green)
1/3	cup papaya (cut into 1/2-inch pieces)
1	kiwi, cut into 4 pieces
1/2	tablespoon wheat germ
1/2	tablespoon flax seed oil
1/2	cup pomegranate juice
1.	Put ingredients into the travel cup in order listed. Fit with the blending blade.
2.	Run on High until smooth, about 20 seconds.
3.	Serve immediately.

Nutritional information per serving (16 ounces):

Tropical Vitamin C Smoothie

A delicious way to get your daily vitamin C.

Makes about 16 ounces

1/2	cup frozen strawberries
1/2	cup frozen mango
1/2	cup 1-inch cubed papaya (about 1/4 large papaya)
1/2	cup fresh strawberries, hulled and halved
1/2	cup orange juice
1.	Put ingredients into the travel cup in order listed. Fit with the blending blade.
2.	Run on High until smooth, about 30 seconds.
3.	Serve immediately.

Power Blast Protein Smoothie

Nuts give your smoothie added protein.

Makes about 16 ounces

2	tablespoons raw nuts
1/4	cup frozen peaches
1/4	cup frozen blueberries
1	banana, quartered
2	tablespoons protein powder
2	tablespoons honey (optional)
3/4	cup soy, almond or hemp milk (cow's milk may also be used)
1/2	cup plain or vanilla yogurt
1.	Put nuts into the chopping cup fitted with the grinding blade. Run on High for 15 seconds to finely grind. Reserve.
2.	Put remaining ingredients into the travel cup and top with the ground nuts.
3.	Run on High until smooth, about 25 to 30 seconds.
4.	Serve immediately.

Super Antioxidant Smoothie

Berries are the ultimate antioxidant ingredients!

Makes about 16 ounces

1	tablespoon flax seed
1 1/2	cups mixed frozen berries
1/2	banana, cut into 1-inch pieces
1	cup pomegranate juice
1.	Put flax seeds into the chopping cup fitted with the grinding blade. Run on High for 15 to 20 seconds to finely grind. Reserve.
2.	Put remaining ingredients, in the order listed, into the travel cup, and then add the ground flax seeds. Fit with the blending blade.
3.	Run on High until smooth, about 30 seconds.
4.	Serve immediately.

Nutritional information per serving (1 cup):

ALL THE FOLLOWING DRINK RECIPES CAN EASILY BE DOUBLED AND PREPARED IN THE BLENDER JAR.

Breakfast Shake for the Road

Nutrition in a cup! Make this smoothie in the morning for breakfast on the road.

Makes about 16 ounces

1	1	tablespoon flax seeds
3	3	frozen strawberries
½	½	banana, broken into 3 pieces
½	½	cup blueberries
¾	¾	cup lowfat vanilla yogurt
½	½	cup orange peach mango juice

1. Put flax seeds into the chopping cup fitted with the grinding blade. Run on High for 15 to 20 seconds to finely grind. Reserve.
2. Put remaining ingredients, in order listed, into the travel cup and top with the ground flax seeds. Fit with the blending blade.
3. Run on High until smooth, about 20 to 25 seconds.
4. Serve immediately.

Nutritional information per serving (16 ounces):

Calories 349 (12% from fat) • carb. 68g • pro. 11g • fat 5g • sat. fat 1g • chol. 11mg • sod. 121mg • calc. 304mg • fiber 6g

Berry Cherry Smoothie

This kid-friendly smoothie is a vitamin-packed way to start the day.

Makes about 14 ounces

1	1	cup frozen cherries
1	1	banana, quartered
½	½	cup fresh strawberries, hulled and halved
¼	¼	cup orange juice
¼	¼	cup plain yogurt
1	1	tablespoon honey (optional)

1. Put ingredients into the travel cup in order listed. Fit with the blending blade.
2. Run on High until smooth, about 25 seconds.
3. Serve immediately.

Nutritional information per serving (14 ounces):
Calories 274 (9% from fat) • carb. 62g • pro. 6g • fat 3g • sat. fat 1g • chol. 8mg • sod. 39mg • calc. 141mg • fiber 6g

It should take no more than 1½ minutes to achieve a butter. This method works for all nuts from almonds to pecans to peanuts.

- To make baby food, process 1 cup of very soft steamed vegetables with 1 to 3 tablespoons of the steaming liquid. The amount of liquid depends on the type of vegetable that you are processing. For example, denser vegetable like a carrot requires about 3 tablespoons, while a softer vegetable like broccoli requires only 1 tablespoon. Always run on Low. Always allow baby food to cool.
- To process soft fruits for baby food, again use 1 cup at a time. No water is needed with most fruits, but if you are having trouble processing, add a teaspoon of water at a time.
- The chopping cup with the grinding blade provides you with the perfect tool for grinding nuts and seeds for many different applications. Grind flax seeds or almonds and put them into the travel cup with your smoothie ingredients for added protein. See our recipes for some guidelines.

- After chopping/blending, flip the chopping cup over so that the blade assembly is on the top. Gently tap the cup on the counter a few times to prevent any spillage. Either use the food right away or cover with the provided storage lid to use at another time.

BLENDER JAR – TIPS AND HINTS

- Add liquid ingredients first, then follow with solid ingredients. This will provide more consistent blending and prevent unnecessary stress on the motor.
- It is recommended that most foods be cut into ½ to 1-inch pieces to achieve the most uniform result.
- For best results in the fastest time, pulse a few times before running continuously. Pulses should be short bursts with about 1 second in between each one to allow the blade to stop rotating between pulses.
- If you want to add ingredients during the blending process, remove the pour lid and drop or pour ingredients through the opening at the top.
- To crush ice, put no more than 1 tray of standard ice cubes (12 to 14 cubes) into the blender jar at one time. Pulse on High until uniformly crushed.
- When making hot soups, add a small amount of the hot liquid to the blender jar first, and then follow with some of the solids. Pulse ingredients and then run on Low. You can always thin it out more by carefully adding liquid through the opening at the top of the cover.
- If food sticks to the sides of the jar when blending, stop the blender, carefully scrape down the food, replace cover and pulse in short bursts to combine.
- When blending thicker mixtures, lightly hold down top of blender jar to prevent jumping.
- Do not attempt to mash white potatoes or knead bread dough in the blender.

TRAVEL CUPS – TIPS AND HINTS

- When using the travel cup, ingredients are put in the reverse order of the blender jar. Always put the hardest ingredients into softer ingredients and liquids.
- It is recommended that most foods be cut into ½-inch to 1-inch pieces to achieve the most uniform result.
- For best results in the fastest time, pulse a few times before running continuously. Pulses should be short bursts with about 1 second in between each one to allow the blade to stop rotating between pulses.
- Results are usually achieved in seconds rather than minutes, so keep a close eye on the foods to prevent over-processing.
- When grinding nuts, use quick pulses on High. Pulse to achieve chopped nuts.
- To make nut butters, we recommend using no more than ½ cup of nuts. Always pulse on High first, remove cup from base and lightly tap to knock the food down from the side walls of the cup. Return to base and process on Low, scraping down as necessary if the nuts are not being brought into the blade.

CHOPPING CUP – TIPS AND HINTS

- 1 second in between each one to allow the blade to stop rotating between pulses.
- To crush ice, put as many as 6 ice cubes into the travel cup at one time. Pulse on High until uniformly crushed.
- If food sticks to the sides of the cup when blending, stop the blender, carefully scrape down the food, replace cover and pulse in short bursts to combine.
- When blending thicker mixtures, lightly hold down top of travel cup to prevent jumping.
- After blending, flip the travel cup over so that the blade assembly is on the top. Gently tap the cup on the counter a few times to prevent any spillage. Remove the blade assembly and replace with one of the provided lids.
- All beverage recipes in the booklet are portioned for the travel cup. If you wish to make more servings, simply double the recipe and prepare in the blender jar. Be sure to reverse the order of ingredients when doing so.
- It is recommended that most foods be cut into ½ to 1-inch pieces to achieve a more uniform result.
- Do not overload the cup; you will get inconsistent results and possibly harm the motor or blade. Please refer to the food chart on page 2 for maximum amounts.
- Due to the powerful motor in the unit, it is recommended to lightly hold down the top of the chopping cup with one hand during use.
- For best results in the fastest time, pulse a few times before running continuously. Pulses should be short bursts with about 1 second in between each one to allow the blade to stop rotating between pulses.
- Results are usually achieved in seconds rather than minutes, so keep a close eye on the foods to prevent over-processing.
- When grinding nuts, use quick pulses on High. Pulse to achieve chopped nuts.
- To make nut butters, we recommend using no more than ½ cup of nuts. Always pulse on High first, remove cup from base and lightly tap to knock the food down from the side walls of the cup. Return to base and process on Low, scraping down as necessary if the nuts are not being brought into the blade.

QUICK REFERENCE GUIDES

You'll find many easy ways to prepare savory, healthful drinks, sauces and more with your Cuisinart® SmartPower® Compact Portable Blending/Chopping System. The simple recipes that follow include some old Cuisinart favorites as well as some creative combinations that are sure to please your friends and family.

QUICK REFERENCE GUIDE – FOOD AND DRINK CHART

Food	Blade	Vessel	Instruction
Baby Food (cooked vegetables)	Blending	Chopping Cup or Blender Jar	Using VERTM soft, cooled steamed vegetables and 1 to 3 tablespoons of steaming liquid; run on Low until smooth.
Baby Food (raw fruits)	Blending	Chopping Cup, Travel Cup or Blender Jar	Pulse on High and then run on Low until smooth.
Bread Crumbs	Blending	Chopping Cup or Blender Jar	Pulse and then run on High. One slice for chopping cup; two slices for travel cup; three slices for blender jar.
Chopping Citrus	Blending	Chopping Cup	Run on High with a small amount (1 to 2 pinches) of sugar. Maximum three 1-inch pieces of citrus peel.
Cookie Crumbs	Blending	Blender Jar	Pulse on High. Use ¾ cup of 1-inch cookie pieces (2 ounces) maximum.
Frozen Cocktails	Blending	Blender Jar	Run on High.
Garlic	Blending	Chopping Cup	Run on High.
Graham Cracker Crumbs	Blending	Chopping Cup, Travel Cup or Blender Jar	Pulse on High. Two full sheets for chopping or travel cup; four full sheets for blender jar.
Hard Cheeses	Grinding	Chopping Cup	Pulse 3 to 4 times to desired end result. Maximum 2 ounces (½-inch cubes).
Ice	Blending	Travel Cup or Blender Jar	Pulse on High.
Nuts (butters)	Grinding	Chopping Cup	3 to 6 quick pulses on High to break up, then run on Low until desired consistency, scraping down cup as needed. ¼ cup maximum.
Nuts (chopped)	Grinding	Chopping Cup	Quick pulse on High until desired consistency. No more than ¼ cup maximum.
Salad Dressings	Blending	Travel Cup or Blender Jar	Run on Low.
Seeds	Grinding	Chopping Cup	Pulse on High.
Smoothies/Shakes/Health Drinks	Blending	Travel Cup or Blender Jar	Run on High.
Soups	Blending	Blender Jar	Run on Low.
Spices	Grinding	Chopping Cup	Quick pulses on High to break up, then run on High.
Whipped Cream	Blending	Travel Cup or Blender Jar	Run on Low, 15 to 30 seconds. Half cup maximum.
